MAYOR'S MESSAGE

We at the City of Brampton are proud to be celebrating the completion of our first Age-Friendly Strategy and Action Plan. This plan has been endorsed by City Council and represents a major milestone in moving us toward being recognized as an Age-Friendly Community by the World Health Organization.

This strategy aims to make Brampton a community that meets the needs of residents of every age and ability. It aligns closely with this Council's priorities for 2019-2022, which include embedding diversity and inclusion in everything we do, and is also an important contributor to Vision #5 of the Brampton 2040 Vision, which deals with social matters and housing.

Brampton is one of the youngest big cities in Canada, and it also has a rapidly growing older population. In such a diverse community, it's important for people of all ages to be involved in making this a better place to live. Let's keep working together to make it happen.

Mayor Patrick Brown

ACKNOWLEDGEMENTS

The City of Brampton wishes to acknowledge and thank the following:

Age-Friendly Working Group

Daniella Balasal (Project Lead) - Policy Planner, Policy Planning
 Nelson Cadete - Project Manager, Active Transportation
 Doug Rieger - Senior Manager, Service Development, Transit
 Matthew Volpintesta - Park Planner, Park Planning & Development
 Yvonne Sinniah - Manager, Strategic Community Development and Partnerships, Recreation
 Kelly Brooks - Senior Advisor, Strategic Communications
 Lowell Rubin Vaughan - Manager, Government Relations
 Pam Cooper - Manager, Land Use Policy
 Bob Bjerke - Director, Policy Planning
 Victoria Mountain - Manager, Culture (Economic Development)
 Henrik Zbogar - Senior Manager, Transportation Planning
 Dalia Bahy - Urban Designer, Strategic Initiatives
 Wendy Goss - Accessibility Coordinator, Clerk's Office
 Jake Mete - Supervisor, Parks Projects and Community Development
 Tristan Costa - Planner, 2040 Vision

Support Staff

Mirella Palermo - Planner, Planning and Development Services
 Bindu Shah - Planner, Planning and Development Services
 Shahinaz Eshesh - Assistant Planner, Planning and Development Services

Sheridan College

Thank you to the students and faculty from the Social Service Worker – Gerontology program at Sheridan College, who provided volunteer support at the Age-Friendly Forum.

Age-Friendly Advisory Committee Members:

Doug Whillans - City Councillor
 Jeff Bowman - City Councillor
 Charmaine Williams - City Councillor
 Shabnam (Shey) Chhibber - Senior
 Ron Feniak - Senior
 Frank Lodhar - Senior
 Riyadh Baksh - Youth
 Jayne Culbert - Manager, PEAPN (Co-Chair)
 Vidhi Bhatt - Brampton Multicultural Youth Council
 Peter Howarth - CARP
 Myrna Adams - Brampton Seniors Council
 Bob Pesant - Member, Inclusion and Equity Committee
 Sandra Fitzpatrick - Manager, Region of Peel Public Health
 Jennifer McLaughlin - Manager, Region of Peel Housing
 Jennifer Turner - United Way
 Professor Alexa Roggeveen - Sheridan College, Social Service Worker, Gerontology
 Azhar Ali - Sheridan College, Student Union

Past Members:

Martin Medeiros - Regional Councillor
 Gurpreet Dhillon - City Councillor
 Joyce Temple-Smith - Senior
 Mansimran Anand - Youth (Co-Chair)
 Fatima Barron - Youth
 Alisha Deen - Youth
 Wasif Butt - Brampton Multicultural Youth Council
 Sean Keddy - United Way of Peel
 Linda Nasato - Brampton Seniors Council
 Sue Ritchie - Manager, Region of Peel Housing
 Yadwinder Singh - Sheridan College, Student Union

1- INTRODUCTION

WHY AN AGE-FRIENDLY BRAMPTON?

Brampton is a growing, vibrant, and diverse municipality, with a relatively young population and a rapidly growing older population.

Given shifting demographic trends, the City is working to become a leader in age-friendliness by ensuring that Brampton residents can age in place. With access to necessary services and information; feeling valued and able to contribute to civic life; accessing indoor and outdoor environments that are safe and barrier free; opportunity to move throughout the city and beyond; and participating in social and cultural events, residents can enjoy a great quality of life.

This Age-Friendly Strategy and Action Plan, referred to herein as the “Plan”, was developed with extensive community engagement. It is a Plan that is made for the Brampton community to endorse, champion, and be excited about as the community and the City, together, can achieve the World Health Organization’s (WHO’s) Age-Friendly Communities designation.

The Plan has been developed based on best practices in age-friendly planning, a range of background research, and extensive input from community members throughout the Plan development and public engagement process. This information and knowledge forms the basis for the specific recommendations and actions to be taken to achieve Brampton’s age-friendly vision and goals.

Aging Demographics

The world is experiencing a significant demographic shift, with the number of individuals over 60 years of age growing faster than any other age group.¹

The demographic shift is present in many Canadian cities. In 2016, Brampton's population was 593,638 – an increase of 36.8% from 2006.² The proportion of the City's population aged 60 and over has increased to 16%, from 14% in 2011. The rate of growth in the city's seniors' population is much greater than in any of Canada's other 10 largest cities. By 2041, it is anticipated that 1 in 5 people will be seniors.³ In 2016, the youth population (i.e., ages 10 to 29) was 28% of the total population.⁴

Towards an Age-Friendly Brampton

The City of Brampton recognizes the challenges and opportunities associated with an aging population. Municipal initiatives are already in progress to ensure that age-friendly structures and programs are in place. Regional Official Plan Amendment (ROPA) 27 (February 2017) to the Region of Peel's Official Plan directs the Region's lower-tier municipalities, including Brampton, to plan for age-friendliness. This Age-Friendly Strategy and Action Plan aligns with the City's 2040 Vision and supports Vision 4: Transportation and Connectivity, and Vision 5: Social Matters and Housing.

The 2040 Vision is the City's long term goal and aspiration, and the Term of Council Priorities are the steps to move the city towards that over the next four years. This Plan continues that momentum and builds on the City's planning initiatives and programs, towards the goal of achieving the WHO's designation of an age-friendly city.

This Plan was developed with tremendous input from Brampton's culturally and demographically diverse community, and followed the Ontario Ministry of Seniors and Accessibility (MSA) process described on page 6. It will inform the continued development of age-friendly policies for Brampton and guide the implementation of Brampton's Age-Friendly Objectives, as expressed in the Regional Official Plan, Vision 2040 and the Term of Council Priorities. As a first step in developing this Plan, a Baseline Assessment was completed in September 2018 and is available under separate cover. It provides insight into the City's current age-friendly practices and opportunities for improvement.

In addition, the community engagement process and findings are documented in the Community Engagement and Findings Report, March 2019, which is also available under separate cover. The valuable input received from community members was used to develop a guiding Vision statement and a series of supporting goals which form the foundation for this Plan and the specific actions identified for implementation. The community members who contributed to this Plan's development are its champions.

What is an Age-Friendly Community?

An age-friendly community is one that encourages and enables active aging as a way to enhance or maintain quality of life for older adults. Active aging refers to the capacity for people to continue to participate fully in their communities at all stages of life. It is influenced by economic, social, and physical factors.

At its core, an age-friendly community is one that ensures aging residents at all levels of ability are supported, respected and encouraged to participate in community life.

Looking through an age-friendly lens to consider existing community assets and opportunities for tangible improvements will allow the City of Brampton to make informed decisions regarding all aspects of the community, including land development, transportation planning, parks and open space, and social services, ensuring that community investments reflect the actual needs of residents and are implemented as needed.

World Health Organization

“An age-friendly community encourages active aging by optimizing opportunities for health, participation and security to enhance quality of life as people age.”

In an Age-Friendly Community...

- Public buildings have accessible entryways including push-button accesses and level surfaces.
- Residents of all ages have strong social networks and can participate in a variety of affordable and inclusive community programs.
- A range of affordable transportation options is available to residents, such as a network of trusted volunteer drivers or a safe and efficient public transit system.
- Brampton residents have access to a range of affordable health, community support and home care services.

The City of Brampton is committed to advancing public and policy goals and actions that align with the WHO's eight dimensions of an age-friendly community (shown on page 4), in an effort to be a leader in age-friendly community building and apply the “8 to 80” approach. The actions identified in this Plan support each of the eight community dimensions.

