

Yamato City
Age-friendly City Action Plan
2021-2023

Healthy City Yamato

1. Purpose of the Action Plan for Age-Friendly Cities

- ✧ The World Health Organization (WHO) has proposed the concept of Age-Friendly Cities to cope with global aging and urbanization. Based on the results of interviews with older people in 33 cities in 22 countries, the WHO released a guide on Age-Friendly Cities in 2007, which identifies eight areas (topics) that need to be examined in order to promote Age-Friendly Cities.

Eight topics of Age-friendly Cities】

- ✧ In 2010, WHO established the Age-Friendly Cities Global Network with the aim of promoting collaboration among local governments and other organizations working on Age-Friendly Cities. Our city joined the network in 2017 in order to promote more effective and sustainable measures for the elderly, based on the international approach advocated by WHO*.

*1114 cities, towns, and villages in 44 countries; from Japan, Akita City in Akita Prefecture, Takarazuka City in Hyogo Prefecture, and 22 cities and towns in Kanagawa Prefecture are participating (as of April 2021).

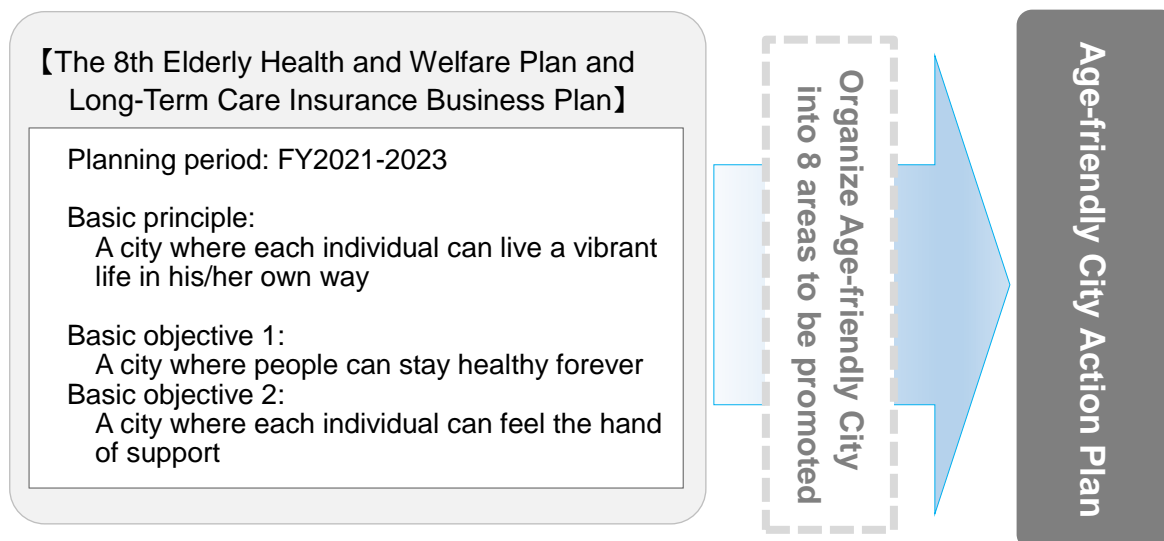

- ✧ Participating cities in the global network have formulated action plans to promote Age-Friendly Cities and are making continuous improvements. In our city, too, we will formulate an action plan based on the actual situation of the region and promote the development of an age-friendly city.

2. Outline of the Action Plan

- ✧ The "Elderly Health and Welfare Plan and Long-Term Care Insurance Business Plan" formulated by our city sets basic goals regarding measures for the elderly that are appropriate for a longevity society, and clarifies the overall measures to be taken to realize them. This plan covers a wide range of health and welfare services for the elderly that are not covered by long-term care insurance, as well as other related measures, which is in line with the concept of Age-Friendly Cities advocated by the WHO.
- ✧ The Age-Friendly City Action Plan will be developed by organizing the "Elderly Health and

Welfare Plan and Long-Term Care Insurance Business Plan" into eight areas (topics) that need to be verified by WHO.

