
The 2nd Action Plan
for the Age-Friendly City
of Gwangju Metropolitan City
(2023-2027)

2022. 12

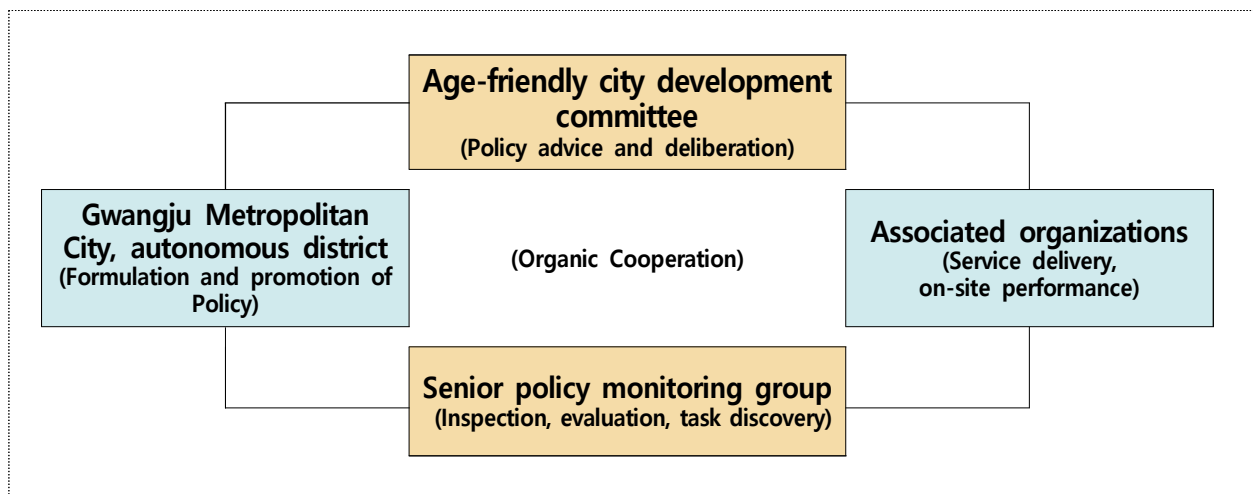

Gwangju Metropolitan City

1 Promotion direction

- Finding various jobs suitable for the elderly and middle-aged and disseminating cultural leisure programs reflecting the preferences of the elderly
- Establishing a tight social care network for the elderly in vulnerable groups, such as living alone, low income, and abuse damage, which is constantly increasing
- Reducing the burden of medical and nursing care for individuals and countries through preventing and managing rapidly increasing senior diseases such as dementia and strengthening public care
- Establishing and improving a safe and convenient living environment where the elderly can stay comfortably without leaving the place where they lived, and improving accessibility to welfare services

2 Promotion system

- Establishing and operating a bottom-up public-private partnership system throughout the whole promotion process of senior citizens' policies, such as policy discovery, review, promotion, inspection, evaluation, service delivery, and implementation.

(Committee) Strengthening public-private partnerships and granting expertise and execution capabilities to whole senior citizens' policies

- Within 15 persons, including experts, officials from related organizations, city councilors, and public officials
- Action plan consultation, policy coordination, and evaluation related to the creation of an age-friendly city

(City/Gu/Organization) Policy formulation, implementation, service delivery, on-site implementation

(Monitoring group) Activating communication with policy subjects and establishing a bottom-up policy

- Consisting of about 40 senior citizens who use senior welfare facilities, experts, and on-site practitioners
- Finding and inspecting tasks by collecting policy opinions (facility visits, interviews, etc.)

