

A. ORIGIN OF THE REPORT

A1		Name of contracting Party: Austria
A3k		Web page www.sozialministerium.at
1		Period of reporting:
	1	Start date January 2020
	1	End date December 2022

B1. TOBACCO CONSUMPTION

B1		Prevalence of tobacco use
B11		Smoking prevalence in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered, e.g. 15 years old and over, 18-64 years; see B112)
1_SQ001		Current smokers
	1_SQ001	MALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 24.3
	1_SQ002	MALE [Average number of the most-consumed smoking tobacco product used per day] 12.8
	2_SQ001	FEMALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 23.0
	2_SQ002	FEMALE [Average number of the most-consumed smoking tobacco product used per day] 12.4
	3_SQ001	TOTAL (males and females) [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 23.7
	3_SQ002	TOTAL (males and females) [Average number of the most-consumed smoking tobacco product used per day] 12.6
1_SQ001		Daily smokers
	1_SQ001	MALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 17,3
	1_SQ002	MALE [Average number of the most-consumed smoking tobacco product used per day] 14,1
	2_SQ001	FEMALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 17,0
	2_SQ002	FEMALE [Average number of the most-consumed smoking tobacco product used per day] 13,4
	3_SQ001	TOTAL (males and females) [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 17,2
	3_SQ002	TOTAL (males and females) [Average number of the most-consumed smoking tobacco product used per day] 13,8
1_SQ001		Occasional smokers

	1_SQ001	MALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 7,0
	2_SQ001	FEMALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 6,0
	3_SQ001	TOTAL (males and females) [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 6,5
1_SQ001		Former smokers
	1_SQ001	MALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 27,5
	2_SQ001	FEMALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 22,4
	3_SQ001	TOTAL (males and females) [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 24,9
1_SQ001		Never smokers
	1_SQ001	MALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 48,2
	2_SQ001	FEMALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 54,8
	3_SQ001	TOTAL (males and females) [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 50,0
B111		Please indicate the smoking tobacco products included in calculating prevalence for question B11: Cigarettes
1_SQ001		Please indicate the age range to which the data used to answer question B11 refer:
	1_SQ001	Age range [From] 15
	1_SQ002	Age range [To] 99
B113A		Please indicate the year of the data used to answer question B11: 2020
B113B		Please indicate the source of the data used to answer question B11: General Population Survey on substance use 2020
SQ001		Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report.

	SQ001	Current smoker People smoking at least one cigarette within the last 30 days, including people smoking on a daily or nearly daily basis (i.e. sum of daily and occasional smokers)
	SQ002	Daily smoker People smoking on a daily or nearly daily basis within the last 30 days
	SQ003	Occasional smoker People smoking on a sporadic basis within the last 30 days
	SQ004	Former smoker People who smoked within the last 12 months but not within the last 30 days and people who did not smoke within the last 12 months but on a regular basis before
	SQ005	Never smoker People who never smoked on a regular basis
B115		Please provide a brief explanation of the trend in smoking prevalence in the adult population in the past two years or since submission of your last report. A comparison of the General Population Survey from 2015 to 2020 shows a decline in smoking prevalence. This is true in men and women, but more prominent among men. This decrease of smoking prevalence is seen among current smokers and daily smokers.
B12a_B12x1		Smoking prevalence in the adult population (by age groups)(If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years)
	B12a_B12x1	MALES - current smokers1 [Range - start age] 15
	B12a_B12x3	MALES - current smokers1 [Range - end age] 24
	B12a_B12x2	MALES - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 27,0
	B12b_B12x1	MALES - current smokers1 [Range - start age] 25
	B12b_B12x3	MALES - current smokers1 [Range - end age] 34
	B12b_B12x2	MALES - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 35,3
	B12c_B12x1	MALES - current smokers1 [Range - start age] 35
	B12c_B12x3	MALES - current smokers1 [Range - end age] 44
	B12c_B12x2	MALES - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 24,1
	B12d_B12x1	MALES - current smokers1 [Range - start age]

