1) Lifetime smoking rate: Those who have smoked 100 cigarettes in their lifetime

2) Current smokers: Those who have smoked 100 cigarettes in their lifetime and been smoking cigarettes currently

3) Former smokers: Those who have smoked 100 cigarettes in their lifetime and used to smoke cigarettes in the past, but do not smoke cigarettes currently

4) Income level: Monthly income of a household  $\sqrt{\text{the number of household members}}$ 

5) Age-standardized by estimated population in 2005

\* coefficient of variation 25-50%

\*\* coefficient of variation more than 50%