Vision

Gwangju, a healthy and energetic city
with tomorrow and a dignified life

Goal

Creating a social and physical environment
for a happy retirement

Promotion
area

Support for jobs and
economic activities

- Support for jobs and social activities for the elderly
- Support for customized jobs to the middle and old aged

Activation of cultural
leisure and social
participation

- Expansion of cultural leisure infrastructure
- Expansion of cultural leisure participation programs

Strengthening smart
care welfare

- Systematic provision of welfare services for the elderly
- Promotion of senior citizens' human rights and spread of respect culture for the elderly

Support for health and
care services

- Health promotion for the elderly
- Expansion of dementia prevention infrastructure
- Improving the level of long-term care services

Improvement of living
environment

- Creating a safe and convenient transportation environment
- Improvement of living space environment for the elderly

4

Specific focus project by area

□ Summary table (52 projects in 5 major areas)

Category	Total	Jobs	Social participation	Care	Health care	Living environment
Total	52	8	12	10	12	10
New task	14	2	2	3	4	3
Existing task	38	6	10	7	8	7

□ Contents of detailed projects by area

① Support for jobs and economic activities

Area	Project name	Contents of the project	Department
1. Support for jobs and social activities for the elderly	1-1. Support for jobs and social activities for the elderly	Support for various jobs and social activities for the elderly	Aging Society Policy Division
	1-2. Operation of a portal system for senior citizens' jobs	Operation of a portal system for senior citizens' jobs such as job information provision	Aging Society Policy Division
	1-3. Support for senior club operation	Support for senior club operation, a institution specialized to jobs for the elderly	Aging Society Policy Division
2. Support for customized jobs to the middle and old aged	2-1. Bitgoeul 50+ Job	Support for jobs and social activities for the elderly	Aging Society Policy Division
	2-2. Community service jobs utilizing the new elderly's career	Job support utilizing the new elderly's career and professionalism	Aging Society Policy Division
	2-3. Start-up Support Center for the middle and old aged	Finding preliminary start-up aged 40 or older and creating local jobs	Culture Industry Division
	2-4. Discovering and fostering preliminary start-up customized to each generation	Support for start-ups and commercialization of preliminary start-up new	Start-up Promotion Division
	2-5. Operation of lifelong learning-type job platform	Operation of lifelong learning-type job platform, life redesign consultation new	Human Resource Division

② Activation of cultural leisure and social participation

Area	Project name	Contents of the project	Department
1. Expansion of cultural leisure infrastructure	1-1. Operation of senior welfare center	Operation of Gwangju Park senior welfare center, including lifelong education programs	Aging Society Policy Division
	1-2. Operation of Bitgoeul 50+ Center	Management of specialized organization to support life redesign for the elderly	Aging Society Policy Division
	1-3. Support for senior citizen center operation	Strengthening the functions of senior citizen centers and supporting customized programs	Aging Society Policy Division
	1-4. Operation of Bitgoeul Hyoryeong senior citizens' town	Operation of Bitgoeul Senior Health Town and Hyoryeong Senior Welfare Town	Aging Society Policy Division
	1-5. Construction of elderly complex facilities in the western region	Construction of specialized elderly complex facilities and national sports center such as dementia prevention	Aging Society Policy Division
	1-6. Establishment and operation of elderly play equipment sharing center	Rental of a variety of play equipment and indoor exercise equipment to promote the health of the elderly new	Nam-gu
2. Expansion of cultural leisure participation programs	2-1. Revitalization of Sports for all for the elderly	Guidance on sports for all and holding a sports competition for the elderly	Aging Society Policy Division
	2-2. Operation of senior citizens' university	Training of Senior Leadership through the Operation of Senior Leadership College	Aging Society Policy Division
	2-3. Operation of informatization education for the elderly	Implementation of informatization education such as mobile use of smartphones and computer basics	Information Officer
	2-4. Providing age-friendly public library services	Purchasing large type book materials for the elderly and operating programs	Municipal government library
	2-5. Promotion of Customized Cultural Programs	Creating a sound play culture through traditional folk games in senior citizen centers	Seo-gu
	2-6. 100 years old friends, 100 years old club	Support for club activities in which the elderly voluntarily hold meetings new	Dong-gu