【The "Elderly Health and Welfare Plan and Long-Term Care Insurance Business Plan" and Age-friendly City Action Plan】

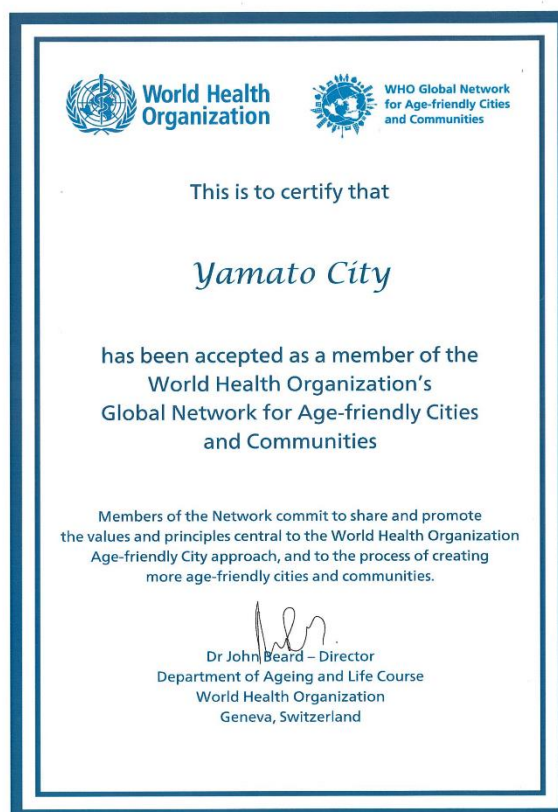

【The eight areas (topics) in the Age-friendly Cities】

1 Outdoor space and building
The external environment and public facilities greatly affect the mobility, independence, and quality of life of the elderly, and whether they can "age in the place where they are".
2 Transportation
Transportation, including affordable public transportation with easy-to-use fares, is one of the major factors influencing active aging.
3 Housing
Housing is essential for safety and well-being. The adequacy of housing and the accessibility of community services and social services are interconnected and affect the independence and quality of life of the elderly.
4 Social participation
By participating in community leisure, social, cultural, and spiritual activities, the elderly can use their abilities, receive respect and dignity, and continue to maintain and build relationships of support and care.
5 Respect and social inclusion
On the one hand, they feel respected, recognized and accepted, and on the other hand, they feel uncared for in their communities, services and homes.
6 Civic participation and employment
Elderly-friendly communities offer seniors the option to continue to contribute to the community in the form of wage employment or volunteer work if they so desire, and to be involved in the political process.
7 Communication and information
Staying connected to events and people, and having timely access to practical information for managing life and addressing personal needs is essential for active aging.
8 Community support and health service
Health and support services are essential to maintaining health and independence in the community. Many of the concerns raised by the elderly, caregivers, and service providers relate to whether they can make the enough use of good, appropriate, and convenient care.

3. Progress Management of the Action Plan

- ✧ The "Elderly Health and Welfare Plan and the Long-Term Care Insurance Business Plan" is formulated every three years, and their implementation status is evaluated by the Council for the Elderly Health and Welfare Plan and the Long-Term Care Insurance Business Plan.
- ✧ The Age-Friendly City Action Plan will be continuously reviewed by revising the action plan in line with the formulation of the "Elderly Health and Welfare Business Plan and Long-Term Care Insurance Business Plan". Progress management will be conducted based on the implementation and evaluation of projects in the "Elderly Health and Welfare Business Plan and Long-Term Care Insurance Business Plan.

Certificate of Approval for Participation
in the WHO Global Network for Age-friendly Cities and Communities

4. Current Situation Surrounding the Elderly in Yamato City

The aging rate in Yamato City is 23.9% (as of October 1, 2020: Basic Resident Register), which is lower than the national average of 28.7% (as of the same date: "Provisional Demographic Data" by Ministry of Internal Affairs and Communications) and the Kanagawa Prefecture average of 25.3% (as of January 1, 2020). However, the aging rate in urban areas is expected to increase more rapidly than that in provincial cities in the future, and Yamato City is also expected to see an increase in the aging rate, especially a significant increase in the number of people aged 75 and over (old-old generation). The situation surrounding the elderly in Yamato City is as follows.