Age-Friendly Assessment Framework

The WHO launched its Global Age-Friendly Cities Framework (“the Framework”) in response to changing demographics, and to assist communities in creating and enhancing livable environments for residents of all ages and abilities. The Framework is intended to encourage municipalities to examine their community with an age-friendly lens to uncover areas of opportunity and potential improvements. The Framework highlights eight interconnected community dimensions that influence active aging. These elements are illustrated in Figure 1 and described in Figure 2.

Figure 1: Eight Dimensions of an Age-Friendly Community

Figure 2: Summary of Age-Friendly Community Dimensions

Outdoor Spaces and Buildings

The condition, quality and design of the physical environment including parks, sidewalks and buildings, have a significant influence on the mobility, independence and quality of life of all residents.

Transportation

As people age, there is a tendency to drive less and to rely more on alternative modes of transportation such as transit, for-hire rides and, in the future, autonomous vehicles. The availability of accessible transportation options and different fare structures for different demographics aids in the ability of residents to participate in the community and increases access to community and health services.

Housing

Appropriate housing structure, location, design and a wide variety of available housing choices can have a significant impact on the independence of residents, including youth and seniors. Appropriate housing can allow people to age in place comfortably within the community.

Social Participation

The ability and opportunity to actively participate in social, cultural and recreational pursuits has a positive influence on the physical and mental well-being of all residents.

Communication & Information

Access to and the wide distribution of clear, relevant information is essential for aging residents to be able to maintain strong social ties and community connections.

Respect & Social Inclusion

Aging residents should continue to be respected for their roles and contributions to the community. The provision of outreach to aging residents and opportunities to participate in community life can help to mitigate isolation.

Civic Participation & Employment

Aging residents offer a variety of skills, knowledge and experiences that can provide benefits to the community. Residents, regardless of age, should be able to contribute to their communities through paid and unpaid employment for as long as they would like to or are able to do so.

Community Support & Health Services

In order to age in place, the community should offer sufficient good quality and accessible healthcare and community programs and services. Doing this will allow residents in the community to receive appropriate care.

How Brampton Developed its Age-Friendly Strategy and Action Plan

The development of the Plan has followed the process developed by the Ontario Ministry of Seniors and Accessibility, entitled “Finding the Right Fit: Age-Friendly Community Planning” (2013). The full process involves four steps in two phases, as described below and illustrated in Figure 3:

PHASE 1

- Step 1 – Define Local Age-Friendly Principles
- Step 2 – Assess Community Needs

PHASE 2

- Step 3 – Develop an Action Plan
- Step 4 – Implement/Evaluate the Action Plan

This Plan fulfills Step 3 in the process. Following Council adoption, the implementation of this Plan is Step 4.

