WHO Global Network for Age-
friendly Cities and Communities

Dear Madam, Sir,

The city of Alexandroupolis confirms its commitment to be member of the WHO Global Network for Age-friendly Cities and Communities.

The specific challenge we wish to address in this Global network as a member is to enhance age-friendly policies and actions, which foster healthy and active ageing.

We are convinced that by working through **Age friendly world**, we will be able to better address these challenges. In this context, if the application is approved within the framework of **Age friendly world**, we will commit to share experience, achievements and lessons learnt with other cities and communities and together we can find appropriate innovative and evidence-based solutions. More especially, we commit to listen to the needs of ageing population, assess and monitor age-friendliness and work collaboratively with older people and across sectors to create age-friendly physical and social environments. Our participation will facilitate the improvement of our community development plans regarding ageing.

The details of this contribution are outlined within the application.

Yours sincerely,

IOANNIS ZAMPOUKIS
MAYOR OF ALEXANDROUPOLIS
