

## Letter of Commitment

Dear WHO Global Network for Age-Friendly Cities and Communities,

Nowon-Gu cannot express our respect and support enough for people and cities in WHO Global Network for Age-Friendly Cities and Communities. On facing the growing problems of aging, your effort and devotion has affected us to recognize our present status of aging and to advance ourselves to future for being an Age-Friendly city.

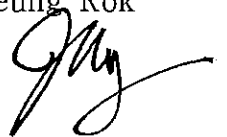

Now the population over 65 years old in Nowon-Gu has reached to 14.9% in 2019, so we can call ourselves as an Aged society. Since the problem of aging is going to be expand, the problem is not only for one country, one generation, one society, but actual problems for all countries, generations, and societies. So Nowon-Gu is preparing to face the problem and adapt to it.

For the first step to cope with the aging problems, we are trying to be listed in WHO Global Network for Age-Friendly Cities and Communities. By being listed in it, we would like to build up effective solutions for problems derived from aging society. Therefore, we wish to share our vision and experience with WHO Global Network for Age-Friendly Cities and Communities.

With WHO Global Network for Age-Friendly Cities and Communities, we will make this opportunity for Nowon-Gu to become a city every generation can live together. To realize our vision, we will actively do our jobs and share our experience with all cities and communities in the network.

Thank you very much.

The Mayor of Nowon-Gu  
Oh, Seung Rok