		45
	B12d_B12x3	MALES - current smokers1 [Range - end age] 54
	B12d_B12x2	MALES - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 26,2
	B12e_B12x1	MALES - current smokers1 [Range - start age] 55
	B12e_B12x3	MALES - current smokers1 [Range - end age] 64
	B12e_B12x2	MALES - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 23,9
	B12ee_B12x1	MALES - current smokers1 [Range - start age] 65
	B12ee_B12x3	MALES - current smokers1 [Range - end age] 99
	B12ee_B12x2	MALES - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 12,3
	B12eee_B12x1	MALES - current smokers1 [Range - start age]
	B12eee_B12x3	MALES - current smokers1 [Range - end age]
	B12eee_B12x2	MALES - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)]
	B12eeee_B12x 1	MALES - current smokers1 [Range - start age]
	B12eeee_B12x 3	MALES - current smokers1 [Range - end age]
	B12eeee_B12x 2	MALES - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)]
	B12f_B12x1	FEMALES - current smokers1 [Range - start age] 15
	B12f_B12x3	FEMALES - current smokers1 [Range - end age] 24
	B12f_B12x2	FEMALES - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 26,1

	B12g_B12x1	FEMALES - current smokers1 [Range - start age] 25
	B12g_B12x3	FEMALES - current smokers1 [Range - end age] 34
	B12g_B12x2	FEMALES - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 29,8
	B12h_B12x1	FEMALES - current smokers1 [Range - start age] 35
	B12h_B12x3	FEMALES - current smokers1 [Range - end age] 44
	B12h_B12x2	FEMALES - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 24,5
	B12i_B12x1	FEMALES - current smokers1 [Range - start age] 45
	B12i_B12x3	FEMALES - current smokers1 [Range - end age] 54
	B12i_B12x2	FEMALES - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 21,2
	B12j_B12x1	FEMALES - current smokers1 [Range - start age] 55
	B12j_B12x3	FEMALES - current smokers1 [Range - end age] 64
	B12j_B12x2	FEMALES - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 23,4
	B12jj_B12x1	FEMALES - current smokers1 [Range - start age] 65
	B12jj_B12x3	FEMALES - current smokers1 [Range - end age] 99
	B12jj_B12x2	FEMALES - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 17,0
	B12jjj_B12x1	FEMALES - current smokers1 [Range - start age]
	B12jjj_B12x3	FEMALES - current smokers1 [Range - end age]
	B12jjj_B12x2	FEMALES - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)]

	B12jjj_B12x1	FEMALES - current smokers1 [Range - start age]
	B12jjj_B12x3	FEMALES - current smokers1 [Range - end age]
	B12jjj_B12x2	FEMALES - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)]
	B12k_B12x1	TOTAL (males and females) - current smokers1 [Range - start age] 15
	B12k_B12x3	TOTAL (males and females) - current smokers1 [Range - end age] 24
	B12k_B12x2	TOTAL (males and females) - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 26,6
	B12l_B12x1	TOTAL (males and females) - current smokers1 [Range - start age] 25
	B12l_B12x3	TOTAL (males and females) - current smokers1 [Range - end age] 34
	B12l_B12x2	TOTAL (males and females) - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 32,6
	B12m_B12x1	TOTAL (males and females) - current smokers1 [Range - start age] 35
	B12m_B12x3	TOTAL (males and females) - current smokers1 [Range - end age] 44
	B12m_B12x2	TOTAL (males and females) - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 24,3
	B12n_B12x1	TOTAL (males and females) - current smokers1 [Range - start age] 45
	B12n_B12x3	TOTAL (males and females) - current smokers1 [Range - end age] 54
	B12n_B12x2	TOTAL (males and females) - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 23,7
	B12o_B12x1	TOTAL (males and females) - current smokers1 [Range - start age] 55

