

Chapter 5 Planning for the Creation of an Age-Friendly City in Cheongyang-gun

Section 1 Vision and Strategic Objectives

Section 2 Action Plan by Area

Section 3 Budget Requirements

Chapter 5 Planning for the Creation of an Age-Friendly City in Cheongyang-gun

Section 1 Vision and Strategic Objectives

- The vision of Cheongyang-gun's 8th elected administration is 'Creating Cheongyang together, for a happy future together'. The five major goals that the administration wants to attain are the following:
 - Rural areas that farmers can be proud of;
 - Strong regional economy;
 - Warm community of hope;
 - An attractive city that must be visited; and
 - Participation in an administration where citizens are partners.
- Among the five major pledge areas, the goal for health and welfare is 'to achieve the best condition in health and create a 100-year welfare model.' This shows that continuous efforts are being made to create elderly-friendly conditions.
- In this study, the vision and goals for creating an age-friendly city are set as follows.
 - Among the goals of the 8th elected administration, 'Everyone Creating Together' means that all generations communicate, integrate, and unite with each other, so it is set as "Building Happiness Together: 100-year old Cheongyang" to create a 100-year-old city Cheongyang by generational integration.
 - The four strategic goals consist of:
 - Creating a physical environment for a pleasant retirement;
 - Creating a cultural and economic environment for an active retirement;
 - Creating a social environment where everyone can get along; and
 - Supporting health services for a healthy retirement.

○ Matching the 8 areas presented by WHO with the 4 strategic goals would be the following:

- Creating a physical environment for a pleasant retirement: outdoor spaces and buildings, transportation, housing
- Creating a cultural and economic environment for an active retirement: civic participation, employment, and social participation
- Creating a social environment where everyone gets along: communication and information, respect and social inclusion
- Supporting health services for a healthy retirement: community support and health services.

<Picture 5-1> Vision and goals for creating an age-friendly city in Cheongyang-gun

Section 2 Action plan by area

- Cheongyang-gun classified eight areas according to the four strategic goals of making Cheongyang, a 100-year-old city of happiness, in creating an age-friendly city. Moreover, 47 action plans were established.

<Table 5-1> Projects under 4 strategic tasks and 8 areas

Strategic Tasks	Area	1st Action Plan (2024~2026)
Creating a physical environment for a pleasant retirement	Outdoor spaces and facilities	5
	Transportation	6
	Housing	4
Creating a cultural and economic environment for an active retirement	Civic participation and employment	6
	Social participation	6
Creating a social environment where everyone can get along	Respect and social inclusion	5
	Communication and information	5
Health service support for a healthy retirement	Community support and health services	10
Total		47

1. Creating a physical environment for a pleasant retirement

1) Outdoor spaces and buildings

<Table 5-2> Outdoor spaces and buildings major projects

Serial number	Major project	Department in charge	Classification
1-1	(Rural) Improvement of living conditions in vulnerable areas	Rural community	Ongoing
1-2	Crime prevention design	Urban Architecture	Ongoing
1-3	Installation and maintenance of street lights and security lights	Construction Policy	Ongoing
1-4	Construction of beautiful public restrooms	Environmental Protection	Ongoing
1-5	Vacant house joint project (connecting vacant houses with residents)	Urban Architecture	Ongoing

2) Transportation

<Table 5-3> Transportation major projects

Serial number	Major project	Department in charge	Classification
2-1	Support for public transportation for seniors aged 75 or older	Social Economy	Ongoing
2-2	Improvement in mobility for the vulnerable	Social Economy	Expansion
2-3	Operation of public buses	Social Economy	Ongoing
2-4	Expansion of Happy Taxi operation	Social Economy	Ongoing
2-5	Operation of eup/myeon medical/market circulation bus	Rural community	New
2-6	Traffic accident prevention education for the elderly	Social Economy	Expansion

3) Housing

<Table 5-4> Housing major projects

Serial number	Major project	Department in charge	Classification
3-1	Integrated care center linked to senior welfare housing	Community Care	New
3-2	Group living home for seniors living alone	Community Care	Expansion
3-3	Senior citizen residential environment improvement project	Urban Architecture	Expansion
3-4	Residential space health clean project	Community Care	Ongoing

1-1	(Rural) Improvement of living conditions in vulnerable areas		
Strategy	Creating a physical environment for a pleasant retirement	Area	Outdoor spaces and buildings
Classification	Ongoing project	Depart in charge	Rural community

■ Background and purpose

- To ensure the basic standard of living of residents in vulnerable rural areas, we support expansion of living infrastructure such as safety and hygiene, improvement of residential environment, and strengthening of residents' capabilities.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Residents living in vulnerable areas within Cheongyang-gun
- Project details
 - ▶ Securing safety
 - Prevention of disasters (mountain accidents, habitual flooding, fire, etc.) that pose a direct or indirect threat to the safety of residents;
 - Repair of dangerous old facilities (axial pits, fences, buildings);
 - Installation of CCTVs, etc.
 - ▶ Living and sanitation infrastructure
 - Support for infrastructure closely related to the lives of residents.
 - ▶ Housing maintenance support
 - Support for home repairs such as removal of housing obstacles for the elderly and the disabled;
 - Support for resolution of safety issues in old and substandard housing.
 - ▶ Resident Capacity Building
 - Support for revitalization of the resident community;
 - Expansion of resident participation;
 - Strengthening of residents' self-reliance after the project

■ Annual project work plan

Location / Completion target (%)		Year		
		2024	2025	2026
Project progress rate	Mok-myeon Hwayang District 1 (%)	100	–	–
	Cheongnam-myeon Inyang District (%)	70	100	–
	Hwaseong-myeon Sujeong district (%)	30	70	100
	Namyang-myeon Onam District 2 (%)	–	30	70
	Budget required (unit: million KRW)	2,021	1,992	1,332

※ Promoting the selection of target sites by 24 years as an annual public offering project

■ Expected effects

- Improvement in the basic quality of life of residents and increase in residents' satisfaction with life through improved living environment in vulnerable areas with poor residential environments.

1-2	Crime prevention design		
Strategy	Creating a physical environment for a pleasant retirement	Area	Outdoor spaces and buildings
Classification	Ongoing project	Dept in charge	Urban Architecture

■ Background and purpose

- Background : Due to the delay in the development of the bachelor's village in the Byeokcheon-ri area, surrounding residential areas and roads are dark, exposing students and local residents to safety accidents and a criminal environment.
- Purpose : Promoting a public design project (Septed: Crime Prevention Environment Design) to prevent safety accidents and crimes.

■ Implementation plans

- Project period: 2024 onwards
- Project Target: Residents of Byeokcheon-ri, Cheongyang-gun and students of Chungnam Provincial University, etc.
- Project details
 - Crime prevention facilities - Safety bell, safety reflector, intelligent CCTV, street lights;
 - Infrastructure maintenance - Road painting, road signs, wall safety lighting, information boards;
 - Vitalization of resident exchange - Creation of small parks and capacity building training.

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of crime prevention design projects promoted	Performance indicator (formula)	1	Public design contest planned	Public design contest planned
	Budget required (unit: million KRW)	510		

※ It is promoted as a public design contest in Chungcheongnam-do, and applications for the contest are accepted every year.

■ Expected effects

- Crime prevention design projects have a positive impact on creating a safe residential environment, reducing crime rates and providing opportunities to revitalize resident communities.

1-3	Installation and maintenance of street lights and security lights		
Strategy	Creating a physical environment for a pleasant retirement	Area	External environment and facilities
Classification	Ongoing project	Dept in charge	Construction policy

■ Background and purpose

- This project aims to ensure rapid pre-emptive maintenance of streetlights(security lights) to avoid inconvenience to residents and reduce electricity bills and increase energy efficiency by replacing old security lights with LED lights.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Street/security lights (7,905 lights)
- Project details
 - Replacement of old street lights;
 - Replacement of security lights with LED lights;
 - Repair works on KEPCO non-conforming streetlights;
 - Installation of new streetlights and security lights in crime-prone areas.

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of new street lights installed	Performance indicator (Count)	150	150	150
	Budget required (Unit: Million KRW)	585	585	585

■ Expected effects

- Convenience for residents that are outdoors during night-time and accident prevention by making streets safe and well-lit.

1-4	Construction of beautiful public restrooms		
Strategy	Creating a physical environment for a pleasant retirement	Area	External environment and facilities
Classification	Ongoing project	Dept in charge	Environmental Protection

■ Background and purpose

- In accordance with the Cheongyang-gun Public Toilet Installation and Management Ordinance, public toilets must be managed and maintained in a clean and hygienic manner and must be equipped with optimal facilities and supplies to ensure convenience for users.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Public toilets in Cheongyang-gun
- Project details
 - Deployment of efficient cleaning staff to maintain clean public toilets;
 - Inspection and repair of damaged and worn-out public restrooms;
 - Safety inspection electrical facilities in public restrooms;
 - Safeguarding against illegal filming cameras;
 - Joint inspection of crime prevention facilities, such as safety emergency bells.

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of regular inspections of public restrooms	Performance indicators (times/year)	12	12	12
	Budget required (Unit: Million KRW)	19	19	19

※ Frequency of regular inspections of public restroom facilities and safety

■ Expected effect

- Improvement in the convenience of using public transportation and increased resident satisfaction through hygienic management of public restrooms and creation of a safe environment for use.

