WHO Global Network of Age-Friendly Cities and Communities

3 December 2018

Dear Sir/Madam,

**Application for Joining the WHO Global Network of Age-Friendly
Cities and Communities**

As the Chairman of Tuen Mun District Council (TMDC) of the Hong Kong Special Administrative Region, China, I am writing to support our district to join the WHO Global Network of Age-Friendly Cities and Communities.

TMDC has set up Age-friendly Community Working Group to promote a healthy and age-friendly community in Tuen Mun district. In the coming years, our district will endeavor to build an age-friendly environment for our senior residents so that they will stay healthy and be involved in community. TMDC will continue to serve as a bridge between government, community stakeholders and the public to implement the related measures and develop the district into an age-friendly community.

I look forward to your reply. Should further information be required, please feel free to contact Miss Wendy LEUNG (Email: wendy_hy_leung@had.gov.hk).

Yours faithfully,

LEUNG Kin-man, BBS, MH, JP
Chairman of Tuen Mun District Council
