B1. TOBACCO CONSUMPTION

Prevalence of tobacco use

Smoking prevalence in the adult population (all)

(Please provide prevalence data for total adult population, and identify the age considered, e.g. 15 years old and over, 18-64 years; see B112)

Current smokers

	Prevalence (%) (please include all smoking tobacco products in prevalence data)	Average number of the most-consumed smoking tobacco product used per day
MALE	39.2	19.5
FEMALE	3.3	8.4
TOTAL (males and females)	20.5	18.9

Daily smokers

	Prevalence (%) (please include all smoking tobacco products in prevalence data)	Average number of the most-consumed smoking tobacco product used per day
MALE	35.4	19.5
FEMALE	2	8.4
TOTAL (males and females)	18.0	18.9

Occasional smokers

	Prevalence (%) (please include all smoking tobacco products in prevalence data)
MALE	3.7
FEMALE	1.3
TOTAL (males and females)	2.5

Former smokers

	Prevalence (%) (please include all smoking tobacco products in prevalence data)
MALE	10.8
FEMALE	1.1
TOTAL (males and females)	5.8

Never smokers

Prevalence (%)
(please include all smoking tobacco products in prevalence data)

MALE	50.1
FEMALE	95.6
TOTAL (males and females)	73.8

Please indicate the smoking tobacco products included in calculating prevalence for question B11:

manufactured cigarettes, hand rolled cigarettes, pipes, cigars, cheroots, cigarillos, shisha

Please indicate the age range to which the data used to answer question B11 refer:

	From	To
Age range	18	69

Please indicate the year of the data used to answer question B11:

2014

Please indicate the source of the data used to answer question B11:

WHO STEPS Non Communicable Disease rISK fACTORS SUVEILLANCE. Kuwait. 2015

Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report.

Current smoker	current smokers are those who responded that they had been smoking whether on a daily or irregular basis for a period exceeding one month at th time the survey was conducted.
Daily smoker	current smokers are those responded that they were used to smoking on daily basis at the time the survey was conductedo smoking on a daily basis
Occasional smoker	not daily smokers
Former smoker	ARE THOSE WHO RESPONDED THAT THEY HAD QUIT SMOKING AND HAD NOT SMOKED FOR A PERIOD EXCEEDING ONE MONTH AT THE TIME THE SURVEY WAS CONDUCTED
Never smoker	are those who responded that they had never used tobacco throughout their life

Please provide a brief explanation of the trend in smoking prevalence in the adult population in the past two years or since submission of your last report.

The prevalence of smoking increased compared to the results of the 2008 STEPS, The reason can be attributed to either the expansion of the tobacco market in Kuwait or due to the lack of enforcement of the regulations and the gap in the law number 15/1995 regardin the specification of the fine on violation of the law and the governing body for the implementation.

Daily current smokers was 17.5 in2008 and became 18%.

Males smoking daily was 32.5% became 35.4% and female current smokers was 3% in 2008 and became 3.3.

More shish smoking esp among females

The number of those using electronic delivery systems is on the increase, both new users and traditional tobacco users. The numbers of dual addiction is on the increase but yet to be measured.

The STEPS Survey will be repeated this year.

Smoking prevalence in the adult population (by age groups)

(If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years)

	Range - start age	Range - end age	Prevalence (%) (please include all smoking tobacco products in prevalence data)
MALES - current smokers ¹	18	29	41
MALES - current smokers ¹	30	44	44
MALES - current smokers ¹	45	59	31
MALES - current smokers ¹	60	69	20
MALES - current smokers ¹	18	69	39
FEMALES - current smokers ¹	18	29	3
FEMALES - current smokers ¹	30	44	3
FEMALES - current smokers ¹	45	59	4
FEMALES - current smokers ¹	60	69	1
FEMALES - current smokers ¹	18	69	3
TOTAL (males and females) - current smokers ¹	18	29	22
TOTAL (males and females) - current smokers ¹	30	44	23
TOTAL (males and females) - current smokers ¹	45	59	16
TOTAL (males and females) - current smokers ¹	60	69	9
TOTAL (males and females) - current smokers ¹	18	69	20

Please indicate the smoking tobacco products included in calculating prevalence for question B12:

4 types: show card: cigarettes, shish, cigar and pipe

Please indicate the year of the data used to answer question B12:

2014

Please indicate the source of the data used to answer question B12:

WHO STEPS noncommunicable disease risk factor surveillance. kuwait 2014

Please provide a brief explanation of the trend in current smoking prevalence by age group in the past two years or since submission of your last report, if data are available.

