THANKS

We wish to warmly thank the AFM-MADA Committee Members for their active participation as well as their important contribution throughout the process that lasted almost two years. We also want to thank our senior citizens from the area who participated at one or another of the five public consultations held in autumn 2013 as well as the different senior citizens groups who made their recommendations to help elaborate our action plans according to their respective municipalities.

Without the collaboration from all city councils, managing directors, this concerted effort would not have been possible. We also need to bring up the support from of Health Impact Assessment team (HIA) from Public Health in Montérégie who supplied very valuable data to provide an overview on the elders of the area; furthermore their recommendations will be an inspiration in the implementation of the action plan.

Lastly, we should mention the support provided by the Secretariat for Seniors who were able to provide an important financial supplement for the carrying out of this first regional AFM action plan.
