**8. Priorities for implementation of the WHO Framework Convention on Tobacco Control**  [Help](#)

What are the priority areas for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction? (Ref. **Article 21.1(b)**)

Priority area for implementation of the WHO Framework is the protection from exposure to tobacco smoke in public places. The federal government and the governments of the federal states (Länder) agreed to enact regulations devised to better protect the population from the dangers of passive smoking in the areas where they have responsibility. Currently new laws are under discussion both on the federal and the Länder level.

What, if any, are the constraints or barriers you have encountered in implementing the Convention? (ref. **Article 21.1(b)**)

**9. Additional comments**  [Help](#)

Please provide any relevant information not covered elsewhere that you feel is important.

**10. Questionnaire feedback**

(a) Please provide feedback for improvement of the Group 1 questionnaire.

[Help](#)

The form of the reporting instrument without pagination isn't clear enough. Because of the software there's sometimes no chance to comment answers. The software and its programming cause confusion because of unintentional conversions of data. Percent numbers automatically change into decimal numbers (Prevalence No. 3) although the title asks for percent data. In schedule No. 2 there's only one chance to generate age groups, a correction isn't possible. In future the WHO FCTC Reporting Instrument should be published on the Internet. It's quite simple to create a questionnaire containing Java-Applets with a helping function.

(b) Please provide input for the future development of the Group 2 questionnaire.