③ Strengthening smart care welfare

Area	Project name	Contents of the project	Department
1. Systematic provision of welfare services for the elderly	1-1. Providing customized care services for the elderly	Providing customized care services for vulnerable elderly people in need of care.	Aging Society Policy Division
	1-2. Free meal support for the elderly who are concerned about skipping meals	Free meals and delivering lunch boxes for the elderly who are concerned about skipping meals	Aging Society Policy Division
	1-3. Basic pension payment	Basic pension payment for the stabilization of the lives of low-income elderly	Aging Society Policy Division
	1-4. Emergency safety and security services for the elderly living alone and the disabled	Support for emergency safety and security services to prepare for emergencies for elderly families living alone	Aging Society Policy Division
	1-5. Operation of the joint residential system for the elderly living alone	Providing stable residential space and preventing isolation for the elderly living alone new	Aging Society Policy Division
	1-6. Establishment of smart care services for the elderly	Support for the elderly in need of care using ICT devices new	Aging Society Policy Division
	1-7. Mobile Healthcare	Providing customized health living practice services using mobile devices new	Health Policy Division
2. Promotion of senior citizens' human rights and spread of respect culture for the elderly	2-1. Prevention of elder abuse and operation of a shelter exclusively for the abused elderly	Operation of a shelter exclusively for the abused elderly, such as investigation of elder abuse, counseling, education, etc.	Aging Society Policy Division
	2-2. Strengthening the capacity of workers in senior welfare facilities	Conducting capacity education for workers in senior welfare facilities and long-term care institution	Aging Society Policy Division
	2-3. Hosting the respect and filial piety event	Promotion of Parents' Day celebration event and Senior Citizens' Day celebrations	Aging Society Policy Division

④ Support for health and care services

Area	Project name	Contents of the project	Department
1. Health promotion for the elderly	1-1. Operation of health senior citizen center and circular medical treatment	Providing medical services and operating health promotion programs for senior citizen centers in vulnerable areas	Health Policy Division
	1-2. Visiting health care service	Registration of project targets and provision of visiting health care services by life cycle	Health Policy Division
	1-3. Medical examination for the elderly	Medical examinations, basic medical treatment and blood tests for the elderly new	Health Policy Division
	1-4. IoT-based health care services for the elderly	Provision of non-face-to-face health care services using various devices new	Health Policy Division
	1-5. Operation of the age-friendly industrial support center	Operation of the age-friendly industrial support center to support enterprises in age-friendly industries	Industrial Innovative Growth Division
2. Expansion of dementia prevention infrastructure	2-1. Strengthening of functions such as senior nursing facilities	Expansion of dementia-specific care facilities and day-night protection facilities	Aging Society Policy Division
	2-2. Operation of dementia relief center	Operation of dementia relief center for integrated management such as registration and counseling of dementia patients	Health Policy Division
	2-3. Operation of dementia patient support program	Returning dementia patients to their daily lives, supporting their families, and projects to improve dementia awareness, etc. new	Health Policy Division
	2-4. Establishment of dementia demonstration center	Securing a functional center for the elderly, supporting demonstration and commercialization new	Industrial Innovative Growth Division
3. Improving the level of long-term care services	3-1. Support for long-term care service	Support for long-term care service for low-income elderly with long-term care grades	Aging Society Policy Division
	3-2. Establishment of short-term care facilities for the elderly with dementia	Support for labor and operating expenses to facilities that provide short-term care services for the elderly with dementia.	Aging Society Policy Division
	3-3. Payment of special allowances for workers in care facilities	Payment of special allowances for workers in care facilities	Aging Society Policy Division