1-5	Vacant house joint project (connecting vacant houses with residents)		
Strategy	Creating a physical environment for a pleasant retirement	Area	External environment and facilities
Classification	Ongoing project	Depart in charge	Environmental Protection

■ Background and purpose

- This project aims to achieve housing stability and prevent emergence of slums by providing spaces for the homeless through remodeling of vacant houses in the district and improvement of aesthetics in the village.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Vacant houses in Cheongyang-gun that have been abandoned for more than one year
- Project details
 - ❖ If the owner of a vacant house that has been abandoned for more than a year requests assistance for maintenance, a subsidy will be provided for eventual use of the vacant house for residence or business start-up.
 - Consent required for mandatory lease (free lease for 5 years)

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of homes renovated	Performance indicators (house)	5	5	5
	Budget required (Unit: Million KRW)	500	500	500

■ Expected effect

- Encourage residents to settle down by improving the residential environment and renovating vacant houses.

2-1	Support for public transportation for seniors aged over 75		
Strategy	Creating a physical environment for a pleasant retirement	Area	Transportation
Classification	Ongoing project	Depart in charge	Social Economy

■ Background and purpose

- To ensure the mobility rights of the elderly and promote transportation welfare, this project aims to provide support for free rural bus transportation to seniors aged 75 or older.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents aged 75 or older
- Project details
 - ❖ Free use of rural buses in the province for seniors over 75 years of age, people with disabilities and people of national merit.

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of times public transportation was provided	Performance indicators (times)	240,000	240,000	240,000
	Budget required (Unit: Million KRW)	440	440	440

■ Expected effect

- Increased convenience in using public transport and encourage senior citizens to give their driver's licenses back.

2-2	Improvement in mobility for the vulnerable		
Strategy	Creating a physical environment for a pleasant retirement	Area	Transportation
Classification	Project expansion	Depart in charge	Social Economy

■ Background and purpose

- This project aims to begin the operation of specialized transportation to improve convenience for the vulnerable who experience difficulties in using public transportation.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents aged 65 or older
- Project details
 - ❖ In order to improve the convenience of those who are vulnerable (65-year-olds, etc.), provide transportation support services through same-day reservation and pick-up (at desired time and location) through taxis exclusive for the vulnerable.

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
User growth rate compared to the previous year	Performance indicators(%)	5	5	5
	Budget required (Unit: Million KRW)	226	230	235

■ Expected effect

- Increased convenience in transportation for the vulnerable.

2-3	Operation of public buses		
Strategy	Creating a physical environment for a pleasant retirement	Area	Transportation
Classification	Ongoing project	Depart in charge	Social Economy

■ Background and purpose

- This project aims to provide public transportation services for the purpose of improving the mobility rights and transportation welfare of residents in transportation blind spots where existing rural buses do not operate.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents
- Project details
 - ❖ In order to help residents of remote villages in Cheongyang-gun that do not have regular public transportation routes, 22 routes in 3 courses are operated - including routes in Go-jeong village, Yeokchon-ri, Jeongsan-myeon and Yeongyang 2-ri, Ungok-myeon.
 - These buses will pass through Cheongyang-gun Health and Medical Center 1-2 times a day, depending on route.

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
User growth rate compared to the previous year	Performance indicators(%)	5	5	5
	Budget required (Unit: Million KRW)	452	452	452

■ Expected effect

- Contribute to expanding mobility rights of residents in underprivileged areas and improve medical welfare for the elderly.

2-4	Expansion of Happy Taxi operation		
Strategy	Creating a physical environment for a pleasant retirement	Area	Transportation
Classification	Ongoing project	Depart in charge	Social Economy

■ Background and purpose

- By operating Happy Taxis in areas where rural buses are not in operation and areas with poor transportation accessibility, the right of movement is secured for the residents of those villages. Cheongyanggun shall provide support for some of the necessary expenses for residents who use it.

■ Implementation plans

- Project period : 2024 onwards
- Project target: Cheongyang-gun residents living in transportation-disadvantaged areas (459 households in 69 villages)
- Project details
 - ❖ In response to the needs of village residents in areas where rural buses in Cheongyang-gun are not operated, this project will provide a demand-responsive transportation service that operates at public health centers, markets, administrative agencies, intercity bus terminals, etc.
 - Villages subject to operation : A village designated by the Cheongyang-gun governor as a public transportation-excluded area with more than 5 households and the distance from the bus stop to the village center or household dense area (if there is no community center) is more than 800m.
 - Number of operations: 10 times per month per household
 - Fee per user: KRW 1,500

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Budget utilization rate	Performance indicators(%)	90	90	90
	Budget required (Unit: Million KRW)	400	400	400

■ Expected effect

- Improved quality of life of residents by guaranteeing their right to travel in areas not accessible by public transportation.

2-5	Operation of eup/myeon medical/market circulation bus		
Strategy	Creating a physical environment for a pleasant retirement	Area	Transportation
Classification	New project	Depart in charge	Rural Community

■ Background and purpose

- Background : As a result of analysis of public transportation accessibility for 114 villages in the 2021 Community Security Survey, 80 villages (70.2%) had inconvenient transportation and 17 villages (14.9%) had no transportation. Thus indicating that transportation environment needs to be improved.
- Purpose : To establish a medical and market-type circulation bus operation system to facilitate local residents' basic living maintenance activities such as health care services and market visits, as the elderly needs tight policy support for movement or going out.

■ Implementation plans

- Project period: 2024 ~ 2026
- Project target: 9 myeon in Cheongyang-gun
- Project details
 - ❖ Operation of a medical and market-type circulation bus with the following route: Bae-hu village - myeon location - public health branch. This aims to improve the transportation convenience of those who are vulnerable and to improve the medical care and welfare of residents.
 - Establish 9 care buses and bus stops and develop responsive system
 - Operating area: 9 myeon

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
System construction rate	Performance indicator (%)	30	60	100
	Budget required (Unit: Million KRW)	156	692	2,331

※ 9 myeons excluding Cheongyang-eup, which is easily accessible by public transportation

■ Expected effect

- Improved transportation convenience for the vulnerable, such as the elderly, and improved accessibility to medical services, especially in rural areas.

2-6	Traffic accident prevention education for the elderly		
Strategy	Creating a physical environment for a pleasant retirement	Area	Transportation
Classification	Project expansion	Depart in charge	Social Economy

■ Background and purpose

- Background : Due to the increase in the number of traffic accidents involving the elderly, it is necessary to create a safe traffic environment.
- Purpose : : To provide various information related to transportation, such as what the elderly should be aware of while walking and how to deal with accidents

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents aged 65 or older
- Project details
 - ❖ Provide traffic safety education to seniors through on-site educational programs and two-way education through communication through questions and answers about related topics.
 - Viewing of traffic safety campaign video.
 - Understanding the 3 principles of crossing defense walking (stand, look, walk)
 - Explaining the Chamanson (Raise your hand to communicate when you encounter a car)
 - Awareness of safety precautions, such as wearing bright clothes at night, etc.

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of traffic accident prevention training conducted	Performance indicators (times)	120	130	140
	Budget required (Unit: Million KRW)	10	11	12

■ Expected effect

- Reduction in the incidence of traffic accidents leading to safe daily lives through educating the elderly about traffic laws, accident prevention and response measures.

3-1	Community care center linked to senior welfare housing		
Strategy	Creating a physical environment for a pleasant retirement	Area	Housing
Classification	New project	Depart in charge	Community Care

■ Background and purpose

- Purpose : Senior welfare housing is a public rental housing that provides both residence and care for the welfare of low-income seniors. It combines rental housing with barrier-free design and social welfare facilities.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun integrated care center social service users (Cheongyang-gun residents aged 65 or older)
- Project details
 - ❖ Establish an integrated care center that will provide housing, health care, nursing care and administration through the integrated care convergence project for the elderly and the community.
 - ❖ Establish administrative support centers, social welfare centers and home medical centers
 - Target :Low-income seniors aged 65 years or older
 - 1st to 2nd floor : Medical/welfare facilities, restaurants, administrative agencies in charge of welfare affairs
 - 3rd floor and beyond : Residential facilities (127 senior welfare housing units)

❖ Senior welfare housing concept map

□ Project schedule

- January 2023: Bidding and start of interior construction
- May 2023: Completion and consultation with each hosting organization
- June 2023: Purchase and installation of goods for each facility
- July 2023: Move-in and operation of institution

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Satisfaction with Cheongyang-gun senior welfare housing	Performance indicator (%)	90	90	90
	Budget required (Unit: Million KRW)	765	300	300

■ Expected effect

- Realize housing welfare for seniors through care and health management;
- Improve in efficiency through one-stop consultation and use of health and welfare services;
- Local care support at myeon level linked to the rural agreement to build a network.

