

Rapid Response Teams Managers Training Package

Our Goal

Member States empowered to reinforce the capacities and skills of their Rapid Response Teams (RRTs) to early detect and rapidly respond to epidemics and other public health events at national and sub-national levels.

What is the RRT MTP?

The RRT Managers Training Package (RRT MTP) aims to equip RRT managers with advanced knowledge, skills, abilities, and tools they need to ensure that RRTs are effectively established, run, and maintained during preparedness phase, and operational according to set procedures during response phase.

For whom?

Current and future managers having the responsibility to oversee RRTs, usually located at the Public Health Emergency Operations Center (PHEOC) or equivalent structure.

What's in it for me?

Combined delivery modes:

RRT Managers Online Course: 8 short interactive online modules

On-the-job assignments: compile existing national RRT guidelines, plans, SOPs

Virtual consultation: adapt F2F workshop to country context and needs

RRT Managers face-to-face workshop: develop country-tailored SOPs for RRT management

RRT Management Toolbox: RRT guidance and template SOPs, KPIs and evaluation tools

Content:

- ▶ Establishing and managing RRTs
- ▶ RRT management in preparedness phase
- ▶ RRT management in response phase
- ▶ Monitoring and evaluation of RRT performance
- ▶ Administrative and financial management of RRTs
- ▶ RRT equipment and logistics
- ▶ RRT Standard Operational Procedures
- ▶ Responder wellbeing and ethics
- ▶ Rapid response management and soft skills

Languages

The RRT MTP is available in English and French. Other UN languages may be available in the near future.