⑤ Improvement of living environment

Area	Project name	Contents of the project	Department
1. Creating a safe and convenient transportation environment	1-1. Expansion and improvement of senior protection zones	Improvement and maintenance of safety facilities in senior protection zones	Transportation Policy Division
	1-2. Support for elderly driver's license return	Distribution of transportation cards to elderly drivers aged 65 or older when returning their driver's licenses	Transportation Policy Division
	1-3. Building smart crosswalks	Construction of safe crosswalk facilities for the vulnerable in traffic new	Transportation Policy Division
	1-4. Building barrier-free stops of city bus	Building barrier-free stops on major routes of low-floor buses	Public Transportation Division
	1-5. Introduction of low-floor buses	Supporting low-floor bus costs for city bus companies to guarantee transportation rights	Public Transportation Division
	1-6. Service training for transportation workers	Providing conservative education and human rights education for the vulnerable in traffic to transportation workers	Public Transportation Division
2. Improvement of living space environment for the elderly	2-1. Prevention of environmental diseases in the elderly activity space	Improvement and consultation of indoor environment for the socially vulnerable and elderly living alone	Air Quality Conservation Division
	2-2. Improvement of residential space in permanent rental apartment	Green remodeling, such as improving energy performance for permanent rental apartment	Housing Policy Division
	2-3. Support for fostering Gwangju-style urban agriculture	Support for urban agricultural activities such as public and small garden development new	Bio-Agriculture Division
	2-4. Establishment of temperature reduction facilities for the vulnerable to climate change	Installation of temperature reduction facilities for vulnerable groups to climate change new	Climate and Environmental Policy Division

5 Promotion plan by area

1. Support for jobs and economic activities

1-① Support for jobs and social activities for the elderly

- Support for various jobs and social activities suitable for the career and competence of healthy and active elderly people
 - Basic pension recipients aged 65 or older (some business types aged 60 or older)

 - Finding jobs led by the public sector, such as social service type and public interest activity type
 - (Social service type) support for meals, education, and environment maintenance in local welfare facilities

 - (Market type) Collaboration, manufacturing and sales, service provision
 - (Job placement type) security guards, etc.

- Establishment of a comprehensive support system for providing customized job information and job placement
 - Operating an elderly job portal system to provide integrated information related to jobs for the elderly, such as job counseling, education, employment linkage, follow-up management, and DB construction
 - Sharing data with relevant organizations such as the city job center, specialized organization, and performance organization

 - Support for the operation of senior clubs to create and support jobs for the elderly
 - Operating one club (total five) in each autonomous district and expanding support infrastructure for job performance agencies

- Developing various jobs suitable for the elderly and creating conditions for participation

1-② Support for customized jobs to the middle and old aged

- Effectively responding to aging problems through comprehensively supporting for life redesign such as work, leisure, and education for the elderly (45 to 64 years old) in the transition period, finding quality jobs, and expanding opportunities for social participation of skilled human resources
 - Bitgoeul 50+Job Project
 - * Our City's own project: 360 people (2023) ⇒ 360 people (2027)
 - Finding and supporting high-quality jobs suitable for the characteristics of the elderly and local demand, and providing social contribution jobs using retirees' careers and expertise (social contribution type)
 - * Operation of tour programs for senior citizen centers, case management for high-risk single-person residents, and hidden protection groups, etc.
 - Community service job project utilizing the new elderly's career
 - * Project of Ministry of Employment and Labor
 - Providing retirement professionals with social service jobs required by the community and contributing to strengthening the role of the community and preserving income in the new elderly (career type)
 - * 60 people in local children's centers, small libraries, social economy enterprises, etc.
- Expanding the base of start-ups by discovering and fostering preliminary start-ups with creativity and specialized skills and creating a continuous growth support environment for preliminary start-ups
 - Operation of start-up Support Center for the middle and old aged
 - * Gwangju Information and Culture Industry Promotion Agency
 - Support for start-up space, expert advice, commercialization, etc. for preliminary middle and old aged start-ups
 - * Support for start-ups related to ICT, smart contents, IT/SW technology
 - Customized support for each stage of start-up, such as development, education, public relations, marketing, investment, etc.