	B12oo_B12x1	TOTAL (males and females) - current smokers1 [Range - start age] 65
	B12oo_B12x3	TOTAL (males and females) - current smokers1 [Range - end age] 99
	B12oo_B12x2	TOTAL (males and females) - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 14,9
	B12ooo_B12x1	TOTAL (males and females) - current smokers1 [Range - start age]
	B12ooo_B12x3	TOTAL (males and females) - current smokers1 [Range - end age]
	B12ooo_B12x2	TOTAL (males and females) - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)]
	B12oooo_B12x 1	TOTAL (males and females) - current smokers1 [Range - start age]
	B12oooo_B12x 3	TOTAL (males and females) - current smokers1 [Range - end age]
	B12oooo_B12x 2	TOTAL (males and females) - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)]
B121		Please indicate the smoking tobacco products included in calculating prevalence for question B12: Cigarettes
B122A		Please indicate the year of the data used to answer question B12: 2020
B122B		Please indicate the source of the data used to answer question B12: General Population Survey on substance use 2020
B123		Please provide a brief explanation of the trend in current smoking prevalence by age group in the past two years or since submission of your last report, if data are available. A comparison of the General Population Survey from 2015 to 2020 shows a decline in prevalence among current smokers in all age groups.
B13		Prevalence of smokeless tobacco use in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered in B132, e.g. 15 years old and over, 18–64 years; see B132)
1_B13x1		Males
	1_B13x1	Current users [Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

		5,1
	2_B13x1	Daily users [Prevalence (%) (please include all smokeless tobacco products in prevalence data)] 2,4
	3_B13x1	Occasional users [Prevalence (%) (please include all smokeless tobacco products in prevalence data)] 2,7
	4_B13x1	Former users [Prevalence (%) (please include all smokeless tobacco products in prevalence data)] 3,8
	5_B13x1	Never users [Prevalence (%) (please include all smokeless tobacco products in prevalence data)] 91,2
1_B13x1		Females
	1_B13x1	Current users [Prevalence (%) (please include all smokeless tobacco products in prevalence data)] 1,7
	2_B13x1	Daily users [Prevalence (%) (please include all smokeless tobacco products in prevalence data)] 0,6
	3_B13x1	Occasional users [Prevalence (%) (please include all smokeless tobacco products in prevalence data)] 1,1
	4_B13x1	Former users [Prevalence (%) (please include all smokeless tobacco products in prevalence data)] 2,3
	5_B13x1	Never users [Prevalence (%) (please include all smokeless tobacco products in prevalence data)] 95,9
1_B13x1		TOTAL (males and females)
	1_B13x1	Current users [Prevalence (%) (please include all smokeless tobacco products in prevalence data)] 3,4
	2_B13x1	Daily users [Prevalence (%) (please include all smokeless tobacco products in prevalence data)] 1,5
	3_B13x1	Occasional users [Prevalence (%) (please include all smokeless tobacco products in prevalence data)] 1,9
	4_B13x1	Former users [Prevalence (%) (please include all smokeless tobacco products in prevalence data)] 3,0

	5_B13x1	Never users [Prevalence (%) (please include all smokeless tobacco products in prevalence data)] 93
B131		Please indicate the smokeless tobacco products included in calculating prevalence for question B13: In Austria smoke free products are considered to be chewing tobacco, snuff, snus. The prevalence rates above currently still include E-cigarettes, E-shishas and E-pipes as the data cannot yet be allocated due to a pending court ruling on the question of whether HTPs are smokeless tobacco products or smoking tobacco products.
1_SQ001		Please indicate the age range to which the data used to answer question B13 refer:
	1_SQ001	Age range [From] 15
	1_SQ002	Age range [To] 99
B133A		Please indicate the year of the data used to answer question B13: 2020
B133B		Please indicate the source of the data used to answer question B13: General Population Survey on substance use
SQ001		Please provide the definitions of “current user”, “daily user”, “occasional user”, “former user” and “never user” (of smokeless tobacco products) used in this report in the space below.
	SQ001	Current user People using smokeless tobacco products within the last 30 days (i.e. sum of daily and occasional users)
	SQ002	Daily user People using smokeless tobacco products on a daily or nearly daily basis within the last 30 days
	SQ003	Occasional user People using smokeless tobacco products on a sporadic basis within the last 30 days
	SQ004	Former user People using smokeless tobacco products at some time in their life but within the last 30 days
	SQ005	Never user People who never used smokeless tobacco products in their life
B135		Please provide a brief explanation of the trend in smokeless tobacco use in the adult population in the past two years or since submission of your last report. The prevalence of smokeless tobacco products increased in Austria among current users and daily users. However in general the prevalence of smokeless tobacco products remains very low in Austria (84.1 of the population has nevers used any smokeless tobacco product).
B12a_B12x1		Prevalence of smokeless tobacco use in the adult population (current users) by age group (by age groups)(If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years)
	B12a_B12x1	MALES - current users2 [Age group (adults)]