3-2	Group living home for seniors living alone		
Strategy	Creating a physical environment for a pleasant retirement	Area	Housing
Classification	Project expansion	Depart in charge	Community Care

■ Background and purpose

- This project aims to support the operation of a group living home for seniors living alone in Cheongyang-gun. This would enable the elderly to pursue a happy life and ensure a stable communal life for those living alone in an aging society.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents aged 65 or older (9 locations including 3 self-catering locations and 6 lodging locations)
- Project details
 - ❖ Support for seniors living alone in using idle spaces such as senior centers, community halls for communal cooking and lodging with their homes at the center
 - ❖ Co-residential facility registration criteria
 - The area must be an area with facilities to accommodate at least 5 elderly people living alone who wish to reside there.
 - It must be an area with common facilities such as a senior center and village hall.
 - It must be a remote area with difficult transportation and far from administrative offices or medical facilities.
 - It must be an area recognized as necessary for the protection of seniors living alone.
 - ❖ Range of support
 - Minimum facility renovation and supplementation costs required for co-residence
 - Electricity and various utility bills
 - Minimum expenses required for operation, such as heating and cooling costs, fuel costs, grocery costs, insurance premiums, etc.
 - Program operation costs required for leisure activities for seniors living alone
 - Expenses deemed necessary for operation and activation

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of shared living homes for seniors living alone	Performance indicators (place)	9	9	9
	Budget required (Unit: Million KRW)	53	55	57

■ Expected effect

- Relieve loneliness and prevent accidents and lonely deaths
- Prevent blind spots in care of elderly people living alone in rural areas

3-3	Senior housing residential environment improvement project		
Strategy	Creating a physical environment for a pleasant retirement	Area	Housing
Classification	Ongoing project	Depart in charge	Urban Architecture

■ Background and purpose

- This project aims to improve the quality of life by providing residential environment improvement services to the elderly and vulnerable groups who have difficulty living in their homes due to economic poverty

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents
- Project details
 - ❖ Among households with seniors aged 65 years or older, households with poor living conditions are selected and overall home renovation and repairs are carried out, including roof replacement, wall insulation, boiler repair, light and wiring replacement, and bathroom and kitchen remodeling.

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of renovated housing units	Performance indicator (household)	4	4	4
	Budget required (Unit : Million KRW)	28	28	28

■ Expected effect

- Provide comfortable homes for the vulnerable who have been living in uncomfortable environments

3-4	Residential space health clean project		
Strategy	Creating a physical environment for a pleasant retirement	Area	Housing
Classification	Ongoing project	Depart in charge	Community Care

■ **Background and purpose**

- Background : There are many elderly people who are experiencing inconveniences in their daily lives due to lack of cleaning and tidying for a long period of time. There is also concern about bad smells and spread of infectious diseases in the surrounding neighborhood due to garbage.
- Purpose : It is necessary to improve housing environment improvement services so that those who need help in self-care can become self-reliant in a safe and healthy living environment

■ **Implementation plans**

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents
- Project details
 - ❖ Provide quarantine and household hygiene services to those in need of improved living conditions
 - Living hygiene (quarantine, disinfection, pest removal, etc.)
 - Space organization services (residential space cleaning, organization, etc.)

■ **Annual project work plan**

Project classification		Year		
		2024	2025	2026
Number of households served	Performance indicator (household)	50	50	50
	Budget required (Unit : Million KRW)	5	5	5

■ **Expected effect**

- Create a pleasant environment and contribute to the improvement of health and quality of life by providing quarantine and household hygiene services to households in vulnerable housing groups.

2. Creating a cultural and economic environment for an active retirement

1) Civic participation and employment

<Table 5-5> Civic participation and employment major projects

Serial number	Major projects	Department in charge	Classification
4-1	Support for senior jobs and social activities	Community Care	Expansion
4-2	Support for incentives for the employment of the elderly	Community Care	Ongoing
4-3	Cheongyang job exchange operations	Social Economy	New
4-4	Support for public meals at senior centers	Community Care	Expansion
4-5	Operation of the eup, myeon, dong volunteer base center	Community Care	Expansion
4-6	1+3 Love sharing volunteer activity	Community Care	Ongoing

2) Social participation

<Table 5-6> Social participation major projects

Serial number	Major project	Department in charge	Classification
5-1	Creating a community space together (Nono Care Center)	Urban Architecture	On-going
5-2	Operating general welfare center for the elderly to realize new hopes in old age	Community Care	Expanding
5-3	Construction of a family culture center and lifelong learning center complex	Welfare Policy	On-going
5-4	Cultural and leisure tours with seniors	Welfare Policy	Expansion
5-5	Senior citizen center activation program	Community Care	On-going
5-6	Senior leisure culture and education programs	Community Care	On-going

4-1	Support for senior jobs and social activities		
Strategy	Creating a cultural and economic environment for an active retirement	Area	Civic participation and employment
Classification	Project expansion	Depart in charge	Community Care

■ Background and purpose

- This project aims to provide support in giving opportunities to the elderly so that they may participate in social and economic activities, which can lead them to live a comfortable retirement in a super-aging society.
- ❖ According to Article 23 of the 「Elderly Welfare Act」 (Support for Senior Citizens' Participation in Society), in order to expand the elderly's participation in society, the national or local governments must expand opportunities for local volunteer activities for the elderly and develop and disseminate occupations suitable for the elderly. Efforts must be made to provide work opportunities to seniors with work ability as a priority.
- ❖ According to Article 11 (Employment and Income Guarantee) 1 of the Framework Act on Low Birth Rate and Aging Society, the national and local governments must create an environment in which elderly people, who are willing and capable, can work as much as possible.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents aged 65 or older
- Project details
 - ❖ Project contents are largely divided into public type(public interest activities), social service type, and private type(market type project group, job placement type, senior internship, age-friendly company).
 - Public interest activities: support for the vulnerable, volunteering at public facilities, passing on experience, etc.
 - Social service type: Family and intergenerational services, specialized services for vulnerable groups, public specialized services, support for jobs for the elderly and social activities for the elderly, etc.
 - Social service-type leading model: Jobs that resolve current issues facing the community, such as care, safety, and environmental issues, etc.

- Market type project group: food manufacturing and sales, industrial product manufacturing and sales, store operation, local farming, transportation, etc.
- Job placement type : Security guards, facility managers, housekeepers, etc.
- Senior Internship: Korean food cook, store manager, automobile inspection agent.
- Age-friendly companies: Recruitment of companies through public offering project

Classification	Type	Details	Note
Public type	Public interest activities	Activities where seniors can participate in to improve their self-satisfaction and sense of accomplishment and for public interest as well	Volunteer (Social activities)
Social service type		Provide services to areas in need of social assistance by utilizing the experience and capabilities of the elderly	Work
Social service-type leading model		Develop and create new job items for the elderly by utilizing resources owned by the local community and companies	
Private type	Market type project group	Senior jobs where participants support part of labor costs and run year-round with additional business revenue	
	Job placement type	Assis in finding jobs for those who have completed training or have experience suitable for necessary jobs such as security guards, facility management, housekeepers, etc.	
	Senior Internship	Encourage continued employment by providing labor cost support to companies to promote employment of people over 60 years of age.	
	Age-friendly company	Support businesses that employ a large number of elderly in suitable occupations where they can be competitive	

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of elderly job participants	Performance indicators (persons)	2,100	2,200	2,300
	Budget required (Unit : Million KRW)	7,880	8,274	8,687

■ Expected effect

- By expanding job opportunities for the elderly, the elderly can lead an active and healthy life in retirement

4-2	Support for incentives for the employment of the elderly		
Strategy	Creating a cultural and economic environment for an active retirement	Area	Civic participation and employment
Classification	Ongoing project	Depart in charge	Community Care

■ Background and purpose

- Purpose : In order to promote and stabilize the employment of seniors over 60 years of age who are having difficulty finding employment, we provide partial support for employment costs must be provided to small and medium-sized business owners in Cheongyang-gun who employ seniors over 60 years of age.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents aged 60 or older and small and medium-sized businesses in Cheongyang-gun that employ Cheongyang-gun residents aged 60 or older.
- Project details
 - Support target: Small and medium-sized businesses in Cheongyang-gun that employ Cheongyang-gun residents aged 60 or older for more than one month
 - Support requirements: Minimum monthly wage, working hours of 60 hours or more per month, subscription to four major social insurance, etc
 - Support method: Small and medium-sized businesses to be provided subsidies after paying wages in advance.
 - Support amount: 30% of the minimum wage per senior citizen

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of elderly employment incentives supported	Performance indicators (persons)	2	2	2
	Budget required (Unit : Million KRW)	11	11	11

■ Expected effect

- Spread the employment atmosphere for the elderly and create quality jobs

4-3	Cheongyang job exchange operation		
Strategy	Creating a cultural and economic environment for an active retirement	Area	Civic participation and employment
Classification	New project	Depart in charge	Social Economy

■ Background and purpose

Before implementation	After implementation
<ul style="list-style-type: none"> ■ Absence of a platform that provides information on all jobs within Cheongyang-gun ■ Need for a direct communication platform between companies and job seekers ■ Limited information on various jobs on the Ministry of Employment and Labor's local work network. 	<ul style="list-style-type: none"> ■ Establishment of a comprehensive and easy to use platform that would allow all job information (private and public institutions) in gun area to be readily viewed ■ Availability of an interactive direct job matching environment between individuals and companies ■ Availability of customized job information by target (young people, middle-aged people, elderly people, vulnerable groups, foreign workers, etc.), type (regular, part-time job, rural labor, etc.), industry, region and period

■ Implementation plans

- Project period: 2024 onwards
- Project target: Nationwide (available for everyone to use)
- Project details
 - ❖ Establishment and operation of a comprehensive job platform where job demand and supply can be actively matched by checking jobs nationwide at a glance and reorganizing employment information according to region.
 - Providing customized job information by type (full-time, part-time, daily, rural labor, etc.) centered on consumers (companies, individuals)
 - Providing customized job information for each target group (young people, middle-aged people, housewives, people with disabilities, vulnerable groups, foreign workers, etc.)
 - Providing interactive (corporate-individual) direct connection service
 - Easy-to-access, device-agnostic responsive websites
 - Quick delivery of information through major notification SMS and Kakao Notification Talk linkage

- Development of user manual video for user (companies/individuals) convenience
- Linkage with external data (worknet, recruitment information from related organizations)

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Usage growth rate compared to the previous year	Performance indicator (%)	5	5	5
	Budget required (Unit : Million KRW)	50	50	50

■ Expected effect

- Create a smooth job environment by providing interactive job information between companies and job seekers.