- Linking local governments and businesses, and revitalizing joint projects among related organizations and tenants
 - * Targets of new start-ups (6 cases), job creation (4 people), and investment attraction (4 cases) per year

- o Discovering and fostering preliminary start-up customized to each generation
 - * Gwangju Techno Park
 - Revitalizing start-ups and creating jobs by discovering and supporting technology-based start-ups
 - Support for commercialization and customized consulting of preliminary start-ups of generational convergence
 - Establishment of the foundation for outstanding companies through initial support for the preliminary young, middle, and old aged start-ups
 - * Discovering and fostering of preliminary start-up by generation (targets of 4 middle, and old aged start-ups per year)

- o Operation of lifelong learning-type job platform
 - Operation of job-linked curriculum such as vocational curriculum and certificate acquisition
 - Strengthening the capacity of counseling professionals and operating life redesign counseling such as career, learning, and psychology
 - * Targets of 13 job platform programs, 1,000 learners, 160 counseling per year

2. Activation of cultural leisure and social participation

2-① Expansion of cultural leisure infrastructure

- Improving service accessibility and innovating the communication with local communities by expanding and operating leisure infrastructure for the elderly by size
 - Providing comprehensive services such as social participation, health promotion, and cultural leisure through the operation of the senior welfare center, an intermediate base for welfare services for the elderly.
 - Operation of leisure, job, and health promotion programs customized to the interests of the elderly
 - General counseling, information provision, support for the elderly in crisis and vulnerable, and nursing care, etc.
 - Support for the operation and functional reinforcement of 1 municipal center and 6 municipal centers
 - Operation of Bitgoeul 50+ Center, a comprehensive life redesign support platform for the elderly
 - Systematic support for various needs of the elderly, such as jobs, education, leisure, etc.
 - Life redesign counseling/consultation, employment/start-up, education and training, and community activities expansion
 - Activating the online platform “50+Portal” and promoting cooperation among related organizations of the elderly
 - Expanding the function of the village welfare center and revitalizing the use of the programs in senior citizen center
 - Operation of leisure activity spaces for the elderly using welfare center-type senior citizen centers (26 places)
 - * Welfare center type – 300m² or larger / Resident communication type – 100m² or larger
 - Providing customized cultural and leisure programs to senior citizens who use the senior citizen center

- Environmental improvement of old senior citizen centers and replacement of old equipment to create a comfortable environment
- Operation of complex facilities(Bitgoeul, Hyoryeong) for the elderly based on publicity and openness
 - Provide a variety of welfare services for the elderly that support health care and leisure activities for the elderly
 - Elderly jobs and social activities support projects, community-linked projects, and leisure and cultural programs
 - Linking welfare facilities and operating specialized programs such as social contribution camps
- Construction of elderly complex facilities in the western region specialized in dementia prevention (2019~2025)
 - Strengthening cognitive activities for the elderly and operating contents and programs related to dementia prevention
 - * Creation of specialized senior welfare center, national sports center, small library
 - The area around San 60, Bia-dong, Gwangsan-gu (22,173m² of land, 8,100m² of floor area)

2-② Expansion of cultural leisure participation programs

- Expanding various cultural leisure participation programs for healthy retirement life and providing opportunities for social activities to strengthen the social participation capabilities of the elderly.
- Revitalization of sports for the elderly through the operation of various sports for the elderly
 - Senior welfare center and senior citizen center visits to provide guidance on sports for all and hold sports for all competitions
 - Operating clubs such as gateball, park golf, Korean archery, go, chess, badminton, etc.
 - * Expansion of the base through the operation of sports programs in autonomous districts (senior societies)

- Operation of senior citizens' university to establish a new role as a senior citizen
 - Senior citizens aged 65 or older (80-100 people) / around 50 hours a year
 - Lectures and field trips such as liberal arts, culture, current affairs, life information, special lectures

- Operation of informatization education for the elderly in the information-vulnerable class
 - Operating programs that suit the level and preferences of the elderly (2,000 people per year)
 - * Computer basics, digital practical use, vocational education, mobile application courses, etc.
 - Conducting on-site education after demand survey for senior welfare centers in the jurisdiction
 - * The Gwangju Jeonnam branch of the Korea Welfare Information and Communication Council, informatization education visit

- Providing age-friendly public library services to strengthen access to knowledge and information for the elderly
 - Book section for the elderly such as health, leisure, psychology, publications (newspapers)
 - Expanding large-letter books (640 books per year), equipped with reading aids
 - Operation of reading culture programs for the elderly (2 programs per year)