		15-99
	B12a_B12x2	MALES - current users2 [Prevalence (%) (please include all smokeless tobacco products in prevalence data)] 4.0
	B12b_B12x1	MALES - current users2 [Age group (adults)]
	B12b_B12x2	MALES - current users2 [Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
	B12c_B12x1	MALES - current users2 [Age group (adults)]
	B12c_B12x2	MALES - current users2 [Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
	B12d_B12x1	MALES - current users2 [Age group (adults)]
	B12d_B12x2	MALES - current users2 [Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
	B12e_B12x1	MALES - current users2 [Age group (adults)]
	B12e_B12x2	MALES - current users2 [Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
	B12ee_B12x1	MALES - current users2 [Age group (adults)]
	B12ee_B12x2	MALES - current users2 [Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
	B12eee_B12x1	MALES - current users2 [Age group (adults)]
	B12eee_B12x2	MALES - current users2 [Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
	B12eeee_B12x1	MALES - current users2 [Age group (adults)]
	B12eeee_B12x2	MALES - current users2 [Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
	B12eeee_B12x1	MALES - current users2 [Age group (adults)]
	B12eeee_B12x2	MALES - current users2 [Prevalence (%) (please include all smokeless tobacco products in prevalence data)]
	B12f_B12x1	FEMALES - current users2 [Age group (adults)] 15-99
	B12f_B12x2	FEMALES - current users2 [Prevalence (%) (please include all smokeless tobacco products in prevalence data)]

		2.0

B161		Please indicate the tobacco products included in calculating prevalence for question B16: - Smoking tobacco = cigarettes - Smokeless tobacco = snus, chewing tobacco, snuff
B162A		Please indicate the year of the data used to answer question B16: 2019
B162B		Please indicate the source of the data used to answer question B16: ESPAD 2019 (Austria)
B163		Please provide the definition of “current smoking/tobacco use” used to answer question B16 in the space below. Smoking/using the product (Group) at least once in the last 30 days
B164		Please provide a brief explanation of the trend in tobacco use by young persons in the past two years or since submission of your last report. Compared to the ESPAD Austria data of 2015 we see a decline of current tobacco smoking by young persons.
SQ001_SQ001		Male
	SQ001_SQ001	Prevalence (%) (please include all smoking tobacco products in prevalence data) [Prevalence (%) (please include all smoking tobacco products in prevalence data)]

	SQ001_SQ002	Prevalence (%) (please include all smoking tobacco products in prevalence data) [Average number of the most-consumed smoking tobacco product used per day]

	6_5	YOUNG PERSONS - Total (boys and girls) [Other products - Prevalence (%)] 13,1
B171		Please indicate the year and source of the data used to answer question B17. General Population Survey on substance use 2020
B172		Please provide a brief explanation of the trends – in adults and in young persons – in the use of novel and emerging tobacco and nicotine products in the past two years or since submission of your last report. Compared to the ESPAD Austria data of 2015 current use of water pipes seems stable or slightly increasing. For smokeless tobacco use we had no data for young persons so far.

B2-B9. HEALTH, SOCIAL AND ECONOMIC INDICATORS

B2		Exposure to tobacco smoke
B21		Do you have any data on exposure to tobacco smoke in your population? Yes
B22		Please provide details in the space below (e.g. exposure by gender, at home, in the workplace, on public transport). Exposure at home and at least one hour per day (7.4 % men; 7.5 % women 13 %; 7.4% in total)
B23A		Please indicate the year of the data used to answer question B21: 2020
B23B		Please indicate the source of the data used to answer question B21: General Population Survey 2020
B3		Tobacco-related mortality
B31		Do you have information on tobacco-related mortality in your population? Yes
B32		What is the estimated total number of deaths attributable to tobacco use in your population? 13.100 (1.6% of all deaths) in 2019
B33		If available, please provide any additional information on mortality attributable to tobacco use (e.g. lung cancer, cardiovascular diseases) in your jurisdiction. In 2021, 2.348 men and 1.725 women died because of lung cancer due to causes of death statistics (4.073 in total).
B34A		Please indicate the year of the data used to answer question B32 and 33: 2019
B34B		Please indicate the source of the data used to answer questions B32 and B33: Question B32: Global Burden of Disease (year of data: 2019) and Question B33: Statistik Austria - Causes of death statistics (year of data: 2021)
B4		Tobacco-related costs
B41		Do you have information on the economic burden of tobacco use in your population, e.g. the overall cost of tobacco use imposed on your society? Yes
B42		Please provide details (e.g. direct (health care-related) and indirect costs and, if possible, the method used to estimate these costs). Total costs: € 2,411.3 mio. per year (the costs of passive Smoking amount to € 118.8 mio per year). Direct medical costs: € 630.5 mio per year Direct non-medical costs (sickness benefits, long-term-care expenditures, invalidity pensions): € 197.5 mio. per year Indirect (economic) costs (productivity losses of employed smokers resulting from more frequent sick leaves, disability and premature deaths): € 1492.2 mio per year Intangible costs (monetary estimation of the involuntary reduction in life expectancy of passive smokers): € 91.1 mio. per year Tobacco tax revenues: € 1834.9 mio per year Method = Life-cycle model, which uses the Austrian Population in 2016 as its baseline
B43A		Please indicate the year of the data used to answer question B42: 2016