4-4	Support for public meals at senior centers		
Strategy	Creating a cultural and economic environment for an active retirement	Area	Civic participation and employment
Classification	Project expansion	Depart in charge	Community Care

■ Background and purpose

- Cheongyang-gun is a super-aged society, with more than 38% of its population as elderly citizens. This number is still gradually increasing, therefore having nutritious meals at the senior citizen center is important for health maintenance of the elderly.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Senior Centers in Cheongyang-gun (80 locations)
- Project details
 - ❖ Packages of agricultural products and processed foods produced at farms in Cheongyang-gun are delivered to senior centers once a week.
 - Preventing skipping meals in the elderly and promoting balanced nutrition and health through volunteer activities by local residents.

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of senior centers receiving public meal support	Performance indicators (places)	80	85	90
	Budget required (Unit : Million KRW)	237	244	251

■ Expected effect

- Resolve concerns about nutritional imbalance and skipping meals in elderly people who have difficulty eating meals due to aging

4-5	Operation of the Eup, Myeon, Dong volunteer base center		
Strategy	Creating a cultural and economic environment for an active retirement	Area	Civic participation and employment
Classification	Project expansion	Depart in charge	Community Care

■ Background and purpose

- This project aims to expand small volunteer center centered on residents' living areas for the purpose of overcoming manpower shortages and restrictions on geographic and psychological accessibility, strengthening the autonomy of volunteers and inducing continuous volunteer activities

■ Implementation plans

- Project period: 2024 onwards
- Project target: Eup, Myeon, and Dong volunteer base centers (10 locations)
- Project details
 - ❖ Establish volunteer base centers in 10 eup and myeon to operate small-scale volunteer centers that are closely tailored to the circumstances of the eup and myeon.

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of volunteer activities	Performance indicators (times)	460	480	500
	Budget required (Unit : Million KRW)	49	49	49

■ Expected effect

- Promote volunteer work in areas far away from volunteer centers and link residents' participation in volunteer work and practice independent service

4-6	1+3 Love sharing volunteer activity		
Strategy	Creating a cultural and economic environment for an active retirement	Area	Civic participation and employment
Classification	Ongoing project	Depart in charge	Community Care

■ Background and purpose

- This project aims to create a community culture where people live together through consumer-centered volunteer activities by revitalizing volunteer visits.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents
- Project details
 - ❖ This is a neighbor-loving volunteer group jointly promoted by public institutions such as Chungcheongnam-do and Cheongyang-gun, businesses (institutions), and social (volunteer) groups. It conducts high-quality talent volunteering and professional volunteer work by visiting rural areas or remote villages that are not reachable by volunteer services. A volunteer program is being carried out to improve the residential environment and quality of life of residents.
 - Housing and living environment improvement project
 - Agricultural machinery repair, safety education, daily welding, electronic product repair and replacement
 - Professional health promotion volunteer work.

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of volunteer activities	Performance indicators (times)	20	20	20
	Budget required (Unit : Million KRW)	8	8	8

■ Expected effect

- Expanding and revitalizing the volunteer culture base

5-1	Creating a community space together (Nonocare Center)		
Strategy	Creating a cultural and economic environment for an active retirement	Area	Civic participation and employment
Classification	Ongoing project	Depart in charge	Urban Architecture

■ Background and purpose

- As it is necessary to create a community space to reduce the phenomenon of hollowing out of the original city center, contributing to the revitalization of the community by creating a space for the elderly to interact

■ Implementation plans

- Project period: 2024 onwards
- Project target: Residents of 3 and 4-ri in Cheongyang-eup
- Project details
 - ❖ Construct and operate a shared kitchen for local seniors and a No-no-Care Center for health care and capacity building

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Nono Care Center construction progress rate	Performance indicator (%)	70	100	—
	Budget required (Unit : Million KRW)	700	300	—

■ Expected effect

- Improve quality of life by revitalizing the original downtown and create shared kitchens and exchange spaces for seniors

5-2	Operating general senior welfare center to realize new hopes in old age		
Strategy	Creating a cultural and economic environment for an active retirement	Area	Civic participation and employment
Classification	Project expansion	Depart in charge	Community Care

■ Background and purpose

- Senior citizens with a desire for leisure activities need to use the General Welfare Center for the Elderly at any time without any inconvenience. Support for the operation of facilities to establish a healthy leisure culture for the elderly is needed.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents aged 65 or older
- Project details
 - ❖ Operate various projects to ensure an enjoyable and healthy retirement life for the elderly in Cheongyang-gun. developing local resources and operating linked projects to support the elderly's social participation and difficulties.
 - ❖ Developing local resources and operate linked projects to support the elderly's social participation and minimize difficulties.
 - Counseling business: Delivery of senior welfare information and services
 - Healthy living support: health promotion project, functional recovery and meal support.
 - Local resources and organization projects: general volunteer management, sponsorship-related and regional welfare linkage
 - Social participation and rights promotion projects: revitalization of senior citizen volunteering, advocacy and awareness improvement of senior citizen human rights, prevention of damage to senior consumers, etc.

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of senior welfare center programs	Performance indicators (times)	250	300	350
	Budget required (Unit : Million KRW)	620	650	680

■ Expected effect

- Meet the welfare needs of local seniors and improve their quality of life by providing professional and systematic welfare services

5-3	Construction of a family culture center and lifelong learning center complex		
Strategy	Creating a cultural and economic environment for an active retirement	Area	Social participation
Classification	Ongoing project	Depart in charge	Welfare Policy /Administrative Support

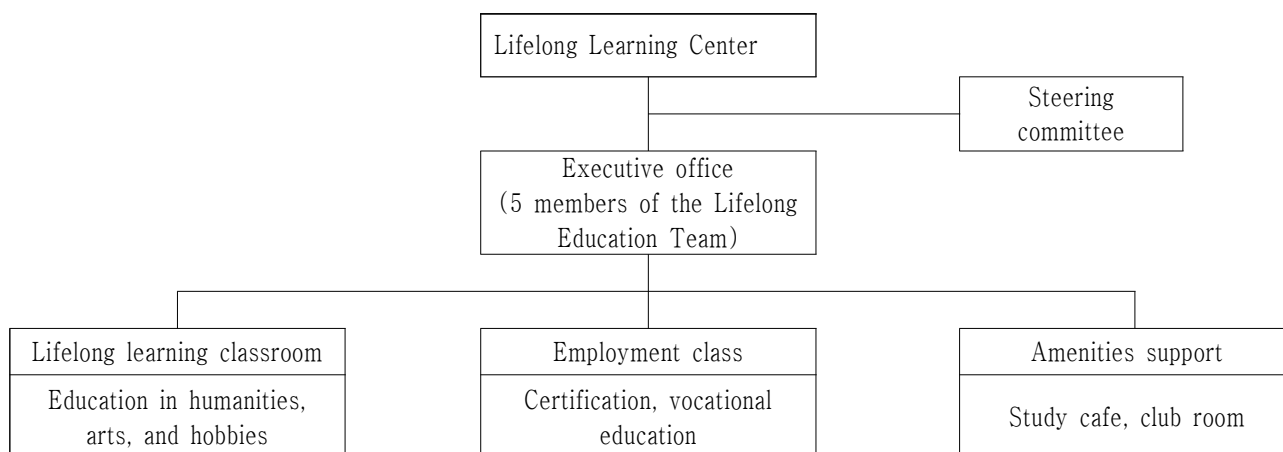

■ Background and purpose

- Background : As the average life expectancy increases and the population ages, the number of educational targets seeking to continue education after retirement is expanding. However, related facilities and lifelong learning base facilities are weak in the area.
- Purpose : The Family Culture Center shall provide various activity spaces and high-quality cultural and learning opportunities for residents, from infants to the elderly, in the area. The Lifelong Learning Center shall develop Cheongyang-gun into an educational city and maximize sustainability through the creation of a complex space that serves as a regional lifelong education hub.