- Promotion of customized cultural programs for the elderly
 - * Seo-gu, Gwangju
 - Creating a healthy play culture and enhancing harmony and vitality among senior citizen center members
 - Selecting of senior citizen centers in 18 dong to advance to the finals (traditional folk games competition at senior citizen centers)
 - * Four events: Yutnori, ring throwing, Tuho, Korean archery

- 100 years old friends, 100 years old club who take care of each other
 - * Dong-gu, Gwangju
 - Support for the operation of 20 clubs within 10 people (200 people)
 - (Type of activity) Calligraphy, healthy gymnastics, knitting, art, yoga, ground golf, etc.
 - * Mutual safety confirmation by group (daily), sharing leisure life, handling crisis, etc.

3. Strengthening smart care welfare

3-① Systematic provision of welfare services for the elderly

- Providing close care services for the elderly in vulnerable groups such as living alone, low income, and mobility difficulties, and establishing a care infrastructure using smart devices such as ICT
 - Providing customized care services for the elderly
 - Expansion of support targets (13,928 people → 15,680 people), increasing of provision personnel (925 people → 1,034 people)
 - Integrated support for elderly care services and provision of care services by region (19 organizations in 5 districts)
 - Providing customized services for the elderly in need of care
 - * (Personalized services) Safety support, social participation, and daily life support
 - * (Specialized service) Support for group programs for suicide prevention for the elderly in seclusion and depression
 - Free meal support for the elderly who are concerned about skipping meals
 - Price of meal support (KRW 4,000 per meal) / 4,445 people per year (basic living recipients, the secondary poor class, etc.)
 - Operating senior restaurants (29 locations) and delivering lunch box for the elderly with mobility difficulties (10 locations)
 - * Improving the quality of meals through hygiene inspection and supervision of project cost execution details.
 - Basic pension payment for providing a stable income base for the elderly
 - Pension payment to senior citizens aged 65 or older whose income recognition amount is below the selection criteria amount
 - * "Upgraded base amount in 2023 (KRW 1.8 million → KRW 2.02 million for single households, KRW 2.88 million → KRW 32.32 million for married households)
 - Strengthening the operation and publicity activities of the "history management system for supply and demand request" to discover recipients

- Support for emergency safety and security services for the elderly living alone and the disabled
 - Installing and operating in-house equipment for ICT-based next-generation emergency safety and security service in the home
 - Installation of fire/gas detectors, activity sensors, and quick response in case of an emergency

- Establishment of smart care services for the elderly and mobile healthcare
 - Establishment of smart care services using ICT devices (performance Organization: Seo-gu, Gwangju)
 - * Providing smart care services such as emergency safety, emotional support, medical and health management.
 - Mobile healthcare for customized health care using health examination results
 - * Provide health living practice services: health information transmission, monitoring, counseling, etc.

3-② Promotion of senior citizens' human rights and spread of respect culture for the elderly

- Preventing elder abuse, which is continuously increasing due to aging and nuclear family, and spreading the culture of senior human rights and elderly filial piety.
 - Prevention of elder abuse and operation of a shelter exclusively for the abused elderly
 - Systematic and professional response to elder abuse, such as case reception, counseling, and on-site investigation
 - * Operation of case judgment committee consisting of experts from all walks of life (8 persons, once a quarter)
 - Temporary protection of the abused elderly, provision of psychological counseling programs, medical support, etc.