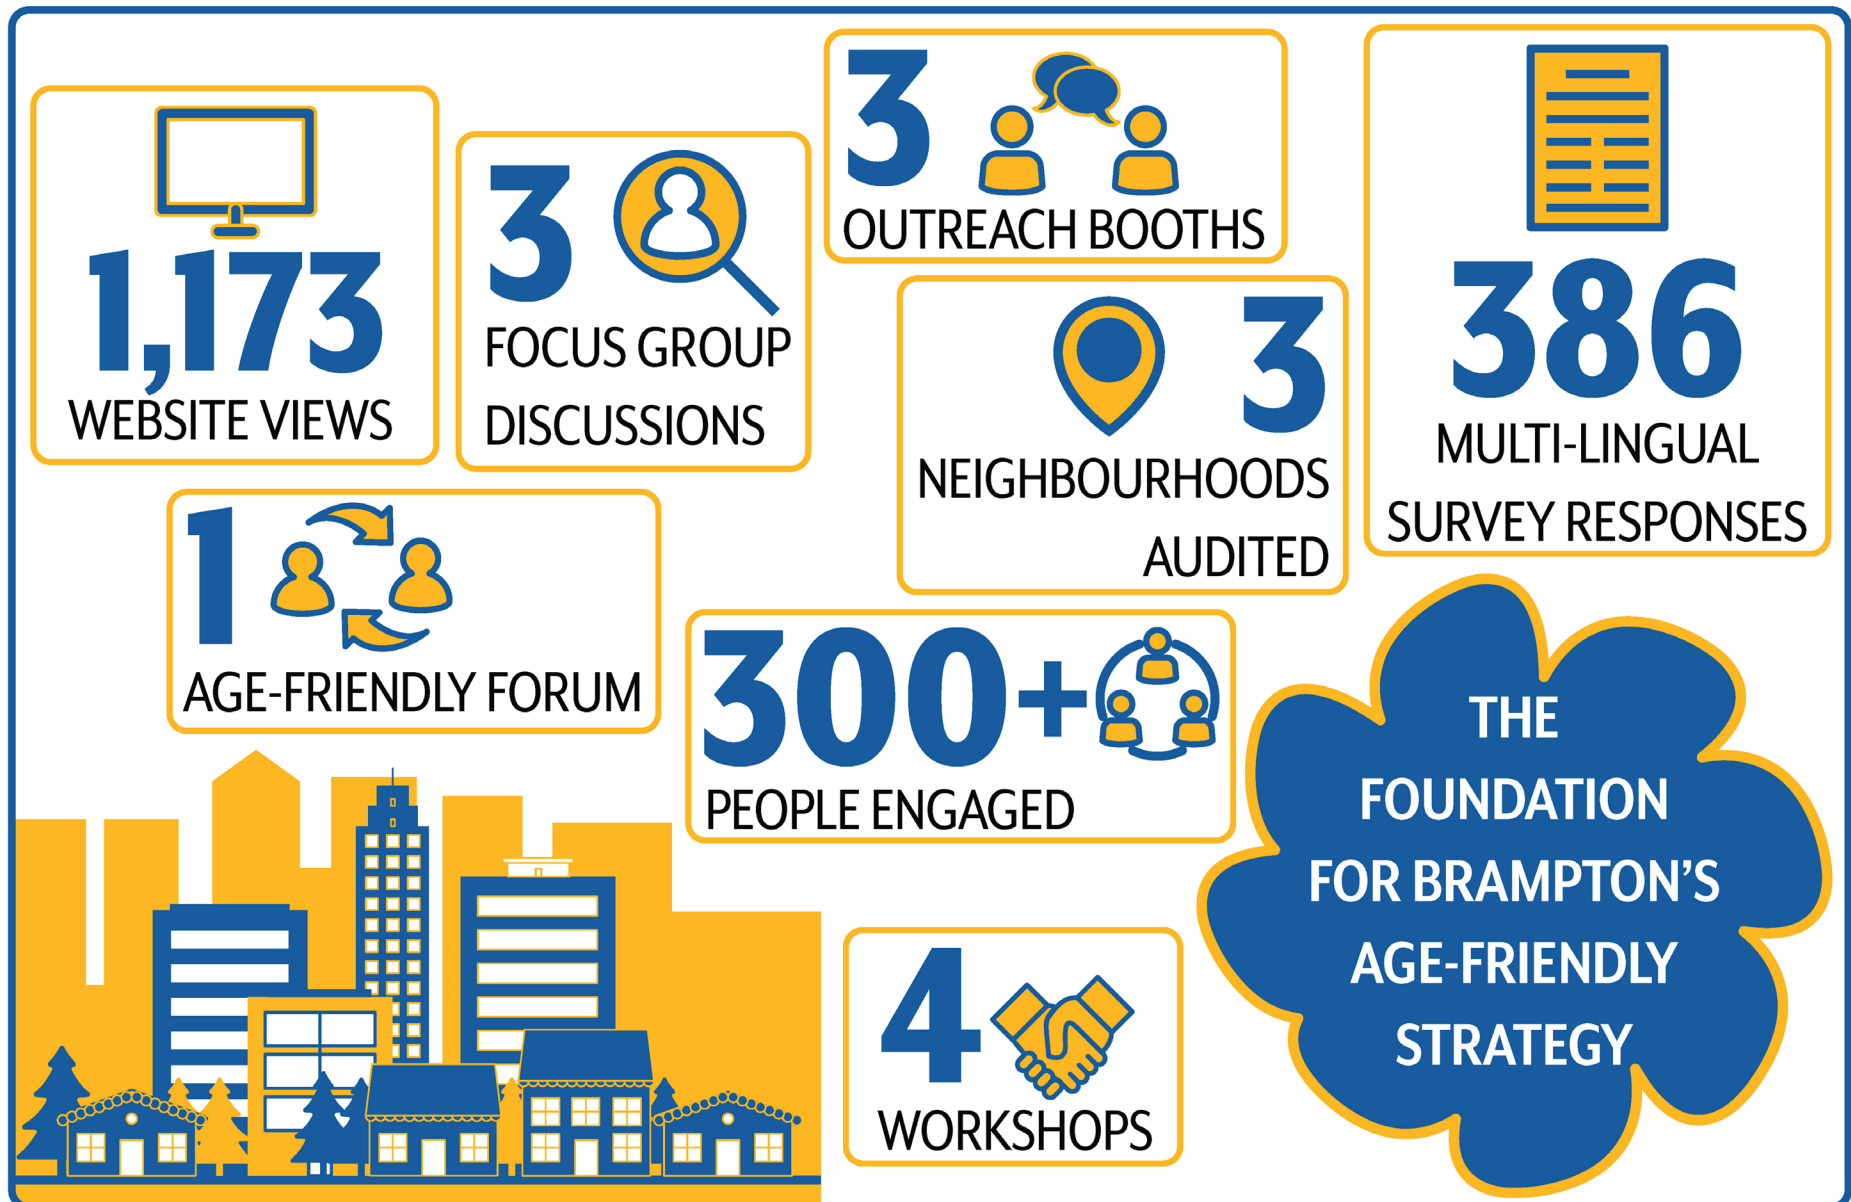

Figure 3: Ministry of Seniors and Accessibility Age-Friendly Planning Process

There were a number of engagement activities throughout the Project, including:

2- VISION AND GOALS

VISION

A Vision Statement describes an ideal state or purpose which a community can work together to achieve. It is an important element of age-friendly planning, as it identifies community priorities and helps set the overall direction for the Plan.

Based on community feedback, the Vision Statement for the Plan is as follows:

Brampton will be an age-friendly community that meets the needs of all ages and abilities.

GOALS

The Vision Statement is implemented through overarching goals, many of which have been founded in existing City policies from various documents as summarized in the Baseline Assessment Report (September 2018). These policies have been strengthened by community feedback from the engagement events as described in Section 1.

The following goals are tangible and will be supported by specific actions as identified in Section 4. Each action will be evaluated through performance indicators to determine whether a particular goal has been met. As goals are fulfilled, Brampton would move closer to becoming an age-friendly city.

Table 1: Goals

GOALS	COMMUNITY DIMENSION
<p>1</p> <p>Include residents of all ages, abilities and cultural backgrounds in City initiatives and events.</p>	  
<p>2</p> <p>Provide affordable and accessible housing, along with a range of housing types and tenures.</p>	
<p>3</p> <p>Effectively communicate information using a variety of methods.</p>	   
<p>4</p> <p>Assess and improve routes, connections and transit stops as the City grows.</p>	 

GOALS	COMMUNITY DIMENSION
<p>5 Youth will be recognized and supported in the community through opportunities for social interaction, civic engagement, volunteering and employment.</p>	   
<p>6 Inter-generational opportunities will be created in the community, such as programs or events for youth and seniors to share knowledge.</p>	   
<p>7 Develop vibrant Community/Social Hubs with a variety of activities, events, volunteer and employment opportunities for social participation by all ages.</p>	  
<p>8 Design complete and compact neighbourhoods, parks, and streets that create opportunities for social interaction and interconnectivity of neighbourhoods to a variety of uses.</p>	  

3- COMMUNITY DIMENSIONS

This Plan is structured according to the WHO's eight dimensions of age-friendly communities: Outdoor Spaces and Buildings; Transportation; Housing; Social Participation; Respect and Social Inclusion; Communication and Information; Civic Participation and Employment; and Community Support and Health Services.

A range of questions were considered in assessing each dimension. While many positive comments were received, there were some challenges identified.

OUTDOOR SPACES AND BUILDINGS

The design, condition and quality of the outdoor environment and public buildings can have a significant impact on the mobility, independence and quality of life of seniors.

Safe, accessible and well-maintained public spaces and buildings have a positive influence on residents' health and quality of life, by making it easier to move freely around the city to access services and take part in community activities.

A range of questions were considered in assessing this dimension, including the following:

- Are sidewalks and pathways in Brampton well maintained and free of obstructions?
- Are there enough appropriately marked pedestrian crossings?
- Do buildings have ramps, automatic doors, benches and accessible washrooms?

CURRENT CHALLENGES

- Public washrooms are insufficient in number and not clean.
- Need more outdoor seating.
- Parks are well kept, but public spaces are not clean and maintained.
- Sidewalks are not wide enough, streets are not pedestrian friendly.
- City is designed for cars, not pedestrians.
- Consider colour contrast on outdoor infrastructure, such as trash bins.
- Make streets more walkable and improve safety of pedestrian crossings.

TRANSPORTATION

The availability and accessibility of transportation has a major impact on youth and older residents' social participation and access to health and community services.

Affordable, accessible and safe transportation, including public transit, permits residents of all ages and abilities to take part in community life.

A range of questions were considered in assessing this dimension, including the following:

- Are all areas of Brampton served by the transportation system?
- Are transportation stops and pick-up/drop-off points safe and clearly marked?
- Is transportation service affordable, and does it operate on time?
- Is priority seating available for seniors?

CURRENT CHALLENGES

- Transit system is frequent and reliable, but lacks routes to seniors' centres.
- Not all transit routes have clear and proper connections or connections to other systems, such as GO Transit bus and rail.
- Door-to-door seniors' transit system is limited due to the existence of a good public transit system.
- Transit is discounted for seniors, but it should be free.
- Need better transportation options for students from an affordability perspective, and frequency of transit service levels.
- Taxi cabs are expensive and not accessible. There is an interest in considering Uber or other ride share options.
- Bus shelters are not clean.

HOUSING

The Region of Peel is the social and affordable housing manager for Brampton.

The availability of appropriate housing can have a major impact on the quality of life of older residents and the opportunity for them to age in place within their communities.

Access to safe, affordable and accessible housing is critical to the well-being of all residents. As residents' housing needs can change over time, it is important that a range of housing choices and support services be provided throughout the city,

to allow people to live independently for as long as possible and remain part of their communities as they age.

A range of questions were considered in assessing this dimension, including the following:

- Is enough accessible and supported housing available to meet the needs of older residents?
- Are housing options in Brampton well-located with respect to community services and other destinations?
- Are home maintenance services available to help people stay in their homes?

CURRENT CHALLENGES

- Housing and home modifications are not affordable.
- There are not enough smaller units.
- Affordable housing wait lists are very long and favour families.
- Need more diverse housing options. There is too much of the same within the city.
- There is a misconception that South Asian seniors want to live in multi-generational housing. In many cases, they do not have a choice due to lack of access, cost and long waiting lists.
- Housing is not located near amenities, leading to social isolation and a loss of independence.

SOCIAL PARTICIPATION

Opportunities for social participation and support are crucial for health and well-being at all stages of life.

Social participation includes getting involved in social, recreational, cultural and spiritual pursuits. It benefits both individuals and the community at large, by allowing older people to exercise competence and enjoy respect and supportive relationships.

A range of questions were considered in assessing this dimension, including the following:

- Are activity venues conveniently located and accessible?
- Are activities affordable and appealing to a diverse population?
- Is good information provided on events and activities?
- Is there outreach to people at risk of social isolation?

CURRENT CHALLENGES

- Social activities and events are generally affordable, but they should be free for seniors.
- Social opportunities for seniors are centralized at Flower City Seniors Centre, but there is a lack of seniors centres across the whole of the city (east side in particular).
- Community centres are not programmed in a manner that is friendly for seniors. Seniors need their own dedicated spaces year-round.
- Make better use of community centres, libraries and places of worship for social events.
- Newcomers deal with a language barrier and may not be aware of programs.
- Older adults from the South Asian community are not included in social events and tend to keep to themselves.