■ Implementation plans

- Project period: 2020 ~ 2025
- Location: 173-2 Songbang-ri, Cheongyang-eup
- Project size: Total floor area: 6,432m² (1 underground floor, 4 above-ground floors)
- Project details
 - ❖ Strengthen life and learning services by building family welfare and cultural facilities and lifelong learning infrastructure that can be used by families of all generations
 - Family Culture Center: Create a family-centered healthy community cultural space through the establishment of branch offices of family centers, living culture centers, shared care centers, and child care comprehensive support centers.
 - (Lifelong Learning Center) Creation of classrooms, club rooms, study cafes.
- Progress status
 - Design and contract review completed from September to October 2022
 - Construction began in March 2023
 - Construction completion in March 2025 (scheduled)

- Operation plan (e.g. lifelong learning center)

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Family culture center and lifelong learning center complex construction progress rate	Performance indicator (%)	70	100	—
	Budget required (Unit : Million KRW)	5,524	2,502	—

■ Expected effect

- Serve as a local landmark where all generations come together
- Address population decline, aging, and lack of social services.
- Secure education, culture, and care infrastructure by building space and systems.
- Expand opportunities for citizens to participate in education by expanding lifelong learning infrastructure

5-4	Cultural and leisure tours with seniors		
Strategy	Creating a cultural and economic environment for an active retirement	Area	Social participation
Classification	Project expansion	Depart in charge	Welfare Policy

■ Background and purpose

- This project aims to relieve social and cultural alienation and invigorate life through cultural and leisure tours for the elderly to provide motivation in life.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents aged 65 or older who receive home-based elderly support services.
- Project details
 - ❖ Select places that reflect the needs of the elderly for cultural and
 - ❖ leisure visits and provide opportunities for various cultural and leisure activities for the elderly.

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of cultural and leisure tour made	Performance indicators (times)	2	3	4
	Budget required (Unit : Million KRW)	1.5	2.5	3

■ Expected effect

- Provide travel opportunities to seniors who are marginalized due to economic, physical and other limitations, improve their quality of life and provide opportunities for socialization.

5-5	Senior citizen center activation		
Strategy	Creating a cultural and economic environment for an active retirement	Area	Social participation
Classification	Ongoing project	Depart in charge	Community Care

■ Background and purpose

- Background : As the aging population accelerates, there is a need to revitalize senior centers to enable senior citizens living in outlying areas to use leisure and welfare services and there is a need to transform existing simple functions into productive and active spaces.
- Purpose : Provide non-discriminatory senior welfare services by supporting a variety of leisure programs tailored to the needs of senior citizens who have limitations due to health, etc.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents aged 65 or older
- Project details
 - ❖ Regularly implement various programs and dispatch professional instructors to senior centers.
 - Implement various programs (community service, health exercise, entertainment classes, etc.) and dispatches professional instructors

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of senior citizen center activation programs	Performance indicators (times)	140	140	140
	Budget required (Unit : Million KRW)	161	161	161

■ Expected effect

- Satisfy the needs of the elderly to ensure a more active and healthy retirement life

5-6	Senior leisure culture and education programs		
Strategy	Creating a cultural and economic environment for an active retirement	Area	Social participation
Classification	Ongoing project	Depart in charge	Community Care

■ Background and purpose

- Background : Leisure, culture and education for the elderly have an impact on the ability to adapt to modern society, reducing feelings of loneliness and alienation.
- Purpose : Provide a variety of leisure and educational programs to help seniors lead an active and healthy retirement life.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents aged 65 or older
- Project details
 - ❖ Implement senior leisure programs: health, hobbies, leisure programs, etc.
 - ❖ Education support for the elderly
 - Senior leader training and education
 - Senior health academy: 2 locations
 - Senior college operation: 2 locations (Cheongyang-eup, Jeongsan-myeon)
 - ❖ Events related to elderly welfare: Parents' Day, Senior Citizen's Day
 - ❖ Senior cultural exchange experience

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of participants in senior leisure culture and education programs	Performance indicators (persons)	4,000	4,000	4,000
	Budget required (Unit : Million KRW)	116	116	116

■ Expected effect

- Provide opportunities for conducting sound leisure activities to encourage positive perception of leisure in old age.

3. Creating a social environment where everyone can get along

1) Respect and social inclusion

<Table 5-8> Respect and social inclusion major projects

Serial number	Major project	Department in charge	Classification
6-1	Strengthening the courtesy of those who have served the country and those eligible for veterans	Welfare Policy	Expansion
6-2	Expansion of female leaders' social participation	Welfare Policy	Ongoing
6-3	Longevity allowance support	Community Care	Ongoing
6-4	Cheongyang - a city of citizens over age 100 that creates happiness together for the young and old	Community Care	New
6-5	Age-friendly city monitoring group	Community Care	New

2) Communication and information

<Table 5-9> Communication and information major projects

Serial number	Major project	Department in charge	Classification
7-1	Customized information education for citizens	Administrative Support	Ongoing
7-2	Literacy class for the illiterate elderly	Administrative Support	Ongoing
7-3	Eup/myeon beginning-of-the-year tour and operation of mobile mayor's office	Administrative Support	Ongoing
7-4	Installation of LED-illuminated building license plates	Civil service office	Ongoing
7-5	Creating a civil service office environment where happiness is shared	Civil service office	Ongoing

6-1	Strengthening the courtesy for those who have served the country and those eligible for veterans		
Strategy	Creating a social environment where everyone can get along	Area	Respect and social inclusion
Classification	Project expansion	Depart in charge	Welfare Policy

■ Background and purpose

- This project aims to promote the noble spirit of those who sacrificed or contributed to the country, promote an honorable life and improve the welfare of national veterans, to further cultivate the people's spirit of love for their country.
- ❖ According to Article 18 (Principle of courtesy and support) of the Framework Act on National Veterans and Veterans, the state and local governments are required to provide courtesy and support to recipients of national veterans in proportion to their level of sacrifice and contribution.
- ❖ According to Article 19 of the same Act (courtesy and support), the state and local governments are obligated to prepare necessary policies to provide courtesy and support, including stabilizing the lives and improving welfare of recipients of national veterans.

■ Implementation plans

- Project period: 2024 onwards
- Project target: National merit, veterans, and bereaved families of Cheongyang-gun
- Project details
 - ❖ Support for the operation of veterans' organizations and field trips to security sites: 10 organizations
 - ❖ Veterans Affairs-related allowance support

Support allowance	Details
Veteran's Honor Allowance	20th of every month / KRW 300,000 per month
Compensation for death of war veterans	KRW 200,000
Welfare allowance for spouse of war veterans	20th of every month / KRW 150,000 per month
Veterans Honorary Allowance	20th of every month / KRW 150,000 per month
Veteran's honor (welfare) allowance	KRW 100,000 per month for a person of merit, KRW 50,000 per month for a widow.

- ❖ Side dish support for low-income veterans' families
 - Target: Approximately 20 low-income recipients of living adjustment allowances among veterans' families
 - Method: Support for meal kits, Onnuri gift certificates, side dishes, etc.
- ❖ Support for discount benefits at large supermarkets for national veterans
 - Target: Approximately 800 people, including veterans' families and registered veterans.
 - Contents: Hanaro Mart on-site discount (up to 5% of usage amount, limit of KRW 20,000)

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of project targets	Performance indicators (persons)	1,175	1,180	1,185
	Budget required (Unit : Million KRW)	2,071	2,073	2,075

■ Expected effect

- Increased morale for national meritorious persons and veterans by strengthening respect and support for those who sacrificed their lives for the country.

6-2	Expansion of female leaders' social participation		
Strategy	Creating a social environment where everyone can get along	Area	Respect and social inclusion
Classification	Project expansion	Depart in charge	Welfare Policy

■ Background and purpose

- As women's roles are becoming increasingly diverse and specialized, this project aims to provide an opportunity to cultivate the qualities of true leaders and contribute to the development of government by strengthening the capabilities of female leaders.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents' women's group executives
- Project details
 - ❖ Support for strengthening the capabilities and expanding social participation of female leaders who wish to actively participate in changing of the local community to realize a gender-equal society.
 - Support for participation in social activities and implementation of capacity building program.

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of participants	Performance indicators (Count)	80	90	100
	Budget required (Unit : Million KRW)	23	23	23

■ Expected effect

- Promote gender equality culture and women's economic and social participation

6-3	Longevity allowance support		
Strategy	Creating a social environment where everyone can get along	Area	Respect and social inclusion
Classification	Ongoing project	Depart in charge	Community Care

■ Background and purpose

- This project aims to create a social atmosphere of filial piety for the elderly and support a healthy and stable retirement life for the elderly.

■ Implementation plans

- Project period: 2024 onwards
- Project target: People born before 1930 residing in Cheongyang-gun
- Project details
 - ❖ In an age of aging, longevity allowances are provided to seniors who live long lives in order to provide some help to their lives.
 - Recipient target: Senior citizens born before 1930 residing in Cheongyang-gun and applying for longevity allowance.
 - Payment amount: 50,000 won per person per month

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Longevity allowance payment rate(%)	Performance indicator (%)	100	100	100
	Budget required (Unit : Million KRW)	156	148	140

* Longevity allowance recipients ÷ born before 1980 × 100

■ Expected effect

- Create a social atmosphere that respects the elderly and promote stability in the lives of the elderly

6-4	Cheongyang, a city of citizens over age 100 that creates happiness together for the young and old		
Strategy	Creating a social environment where everyone can get along	Area	Respect and social inclusion
Classification	Ongoing project	Depart in charge	Community Care

■ Background and purpose

- Background: According to a survey by the National Human Rights Commission of Korea in 2018, 40.4% of the elderly and 90% of the young and middle-aged responded that communication between generations is difficult. Also, according to a survey by the Korea Youth Policy Institute, 66.6% of youth responded that intergenerational conflict will worsen in the future. Aside from the lack of contact between the young and middle-aged, the youth have few opportunities to meet the older generation. As a result, the younger generation generalize their experience based on their limited interaction with the older generation, and vice-versa.
- Purpose : In order to form a community based on understanding between the older generation and the younger generation, this project aims to provide an opportunity to discuss major issues in the community together.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents
- Project details
 - ❖ Due to conflicts continuously occurring from the deepening communication breakdown between the older generation and the younger generation, it is necessary to prepare measures to resolve these conflicts and provide opportunities for communication 6-4 Cheongyang - a city of citizens over age 100 that creates happiness together for the young and old Strategy Creating a cultural and economic environment for an active retirement Area Respect and social inclusion Classification Ongoing project Department in charge Integrated Care between the older and younger generation to share opinions on various topics.

