On behalf of the municipality of Trondheim I hereby confirm our commitment to become a member of The WHO Global Network of Age-friendly Cities and Communities and in the process become a truly age-friendly city.

In our planning and application process to become a member we have familiarized ourselves with and agree with the values and principles of the WHO European policy framework Health 2020, the Strategy and action plan on health ageing in Europe, 2012-2020 and the WHO Age-friendly Cities approach. It is our intention to implement age-friendly initiatives in our short- and long term policies in accordance with the areas identified by the Age-friendly Cities project.

We look forward to sharing information and experiences with the other members in the Global Network. We have identified contact persons within our administration who will follow up the commitments of the membership.

Sincerely yours

Rita Ottervik
Mayor of Trondheim
