Subject: Tobacco control

Hi, I am fully supportive of the tobacco control suggestions include reducing the attractiveness of the tobacco product. In addition, I would like to add that more should be done to prevent innocent kids and elderly from breathing in second hand smoke at the walkway and pave way. I notice that the law is quite grey on the walkway/ traffic light because I have seen smokers smoking without any regards for others. When I asked them, they said no shelter so they can smoke where ever they want. Appreciate if the authorities can consider amendment the law to disallow smoking at pavement/ walkway including the traffic light stop pls. Thanks.