- ❖ Young Adult-Senior Living Lab/Debate (Example)
 - Work with young people and seniors to think about community problems, find ways to solve them, and provide policy ideas.
 - Providing ideas for improvement of various policies or public services such as daily life inconveniences, youth policies, elderly policies, childbirth encouragement, and welfare policies

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of Debates Held	Performance indicators (times)	2	2	2
	Budget required (Unit : Million KRW)	5	5	5

■ Expected effect

- Resolve conflicts between the older and younger generations and provide opportunities for mutual respect and understanding.
- Reflect on the opinions of the elderly and young generation on major community issues.

6-5	Age-friendly city monitoring group		
Strategy	Creating a social environment where everyone can get along	Area	Respect and social inclusion
Classification	Ongoing project	Depart in charge	Welfare Policy

■ Background and purpose

- This project aims to conduct policy monitoring to create an age-friendly city by establishing an official channel that would collect and interpret opinions on Cheongyang-gun's policies and services for the elderly.

■ Implementation plans

- Project period: 2024 ~ 2026
- Project details
 - ❖ Develop policies based on the 8 areas identified by WHO for age-friendly cities and conduct monitoring accordingly
 - Forming a monitoring group including the elderly and young adults
 - Monitoring should be done at all times, with monitoring group meetings being held quarterly (four times a year).

■ Annual project work plan

Project classification		Year		
		2023	2024	2025
Number of monitoring group meetings held	Performance indicators (times)	4	4	4
	Budget required (Unit : Million KRW)	1	1	1

■ Expected effect

- Through the monitoring of the age-friendly, opinions from various generations can be reflected and Cheongyang-gun can create an environment that is beneficial for all generations to live in.

7-1	Customized information education for citizens		
Strategy	Creating a social environment where everyone can get along	Area	Communication and information
Classification	Ongoing project	Depart in charge	Administrative Support

■ Background and purpose

- Availability of free information education for local residents will lead to a convenient life and improve social adaptability. A systematic information education will be provided to senior citizens who have few opportunities and are alienated from the information society

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents
- Project details
 - ❖ Provide information education to improve the digital literacy of all residents of Cheongyang-gun so that they can enjoy various information services without any gaps.
 - Education on computer basics, internet usage, and blog usage
 - Hangul, Excel, PowerPoint beginner/intermediate education
 - Smartphone basics, SNS training
 - Editing images and creating YouTube videos
 - Using a kiosk (unmanned payment machine), etc.

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of information education programs conducted	Performance indicator (%)	50	50	50
	Budget required (Unit : Million KRW)	43	43	43

■ Expected effect

- Improve the ability to utilize digital devices by learning how to use computers, smartphones, and kiosks

7-2	Literacy class for the illiterate elderly		
Strategy	Creating a social environment where everyone can get along	Area	Communication and information
Classification	Ongoing project	Depart in charge	Administrative Support

■ Background and purpose

- This project aims to provide opportunities to receive the minimum basic education for illiterate adults who have missed the opportunity to receive basic education during school age due to problems such as poverty, health, and gender discrimination.

■ Implementation plans

- Project period : 2024 onwards
- Project target : Cheongyang-gun residents
- Project details
 - ❖ Literacy study centers are determined throughout the year, and instructor training, in-depth education, literacy essays, literacy festivals, and literacy work exhibitions will be conducted.
 - Plan to provide literacy classes at the 1st, 2nd, and 3rd elementary school levels and English class.
 - Provide study materials and stationery
 - Provide opportunities to participate in literacy education-related events (literacy essay, etc.)

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of projects conducted	Performance indicator(Count)	92	92	92
	Budget required (Unit : Million KRW)	400	400	400

■ Expected effect

- Through the operation of various literacy classes, invigorates the residents' lives and achieves the goal of zero illiteracy

7-3	Eup/myeon beginning-of-the-year tour and operation of mobile mayor's office		
Strategy	Creating a social environment where everyone can get along	Area	Communication and information
Classification	Ongoing project	Depart in charge	Administrative Support

■ Background and purpose

- In order to realize an open and participatory Cheongyang-gun government, a beginning-of-the-year tour will be conducted and a mobile mayor's office to be operated for residents living in geographically distant areas. Considering the large number of elderly people, face-to-face communication will be used as a form of communication with residents.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents
- Project details
 - ❖ To promote convenience for residents, a beginning-of-the-year tour is held and mobile mayor's Office is opened to meet residents one-on-one, listen to their stories, and receive suggestions.
 - The head of the relevant department receiving numerous civil complaints shall participate to discuss the residents' questions immediately
 - The opinions of citizens are actively reflected in gun administration by reviewing necessity and urgency from various angles.

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of operations conducted	Performance indicators (times)	3	3	3
	Budget required (Unit : Million KRW)	Non budgetary	Non budgetary	Non budgetary

■ Expected effect

- Improve citizen satisfaction by receiving suggestions through informal conversations with residents, and promptly notifying them individually as to whether they can be processed through local business trips.

7-4	Installation of LED-illuminated building license plates		
Strategy	Creating a social environment where everyone can get along	Area	Communication and information
Classification	Ongoing project	Depart in charge	Civil service office

■ Background and purpose

- Installation of LED-illuminated building license plates in government offices will facilitate easier location finding for citizens.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Major government offices in Cheongyang-gun, alleys in need of lighting environment improvement
- Project details
 - ❖ Installing LED-illuminated building license plates with excellent visibility contributes to creating bright streets and quick and accurate location identification.
 - 35 major government offices (24 public health branches and clinics, 11 each eup/myeon)
 - In addition, the lighting environment needs to be improved and old building license plates need to be replaced.

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of LED building license plates installed	Performance indicators (Count)	52	52	52
	Budget required (Unit : Million KRW)	16	16	16

■ Expected effect

- Night light makes it easier to determine location and improves safety and convenience
- Prevent crime in advance through excellent location visibility that allows for easier location identification in the event of an emergency at night

7-5	Creation of a civil service office environment where happiness is shared		
Strategy	Creating a social environment where everyone can get along	Area	Communication and information
Classification	Project expansion	Depart in charge	Civil service office

■ Background and purpose

- This project aims to develop a civil service environment that would soothe boredom from long waiting times. A meeting place with a small book cafe, shelter for citizens, and dedicated office equipment on the other side of the civil service space will be developed.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents
- Project details
 - ❖ Creating a pleasant civil service office environment
 - Continuing to operate a support window for the socially disadvantaged and reinforcing convenience facilities and supplies for customers
 - Genie Talk for foreigners, amenities for the elderly, convenience facilities for the disabled, etc.
 - ❖ Operate a civil service office with sensitivity and relaxation
 - Creating an emotional space where you can enjoy calm music while waiting.
 - Playing soothing music, planting plants by season and photos of residents.
 - Create a comfortable resting area by promoting the use of book cafes and health devices
 - Convenient facilities including the latest books, massage and children's playroom

■ Annual project work plan

Business classification		Annual project work plan		
		2024	2025	2026
Customer satisfaction(%)	Performance indicators (%)	90	90	90
	Budget required (Unit : Million KRW)	52	55	58

■ Expected effect

- Improving citizen satisfaction by providing services based on communication and empathy and creating a pleasant and comfortable civil service space that is considerate to various classes.