RESPECT AND SOCIAL INCLUSION

Respect for the roles and community contributions of residents of all ages and abilities can help reduce isolation and improve the well-being of seniors.

Fostering awareness of the needs and contributions of older people and youth throughout the community can help them be treated with greater respect and help them participate more fully in community life.

A range of questions were considered in assessing this dimension, including the following:

- Are older people recognized for both their past and present contributions?
- Are service staff courteous and able to accommodate age-specific needs and preferences?
- Do schools promote interaction and respect between children and older people?

CURRENT CHALLENGES

- Brampton is very diverse, but that isn't represented in external media.
- All communications should be translated into dominant languages in the city.
- Find ways to integrate seniors from different cultural backgrounds.
- There are no opportunities for older adults to interact with students or to impart their knowledge and experience to the younger generation.
- Consultation tends to favour seniors and not students. We must find a way to engage younger generations in a manner that matters to them.
- Media portrays old people as vulnerable. The City should try to break this stereotype with age-friendly media and communications.

COMMUNICATION AND INFORMATION

Access to clear, relevant information is crucial for residents of all ages and abilities to maintain their health, quality of life and community connections.

Through proper communication of programs, services and opportunities, older residents are able to maintain their independence and participate fully in community life.

A range of questions were considered in assessing this dimension, including the following:

- Is information on public programs easily accessible in a variety of formats?
- Is printed information easy to read and telephone information provided slowly and clearly?
- Is public internet access and computer support for seniors widely available?

CURRENT CHALLENGES

- It is hard to find information within the city.
- The City's website is complicated and hard to navigate.
- Brampton Guardian alone is insufficient as a local paper. The City should make better use of ethnic papers to communicate.
- City lacks large print materials.
- Need more computers and Wi-Fi options at local libraries so that people without access to the internet can stay connected.
- Seniors use the internet – don't fall for stereotypes.

CIVIC PARTICIPATION AND EMPLOYMENT

Older residents offer a variety of skills, experience, and knowledge, and should have the opportunity to use them in paid or voluntary work for as long as they would like to do so.

As individuals and the community can benefit from the continued active participation from all ages, barriers to civic participation and employment should be minimized.

A range of questions were considered in assessing this dimension, including the following:

- Is a range of flexible paid and voluntary options available to residents of all ages and abilities?
- Are the positive qualities of residents of all ages and abilities recognized and promoted?
- Are training and workplace adaptations available for residents of all ages and abilities?

CURRENT CHALLENGES

- Brampton offers many volunteer opportunities, but very few employment opportunities to seniors.
- There is little training for entrepreneurship.
- The City lacks training for seniors so that they can re-enter the job market.
- Social media should be leveraged to connect people to the City and to each other.
- Many residents live in poverty and outreach for employment, such as part-time, is required.

COMMUNITY SUPPORTS AND HEALTH SERVICES

To maintain their health and independence, aging residents should have access to a full range of health and support services in the community.

Appropriate community services will allow residents to remain at home longer, benefiting individuals and the City as a whole.

A range of questions were considered in assessing this dimension, including the following:

- Are services conveniently located and accessible by all means of transportation?
- Are appropriate preventive and home care services available?
- Is health service delivery coordinated and administratively simple?
- Are economic barriers to health services minimized?

CURRENT CHALLENGES

- Many residents have to travel outside Brampton for health care.
- Long waiting lists for personal care and home support services.
- The city lacks sufficient hospitals and urgent care clinics.
- There are insufficient home care or residential care facilities.
- Supports to assist with the cost of health care (e.g. dental, medications, hearing) are not easy to find and not generally accessible.

4- ACTION PLAN

The Plan will need the interest, effort and participation of individuals, businesses, community organizations, all levels of government, and institutions such as Sheridan College, to make the vision a reality. The recommended actions for implementation focus on the issues that were identified as the highest priorities during the community engagement process, as well as those items that can be directly implemented or supported by the City of Brampton. The actions are organized according to the WHO's eight community dimensions.

Accountability for the Plan lies with the City of Brampton's Planning and Development Services department, but the successful implementation of the Plan will require buy-in and action by all City departments and a wide range of Regional and community partners.

The City of Brampton Age-Friendly Advisory Committee has been instrumental in the development of this Plan. The City intends to maintain the Committee's momentum to continue working towards a more age-friendly Brampton, and to expand its membership. A component of the Committee's next steps, as well as a key outcome of this Plan, is the establishment of a Youth Committee/Council. This group will address key issues amongst youth groups and will collaborate closely with the Age-Friendly Advisory Committee.

The implementation of this Plan provides a framework to guide future, more detailed decision-making and planning within the City government and its interested partners. The Plan is intended to inform other municipal plans, policies, and decisions from an early stage (see Figure 4).

In the tables that follow, the Action Plan identifies several implementation details for each Recommended Action:

- **Timing/Priority:** when the action should take place;*
- **Action Lead:** who will be responsible for taking the action;
- **Potential Partners:** who the Action Lead should work with; and
- **Performance Indicator:** how the Action Lead and Partners will know they have succeeded.

* “Short to Long Term” implies that the action would be implemented on an ongoing basis, as a best practice.