- (1) Population estimates (actual figures until FY2020, estimated figures based on Cohort Factors Method*¹ since FY2021) and estimated number of people certified as requiring support or long-term care (actual figures until FY2020, estimated figures since FY2021)

Plan		7th Plan		8th Plan			9th Plan			14th
Fiscal Year		2019	2020	2021	2022	2023	2024	2025	2026	2040
Population	Total Population	238,743	240,523	241,612	242,618	243,546	244,390	245,167	245,854	⇒ 248,679
	Elderly Population	56,695	57,494	58,054	58,459	58,970	59,403	59,895	60,308	⇒ 73,443

	Care Level 4	1,179	1,272	1,338	1,404	1,472	1,533	1,597	1,662	⇒ 2,151
Care Level 5	872	869	908	951	993	1,033	1,070	1,102	⇒ 1,360	

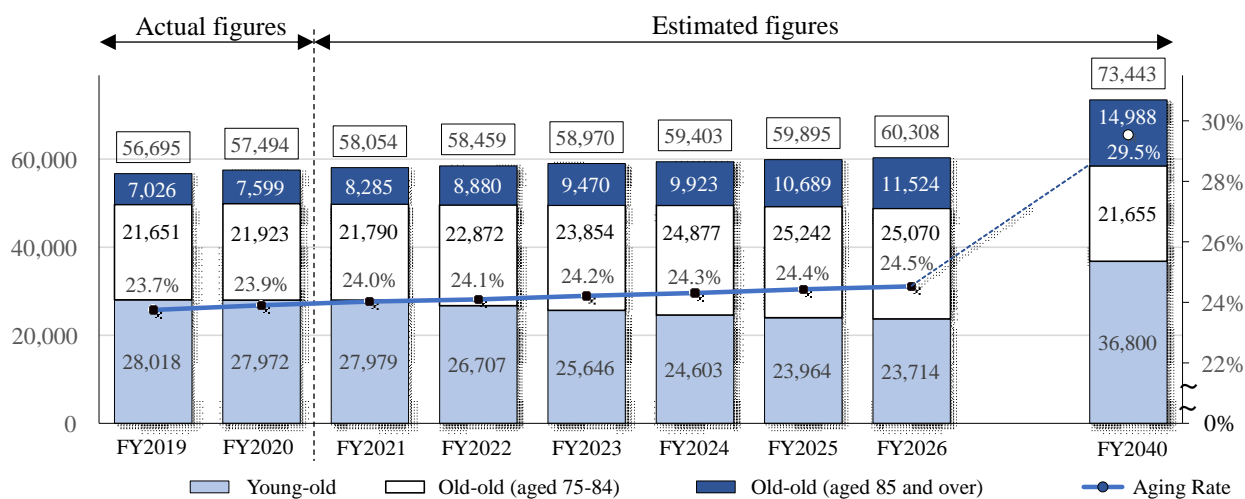

*1 Cohort Factors Method :

A "cohort" is a group of people who were born in the same year (or the same period). The "cohort factor method" is a method of estimating population change based on the trend of secular changes in "natural increase or decrease" in births and deaths, and "social increase or decrease" due to relocation, etc., based on the time change of each group. In addition, due to the differences in the reference points, the population estimates may differ from those in other plans developed by our city.

*2 Primary Insured Persons and Secondary Insured Persons :