There is a tendency to increase the prevalence of smoking mainly among the younger adults. the highest increase was was in the age group 30-44 years followed by 18-29. This can be explained by more younger people are taking the habbit of smoking. and growing into smoking adults.

Prevalence of smokeless tobacco use in the adult population (all)

(Please provide prevalence data for total adult population, and identify the age considered in B132, e.g. 15 years old and over, 18–64 years; see B132)

Males

Prevalence (%)

(please include all smokeless tobacco products in prevalence data)

Females

Prevalence (%)

(please include all smokeless tobacco products in prevalence data)

TOTAL (males and females)

Prevalence (%)

(please include all smokeless tobacco products in prevalence data)

Please indicate the smokeless tobacco products included in calculating prevalence for question B13:

Please indicate the age range to which the data used to answer question B13 refer:

Tobacco use by young persons

(please include all smoking or smokeless tobacco products in prevalence data)

	Age range	SMOKING TOBACCO - Prevalence (%)	SMOKELESS TOBACCO - Prevalence (%)	WATER PIPE - Prevalence (%)
BOYS - Current users ⁴	13-15	24.2	3.1	
GIRLS - Current users ⁴	13-15	9.8	2.3	
TOTAL (boys and girls) - Current users ⁴	13-15	16.7	2.7	

Please indicate the tobacco products included in calculating prevalence for question B16:

smoking and smokeless tobacco

Please indicate the year of the data used to answer question B16:

2016

Please indicate the source of the data used to answer question B16:

GYTS. Fact sheet Kuwait 2016

Please provide the definition of "current smoking/tobacco use" used to answer question B16 in the space below.

current smoking: smoked tobacco anytime during the past 30 days

Please provide a brief explanation of the trend in tobacco use by young persons in the past two years or since submission of your last report.

According to the results of the 2016 survey when comparing results with the 2009 survey we find a small decrease in the prevalence of smoking among the 13-15 years old. This can be explained by the increase in awareness of the dangers of tobacco smoking, but can also be attributed to sampling and methodology. young people tend to deny their smoking

Regulation of the contents of tobacco products

Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

testing and measuring the contents of tobacco products?

Yes ✓

testing and measuring the emissions of tobacco products?

No ✗

regulating the contents of tobacco products?

Yes ✓

regulating the emissions of tobacco products?

No ✗

Please provide a brief description of the progress made in implementing Article 9 (*Regulation of the contents of tobacco products*) in the past two years or since submission of your last report.

The Standatards Administration at the Public Authority of Industry applies the specifications agreed upon in the GCC Council Standardization Organization (GSO 246) Labelilng of Packages tobacco products
GSO 1415/2011/Amd 1:2014 Almeassel tobacco
GSO 2051/2010 Tobacco and its products - Sijaritus
GSO 1749/2011/Amd 1:2014 Almeassel tobacco fruit flavored
GSO 2047/2010 Tuscan cigars and cigarettes
GSO 2051/2010 Tobacco and its products - Sijaritus
GSO 2390/2014 Permissible and impermissible tobacco additives
GSO 2050/2010 A mixture of tobacco pipe

Have you utilized the "Guidelines for implementation of Articles 9 and 10 of the WHO FCTC" when developing or implementing policies in this area?