B43B		<p>Please indicate the source of the data used to answer question B42:</p> <p>study based on data of 2016; source = Pock, M.; Czypionka, T.; Reiss, M.; Röhrling, G. (2018): Volkswirtschaftliche Effekte des Rauchens. Ein Update. IHS. Wien</p>

B62		Do you have any information on the percentage of illicit tobacco products on the national tobacco market? Yes
B63		What percentage of the national tobacco market do illicit tobacco products constitute? (%) 3.9
B64		What is the trend over the past two years or since submission of your last report in the percentage of illicit tobacco products in relation to the national tobacco market? Decrease (5,5 % compared to 2019)
B65		Please provide any further information on illicit tobacco products.
B66		Please indicate the source of the data used to answer questions in section B6: KPMG annual reports „illicit cigarette consumption in the EU, UK, Norway and Switzerland“, EUROPOL-EMPACT EXCISE fraud reports on illicit cigarette production
B7		Tobacco-growing
B71		Is there any tobacco-growing in your jurisdiction? No
B72		Please provide information on the number of workers involved in tobacco-growing. If available, please provide this figure broken down by gender.
B73		Please provide, if available, the share of the value of tobacco leaf production in the national

		gross domestic product.
B74A		Please indicate the year of the data used to answer questions in section B7:
B74B		Please indicate the source of the data used to answer questions in section B7:
B8		Taxation of tobacco products (with reference to Articles 6.2(a) and 6.3)
B81		<p>What proportion of the retail price of the most popular price category of tobacco product consists of taxes (e.g. sum of excise, sales and import duties (if applicable) and value added tax/goods and services tax (VAT/GST))?</p> <p>Cigarettes are the most popular product, which is why the value for this product has been calculated for the years 2020-2023 (including tobacco tax and 20% VAT). The WAP (weighted average price) was used for the calculation (Art 8 para 1 of Directive 2011/64/EU). The WAP is the average value of all cigarettes sold legally and taxed in Austria during a calendar year (2020: 77%; 2021: 78%; 2022: 77%; 2023: 77%)</p>
SQ001		How are the excise taxes levied (what types of taxes are levied)?
	SQ001	<p>Specific tax only</p> <p>No</p>
	SQ002	<p>Ad valorem tax only</p> <p>No</p>
	SQ003	<p>Combination of specific and ad valorem taxes</p> <p>Yes</p>
	SQ004	<p>More complex structure (please explain below)</p> <p>Yes</p>
B82a		<p>If a more complex structure of taxes (please explain):</p> <p>Austria has a regime of combined taxation, consisting of a specific tax element plus an ad valorem tax element. For cigarettes a minimum amount of tobacco tax is additionally prescribed which is applied if the respective tax amount of the price class is below 98% of the total tobacco tax burden. Cigarettes: • March 2018 – September 2020: 37,5 % ad valorem + 58 € (1.000 units) • October 2020 – March 2021: 36% ad valorem + 63 € (1.000 units) • April 2021 – March 2022: 34,5 % ad valorem + 68 € (1.000 units) • April 2022 – March 2023: 33% ad valorem + 73 € (1.000 units; at least 150 €) • As of April 2023: 32,5 % ad valorem + 76,50 € (1.000 units; at least 163 €) Cigar and Cigarillos: 13% ad valorem (at least 100, € 1.000 units) • As of April 2023: 13% ad valorem (at least 105 €, 1.000 units) Fine Cut tobacco: • April 2018 – September 2020: 56% ad valorem (at least 110 €, 1.000 units) • October 2020 - March 2021: 56 % ad valorem (at least 120 €, 1.000 units) • April 2021 - March 2022: 56 % ad valorem (at least 130 €, 1.000 units) • April 2022 – March 2023: 56% ad valorem (at least 140 €, 1.000 units) • As of April 2023: 56% ad valorem (at least 147 €, 1.000 units) Other smoking tobacco: 34% ad valorem Heat not burn: • April 2019 – September 2020: 110 € per kilogram • October 2020 – March 2021: 123 € per kilogram • April 2021 – March 2022: 136 € per kilogram • April 2022 – March 2023: 149 € per kilogram • As of April 2023: 164 € per kilogram Furthermore, value added tax (VAT) of 20% applies to all tobacco products.</p>
B83a_B83x1		If available, please provide details on the rates of taxation for tobacco products at all levels of Government and be as specific as possible (specify the type of tax, e.g. VAT, sales, import duties)