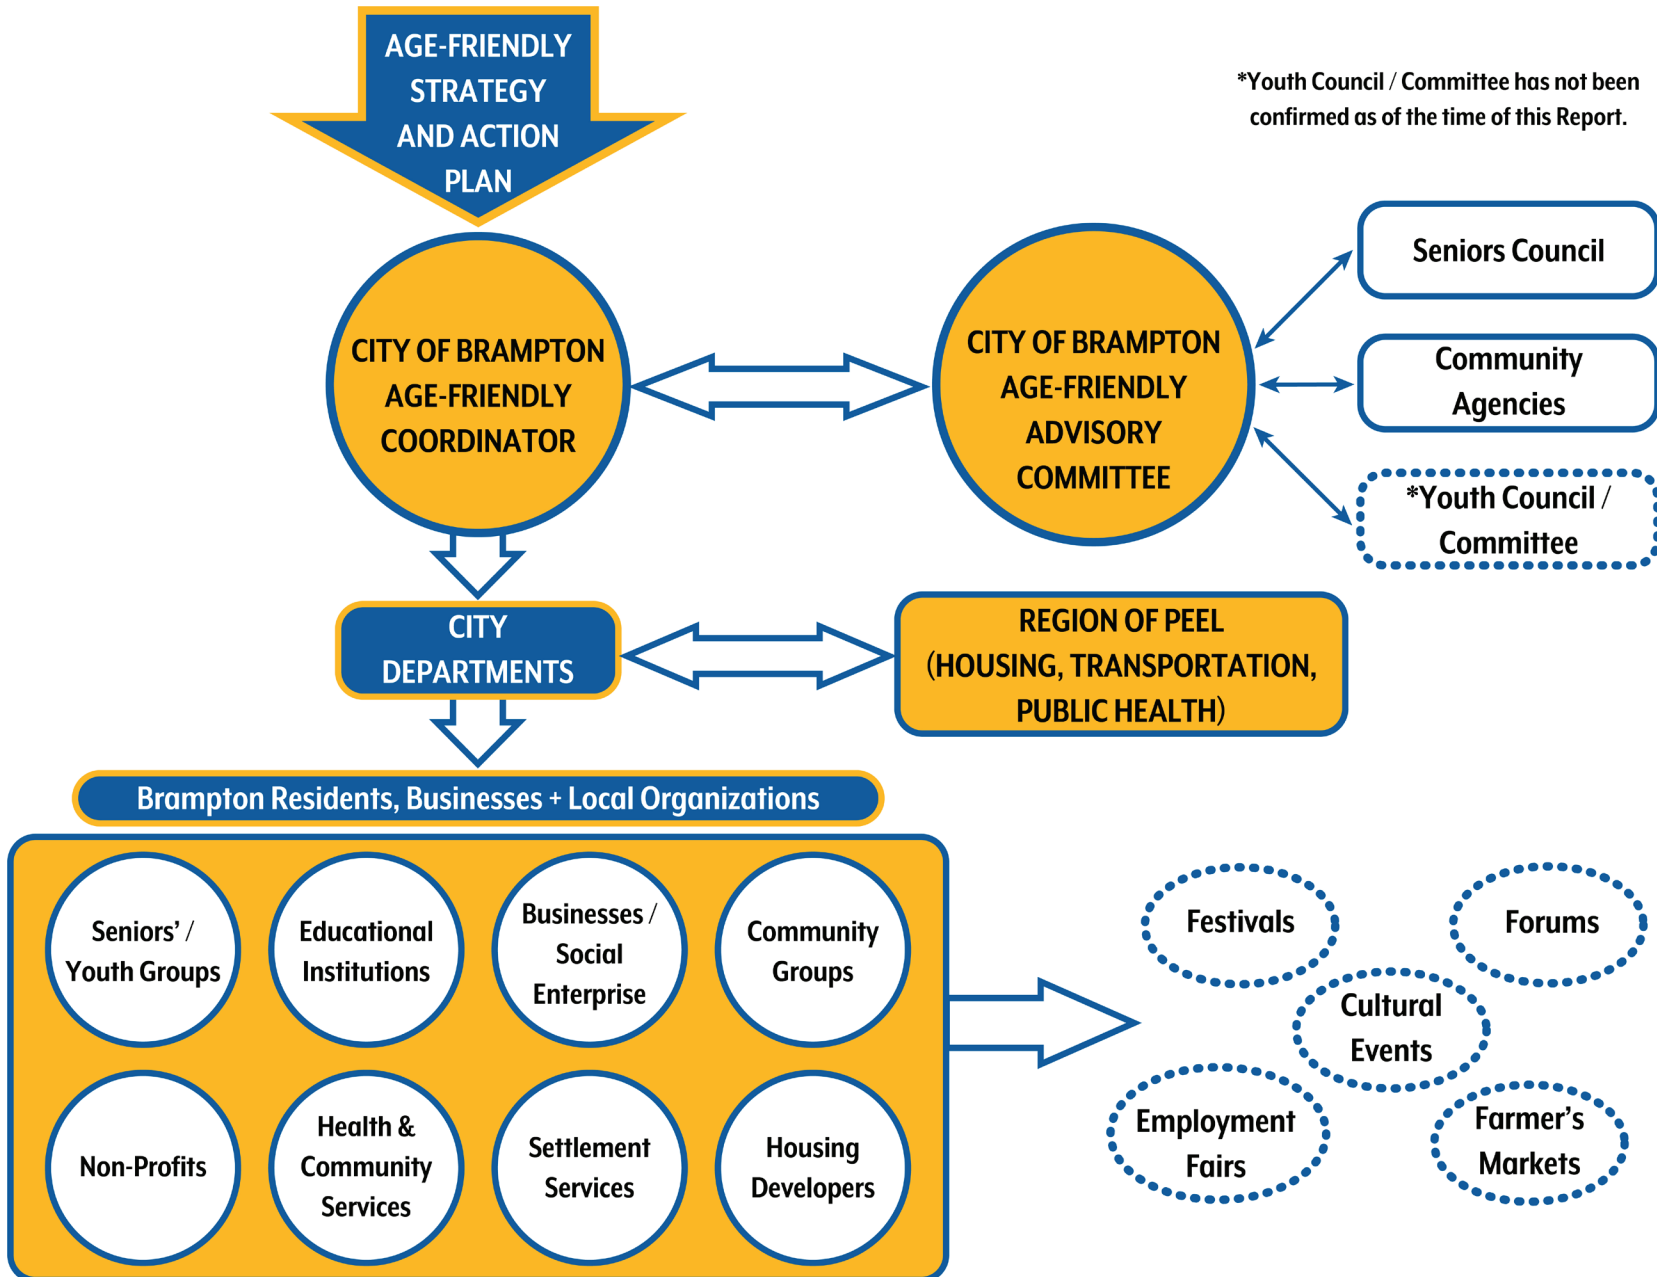

The Plan also identifies the timing of implementation:

- 1-2 years for short-term actions
- 3-5 years for medium-term actions
- 5+ years for long-term actions

It is recommended that the City undertake an annual progress review and prepare a Report Card (an example is provided in Figure 5, in Section 5 of this Plan). The Report Card should be provided to Council and will act as a “reality check,” allowing the community to see which actions have been taken, which goals have been achieved, and whether there should be any changes to this Plan, in light of community priorities and available funding opportunities.

Figure 4: Implementing the Age-Friendly Strategy and Action Plan

It is recognized that provincial ministries or bodies (e.g. agencies, boards, organizations) may change names from time to time. Where reference is made to a Ministry or other body, it is understood that it is the ministry or body as it is known at the time of reading this Plan that is being referenced.

Table 2: Implementation

OUTDOOR SPACES AND BUILDINGS

	Action Item	Timing/Priority	Action Lead	Potential Partner(s)	Performance Indicator
1.1	<p>Seek opportunities to provide more outdoor seating at transit stops and on streets, particularly on Queen Street, Main Street, Rosepac Avenue; in parks and along trails: behind Shoppers World, Norton Place Park, White Spruce Park, Kiwanis Park, along the Etobicoke Creek Trail (especially between Bovaird Drive and south of Vodden Street), north of Williams Parkway and on Centre Street, Terry Fox School, Sacred Heart and Lagerquist ball diamonds, Loafers Lake Park, Donald M Gordon Chinguacousy Park; and along Highway 10.</p>	<p>Short Term to Medium Term</p>	<p>City of Brampton (Parks Planning and Development, Transportation Planning and Transit Services, Policy Planning, Urban Design)</p>	<p>Age-Friendly Advisory Committee</p>	<p>Number of new benches installed.</p> <p>Number of rest places (i.e. doesn't need to be a "bench") and distance between rest places.</p> <p>Environmental Audit Tool – assesses neighbourhood walkability and community safety. Example: https://depts.washington.edu/hprc/resources/products-tools/healthy-aging-research-network-archives/</p> <p>Successful implementation of Brampton's neighbourhood audit tool (being developed by the 2040 Vision) or Peel's Public Health neighbourhood assessment tool.</p>
1.2	<p>Develop a Bench/Outdoor Seating Area Dedication Program to increase the number of benches and/or outdoor seating areas in City-owned facilities, City-owned parks, trails and sidewalks. Explore funding opportunities for implementation.</p> <p>A memorial bench program is offered through the Brampton Cemetery and more information is available at http://www.brampton.ca/EN/residents/Cemeteries/Pages/welcome.aspx</p>	<p>Medium Term</p>	<p>City of Brampton (Economic Development, Parks Planning and Development, Transportation Planning and Transit Services)</p>	<p>Residents, charitable/service organizations, cultural groups, businesses, Brampton Board of Trade</p>	<p>Number of new benches installed.</p> <p>Number of rest places (i.e. doesn't need to be a "bench") and distance between rest places (e.g. planter boxes / landscape furniture).</p>

OUTDOOR SPACES AND BUILDINGS

	Action Item	Timing/Priority	Action Lead	Potential Partner(s)	Performance Indicator
1.3	Update and Implement Brampton's Community Design Guidelines to ensure seating place and shade structures locations and number are considered in development applications, parks and open space plans, and streetscape plans.	Short Term to Long Term	City of Brampton, (Parks Planning and Development, Policy Planning, Urban Design, Public Works)	Parks Review Committee, City Parks Maintenance Group	Ratio of number of public requests for new shade structures to number of approved shade structures. http://www.brampton.ca/EN/Business/planning-development/Pages/Shade-Structures.aspx
1.4	Consider colour contrast on outdoor infrastructure, such as trash bins within City's Community Design Guidelines.	Short Term to Long Term	City of Brampton, (Parks Planning and Development, Policy Planning, Urban Design, Public Works)	Parks Review Committee, City Parks Maintenance Group, Accessibility Coordinator	Number of coloured trash bins.
1.5	Support businesses that wish to retrofit buildings to provide accessibility features and accessible public washrooms through funding assistance. This funding assistance could be provided by informing and marketing the City's Central Area Community Improvement Plan (CIP, 2010) and the existing opportunity under the Downtown Brampton Building Improvement Program. Consideration could also be given to expand/or develop a new CIP Project Area to other parts of the City.	Short Term	City of Brampton, Local Businesses	Economic Development, Accessibility, faith-based communities	Number of approved CIP applications. Value of CIP grants given. Number of new accessible washrooms provided.