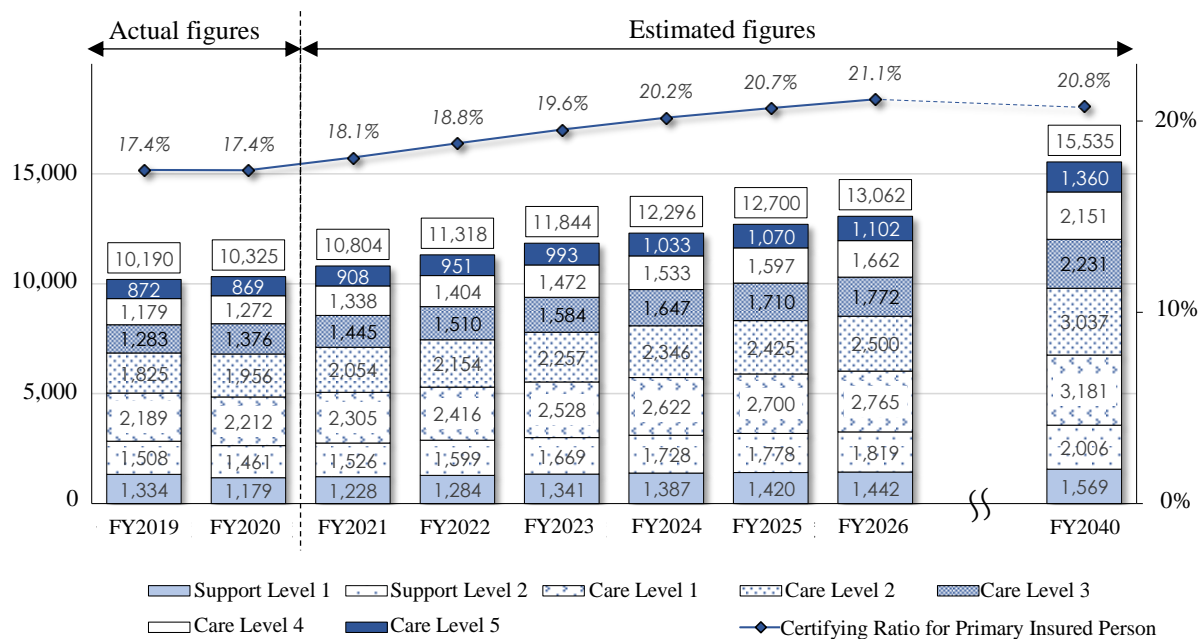

Those insured under long-term care insurance are divided into two groups: Primary Insured Persons (people aged 65 and over) and Secondary Insured Persons (medical insurance subscribers aged between 40 and 64). Primary Insured Persons can use long-term care services when they are certified as requiring support or long-term care, regardless of the cause, while Secondary Insured Persons can use long-term care services when they are certified as requiring support or long-term care due to age-related diseases (specified diseases).

《Population Estimates》

*As of October 1 of each year

《Estimates of Persons Certified as Requiring Support or Long-term Care》

*As of October 1 of each year

*Including Secondary Insured Person

*The reason for the decrease in the certifying ratio in FY2040 compared to FY2026 is the increase in the number of people in young-old generation whose certifying ratio is smaller than that of the other generations.

(2) Changes in status of certification as requiring support or care

		FY2015	FY2016	FY2017	FY2018	FY2019	FY2020
Young-old (Aged 65-74)	Number of Certified Persons	1,348	1,421	1,417	1,421	1,365	1,374
	Number of Eligible Persons	30,459	30,248	29,759	28,855	28,018	27,972
	Certifying Ratio	4.4%	4.7%	4.8%	4.9%	4.9%	4.9%
Old-old (Aged 75 and over)	Number of Certified Persons	6,801	7,223	7,720	8,184	8,524	8,651
	Number of Eligible Persons	22,329	24,029	25,597	27,241	28,677	29,522
	Certifying Ratio	30.5%	30.1%	30.2%	30.0%	29.7%	29.3%
Aged 75-84	Number of Certified Persons	3,477	3,637	3,917	4,147	4,234	4,187
	Number of Eligible Persons	16,968	18,261	19,492	20,699	21,651	21,923
	Certifying Ratio	20.5%	19.9%	20.1%	20.0%	19.6%	19.1%
Aged 85 and over	Number of Certified Persons	3,324	3,586	3,803	4,037	4,290	4,464
	Number of Eligible Persons	5,361	5,768	6,105	6,542	7,026	7,599
	Certifying Ratio	62.0%	62.2%	62.3%	61.7%	61.1%	58.7%
Secondary Insured Persons (Aged 40-64)	Number of Certified Persons	304	292	300	296	301	300
	Number of Eligible Persons	81,808	82,458	83,264	84,011	85,016	85,926
	Certifying Ratio	0.4%	0.4%	0.4%	0.4%	0.4%	0.3%

*As of October 1 of each year

(3) Changes in status of the household (from National Census)

