Stonewall, MB R0C 2Z0

Dear Joie:

On behalf of the Council and residents of the Town of Stonewall it is my sincere pleasure & honour to provide the following letter of commitment and support regarding the Age Friendly Initiative in Stonewall.

Seniors make up a significant and vital part of our community and as such providing services and ensuring a high quality of life for them is a priority. It is the reason the Town passed a motion in 2013 establishing the Stonewall Age Friendly Initiative and why we would be extremely proud if your organization was able to obtain World Health Organization recognition.

The Town of Stonewall Council has been and will continue to be a strong supporter of the Age Friendly Initiative and feels the enhanced standing of receiving WHO status will be significant.

Good Luck with your application!

Yours truly,

TOWN OF STONEWALL
