WHO Global Network of Age-Friendly Cities and Communities

Dear Sir/Madam,

**Application for Joining the WHO Global Network of
Age-Friendly Cities and Communities**

As the Chairman of Islands District Council (IDC) of the Hong Kong Special Administrative Region, China, I am writing to support our district to join the WHO Global Network of Age-Friendly Cities and Communities.

IDC has set up Islands Healthy Cities and Age-friendly Community Working Group to promote a healthy and age-friendly community in Islands district. In the coming years, our district will endeavor to build an age-friendly environment for our senior residents so that they will stay healthy and involved in community. IDC will continue to serve as a bridge between government, community stakeholders and the public to implement the related measures and develop the district into an age-friendly community.

I look forward to your reply. Should further information be required, please feel free to contact Miss Angie CHAN via angie_nc_chan@had.gov.hk.

Yours faithfully,

CHOW Yuk-tong, BBS, MH
Chairman of Islands District Council