	FY1995	FY2000	FY2005	FY2010	FY2015
Population	203,933	212,761	221,220	228,186	232,922
Number of Households	77,383	84,382	91,001	97,244	102,020
Number of Persons in Household	2.64	2.52	2.43	2.35	2.28

(4) Changes in the number of elderly people with dementia*¹ who have been certified as requiring support or care (from 'Health and Welfare')

	FY2015	FY2016	FY2017	FY2018	FY2019
Number of elderly people with dementia	2,324	2,486	2,681	2,846	2,986

*1 Elderly people with dementia :

Among those who are certified as requiring support or long-term care, those who are generally able to live independently indoors but are unable to go out without assistance are classified as "elderly people with disabilities with a level of independence in daily life up to rank A," and those who have "elderly with dementia with a level of independence in daily life Iib or higher," which means that they can be independent if someone pays attention to them, even if they show some symptoms, behaviors, or difficulties in communication that interfere with daily life (Level of independence in daily life for elderly people with disabilities: Independence - A2, Level of independence in daily life for elderly people with dementia: Iib - M). Note that this is a criterion for calculating the statistical values and differs from the general definition of the term "elderly people with dementia.

5. Basic Principles and Basic Objectives of the Action Plan

- ◆ Planning Period: FY2021-2023
- ◆ Basic Principle: A city where each individual can live a vibrant life in his/her own way
- ◆ Basic Objectives: In order to draw out the power of the local community and implement measures and initiatives that are unique to Yamato City, based on the national policy and the local characteristics of Yamato City, the following two basic objectives are set and the respective policy systems are established.

Basic Objectives and System of Measures

Basic objective 1 A city where people can stay healthy forever	
1-1: We will expand and enhance initiatives that enable people to live with a sense of purpose in life and zest for life.	1-1-1: Providing places and opportunities for the elderly to be active 1-1-2: Creating a place for the elderly and Creating a sense of purpose in life for the elderly
1-2: We will work for health promotion and care prevention.	1-2-1: Promoting health checkups and various medical examinations 1-2-2: Promoting various health promotion projects 1-2-3: Strengthening comprehensive long-term care prevention and daily life support project (general long-term care prevention project)
Basic objective 2 A city where each individual can feel the hand of support	
2-1: We will promote to create an environment where people are support each other and can live with peace of mind.	2-1-1: Establishing a community watchdog system and network 2-1-2: Strengthening the functions of community comprehensive support centers 2-1-3: Enhancing comprehensive long-term care prevention and daily life support project (long-term care prevention and daily life support service projects) 2-1-4: Enhancing support for housing for the elderly 2-1-5: Enhancing daily life support 2-1-6: Enhancing support for family care-giving
2-2: We will promote to create a community where people understand dementia and people with dementia can live with peace of mind.	2-2-1: Promoting understanding of dementia and supporting the communication from the patient him/herself about the disease 2-2-2: Making efforts to prevent dementia 2-2-3: Establishing a system for early detection and early response 2-2-4: Supporting people with dementia and their caregivers 2-2-5: Promoting barrier-free dementia 2-2-6: Promoting research and development, industrial promotion, and international expansion
2-3: We will create an environment where rights are protected.	2-3-1: Promoting protection of the rights of the elderly and abuse prevention 2-3-2: Promoting the use of the adult guardianship system
2-4: We will strengthen cooperation between home medical care and long-term care.	2-4-1: Strengthening cooperation between home medical care and nursing care
2-5: We will work to realize a community symbiosis society.	2-5-1: Making efforts to realize a community symbiosis society
2-6: We will work to ensure the proper operation of the long-term care insurance system (certification, benefits, and cost sharing).	2-6-1: Appropriating certification of the need for support and long-term care 2-6-2: Appropriating long-term care benefits 2-6-3: Managing long-term care insurance in a fair and stable manner
2-7: We will ensure and improve the quality of long-term care insurance services and secure and enhance the quantity of them.	2-7-1: Securing and training of care givers 2-7-2: Ensuring and improving the quality of long-term care insurance services 2-7-3: Developing long-term care insurance facilities, etc.
2-8: We will establish a system for disaster and infectious disease countermeasures.	2-8-1: Enhancing preparedness for disasters and infectious diseases