4. Supporting health services for healthy retirement

1) Community support and health services

<Table 5-10> Community support and health services major projects

Serial number	Major project	Department in charge	Classification
8-1	Community care	Community Care	Expansion
8-2	Customized care service for the elderly	Community Care	Expansion
8-3	Establishment of a rural type community care system	Rural Community	Ongoing
8-4	Artificial intelligence-based(AI) care service	Community Care	New
8-5	Emergency safety and relief services for the elderly and the disabled living alone	Community Care	Expansion
8-6	Free medical care for seniors over 65 years of age	Health care center	Expansion
8-7	In-home patient visit	Health care center	Expansion
8-8	Primary care physician visits to rural communities	Health care center	Ongoing
8-9	Operation of shelters for dementia patients in each region	Health care center	Ongoing
8-10	Community mental health promotion	Health care center	Expansion

8-1	Community care		
Strategy	Supporting health services for healthy retirement	Area	Community support and health services
Classification	Project expansion	Depart in charge	Community Care

■ Background and purpose

- Background : Cheongyang-gun is promoting the Ministry of Health and Welfare's integrated community care leading project. After this, the Cheongyang-gun Community Care project was developed to promote sustainable projects in Cheongyang-gun, then progress into a self-governing model for Cheongyang-gun.
- Purpose : This project aims to implement an integrated community care that provides housing, health, medical, nursing, and care services without the need for visiting hospitals and facilities.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents
- Project details
 - ❖ In Cheongyang-gun, where the local need for care is high, provide support for those in need of care through community integrated care, with benefits and service linkage tailored to their needs.
 - Provide customized services through an integrated care plan.
 - Regular operation of integrated care window
 - Health management and service inspection through home visits at least once a month
 - Customized 29 integrated care services, including customized nutritional supplementation and mobility support.
 - Revitalize community integrated care services
 - Actively identify support targets by utilizing local resources such as resident councils, village heads, and jobs for the elderly
- Promotion status
 - Promotion of community integrated care leading project (2019 – 2022)

- Financial investment of KRW 6,238 million during the lead project period (50% national, 15% provincial, 35% gun)
- Operate an integrated care window with dedicated public officials for nursing and welfare positions in all towns and villages
- 746 local care meetings were held with residents from towns and villages and experts from various occupations
- Accumulated 2,084 people linked to service 7,855 cases (as of September 30, 2023)
- Fall accident prevention residential environment improvement project for 1,174 households

Implementation plans

- Operating functional facilities by building an integrated care center for senior welfare housing
- Target discovery and service connection
- Promotion of institutional linkage and cooperation projects such as the National Health Insurance Corporation, health care, and rural agreements
- Implementation of policy quality management through regular evaluation based on common provision

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Achievement of target number of people subject to integrated care policy	Performance indicator (%)	100	100	100
	Budget required (Unit : Million KRW)	1,794	1,884	1,978

※ Ratio of target number of people compared to the target number of integrated care services (720 people: as of 2024)

■ Expected effect

- Respond to numerous blind spots in care that arises due to the super aging of rural areas, poor distribution of local resources, and Cheongyang-gun's social security issues.
- Prevents long-term care and supports healthy independent living in the community through continuous care

8-2	Customized care service for the elderly		
Strategy	Supporting health services for healthy retirement	Area	Community support and health services
Classification	Project expansion	Depart in charge	Community Care

■ Background and purpose

- This project aims to provide appropriate care services to vulnerable seniors who have difficulty in carrying out daily routines to ensure a stable life and maintain their function and health.

■ Implementation plans

- Project period: 2024 onwards
- Project target : Cheongyang-gun residents aged 65 or older that receive national basic livelihood security, the next-lowest class, or recipients of the basic pension.
- Project details
 - ❖ Providing user-centered customized services such as safety and well-being checks, housework assistance, and private sponsorship linkage services for the elderly who have difficulty in carrying out daily life on their own.
 - Direct service : Safety support (safety/well-being check, chat service, information provision, daily safety check), Social participation (programs, self-help groups), Lifestyle education (physical and mental health fields, etc.), Daily life support (accompaniment to outings and household help, etc.)
 - Linked services: Linked support for community-sponsored goods or services
 - Specialized services: counseling and program operation for the elderly with seclusion type and depression type

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Achievement of target number of elderly needing customized care service policy	Performance indicator (%)	100	100	100
	Budget required (Unit : Million KRW)	2,122	2,228	2,339

* Ratio of the target number of people compared to the target number of people provided with customized elderly care services (1,499 people: as of 2024)

■ Expected effect

- Establish a comprehensive social safety net for vulnerable seniors in the community and enable seniors to lead stable and happy lives within the community.

8-3	Establishment of a rural type community care system		
Strategy	Supporting health services for healthy retirement	Area	Community support and health services
Classification	Ongoing project	Depart in charge	Rural Community

■ Background and purpose

- Background : In order to overcome the geographically unfavorable rural environment and lack of material and human resources and provide effective care, it is necessary to establish a rural-type integrated care system that would enable community members to actively participate in.
- Purpose : Expand the class of care recipients and build infrastructure and systems so that all residents in need can receive care services.

■ Implementation plans

- Project period: 2022 ~ 2026
- Project target: Cheongyang living area, Cheongyang-gun
- Project details
 - ❖ Establishment of infrastructure to build an integrated care system through the “Rural Agreement”
 - Integrated care center (multipurpose care space, communal cooking facility, village cafe, library, etc.)
 - Central (eup) care base ⇒ Myeon-level care center ⇒ Establishment of infrastructure for the around village services

Target location	Project cost (Billion KRW)	Project period	Project details
Cheongyang-eup	190	2022~2026	Creation of daily life/food care platform, establishment of multi-care system
Ungok-myeon	40	2022~2025	Creation of a multi-purpose care center and town hall complex
Namyang-myeon	40	2022~2025	Creation of a multipurpose care center
Hwaseong-myeon	40	2022~2025	Creation of a multipurpose care center
Bibong-myeon	40	2022~2025	Creation of a multipurpose care center

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Rural integrated care system base construction completion (%)	Cheongyang-eup(%)	50	70	100
	Ungok-myeon(%)	70	100	—
	Namyang-myeon(%)	70	100	—
	Hwaseong-myeon(%)	70	100	—
	Bibong-myeon(%)	70	100	—
	Budget required (Unit: million KRW)	11,248	10,349	4,711

■ Expected effect

- Provide universal welfare services from eup/myeon locations to the surrounding towns
- Improvement of quality of life by improving welfare and settlement conditions through expansion of living infrastructure

8-4	Artificial intelligence-based (AI-based) care service		
Strategy	Supporting health services for healthy retirement	Area	Community support and health services
Classification	New project	Depart in charge	Community Care

■ Background and purpose

- Purpose : Utilizing ICT (Information and Communication Technology) to build an ICT care system for vulnerable groups in areas with poor accessibility to improve self-care and mental health

■ Implementation plans

- Project period: 2024 onwards
- Project target: Selected from among those eligible for integrated care in the Cheongyang-gun community
- Project details
 - ❖ Providing care services through AI (artificial intelligence)
 - Establish ICT care system
 - Identify and support candidates for integrated care centers

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of households supported by AI service	Performance indicator (household)	20	20	20
	Budget required (Unit : Million KRW)	30	30	30

■ Expected effect

- Improve quality of life by relieving the loneliness of seniors who live alone, respond to emergency situations and prevent lonely deaths.

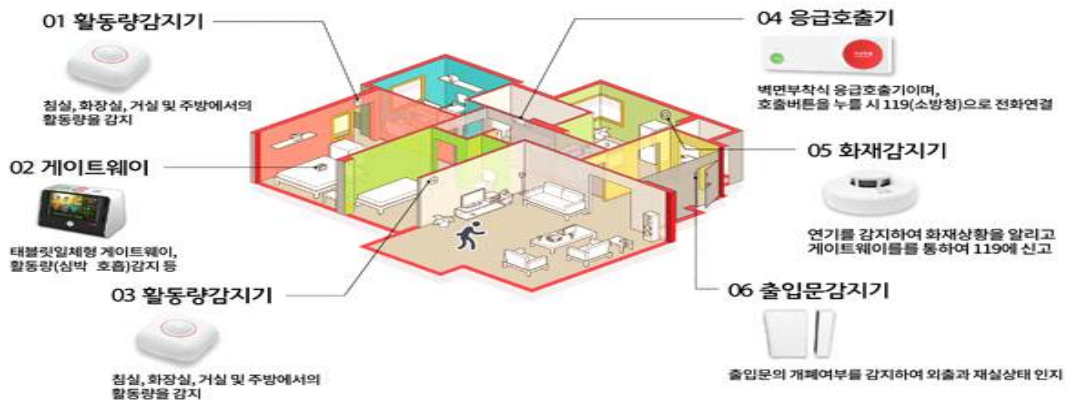

8-5	Emergency safety and relief services for the elderly and the disabled living alone		
Strategy	Supporting health services for healthy retirement	Area	Community support and health services
Classification	Project expansion	Depart in charge	Community Care

■ Background and purpose

- This projects aims to provide a “Gateway (G/W)” for elderly people living alone and families with disabilities. In the event of an emergency such as fire or sickness, a notification system will automatically report to 119 and alert emergency management personnel to respond to the emergency situation.

■ Implementation plans

- Project period: 2024 onwards
- Project Target: Vulnerable people in Cheongyang-gun
- Project details
 - ❖ Free provision of emergency safety and security service equipment for the safety of vulnerable groups in Cheongyang-gun
 - Emergency pager with the latest specifications, fire detector, activity detector (heart rate, respiration), illumination, humidity and temperature sensor, tablet/PC-based communication terminal device (gateway), etc.
 - Emergency safety and safety service equipment enables rapid response, accident prevention, and relief/rescue measures through linkage with the fire department during an emergency situation.

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of households with installed emergency safety and security equipment	Performance indicator (household)	979	1,029	1,079
	Budget required (Unit : Million KRW)	172	180	189

■ Expected effect

- Provide quick response to emergency situations involving seniors and disabled living alone.