Yes ✓

If you answered “Yes” to question C236 please provide details in the space below or refer to section C of the additional questionnaire available at this link. Response to this question or to the additional questionnaire is **voluntary**. <https://extranet.who.int/dataform/655321?token=2dqr4i26i4qfxkj&lang=en> (<https://extranet.who.int/dataform/655321?token=2dqr4i26i4qfxkj&lang=en>)

تم انتهاء العمل من لائحة تنظيم محتويات منتجات التبغ المستجدة

If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below (e.g., whether your country 1) has incorporated product regulation in the national tobacco control legislation; 2) has access to either governmental or independent – not owned or controlled by the tobacco industry – laboratories for testing contents and/or emissions of tobacco products; 3) has regulated ingredients, such as flavours (e.g. menthol); 4) has regulated product characteristics, such as design features (e.g., cigarette ventilation); etc.).

The GSO 246 will be updated soon

Please attach the relevant documentation.

Regulation of tobacco product disclosures

Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

requiring manufacturers or importers of tobacco products to disclose to Government authorities information about the:

contents of tobacco products?	Yes
emissions of tobacco products?	No

requiring public disclosure of information about the:

contents of tobacco products?	Yes
emissions of tobacco products?	No

Please provide a brief description of the progress made in implementing Article 10 (*Regulation of tobacco product disclosures*) in the past two years or since submission of your last report.

The Tobacco laboratory in the MOH is responsible in such examinations and testing but it is limited to cigarettes not including the shisha products in the examination

Have you utilized the “Guidelines for implementation of Articles 9 and 10 of the WHO FCTC” when developing or implementing policies in this area?

Yes ✓

If you answered “Yes” to question C244 please provide details in the space below or refer to section C of the additional questionnaire available at this link. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token=2dqr4i26i4qfxkj&lang=en> (<https://extranet.who.int/dataform/655321?token=2dqr4i26i4qfxkj&lang=en>)

يتم الاستعانة بمختبرات معتمدة لفحص منتجات التبغ المختلفة والتي لا يتم فحصها في مختبر التبغ المحلي

If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below (e.g. whether your country has incorporated tobacco product disclosures in the national tobacco control legislation; has regulated the public disclosure of toxic constituents and emissions of tobacco products, aiming to raise public awareness and advance tobacco control policy; etc.).

يتم الاستعانة بمختبرات معتمدة لفحص منتجات التبغ المختلفة والتي لا يتم فحصها في مختبر التبغ المحلي

Please attach the relevant documentation.

Packaging and labelling of tobacco products

Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

requiring that packaging, individual cigarettes or other tobacco products do not carry advertising or promotion?

Yes ✓

requiring that packaging and labelling do not promote a product by any means that are false, misleading, deceptive or likely to create an erroneous impression about its characteristics, health effects, hazards or emissions?

Yes ✓

requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products carry health warnings describing the harmful effects of tobacco use?

Yes ✓

ensuring that the health warnings are approved by the competent national authority?

Yes ✓

ensuring that the health warnings are rotated?

No ✗

ensuring that the health warnings are clear, visible and legible?

Yes ✓

Does your law mandate, as a minimum, a style, size and colour of font to render the warning clear, visible and legible?

Yes ✓

ensuring that the health warnings occupy no less than 30% of the principal display areas?

Yes ✓

ensuring that the health warnings occupy 50% or more of the principal display areas?

Yes ✓

ensuring that health warnings are in the form of, or include, pictures or pictograms?

Yes ✓

Does the Government own the copyright to these pictures and pictograms?

No ✗

Would you grant a non-exclusive and royalty-free licence for the use of health warnings developed in your jurisdiction with other Parties?

No ✗

requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products contain information on relevant:

constituents of tobacco products? Yes

emissions of tobacco products? No

requiring that the warnings and other textual information appear on each unit packet and package and on any outside packaging and labelling in the principal language or languages of the country?

Yes ✓

Please provide a brief description of the progress made in implementing Article 11 (*Packaging and labelling of tobacco products*) in the past two years or since submission of your last report.

Have you utilized the “Guidelines for implementation of Article 11 of the WHO FCTC” when developing or implementing policies in this area?