6. Items to be Addressed in the Eight Areas (Topics)

1 Outdoor space and building
Measure 2-1-4: Enhancing support for housing for the elderly
Universal Design Promotion Project

2 Transportation
Measure 2-1-5: Enhancing daily life support
Community Bus Operation Project, Community Ride-On Transportation Creation Support Project, Outing Support Project for the Elderly, Subsidies for the Use of Welfare Vehicles Projects

3 Housing
Measure 2-1-4: Enhancing support for housing for the elderly
Provision of housing renovation expenses, Promoting Earthquake-proofing of Buildings Project (support for installation of furniture fall prevention devices), Promoting Earthquake-proofing of Buildings Project (subsidies for renovation work to make buildings non-combustible and barrier-free), Provision of information on serviced residences for the elderly and residential type fee-based homes for the elderly (understanding and sharing the status of establishment in cooperation with Kanagawa Prefecture), Guidance to serviced residences for the elderly and residential type fee-based homes for the elderly, Providing information on local resources such as how to attend serviced residences for the elderly, places to go and gather for the elderly, etc. Actions for nursing homes for the elderly, etc. (reconstruction support project for nursing homes for the elderly), Support business for safe renting, Silver Housing (project to dispatch assistants for daily living at care homes for the elderly)
Measure 2-7-3: Developing long-term care insurance facilities, etc.
Development of small-scale multifunctional nursing home care

4 Social participation
Measure 1-1-1: Providing places and opportunities for the elderly to be active
Development of a support system for people's daily lives (establishment of a consultative body and assignment of mutual support promoters), Support for the Silver Human Resources Center, Support for fostering senior clubs (support for friendship team activities, etc.), Fureai (contacting each other) Network Project
Measure 1-1-2: Creating a place for the elderly and Creating a sense of purpose in life for the elderly
Whereabouts in the community, Subsidies for acupuncture, moxibustion, and massage treatments, Support for fostering senior clubs (support for friendship team activities, etc.),

<p>Designation of meeting places for the elderly, Providing Gifts to Honor the Elderly Program, Subsidies for renting a bus to make life worth living, Operation of welfare centers for the elderly, Fukuju (celebrating longevity) Card, Bathing service for the elderly, Welfare farm for the elderly, Health City University, Yamato lifelong learning network system, Yamato lifelong learning delivery lecture "Anywhere Lecture," Himawari Salon, Fureai (contacting each other) Network Project</p>
Measure 1-2-2: Promoting various health promotion projects
<p>Yamato Walking Picnic, Yamato Health Points, Activities of Yamato City dietary life improvement promoters</p>

5 Respect and social inclusion
Measure 2-2-4: Supporting people with dementia and their caregivers
<p>Abuse prevention of elderly people with dementia, Promotion of the use of the adult guardianship system (consumer damage prevention, etc.), Project for self-reliance support service for daily life: Anshin (peace of mind) Center</p>
Measure 2-2-6: Promoting research and development, industrial promotion, and international expansion
<p>Ministry of Economy, Trade and Industry: "Product and Service Effectiveness Verification Project for a Symbiotic Society with Dementia</p>
Measure 2-3-1: Promoting protection of the rights of the elderly and abuse prevention
<p>Public awareness programs regarding elderly abuse, Early reporting and early response to elderly abuse, The Yamato Elderly Safety Network, Emergency temporary admission program, Actions for nursing homes for the elderly, etc. (reconstruction support project for nursing homes for the elderly), Conducting delivery lectures on consumer affairs, Project for self-reliance support service for daily life: Anshin (peace of mind) Center</p>
Measure 2-3-2: Promoting the use of the adult guardianship system
<p>Raise awareness of the adult guardianship system (lectures and consultations on the adult guardianship system), Proactive use of the mayor's petition and corporate guardianship, Training of citizen guardians and support for their activities, Support for the use of the adult guardianship system, Promotion of the use of the adult guardianship system (prevention of consumer victims)</p>
Measure 2-5-1: Making efforts to realize a community symbiosis society
<p>Promotion of community welfare plans, Development of a support system for people's daily lives (establishment of a consultative body and assignment of mutual support promoters), Enhancement of community care meetings</p>