8-6	Free medical care for seniors over 65 years of age		
Strategy	Supporting health services for healthy retirement	Area	Community support and health services
Classification	Project expansion	Depart in charge	Health care center

■ Background and purpose

- This project aims to promote a healthy life for the elderly in the area by providing out-of-pocket medical costs aside from the Cheongyanggun budget so that diseases can be treated without burden.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents aged 65 or older
- Project details
 - ❖ Support for the copay of among medical expenses at public health centers, public health clinics, and public health branches
 - In the case of health and medical centers, only one outpatient department per day is applied.
 - Support for cataract surgery and hospitalization expenses

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Budget utilization rate	Performance indicator (%)	80	80	80
	Budget required (Unit : Million KRW)	963	972	982

■ Expected effect

- Reduce the burden of medical expenses and promote health among the elderly

8-7	In-home patient visit		
Strategy	Supporting health services for healthy retirement	Area	Community support and health services
Classification	Project expansion	Depart in charge	Health care center

■ Background and purpose

- This project aims to provide in-person health care services to local elderly residents living in rural areas and are unable to use appropriate services.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents aged 65 or older
- Project details
 - ❖ Provide services such as medical treatment, hospital linkage, and physical therapy by directly visiting vulnerable groups (specifically those who have difficulty in moving around freely) in villages.
 - Establish a dedicated team to provide medical care to 10 eup and myeon
 - Weekend village tour to provide mobile medical treatment
 - Consultation, treatment, prescriptions, etc. by visiting medical center specialists

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of in-home patient visits	Performance indicators (times)	60	60	60
	Budget required (Unit : Million KRW)	108	120	130

■ Expected effect

- Resolve medical blind spots by strengthening medical visits to medically vulnerable groups

8-8	Primary care physician visits to rural communities		
Strategy	Supporting health services for healthy retirement	Area	Community support and health services
Classification	Ongoing project	Depart in charge	Health care center

■ Background and purpose

- Background : Efforts at the local level are needed to overcome poor medical services.
- Purpose : In order to carry out projects and provide technical support related to the health of village residents, a business agreement was signed with the Cheongyang-gun Health and Medical Center to enable doctors to conduct visits to the village to provide medical services and health counseling.

Implementation plans

- Project period: 2024 onwards
- Project target: Medically vulnerable areas (10 locations)
- Project details
 - ❖ At least once a month, public health doctors and nurses regularly visit 10 villages with low access to local medical services to prevent and manage chronic diseases through blood pressure and blood sugar tests and counseling, and even provide oriental medicine treatment.
 - Strengthening the physical activity of participating seniors by establishing customized health promotion programs for each village
 - Promoting a linkage project to provide follow-up treatment through simultaneous dementia and depression screening

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of visits implemented	Performance indicator (times)	140	140	140
	Budget required (Unit : Million KRW)	9	9	9

■ Expected effect

- Resolve medical blind spots and provide opportunities for health promotion for the elderly and health vulnerable groups in remote villages

8-9	Operation of shelters for dementia patients in each region		
Strategy	Supporting health services for healthy retirement	Area	Community support and health services
Classification	Ongoing project	Depart in charge	Health care center

■ Background and purpose

- It is not easy for dementia patients to travel to the dementia safety center located in a distant town. By building a regional shelter for dementia patients in areas where the burden of support for families caring for dementia patients is high, the convenience of using national dementia management services (such as dementia-related tests, applications for dementia treatment support, and provision of cognitive health programs) will be achieved.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Mild dementia patients registered at Cheongyang-gun Dementia Relief Center
- Project details : Operation of dementia patient shelters by region
(East of the mountain/West of the mountain)
 - ❖ Providing cognitive rehabilitation programs for patients with mild dementia
 - Main programs: Proven cognitive stimulation programs such as art therapy, music therapy, and horticultural therapy
 - Operating location
 - Shandong region (Jeongsan-myeon, Cheongnam-myeon, Jangpyeong-myeon, Mok-myeon): Jeongsan Health Center (opened in 2024)
 - Shanxi region (Cheongyang-eup, Daechi-myeon, Hwaseong-myeon, Namyang-myeon, Ungok-myeon) : Cheongyang-gun Dementia Relief Center (Health and Medical Center), Cheongyang-gun Senior Welfare Center

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
Number of shelters for dementia patients by region	Performance indicators (Count)	3	3	3
	Budget required (Unit : Million KRW)	20	20	20

■ Expected effect

- Improve the quality of life of dementia patients by preventing social isolation and slowing down the progress of the disease.

8-10	Community mental health promotion		
Strategy	Supporting health services for healthy retirement	Area	Community support and health services
Classification	Project expansion	Depart in charge	Health care center

■ Background and purpose

- Background : There is a continued increase in the demand for strengthened services to address mental health problems such as high suicide rates, stress, and low life satisfaction.
- Purpose : This project aims to implement mental health projects to improve the quality of life of local residents by improving mental health and providing social welfare for those with mental illness.

■ Implementation plans

- Project period: 2024 onwards
- Project target: Cheongyang-gun residents
- Project details
 - ❖ Operation of a mental health welfare center
 - Intensive discovery and monitoring of marginalized groups
 - Registering mentally ill patients at home and supporting treatment costs, operating a weekly rehabilitation program
 - Management and medical expenses support for registered pneumoconiosis and rare incurable diseases at home
 - ❖ Suicide prevention project
 - Intensive management of high-risk groups for suicide and early identification of high-risk groups for depression and suicide
 - Establishment of mutual cooperation system between organizations and organizations related to suicide prevention
 - Suicide prevention education and program operation by life cycle

■ Annual project work plan

Project classification		Year		
		2024	2025	2026
New registration rate of mentally ill patients	Performance indicator (%)	15% or more	15% or more	15% or more
	Budget (Unit : Million KRW)	286	312	327

* Number of new registrants in the current year ÷ total number of registrants (97 as of 2023) × 100

■ Expected effect

- Create a community that would enable people with mental illness to live with their neighbors by providing community-centered integrated mental illness management services
- Prevent the occurrences of suicide and spread an atmosphere of love for life

Section 3 Required Budget

- The budget for 3 years (2024-2026) for 4 major strategic goals, 8 major areas, and 47 detailed projects is approximately KRW 108,182 million.
- The annual budget are as follows: KRW 41,048 million for 2024, KRW 36, 946 million for 2025 and KRW 30,189 million for 2026.

1. Budget for each area

- The three-year budget split into different areas are as follows:
 - Community support and health services (KRW 43, 571 million);
 - Civic participation and employment (KRW 25, 927 million);
 - Social participation (KRW 11, 814 million);
 - Outdoor spaces and buildings (KRW 9, 167 million);
 - Transportation (KRW 7, 779 million); and
 - Respect and social integration (KRW 6,753 million)

<Table 5-11> Budget for each area in Cheongyang-gun

(Unit: Million KRW)

Strategic goal	Area	Budget			
		Total	2024	2025	2026
Total		106,972	40,645	36,542	29,785
Creating a physical environment for a pleasant retirement	Outdoor spaces and buildings	9,167	3,635	3,096	2,436
	Transportation	7,779	1,684	2,225	3,870
	Housing	1,629	851	388	390
Creating a cultural and economic environment for an active retirement	Civic participation and employment	25,927	8,235	8,636	9,056
	Social participation	11,813	7,123	3,731	959
Creating a social environment where everyone can get along	Respect and social inclusion	6,744	2,254	2,248	2,242
	Communication and information	342	111	114	117
Health service support for a healthy retirement	Community support and health services	43,571	16,752	16,104	10,715

2. Budget for each detailed project

The budget for each detailed project is as follows:

<Table 5-12> Cheongyang-gun budget for each detailed project

(Unit: Million KRW)

Strategic goal	Area	Detailed project	Budget			
			Total	2024	2025	2026
Creating a physical environment for a pleasant retirement	Outdoor spaces and facilities	(Rural) Improvement of living conditions in vulnerable areas	5,345	2,021	1,992	1,332
		Crime prevention design	510	510	-	-
		Installation and maintenance of street lights and security lights	1,755	585	585	585
		Construction of beautiful public restrooms	57	19	19	19
		Vacant house joint project (connecting vacant houses with residents)	1,500	500	500	500
	Transportation	Support for public transportation for seniors aged 75 or older	1,320	440	440	440
		Improvement in mobility for the vulnerable	691	226	230	235
		Operation of public buses	1,356	452	452	452
		Expansion of Happy Taxi operation	1,200	400	400	400
		Operation of eup/myeon medical/market circulation bus	3,179	156	692	2,331
		Traffic accident prevention education for the elderly	33	10	11	12
	Housing	Integrated care center linked to senior welfare housing	1,365	765	300	300
		Group living home for seniors living alone	165	53	55	57
		Senior citizen residential environment improvement project	84	28	28	28
		Residential space health clean project	15	5	5	5

<Table 5-12> Cheongyang-gun budget for each detailed project (continued)

(Unit: Million KRW)

Strategic goal	Area	Details	Budget			
			Total	2024	2025	2026
Creating a cultural and economic environment for an active retirement	Civic participation and employment	Support for senior jobs and social activities	24,841	7,880	8,274	8,687
		Support for incentives for the employment of the elderly	33	11	11	11
		Cheongyang job exchange operations	150	50	50	50
		Support for public meals at senior centers	732	237	244	251
		Operation of the eup, myeon, dong volunteer base center	147	49	49	49
		1+3 Love sharing volunteer activity	24	8	8	8
	Social participation	Creating a community space together (Nono Care Center)	1,000	700	300	—
		Operating general welfare center for the elderly to realize new hopes in old age	1,950	620	650	680
		Construction of a family culture center and lifelong learning center complex	8,026	5,524	2,502	—
		Cultural and leisure tours with seniors	7	1.5	1.5	3