Yes ✓

If you answered “Yes” to question C2516 please provide details in the space below or refer to section D of the additional questionnaire available at this link. Response to this question or to the additional questionnaire is voluntary. <https://extranet.who.int/dataform/655321?token=2dqr4i26i4qfxkj&lang=en> (<https://extranet.who.int/dataform/655321?token=2dqr4i26i4qfxkj&lang=en>)

If you have any other relevant information pertaining to or not covered in this section, please provide details in the space below.

Please attach the relevant documentation.

Education, communication, training and public awareness

Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

educational and public awareness programmes? (*Please refer to programmes implemented since submission of your two-year report.*)

Yes ✓

To whom are these programmes targeted?

- adults or the general public
 - children and young people
 - men
 - women
 - pregnant women
 - ethnic groups
 - other (please specify)
 - Other
-

Do you reflect the following key differences among targeted population groups in educational and public awareness programmes?

- age
 - gender
 - educational background
 - cultural background
 - socioeconomic status
 - other (please specify)
 - Other
-

Do these educational and public awareness programmes cover:

- health risks of tobacco consumption?
 - health risks of exposure to tobacco smoke?
 - benefits of the cessation of tobacco use and tobacco-free lifestyles?
 - adverse economic consequences of tobacco production?
 - adverse economic consequences of tobacco consumption?
 - adverse environmental consequences of tobacco production?
 - adverse environmental consequences of tobacco consumption?
-

awareness and participation of the following agencies and organizations in development and implementation of intersectoral programmes and strategies for tobacco control:

- public agencies?
 - nongovernmental organizations not affiliated with the tobacco industry?
 - private organizations?
 - other (please specify)?
 - Other
-

Are the elaboration, management and implementation of communication, education, training and public awareness programmes guided by research and do they undergo pre-testing, monitoring and evaluation?

Yes ✓

Are appropriate and special training or sensitization and awareness programmes on tobacco control addressed to:

- health workers?
- community workers?
- social workers?
- media professionals?
- educators?
- decision-makers?
- administrators?
- other (please specify)
- Other

Please provide a brief description of the progress made in implementing Article 12 (*Education, communication, training and public awareness*) in the past two years or since submission of your last report.

Celebrating the WNTD

Training course of health workers on treatment of Nicotin addiction

Demand reduction measures concerning tobacco dependence and cessation

Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:

developing and disseminating appropriate, comprehensive and integrated guidelines based on scientific evidence and best practices?

Yes ✔

programmes to promote cessation of tobacco use, including:

- media campaigns emphasizing the importance of quitting?
- programmes specially designed for underage girls and young women?
- programmes specially designed for women?
- programmes specially designed for pregnant women?
- telephone quitlines?
- local events, such as activities related to World No Tobacco Day or National No Smoking Day, if appropriate?
- other (please specify)?
- Other

design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as:

- educational institutions?
- health-care facilities?
- workplaces?
- sporting environments?
- other (please specify)?
- Other

inclusion of diagnosis and treatment of tobacco dependence and counselling services for cessation of tobacco use in national programmes, plans and strategies for:

- tobacco control?
- health?
- education?

inclusion of programmes on the diagnosis and treatment of tobacco dependence in your health-care system?

Yes ✓

Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence?

- primary health care
- secondary and tertiary health care
- specialist health-care systems (please specify below)
- specialized centres for cessation counselling and treatment of tobacco dependence
- rehabilitation centres
- Other

Are the services provided in these settings covered by public funding or reimbursement schemes?

primary health care	Fully
secondary and tertiary health care	Fully
specialist health-care systems (please specify below)	Fully
specialized centres for cessation counselling and treatment of tobacco dependence	Fully
rehabilitation centres	Fully
other (please specify below)	

Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services?

Health professionals including:

- physicians
- dentists
- family doctors
- practitioners of traditional medicine
- other medical professionals (please specify below)
- nurses
- midwives
- pharmacists
- Community workers
- Social workers
- other (please specify)