6 Civic participation and employment

Measure 1-1-1: Providing places and opportunities for the elderly to be active

The Yamato Volunteer General Information Center,
The Yamato Volunteer Center,
Hello work (public employment security office)

Measure 2-1-5: Enhancing daily life support

Support for the Silver Human Resources Center,
The Yamato Volunteer General Information Center,
Whereabouts in the community,
The Yamato Volunteer Center

7 Communication and information

Measure 1-2-2: Promoting various health promotion projects

Provision of health information services,
Yamato 24-hour health consultation,
Health City Library

Measure 2-4-1: Strengthening cooperation between home medical care and nursing care

Provision of local medical and long-term care information

Measure 2-6-3: Managing long-term care insurance in a fair and stable manner

Implementation of measures to promote awareness of the system and its purpose

Measure 2-8-1: Enhancing preparedness for disasters and infectious diseases

Awareness-raising and training on how to prepare for emergencies and disasters,
Establishment of procurement and transportation systems for emergencies and disasters,
Establishment of a support system for emergencies and disasters,
Providing correct information on infection prevention measures, testing methods, and vaccinations in the event of an outbreak of a new infectious disease such as a new coronavirus,
Support system for people requiring evacuation assistance

8 Community support and health service

Measure 1-1-1: Providing places and opportunities for the elderly to be active

Long-term Care Prevention Point Project,
Long-term Care Prevention Supporter Training Program,
Dementia Supporter Training Course,
Kids Supporter Training Course,
Dementia Supporter Training Step-up Course,
Dementia cafe (Yamato Café) volunteer training

Measure 1-2-1: Promoting health checkups and various medical examinations

Specific health examinations,
Longevity health checkup,
Cancer screening,
Adult Dental Health,
Subsidy program for complete physical examination by National Health Insurance,
Subsidy program for complete physical examination for people of the old-old generation,
Countermeasures against infectious diseases (vaccination)

Measure 1-2-2: Promoting various health promotion projects

Health consultation,

<p>Health education, Health management by health handbook, Visiting guidance by public health nurses and nutritionists, etc. Integrated implementation of health services and long-term care prevention for the elderly, Adult dental health, Activities of Yamato City health promotion staff, Training of Yamato City dietary life improvement promoters, Heatstroke countermeasures, Efforts to prevent passive smoking</p>
<p>Measure 1-2-3: Strengthening comprehensive long-term care prevention and daily life support project (general long-term care prevention project)</p>
<p>Project to understand long-term care prevention (long-term care prevention questionnaire), Long-term care prevention promotion and awareness programs (health playground equipment workshops, long-term care prevention seminars), Community Long-term Care Prevention Activity Support Project (Long-term Care Prevention Supporter Training Project, Long-term Care Prevention Point Project, Fureai ((contacting each other)) Network Project), Evaluation project for general long-term care prevention project, Community rehabilitation activity support project, Integrated implementation of health services and long-term care prevention for the elderly</p>
<p>Measure 2-1-1: Establishing a community watchdog system and network</p>
<p>Home visit survey for the elderly, Surveys for people certified as requiring support or long-term care at home, Support for watchdog activities by civil welfare officers and child welfare officers, Providing Gifts to Honor the Elderly Program, Agreement on Community Watching and Peaceful Community Building, The Yamato Elderly Safety Network, Elderly Watching System, Emergency Medical Information Kit, Support system for people who need support for evacuation activities, Conclusion of agreements with special nursing homes for the elderly in times of disaster, etc. Fureai (contacting each other) Network Project</p>
<p>Measure 2-1-2: Strengthening the functions of community comprehensive support centers</p>
<p>Strengthening the functions of community comprehensive support centers, Enhancing community care meetings, Home care support centers, Management council of the community comprehensive support centers</p>
<p>Measure 2-1-3: Enhancing comprehensive long-term care prevention and daily life support project (long-term care prevention and daily life support service projects)</p>
<p>Home-visit services*, Day-care services*, Care management of long-term care prevention*, Increasing flexibility of target persons and unit prices of long-term care prevention and daily life support service projects</p>
<p>Measure 2-1-5: Enhancing daily life support</p>
<p>Development of a support system for people's daily lives (establishment of a consultative body and assignment of mutual support promoters), Comprehensive projects (home-visit type services, day-care type services, etc.), Lending of welfare equipment and provision of welfare equipment purchase expenses*, Fureai Collection, Silver Drive Check,</p>

