i. Prevalence (ref. [Article 19.2\(a\)](#), [Article 20.2](#) and [Article 20.3\(a\)](#)) [Help](#)

The Prevalence section refers to:

Article 19.2: Parties shall cooperate with each other in exchanging information through the Conference of the Parties in accordance with Article 21 including:

(a) information on the health effects of the consumption of tobacco products and exposure to tobacco smoke in accordance with Article 20.3(a)

Article 20.3: Parties recognize the importance of financial and technical assistance from international and regional intergovernmental organizations and other bodies. Each Party shall endeavour to:

(a) establish progressively a national system for the epidemiological surveillance of tobacco consumption and related social, economic and health indicators;

Article 20.2: The Parties shall establish, as appropriate, programmes for national, regional and global surveillance of the magnitude, patterns, determinants and consequences of tobacco consumption and exposure to tobacco smoke. Towards this end, the Parties should integrate tobacco surveillance programmes into national, regional and global health surveillance programmes so that data are comparable and can be analysed at the regional and international levels, as appropriate.

Please note: in cases where data has been collected, either by a country or as part of an existing surveillance programme, copies of the data should be attached to the completed questionnaire.

- (a) Please provide your rates of taxation for tobacco products for all levels of government, and be as specific as possible (specify the type of tax: excise, VAT or sales, import duties) (ref. **Article 6.3**). [Help](#)

Excise duty on manufactured tobacco is levied on cigarettes, cigars and cigarillos, fine cut tobacco for the rolling of cigarettes and other smoking tobacco. The duty is also levied on other products contain-ing tobacco and on cigarette paper in retail form (Combined Nomenclature code 4813). The definitions of the different products correspond to the definitions of the EU directive. Also products manufactured in whole or in part of substances other than tobacco (“substitute products”) are subject to excise duty. Products used for medical purposes (which do not contain tobacco), products supplied to the authori-ties as samples, and products used in the manufacture of other products subject to the same excise duty are exempted excise duty.

The rates of excise duty are as follows:

Product group	Euro per unit	% of retail-selling price
1) cigarettes	15,13/1000 pcs	50%
2) cigars and cigarillos	-	22%
3) pipe and smoking tobacco	3,62/kg	48%
4) fine-cut tobacco for rolling of cigarettes	3,62/kg	50%
5) cigarette paper	-	60%
6) other products containing tobacco	-	60%

A minimum excise duty is levied on cigarettes and fine-cut tobacco for rolling of cigarettes. It is 90 per cent of the excise duty on the product in question in the price category most in demand.

In addition, all tobacco products are subject to VAT rate of 22%.

The retail-selling price is the highest retail-selling price declared by the taxpayer, including all taxes. This price may be set freely by the taxpayer.

- (c) Please provide retail prices for the three most popular brands of domestic and imported tobacco products in your jurisdiction, and the relevant year (ref. **Article 6.2(a)**). [Help](#)

The most popular price categories in 2007 are:

4,20, 3,70 and 3,30 EUR for a pack of 20 cigarettes

95 EUR/kg for fine-cut tobacco for rolling cigarettes.
