<b>Smokeless tobacco products</b> <input type="button" value="Add product"/>					
<b>Other tobacco products</b> <input type="button" value="Add product"/>

<sup>6</sup> The 'base of the tax' should clearly indicate on what the tax rate or amount is based. If the tax is expressed as a percentage, the base of the tax is the actual value of the good that is taxed. For example, a sales tax that is applied at the final stage of distribution will be calculated on top of those taxes that have previously been levied. If the tax is expressed as an amount, then the base of the tax is the volume of goods that is taxed. For example, if a tax is US\$5 per 100 cigarettes, the amount of tax is US\$5 and the base of the tax is 100 cigarettes.

**4.2** Please provide retail prices for the three most widely sold brands of domestic and imported tobacco products at the most widely used point of sale in your capital city.
