## E. PRIORITIES AND COMMENTS

E1. What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?

- The priorities remain compliance with the different articles of the WHO FCTC which were not on board of the existing Public Health (Restrictions on Tobacco Products) Regulations 2008 more so with the amendments of the law which is in process.
- Strengthening the enforcement of the ban of sale of tobacco products to minor and the sale of single sticks remain a real challenge which the Ministry is considering seriously.
- Law Enforcement also needs to be reviewed and strengthened for full compliance.
- Banning the sale, importation and distribution of smokeless tobacco products and ENDS and ENNDS are essential elements to be considered.
- Regulating the contents and emissions of tobacco products and testing of the products are challenging issues.
- On-line sale and advertising of tobacco products need to be considered along with cross-border advertising.
- Introduction of Plain Packaging as supported by the WHO FCTC is also in process.

E2. Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control?

Yes

E3. Please provide details in the space below.

The need assessment carried out by the WHO Secretariat jointly with the Ministry of Health and Quality of Life in 2013 has been a helpful document which helped us to review our existing tobacco control strategies. The need to develop a media strategy to target our youth is still of actuality after the publication of the GYTS 2016 report. There is a need to review the existing strategy on the issue. The impact of taxation on tobacco consumption still remains to be done and review the actual taxation policy in the country.

E4. What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?

The technical and complex nature of few articles of the WHO FCTC which render their application and implementation even more difficult. The implementation of the different articles of the WHO FCTC is also based on the realities in the related Parties

E5[1]. Do you have any of the following products available on your national tobacco market? [smokeless tobacco products]

No

E5[2]. Do you have any of the following products available on your national tobacco market? [water pipe tobacco]

No

E5[3]. Do you have any of the following products available on your national tobacco market? [ENDS/ENNDS]

Yes

E5[other]. Do you have any of the following products available on your national tobacco market? [Other]

E6[1]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [smokeless tobacco products]

Yes

E6[2]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [water pipe tobacco]

Yes

E6[3]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [ENDS/ENNDS]

Yes

E6[other]. Have you adopted and implemented any policy or regulation that is specific to the following tobacco products? [Other]

E7. If you have any relevant information related to questions E5 and E6, please provide details in the space below.

The Public Health (Restrictions on Tobacco Products) Regulations 2008 already bans the manufacture, importation and sale of tobacco products for use in connection with waterpipes in Mauritius. Our law also bans the sale, offer for sale or distribution of sweets, snacks, toys or any other object in the form of or which are likely to create an association with cigarettes or cigars. The amended law has taken on board all the above issues which will be banned in Mauritius. The new legislations also consider the innovations of TI.

E8. Please provide any other relevant information not covered elsewhere that you consider important.

E9. Your suggestions for further development and revision of the reporting instrument:

The reporting instrument is user friendly and powerful but shall be more helpful if the instrument is simplified further to assist parties in the successful reporting in the future. The main purpose of the questionnaire on additional questions need to be clearly explained as it gives the wrong impression of duplicity and increase hardship to reporting parties.