OUTDOOR SPACES AND BUILDINGS

	Action Item	Timing/Priority	Action Lead	Potential Partner(s)	Performance Indicator
1.6	Explore opportunities for additional public washrooms at City-owned buildings, City-owned Parks, particularly the community garden in McMurchy Park in the Loafer's Lake Area, Gage Park, Etobicoke Trail, Tennis Court at Queen St and Center St (SW), and at transit stations.	Short Term to Medium Term	City of Brampton (Parks Planning and Development, Transportation Planning and Transit Services)	Public Works, Security Services	<p>City to develop an online request form for public washrooms (similar to the shade structure request website).</p> <p>Number of new washrooms installed by the City.</p> <p>Use of a mobile app for washroom locations.</p>
1.7	Review maintenance practices/schedule to improve the year-round maintenance of parks, refuse areas, trails and sidewalks.	Short Term	City of Brampton (Public Works, Road Operations)	Volunteer groups, schools (e.g. Earth Day)	<p>Reduction in number of complaints and injury reports.</p> <p>Tool: Age-Friendly Winter Walkability and Pedestrian Safety Audit. Example: https://coaottawa.ca/snowmoles/</p>

TRANSPORTATION

Action Item		Timing/Priority	Action Lead	Potential Partner(s)	Performance Indicator
2.1	Improve local Brampton transit system in terms of routes and frequency (e.g. locations where Seniors frequent).	Short Term to Medium Term	City of Brampton (Transit Services)	GO Transit, MiWay, York Region Transit	Increase in number of service hours.
2.2	Improve information and communication regarding the transit system, transit delays at bus stops, transit delays on routes.	Medium Term	City of Brampton (Transit Services)		Number and frequency of communication methods used to provide information on the transit system.
2.3	Explore fare options that may improve transit affordability to seniors and students.	Short Term	City of Brampton (Transit Services)	Region of Peel	Increase in number of trips taken by seniors and students.
2.4	Explore the feasibility of a community ride-share bulletin board and/or website.	Short Term	City of Brampton (Transportation Planning)	Peel Region, Ridership Companies, Transportation Network Companies	Number of visits on a new Ride-Share page; Kijiji; survey of park n'ride locations. Number of ride share spaces.
2.5	Improve door to door services (ie. drop off and pick up) for seniors and persons with disabilities.	Medium Term	TransHelp	TransHelp, Peel Region, CANES Community Care agency	Number of trips provided by TransHelp. Number of cross-boundary trips from Peel Region to Toronto and surrounding municipalities for Peel residents and CANES clients through the Ontario Community Transportation Pilot Program funding.

TRANSPORTATION

Action Item		Timing/Priority	Action Lead	Potential Partner(s)	Performance Indicator
2.6	Increase the number of transit stops within 300 metres (5 minutes) walking distance of residential areas.	Medium Term	City of Brampton (Transit Services, Urban Design)	Transportation Planning, Transit Services	<p>Number of additional transit stops within 300 m (5 minutes walking) in existing neighbourhoods.</p> <p>Number of new transit stops in new site plan developments and subdivisions.</p> <p>Further discussion to be held amongst City departments regarding bus shelter standards (e.g. location, distance).</p>
2.7	Review maintenance practices/schedule to improve the year-round maintenance of transit stations, bus shelters, and sidewalks.	Short Term	City of Brampton, (Transit Services, Public Works)	Volunteer groups, schools (e.g. Earth Day)	<p>Reduction in number of complaints and injury reports.</p> <p>Example Tool: Age-Friendly Winter Walkability and Pedestrian Safety Audit. Example: https://coaottawa.ca/snowmoles/</p>
2.8	Implementation of Active Transportation Master Plan - make streets easier and safer for walking/cycling.	Short Term to Long Term	City of Brampton (various departments)	Transportation Planning, Public Works, Urban Design, Development Review	<p>Policies and guidelines to be incorporated into City's Complete Streets Study, which is underway at the time that this Strategy was prepared.</p> <p>Increased enforcement on traffic/pedestrian safety crossings.</p> <p>Number of new sidewalks installed, cycle tracks, cycling routes and transit routes.</p>
2.9	Complete Streets Guidelines - a complete, City-wide approach to addressing streetscape design. This should be done with an Age-Friendly lens.	Short Term	City of Brampton (Transportation Planning, Urban Design)	Peel Region	<p>Number of kilometres redesigned in accordance with the Guidelines.</p>

Brampton gives seniors big discount on transit, hopes to make it free as early as 2020

By Graeme Frisque Brampton Guardian
Thu., April 4, 2019

f t e ...

Brampton council is giving seniors a significant break on monthly transit fares in its 2019 budget, with hopes of making the service free for the city's elder residents as early as 2020.

At its regular meeting on March 27, council voted in favour of reducing the cost of a monthly Presto pass for seniors from \$52 to \$15 — a 71 per cent discount.

Brampton council approved a big discount for senior riders on Brampton Transit in the 2019 budget. (RICK MADONIK / TORONTO STAR FILE PHOTO)

Toronto Star - April 4, 2019

Ride Sharing/Park N Ride

There are various ride sharing programs.

Community Ride Share Connection - Facebook Group

<http://www.kijiji.ca/b-rideshare-carpool/ottawa/kanata/k0c511700185>

Park N Ride Lot Locations

There are existing park and ride lots located at:

- County Road 17 (Cemetery Side Road)
- County Road 15 at highway 7
- County Road 10 (Richmond Road) at Highway 15
- County Road 1 (Rideau Ferry Road) and County Road 21 (Elmgrove Road)

These lots are used primarily on weekdays for people commuting to work but also on weekends for people who park and then enjoy the recreational facilities in the County. Commuters also use informal locations throughout the County for parking. During the focus groups sessions and in the web based questionnaire, people identified many locations where they believed park and ride lots would be helpful. Identified locations were frequently close to population centres such as Almonte, Carleton Place, Perth and Smiths Falls as well as villages and hamlets. Preferred locations were near major intersections. Suggestions were to park in existing parking spaces which are not generally used during the workday time period such as at arenas, community centres, halls and churches, in order to make better use of existing infrastructure.

HOUSING

Action Item		Timing/Priority	Action Lead	Potential Partner(s)	Performance Indicator
3.1	Create affordable home modifications.	Short Term to Long Term	Region of Peel (Peel Region is the Housing Service Manager for Brampton)	CMHC (funding for retrofits, Region would provide funds)	Reductions of persons/families in Brampton on the centralized waitlist. Monitor number of waitlist applications of residents living in Brampton.

Short Term	City of Brampton (Policy Planning)	City Departments, Age-Friendly Advisory Committee, Youth Council, residents at large through OP Review public engagement events	<p>Develop a new Age-Friendly Section and objectives in the City's Official Plan to:</p> <ul style="list-style-type: none"> • Introduce the concept of age-friendly communities and that the City must apply an age-friendly lens in planning for its future in conformity with ROPA 27, specifically policies 6.2.2.9, 6.3.2.1, 6.3.2.3, 6.3.2.4 which refer to providing policy direction for area municipalities, such as Brampton. • Recognize demographic changes will result in new priorities and challenges in the areas of affordable housing, accessible transportation, public spaces and infrastructure, recreation, and community health. • Emphasize the City recognizes the importance of adapting its infrastructure and service delivery to meet these challenges, and will support the development of age-friendly communities that promote active aging and a high quality of life among residents at all stages of life. <p>Develop policies in the City's Official Plan to meet the objectives listed in the new Age-Friendly Section in the OP related to, but not limited to housing, active transportation, Healthy Development Framework, ethnicity, seniors, design guidelines, parks, pre-consultation and community engagement.</p>

HOUSING

Action Item	Timing/Priority	Action Lead	Potential Partner(s)	Performance Indicator
3.7 Support the achievement of the Vision 2040 Objectives that relate to age-friendly communities, such as the development of community hubs, and a social planning department.	Short Term	City of Brampton (2040 Vision, Policy Planning)	External agencies, Community Services	Number of community hubs created. Creation of a social planning department.

HOUSING - RESOURCES/EXAMPLES

About Second Units

Second units provide an affordable housing option for many people in Brampton. A second unit is a self-contained residential unit located within a house. It may be in any part of the house, including the basement.