- Human rights education for workers in senior welfare facilities to improve the sensitivity of human rights for the elderly and the understanding of human rights for the elderly.
 - Senior counseling techniques, case study, tips for dealing with human rights violations, education on kind service, etc.
 - 40 times a year / target: employees of welfare facilities and long-term care facilities

- Holding the respect and filial piety event to improve social awareness of the elderly
 - Twice a year (Parents' Day, Senior Citizens' Day) / ceremony, additional events*, celebratory performances, etc.
 - * Organization of additional events such as physical education and art centered on senior citizens' participation
 - Succession and development of pan-citizen filial piety culture through discovery and commendation of people spreading filial piety

4. Support for health and care services

4-① Health promotion for the elderly

- Health care for the elderly on a regular basis to prevent diseases, treat early, and reduce social medical expenses
 - Operation of a health senior citizen center for the elderly who use senior citizen centers in vulnerable areas (circular medical treatment)
 - Supporting doctors in charge of senior citizen centers and providing medical services (500 locations per year)
 - * Health counseling (doctors' association), oriental medicine treatment (oriental medicine doctors' association), oral examination (dentists' association)
 - * Health promotion program operation and health check (blood pressure, blood sugar, osteoporosis test, etc.)
 - Providing visiting health care services by life cycle for the medical-vulnerable groups (elderly living alone, elderly with mobility difficulties) (20,000 people per year)
 - Management of chronic diseases such as hypertension and diabetes and prevention of complications
 - Prevention of diseases such as anit-smoking, antialcoholism, and physical activity by practicing healthy life
 - Familiarization with tips for preparing for heat waves and cold waves, prevention of falls, management of depression and dementia, etc.
 - Medical examination for the elderly for early detection and treatment of diseases
 - Medical benefit recipients aged 65 or older, the secondary poor class (about 800 people per year)
 - * (1st) Basic medical treatment and blood tests, etc. //(2nd) Observed and sick persons after the 1st examination

- Internet of Things-based health care services for the elderly
 - Providing non-face-to-face health care services using smart technology
 - Senior citizens aged 65 or older who need to improve chronic diseases and health behavior (3,000 people per year)
 - * Providing mobile application and IoT-based health measurement devices (period: 6 months)

- Operation of the age-friendly industry support center
 - * Gwangju Institute of Science and Technology
 - Development and commercialization of dementia and fall prevention technology, promotion of the age-friendly medical device industry, etc.
 - Technical guidance, corporate support such as marketing, product experience, life experience, etc.

4-② Expansion of dementia prevention infrastructure

- Environmental improvement of elderly care facilities and expansion of infrastructure for dementia prevention and management
 - Strengthening of functions of senior nursing facilities
 - Improvement of the facility environment for the safety and convenience of the elderly using senior nursing facilities
 - Facilities expansion, renovation, equipment reinforcement, fire safety window installation support, etc.
 - * Project target: senior nursing facilities, day and night care facilities, nursing facilities, etc.

 - Operation of dementia relief center for effective and systematic dementia management and prevention services
 - Providing services such as registration of dementia patients, counseling and early examination, case management, etc.
 - Short-term dementia shelter (daytime protection) and operation of dementia cafe (family manager), etc.
 - * Operating 1 location (total 5) for each autonomous district

- Operation of dementia patient support program to return to daily lives of dementia patients
 - Supporting dementia patients and their families to return to their daily lives, creating a dementia-friendly environment, etc.
 - Operation of dementia support programs in public nursing hospitals
 - * Operating Institution (2 locations): 1st Gwangju Municipal Nursing Hospital, 2nd Gwangju Municipal Nursing Hospital

- Establishment of dementia demonstration center to develop AI-based customized dementia technology
 - Development of healthcare industry linking dementia biometric data with artificial intelligence convergence industry
 - Establishment of dementia demonstration center, demonstration support, support for commercialization of dementia prediction, diagnosis, and treatment technology, etc.
 - * Performing organization: Gwangju Techno Park, Chosun University Hospital, and Chonnam National University Hospital

4-③ Improving the level of long-term care services

- Providing and raising the level of long-term care services to reduce the economic burden of the elderly with geriatric disease and dependents.
 - Support for long-term care service for the low-income senior citizens with geriatric disease
 - Support for facility benefits (admission), home care benefits (visit), etc. for grader 1 to 5 and support for use of nursing facilities for non-grader

 - Establishment of short-term care facilities for the elderly with dementia who need protection in short-term facilities
 - Short term admission and protection for those with cognitive support grades who cannot be cared for due to temporary absence of protectors
 - * Support for labor cost (1 person) and operating expenses of service-providing facilities (day and night protection agencies)