B84		<p>Please briefly describe the trends in taxation for tobacco products in the past two years or since submission of your last report in your jurisdiction.</p> <p>The ad valorem rate of the tobacco tax on cigarettes has decreased by 1.5% annually, while the specific amount of the tobacco tax on cigarettes has increased by 5 € annually. As of April 2023 the ad valorem rate of the tobacco tax will decrease by 0,5 % annually and the specific amount will increase by 3,50 € annually. The tobacco tax on cigars and cigarillos is unchanged (as in the last report) at 13% of the retail selling price but the minimum excise duty is at least 100 € per 1,000 pieces. As of April 2023 the ad valorem rate will stay unchanged at 13 % but the minimum excise duty is at least 105 €. As of April 2023 the minimum excise duty will increase by 5 € annually. The tobacco tax for fine cut is (unchanged) 56% of the retail selling price (ad valorem). The minimum excise duty has increased annually by 10 €. As of April 2023 the ad valorem rate will stay unchanged at 56 % but the minimum excise duty will increase by 7 € annually. The tobacco tax on smoking tobacco remains unchanged (as in the last report) at 34% of the retail selling price (ad valorem). The tobacco tax for heated tobacco products was increased annually by 13 € per kilogram of tobacco content. As of April 2023 the specific amount will increase in the first year by 15 €, in the second year by 16 €, in the third year by 17 € and in the last year by 18 €.</p>
B85		<p>Do you earmark any percentage of your taxation income for funding any national plan or strategy on tobacco control in your jurisdiction?</p> <p>No</p>

B92A		Please indicate the year of the data used to answer question B91: 2020
B92B		Please indicate the source of the data used to answer question B91: The data refer to and are grounded on internal calculation of the Federal Ministry of Finance based on information received from the custom office and the wholesalers (year of data: 2020-2023 (in 2023 data has only been reported for January and February)). .
B93		Please briefly describe the trend in the prices of tobacco products in the past two years or since submission of your last report in your jurisdiction. In the years 2020 to 2023, the WAP (weighted average price) for cigarettes increased by an average of 15 cents. The Ministry of Finance only receive sales information sorted by price classes within the product category cigarette. For this reason, the data below is broken down by year, most sold price classes and sales. The most important and most sold product is the cigarette, so the data below only refer to the price category (€ per stick) for cigarettes and the quantity (stick/unit per kg) sold in the respective year (in tobacco stores and tobacco sales offices). The data is sorted by the bestselling price range: • 2020: o 0,2500 € per stick: 2.719.064.060 o 0,2450 € per stick: 2.334.771.834 o 0,2750 € per stick: 1.912.787.880 • 2021: o 0,260 € per stick: 3.100.600.383 o 0,2650 € per stick: 2.348.222.418 o 0,2900 € per stick: 1.845.742.560 • 2022: o 0,2700 € per stick: 2.128.543.480 o 0,2750 € per stick: 1.962.182.900 o 0,300 € per stick: 1.704.709.860 • 2023 (data has so far only been reported for January and February): o 0,2700 € per stick: 448.003.240 o 0,3000 € per stick: 426.530.920 o 0,2750 € per stick: 370.501.580