You may also see second units referred to as:

- Basement apartments
- Two-unit dwellings
- Granny flats
- In-law suites

Subject to zoning requirements and restrictions, second units are permitted in detached, semi-detached and townhouse dwellings in Brampton. In order to be legal, second units must be registered with the City of Brampton.

This guide has been created to help Brampton homeowners through the process of building and registering a safe, legal and livable second unit. For more detailed information, visit www.brampton.ca/secondunits.

Why does my second unit need to be registered?

These policies are intended to make second units safe, legal and livable. Completing the one-time registration process ensures a second unit meets all requirements under the Ontario Building Code or Fire Code, Electrical Safety Authority and local Zoning By-law.

A registration system also helps the City identify the location of second units and provide the unit with its own municipal address. This information is shared with Brampton Fire; in case of emergency, they will know there is a second unit in your house before they even arrive. This can save precious seconds in a life-or-death situation.

U.K. Appoints a Minister for Loneliness
New York Times, January 17, 2018

<https://www.nytimes.com/2018/01/17/world/europe/uk-britain-loneliness.html>

By Ceylan Yeginsu

Jan. 17, 2018

LONDON — Since Britain voted to leave the European Union more than a year ago, Europeans have mockingly said that the decision will result in an isolated, lonely island nation.

But Britain, in fact, already has a serious problem with loneliness, research has found. More than nine million people in the country often or always feel lonely, according to [a 2017 report](#) published by the Jo

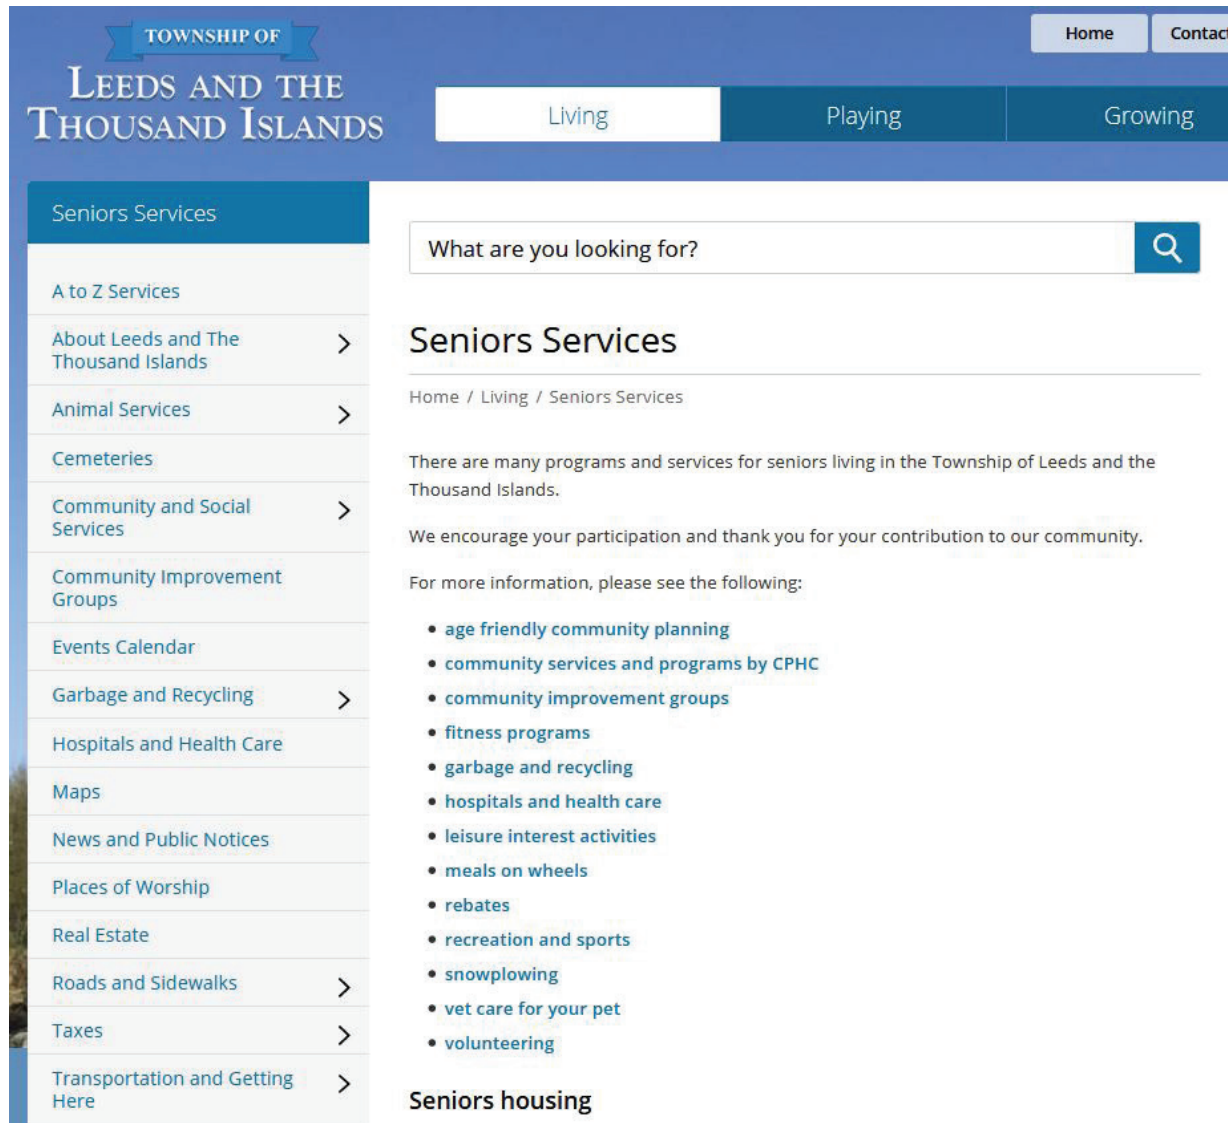

COMMUNICATION & INFORMATION

Action Item		Timing/Priority	Action Lead	Potential Partner(s)	Performance Indicator
6.1	Improve information on the City's website with easy to find tabs.	Short Term	City of Brampton (Information Technology)	External website company	Development of 4 new Tabs under 'Residents' or on the side bar to read 'Youth Services', 'Family Services', 'Seniors Services', 'Newcomers Services'. Monitor website traffic under each new Tab created.
6.2	Increase access and ability to navigate the City's website.	Short Term	City of Brampton (Information Technology)	Age-Friendly Advisory Committee, Sheridan College	Develop an online tutorial with voice override in different languages. Monitor number of visits from City's website to external agencies websites.
6.3	Provide information in easily accessible fonts (i.e. no italics), large printed materials, in various languages and integrate visuals.	Short Term	City of Brampton (City Clerk's Office)	All City Departments, Sheridan College	Development of a City Accessibility Standards Guide for documents, signage both hard copy and digital. Monitor locations of print information (e.g. transit hubs, Shoppers World, Bramalea), and length of notification.
6.4	Develop and distribute a fridge magnet listing key emergency phone numbers in large print (e.g. City, 211, 911). Phone numbers for health services and what each provide should be included (e.g. Telehealth, Civic Hospital, William Osler Health System).	Medium Term	Age-Friendly Advisory Committee	Communications Department, Peel Region, PEAPN, Central West LHIN or similar agency, William Osler Health System	Number of enquiries.

COMMUNICATION & INFORMATION

Action Item	Timing/Priority	Action Lead	Potential Partner(s)	Performance Indicator
6.5 Improve communication messages and how information is provided for meetings, events, general information for example, for all ages (includes phone and in-person interactions).	Short Term	City of Brampton (All departments)	Brampton School Boards, Education institutions including parent councils, Mayor and Council offices, Central West LHIN, Peel Region, all external organizations	<p>Ensure all City projects have a communication plan that seeks to engage people of all backgrounds/ages/abilities and identifies methods (e.g. ethnic papers, Brampton Guardian, mailouts, schools announcements, school emails, Sheridan Insider, pop up spaces, short video advertisements) of communicating meetings, events, general information and frequency of communication. The communications plan should set out a strategy for commonly used terms that are easily understood.</p> <p>Development of a Social Media Strategy that engages people of all backgrounds/ages/abilities and identifies methods.</p>
6.6 Increase the number of computers and Wi-Fi options at local libraries to provide accessibility to the Internet and promote computer literacy.	Medium Term	Brampton Library	Private Sector Investors, Age-Friendly Advisory Committee, Youth Council	<p>Monitor the number of additional numbers in libraries and library location.</p> <p>Monitor participation rate and time of day.</p>

Community Resources

With the help of students from Queen's University, the Frontenac-Kingston Council On Aging Inc. has created a series of large-print, senior-friendly topical guides. These guides contain information that is both relevant and important to seniors in our community.

