WHO Global Network of Age-Friendly Cities and Communities

25th April, 2017

Dear Sir/Madam:

We are honored to submit this letter of support for our District to be considered by the World Health Organization (WHO) as an age-friendly city. We care about our citizens and especially our senior citizens, who are living longer and health lives. We value their experience, potential and wisdom and do our greatest to ensure that there are viable services to meet their needs in almost every facet of their lives.

Our partnerships are strong in the community with organizations that provide services to the elderly. This includes their areas of concern affecting the quality of life and the required 8 domains in Age-Friendly City, including outdoor spaces and buildings, transportation, housing, social participation, respect and social inclusion, civic participation and employment, communication and information as well as community support and health services. As the Wan Chai District Council, our commitment is as strong as our partnerships and we will continue to work with the mission of Age-Friendly City for long-term success.

We look forward to joining WHO and becoming a member of the Age-Friendly Network. Wan Chai would be a great district to continue the vision of the age-friendly initiative.

Mr. NG Kam-chun, Stephen, BBS, MH, JP

Chairman,

Wan Chai District Council
