

1. Strategic Projects for Major Tasks. (Implementation Plans)

(1) Create convenient and secure infrastructures

1) Area 1: Housing Facilities.

Table 1. Strategic Plans for the Housing Facilities.

No.	Project names		Contents of the project	Ref.
1-1	Creating a Convenient and Safe Village	'Mende' Village	Up-lifting the quality of life of the elderly by improving the residential environment and village landscape through the maintenance of old and poor housing	
		Central District		
		'Taepyeong' District		
		'Yongcho' Village		
1-2	Urban and Rural Residential Environment Projects		Creating a safe and convenient residential environment for the elderly population by removing empty houses and improving old roofs	
1-3	A project for the repair of old owner-occupied houses.		Support with various convenience facilities for the disabled and the elderly to create an obstacle-free living environment (installing secure ramps, doors, handles, and bathroom sliding doors; adjusting shower height, etc.)	
1-4	Support of elderly families		Creating a residential environment where senior citizens living alone can live safely and conveniently	
1-5	Establishment of Housing Welfare Delivery System		Establishing the Tongyeong Housing Welfare Center for the elderly to provide counseling and support services related to housing issues.	2 nd Action plan

2) Area 2: Transportation

Table 1. Strategic Transportation plans

No.	Project names	Contents of the project	Ref.
2-1	Operation of special means of transportation for the weak	Operation of special means of transportation for the weak (satisfaction survey) due to the increase in the elderly population who are unable to use public transportation	
2-2	Promotion of the purchase of eco-friendly low-floor buses	Expansion of introduction of eco-friendly low-floor buses, filling up operating losses, and establishment of complex charging stations	
2-3	Installation and maintenance of road traffic safety signs	Promotion of elderly people's convenience in using public transportation through lane painting, installation of road traffic safety signs, establishment and maintenance of platforms, etc.	
2-4	A project to build a parking tower in the old downtown	Resolving inconvenience in residents' lives due to frequent traffic jams and parking difficulties in urban areas	
2-5	Improvement of Taxi Transport (Onjeong Taxi Project)	Operation of integrated call centers to promote convenience of taxi service for the elderly population	
2-6	Support of the self-return of driver's license	Prevent traffic accidents in advance by encouraging the voluntary return of driver's licenses of elderly drivers	
2-7	Designation and management of senior citizens protection zones	Improving the traffic environment by installing safety facilities in the elderly protection zone	
2-8	Operation of Bicycle Training Center	Setting up safety education and bicycle driving training programs to enable the use of bicycles	
2-9	Securing parking areas for senior citizens	Securing parking areas for senior citizens (2% for 50 or more parking sides) when planning a parking lot construction	
2-10	Expansion and operation of citizen-centered transportation facilities	Expansion of transportation facilities for the mobility impaired (extension of signal time for crosswalk, etc.)	

3) Area 3: Outdoor spaces and facilities.

Table 2. Strategic Plans for the Outdoor Spaces and Facilities.

No.	Project names	Contents of the project	Ref.
3-1	Operating and managing the centers for senior citizens	Ubiquitous-based health care system for the elderly to detect diseases early and improve health levels, and operate crime prevention and disaster prevention safety control systems for senior citizens	
3-2	Operating the Integrated Control Center	Establishment of multi-purpose video information processing devices in residential areas, rural villages, and senior citizens protection zones	
3-3	Safety Inspection and Maintenance of Construction Facilities in the Island Areas	Maintaining facility management status for safe use by residents and tourists in island areas.	
3-4	Road Facility Maintenance and Maintenance Project	Creating a safe and convenient road environment through the maintenance of sidewalk blocks	
3-5	Public toilet management	public toilet management	
3-6	Measures to control and reduce fine dust	Establishment of fine dust traffic lights and air quality information system to secure citizens' right of health	
3-7	Urban Parks and Green Areas Management	Increasing urban parks and green spaces for the convenience of the elderly population	
3-8	Sports Infrastructure Development Project	Creating an environment for the elderly to use safe and comfortable sports facilities	
3-9	Expansion of B/F certification	Securing convenience of movement and access to public areas and facilities for all citizens	

(2) Creating a happy community worth living in

1) Area 4 : Communication and Information

Table 4. Strategic Plans for Communication and information

No.	Project names	Contents of the project	Ref.
4-1	Publishing "Tongyeong Madang" (newsletter)	Organizing diverse and beneficial contents for the elderly and encouraging the interest and participation of the elderly population	
4-2	Promotion of municipal administration using online media	Accessibility is improved through the use of online media to provide a window for close communication with the elderly population.	
4-3	Operating Tongyeong Municipal Library	Development and provision of books and culture programs for the elderly who are alienated from cultural activities (Operating Custom Book Culture Program)	
4-4	Large-character bookkeeping	Eliminating the digital divide among the elderly and providing an environment for reading without discrimination	

2) Area 5: Social Participation

Table 5. Strategic Plans for the Social participation

No.	Project names	Contents of the project	Ref.
5-1	Support for sports-for-all programs	Operation and support of a sports-for-all program (Long life sports college) in which the elderly population can participate.	
5-2	Operation of Life-long Culture Learning Program	Operation of life-long learning programs in accordance with life-cycle	
5-3	Adult Literacy Support Project	Operation of Adult Literacy Classes, Delivery Lectures, and Adult Literacy Learning Groups for the Elderly	
5-4	Program Support for senior citizen centers	Creating an environment where senior citizens can enjoy a healthy and lively leisure life in the senior citizen center	
5-5	Program Support for the Community Service Center	Expand opportunities for the elderly population to actively participate and enjoy	
5-6	Operation of a College for the aged	Expand opportunities for senior citizens to participate in society through support for lifelong education and leisure activities	
5-7	Establishment and operation of the Senior Center	Performing the first stage of the Gyeongnam type dementia management system, strengthening the function of welfare centers in the region, making it a regional hub for senior citizens (leisure, protection, medical care, and care services)	
5-8	Operation of Tongyeong Night School	Lifetime redesign education for middle-aged people (operation of certificate courses)	
5-9	Rural New Vitality Plus Project	Living on the island for a month, senior citizens participate in community programs, and the city supports senior citizens' farming activities including cultivation of landscape crops	

3) Area 6: Respect and Consideration: Cultivation of Senior-friendly Attitude

Table 6. Strategic Plans for Respect and Social Embracing

No.	Project names	Contents of the project	Ref.
6-1	Support for Festival in the Island Areas	Creation of a festival for island residents, tourists and local residents to enjoy as one.	
6-2	Free Meal Service and Low-income Senior Citizens' Meal Delivery Project	45 low-income senior citizens operating 4 free senior citizen restaurants, and 40 elderly people with mobility difficulties delivered meals