A Senior's Guide to Navigating The Health Care System - Created in association with Queen's University School of Rehabilitation Therapy. The purpose of this comprehensive guide is to prepare you or an older family member for a hospital stay and the return home. In addition to covering planned or emergency hospital visits, *A Senior's Guide* covers what to expect in the hospital, how to prepare for your stay, discharge procedures, and offers a comprehensive contact list of health care support services and service providers.

Cost: \$10 (plus postage, if applicable)

A Senior's Guide to Navigating Powers of Attorney and Joint Ownership - Created in association with Queen's University School of Law, Elder Law Clinic. This guide provides information about the laws around Powers of Attorney and Joint Ownership. It is designed to provide the information that seniors need to make an informed decision with respect to making a *Power of Attorney for Personal Care* and a *Power of Attorney for Property*.

Note: This guide is not a substitute for legal advice, but provides information on the law, only.

Cost: \$10 (plus postage, if applicable)

A Senior's Guide to NAVIGATING Community Resources -Frontenac-Kingston Council on Aging (2016)

COMMUNITY SUPPORT & HEALTH SERVICES - RESOURCES/EXAMPLES

INTRODUCTION TO THE GUIDE

The purpose of this guide is to enable independence in everyday living by providing information on community supports and services that can be utilized to carry out daily activities and participate with others in the community. By using this guide, you can learn more about what is available to you in the Kingston community and choose services most suited to your current needs.

This guide includes:

Information about agencies in Kingston that assist with a variety of activities of daily living, such as housekeeping, meal preparation, transportation, and more.

A service directory that includes contact information for services under the categories of:

- Banking Services
- Companionship Care
- Crisis Intervention & Prevention
- Falls Prevention
- Foot Care Services
- Grocery Shopping Services
- Health Information, Doctor Search
- Home Maintenance and Repair
- Housekeeping Services
- Downsizing Services
- Housing
- Meal Delivery Services
- Meal Preparation Services
- Orthotics
- Pharmacy Delivery Services
- Recreation
- Transportation Services

This guide was developed through the Council on Aging Inc. The Council on Aging Inc. is dedicated to supporting seniors in the community by advocating for their needs and educating the public about seniors' issues and healthy aging.

5- PROGRESS REPORTING

This Age-Friendly Strategy and Action Plan is a framework for achieving the future aspirations of the City of Brampton; it does not list every action item contemplated by the community. The document is dynamic and if adjustments to the action items are necessary, the annual Report Card affords the opportunity for updates.

The success of the Plan will depend on a commitment to implement action items over their prescribed time frames. This commitment includes the City, Region of Peel, community and youth groups, and individual residents. The Plan requires a group of champions to keep the Vision in focus and to ensure the goals are top of mind.

The recommended Age-Friendly Strategy and Action Plan Report Card contained herein provides an example of a tool the City could use in its annual reports back to Council, the Region and the community at large. It is also a tool to show progress of delivery and implementation of the action items.

The Report Card uses a colour and shape-coded system as follows:

-  Completed
-  In progress
-  Behind target

Monitoring

On an annual basis, the City's Age-Friendly Coordinator will initiate that City staff review each of the action items and score their progress. If there are Action Items that are not being completed according to the Plan, City staff will include in the staff report methods for re-assigning and/or completing the action items to meet the requirements of the Plan. This will include follow-up measures to ensure that action items stay on track. If the reporting process uncovers deficiencies with the Plan implementation, the Coordinator will provide an update to Council to discuss the deficiencies and recommend measures for improvement going forward.

Quick Wins

Immediate progress on the short term action items will build trust and momentum for the Plan and will act as a catalyst for the championing and implementation of the Plan in the long term.

ROP = Region of Peel
 PP = Policy Planning
 PPD = Parks Planning and Development
 CD = Communications Department
 PW = Public Works
 UD = Urban Design

ED = Economic Development
 TP = Transportation Planning
 BT = Brampton Transit
 LC = Local Community
 AFAC = Age-Friendly Advisory Committee

6- NEXT STEPS

Throughout the preparation of the Plan, residents of Brampton were invited to view the city and its potential from an age-friendly perspective. Residents identified a wide range of existing age-friendly assets, but also numerous opportunities for improvement. The Plan responds to these opportunities and sets out a road map for addressing them.

For the vision articulated in this Plan to become a reality, municipal departments, businesses, institutions, community organizations and residents in Brampton must commit to seeing and addressing issues through an age-friendly lens. Working together to implement the actions recommended in this Plan will address the community's main age-friendly priorities and respond to current and future challenges. Everyone in Brampton has a role to play in making the city a great place to live, work, play and learn for people of all abilities, at every stage of life.

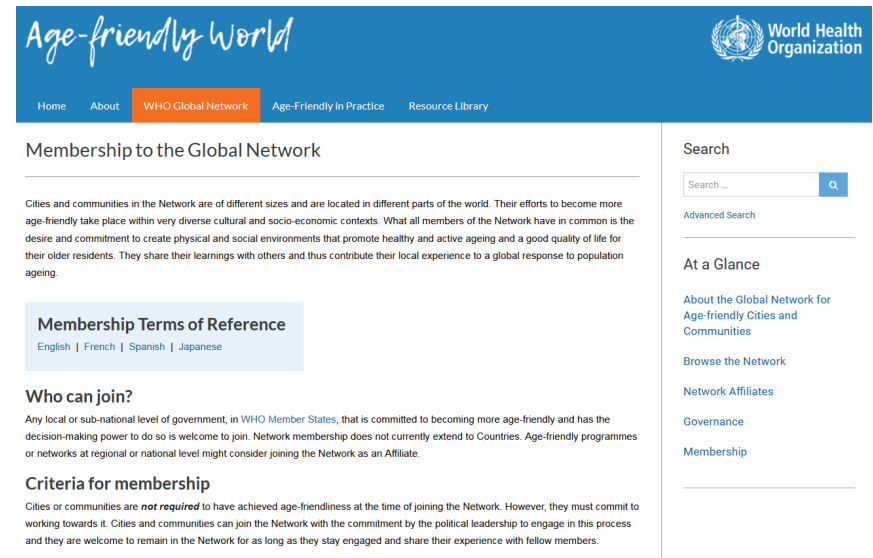

Joining the Global Age-Friendly Cities Initiative

The City has been a participating member of the WHO global network of age-friendly cities since early 2017. As a member of the network, the City has access to resources and support to improve its age-friendliness to respond to the growing needs of local seniors, youth, and the community at large. With the completion of this Plan, the City is well positioned to apply formally to the WHO and obtain an age-friendly community designation. The City’s desire to obtain this designation demonstrates that the City has heard from its diverse and multi-cultural community through the preparation of the Plan, its commitment to promote healthy and active aging, and a good quality of life for all residents of all ages.

More information on the application process is available at <https://extranet.who.int/agefriendlyworld/membership/>.

The screenshot shows the WHO Age-friendly World website. The header includes the 'Age-friendly World' logo and the WHO logo. Navigation links include Home, About, WHO Global Network (highlighted), Age-Friendly in Practice, and Resource Library. The main content area is titled 'Membership to the Global Network' and contains introductory text about the network's diversity and goals. A 'Membership Terms of Reference' box lists language options: English, French, Spanish, and Japanese. Below this, the 'Who can join?' section explains that local or sub-national governments in WHO Member States can join. The 'Criteria for membership' section states that cities or communities are not required to have achieved age-friendliness at the time of joining but must commit to working towards it. A right-hand sidebar features a search bar, an 'Advanced Search' link, and a list of navigation items: 'At a Glance', 'About the Global Network for Age-friendly Cities and Communities', 'Browse the Network', 'Network Affiliates', 'Governance', and 'Membership'.