- Payment of special allowances to workers in senior care facilities for boosting morale and improving treatment
 - Boosting morale and improving treatment of workers in low wages and hard working environments
 - * Workers who have signed a full-time employment contract and worked 8 hours a day and more than 20 days or more a month
 - * KRW 60,000 per month for elderly care facilities (96 locations), KRW 50,000 per month for day and night care centers (149 locations)

5. Improvement of living environment

5-① Creating a safe and convenient transportation environment

- Creating a safe and convenient transportation environment for the elderly
 - Expansion and improvement of senior protection zones to protect the elderly from traffic accidents
 - Maintenance of traffic safety facilities in senior protection zones (around 3 locations per year)
 - * Improvement of signs and road markings in senior protection zones, improvement of speed bumps and traffic safety facilities
 - Support for elderly driver's license return to reduce the incidence of traffic accidents in the elderly
 - When an elderly driver aged 70 or older returns the driver's license, he or she will be paid KRW 100,000 (transportation card). * 3,000 people per year
 - Construction of smart crosswalks to create safe walking environment
 - Establishment of a system such as a walking signal voice guidance assistance device and automatic extension of walking signal
 - * Point of frequent accidents with the vulnerable in traffic: elderly pedestrians, children pedestrian, school zone, etc.
- Securing the travel rights by improving the city buses environment, which is the main means of transportation for the elderly.
 - Building barrier-free stops of city bus for convenience and safety of public transportation
 - Improvement of station environment centered on low-floor bus routes (50 locations by 2027)
 - * Removal of obstacles such as curved sidewalks, horizontal flowerbeds, recycle bins, installation of wheelchair waiting areas and Braille blocks, indication of stopping location, etc.

- Expansion of the introduction of low-floor buses to improve the city bus usage environment for the vulnerable in traffic such as the elderly
 - Ensuring safe and convenient travel rights for the vulnerable in traffic (the elderly, the disabled, pregnant women)
 - Goal of introducing 400 buses by 2027 (80 buses every year)
- Conducting service training for transportation workers for safe driving
 - Maintenance training for drivers, human rights education for the vulnerable in traffic, kindness and safety education, etc.
 - * Trainees: Transportation workers on city buses (2,000 people per year)

5-② Improvement of living space environment for the elderly

- Improvement of the age-friendly living environment
 - Prevention of environmental diseases in elderly activity spaces such as elderly households living alone and senior citizen centers
 - Diagnosis and consultation of harmful factors in the indoor environment
 - *Korea Institute of Environmental Industrial Technology
 - Improvement of indoor environment such as wallpaper, floorboard, and paint (18 households per year)
 - Support for medical and drug expenses for people with environmental diseases (atopy, asthma, etc.) in connection with specialized hospitals
 - Improvement of residential space in permanent rental apartment
 - Remodeling the long-term vacant ultra-small (7 pyeong) permanent rental household (750 households)
 - Improving the energy performance of buildings, reducing the burden of housing costs, and reducing greenhouse gas emissions
 - Improving facilities for elderly convenience (adjustment of sink height, removal of threshold, etc.)
 - Support for fostering Gwangju-style urban agriculture for stable urban agricultural spaces
 - Construction and operation of public farms, development of welfare

- gardens, and creation of urban agricultural villages
- Operation of rooftop garden, box garden, and climate farmers development program
- Establishment of temperature reduction facilities for the vulnerable to climate change
 - Establishment of temperature reduction facilities (cool roofs) in areas of the vulnerable to climate change
 - Target: 262 locations by 2027
 - (*30 in Dong-gu, 31 in Nam-gu, and 1 in Buk-gu in 2023)

6 Budget

□ Budget (2023-2027, 5 years): total KRW 4.1494 trillion

(* basic pension KRW 2.891 trillion)

Area	Project name	Annual budget (unit: KRW 1 million)						Note
		Total	2023	2024	2025	2026	2027	
Total		4,149,413	804,230	820,146	827,590	836,809	860,638
