B171		<b>Please indicate the year and source of the data used to answer question B17.</b> Statistics Norway/Norwegian Institute of Public Health
B172		<b>Please provide a brief explanation of the trends - in adults and in young persons - in the use of novel and emerging tobacco and nicotine products in the past two years or since submission of your last report.</b> Use = daily and occasional use combined. We do not have direct information about how many use e-cigarettes with and without nicotine, but have used another question about nicotine content among a subset of respondents to weight the prevalences. We have pooled data for 2020-2022. Also note that e-cigarettes with nicotine and novel tobacco and nicotine products are currently banned for sale in Norway.

**B2-B9. HEALTH, SOCIAL AND ECONOMIC INDICATORS**

B2		<b>Exposure to tobacco smoke</b>
B21		<b>Do you have any data on exposure to tobacco smoke in your population?</b> Yes
B22		<b>Please provide details in the space below (e.g. exposure by gender, at home, in the workplace, on public transport).</b>  How many hours daily respondents spend in a home where someone smokes (last in a survey from 2014). Among men who did not smoke, 1.5% answered that they spent at least 1 hour in a home where someone smokes. Among women the figure was 0.6%. In a survey from 2022, 2.0% / 0.0% among men/women 16-74 years who did not smoke, answered that they spent 1 hour or more a day in a room related to their workplace where other people smoked.

B31		<b>Do you have information on tobacco-related mortality in your population?</b> Yes
B32		<b>What is the estimated total number of deaths attributable to tobacco use in your population?</b>  5128
B33		<b>If available, please provide any additional information on mortality attributable to tobacco use (e.g. lung cancer, cardiovascular diseases) in your jurisdiction.</b>  Of the 5128 deaths attributable to tobacco, 431 were attributable to secondhand smoking.

B4		<b>Tobacco-related costs</b>
B41		<b>Do you have information on the economic burden of tobacco use in your population, e.g. the overall cost of tobacco use imposed on your society?</b> Yes
B42		<b>Please provide details (e.g. direct (health care-related) and indirect costs and, if possible, the method used to estimate these costs).</b>  Tobacco related economic costs were calculated based on estimates from neighboring countries in a report from the Norwegian directorate of Health in 2016. If costs related to loss of life-years or quality of life are not included, the costs of smoking amounts to 8-20 billion NOK per year. If these costs are included, the cost would be around 80 billion NOK per year.

B62		<b>Do you have any information on the percentage of illicit tobacco products on the national tobacco market?</b>  Yes
B63		<b>What percentage of the national tobacco market do illicit tobacco products constitute? (%)</b>  2.400000000
B64		<b>What is the trend over the past two years or since submission of your last report in the percentage of illicit tobacco products in relation to the national tobacco market?</b>  Miniscule change since 2017. Numbers come from an online survey of tobacco supply and represent the fraction of cigarettes bought in Norway at a price obviously below market price.
B65		<b>Please provide any further information on illicit tobacco products.</b>  The numbers do not include cigarettes bought in neighbouring countries such as Sweden or Denmark or at duty free shops.

E7		<p><b>If you have any relevant information related to questions E5 and E6, please provide details in the space below.</b></p>

		Norway has an authorisation system for novel tobacco or nicotine products. So far, all applications have been rejected (tobaccofree nicotine pouches and heated tobacco products), thus they may not be imported into or sold in Norway. Water pipe tobacco and nicotine containing ENDS are banned. The ban on ENDS will be lifted when the Tobacco Products Directive 2014/40/EU enters into force. Smokeless tobacco products have a specific health warning. Oral smokeless tobacco (snus) is covered by the plain packaging regulations.
