

Declaration of Making Age-Friendly City

A new paradigm wave rises as the age of one hundred years old has arrived. At this point of time when creative thinking and challenge are needed, the City of Bucheon intends to make 'age-friendly city'.

We, the City of Bucheon declares the following statements in order to guarantee the citizens' healthy and active old age and make good environment to live long.

First, we will make 'comfortable and safe' age-friendly city.

We will make the City of Bucheon a city where there are consideration, convenience and comfort from external conditions surrounding us such as public transport system, culture and welfare facilities and public buildings

Second, we will make the age-friendly city full of 'desire and vitality'.

We will also provide the aged with opportunities that they can exert their life experiences and abilities through customized job offers, their talent donation, volunteer work and lifelong education.

Third, we will make the age-friendly city 'with all generations together'.

We will build a welfare system for all generations including the aged through their active and voluntary participation and make an environment that the proper resource division can be achieved.

Aging is an unavoidable dilemma to all of us, but it is also the area of a new policy which requires creativity and innovation. We hope that making the age-friendly city will be a chance to integrate generations and lead a new welfare paradigm.

Furthermore, we will endeavor to advance our community further through this declaration