<p>Support for preparation for the end of life for single people, etc., Komoribito (people of social withdrawal) Support Project, Fureai (contacting each other) Network Project, Home-visit hairdressing service, Wheelchair rental</p>
<p>Measure 2-1-6: Enhancing support for family care-giving</p>
<p>Diaper allowance, Family caregiver benefits, Family caregiver classes, Support for caregiver exchange meetings (organized by the Community Comprehensive Support Center), Individual dementia counseling and caregiver exchange meetings by certified psychologists, Wheelchair rental</p>
<p>Measure 2-2-1: Promoting understanding of dementia and supporting the communication from the patient him/herself about the disease</p>
<p>Dementia lecture meetings, Dissemination of dementia care pass, Dementia awareness-raising events, Dementia Supporter Training Course, Kids Supporter Training Course, Dementia Supporter Training Step-up Course</p>
<p>Measure 2-2-2: Making efforts to prevent dementia</p>
<p>Dementia prevention seminar (cognisize), Dementia Prevention Cognisize Project, Cogni Bike installation related business, Cognitive function tests using tablets, Visiting guidance by public health nurses and nutritionists, etc., Day-care service C (short-term intensive prevention service)</p>
<p>Measure 2-2-3: Establishing a system for early detection and early response</p>
<p>The "Dementia Lighthouse": A general consultation service for dementia, Early intensive support team for dementia, Dementia concierge (dementia community support promoter), Multidisciplinary collaborative research on dementia care, A simple dementia check system, Enhancement of community care meetings, Promote the use of dementia care pass, Cognitive function tests using tablets</p>
<p>Measure 2-2-4: Supporting people with dementia and their caregivers</p>
<p>Support for holding "Wasurenagusa no Kai" meetings for individuals and families with juvenile dementia, Building a framework for the establishment of "Team Orange", Establish a system for social participation activities, Dementia café (organized by the city and the Community Comprehensive Support Center), Cooperation with the Association of People with Dementia and Their Families, Subsidies for operating dementia café (organized by citizens), Support for caregiver exchange meetings (organized by the Community Comprehensive Support Center), Individual dementia counseling and caregiver exchange meetings by certified psychologists, SOS Network for wandering elderly people, Support business for locating wandering elderly people, Personal liability insurance business for wandering elderly people, Agreement on Community Watching and Peaceful Community Building, Subsidies for group home rent, etc., Counseling on loss of memory and mental health and welfare by medical specialists</p>

Measure 2-2-5: Promoting barrier-free dementia
Ministry of Economy, Trade and Industry: "Product and Service Effectiveness Verification Project for a Symbiotic Society with Dementia", Ministry of Health, Labour and Welfare: "Research and Study to Promote a Public-Private Partnership Platform on Dementia", Dementia Supporter Training Course, Kids Supporter Training Course, Dementia Supporter Training Step-up Course, Agreement on Community Watching and Peaceful Community Building, Promotion of the use of the adult guardianship system (prevention of consumer victims), Personal liability insurance business for wandering elderly people
Measure 2-2-6: Promoting research and development, industrial promotion, and international expansion
Ministry of Health, Labour and Welfare: "Research and Study to Promote a Public-Private Partnership Platform on Dementia"
Measure 2-4-1: Strengthening cooperation between home medical care and nursing care
Home medical and long-term care coordination promotion project, Enhancement of services to provide medical care and long-term care in an integrated manner
Measure 2-5-1: Making efforts to realize a community symbiosis society
Designation of symbiotic service offices
Measure 2-6-1: Appropriating certification of the need for support and long-term care
Extension of the period of validity of accreditation*, Simplification of the examination by the Accreditation Review Board, Inspection of accreditation survey results, Confirmation of service utilization status of certified persons Review of the consultation system for application for certification, Awareness-raising for care managers and other service providers
Measure 2-6-2: Appropriating long-term care benefits