C1. GENERAL OBLIGATIONS

C1		With reference to Article 5
C111		Have you developed and implemented comprehensive multisectoral national tobacco control strategies, plans and programmes in accordance with the Convention? No
C112		Have you partially developed and implemented tobacco control strategies by including tobacco control in national health, public health or health promotion strategies, plans and programmes? Yes
C113		Is any aspect of tobacco control that is referred to in the Convention included in any national strategy, plan or programme? N/A
C114a		Have you established or reinforced and financed:
	C114a	a focal point for tobacco control? Yes
	C114b	a tobacco control unit? Yes
	C114c	a national coordinating mechanism for tobacco control? No
C115		Please provide details (e.g. the nature of the national coordinating mechanism, the institution to which the focal point for tobacco control or the tobacco control unit belongs). In 2010, a special department for tobacco, alcohol, non-substance related addictions and international affairs of addiction, including an ombudsman's service for nonsmokers protection, within the Federal Ministry of Health (FMH) has been established and is dealing with tobacco control issues. The head of department is the national focal point for tobacco control. As of 1/7/2010, within the FMH an ombudsmans service for non-smokers protection/the protection from tobacco smoke has been established, where citizens and representatives of the different authorities can ask questions and receive legal information as well as address complaints about violations of smoking bans, etc. Apart from the FMH, relevant stakeholders (governmental and non-governmental institutions like other ministries, the provinces, the Federation of Austrian Social Insurance Entries, centres for addiction prevention, etc.) are generally involved in tobacco control activities. Furthermore, the FMOH is cross-departmental coordinating ministry in close cooperation with the respective ministries, especially such as Ministry of Financial Affairs, Ministry of Education etc. on the one Hand as well as with appropriate experts and NGOs in respect of tobacco control.
C116		Please provide a brief description of the progress made in implementing Article 5.1 and 5.2 (General obligations) in the past two years or since submission of your last report. As of 01.01.2021, pursuant to Section 6e. of the Health and Food Safety Act (GESG), the "Tobacco Coordination Office" was established as a joint institution of the Ministry of Health and AGES and entrusted with the tasks related to the enforcement of the Tobacco and Non-Smoker Protection Act (TNRSG). The responsibilities of the Office of Tobacco Coordination include: - Planning of the statutory monitoring and control of tobacco and related products in accordance with the requirements of the Ministry of Health, including further arrangements and documentation of results; - Monitoring and sampling of tobacco and related products on the market, within the scope of the respective annual inspection plan or, in case of need, by specially trained bodies of the Agency; - Examination, analysis, appraisal and risk assessment of tobacco and related products, including monitoring of reporting by manufacturers or importers, as well as control and evaluation of reporting data; - Preparation of correspondence with authorities, commercial enterprises and business enterprises, especially in the case of findings of defects in tobacco and related products, including preparation of the initiation of administrative penal proceedings and their documentation; - Co-supervision of the rapid alert, communication and information systems, in particular the interfaces to RAPEX, IRASFF, ICSMS, EWS/EMCDDA and the Poison Control Center of Gesundheit Österreich GmbH as far as tobacco and related products are concerned; - Technical

	<p>and legal handling of submissions and inquiries by authorities, business representatives, interest groups, international organizations and persons of the general public, in preparation for the handling of the submissions and inquiries by the Minister of Health as the competent authority; - Technical and organizational matters of the flat-rate annual fees pursuant to the TNRSG in connection with the determination of a cost-covering annual fee for the supervision of tobacco products and for the approval of novel tobacco products, including the performance of the annual evaluation; - Technical evaluation within the scope of approval of novel tobacco products in connection with the regulation of the Ministry of Health regarding the approval of novel tobacco products; - Technical tasks of the survey of tobacco product ingredients in accordance with the Tobacco Product Ingredient Survey Ordinance; - Publication of technical information on tobacco and related products; - Preparation of technical reports, expert opinions, evaluations and statements on tobacco and related products; - Participation in national and international projects and working groups in the field. It is planned that an amendment of the TNRSG will go through the parliamentary review process within the next few months. The amendment is expected to include, among other things, the inclusion of previously unregulated products, in particular tobacco-free nicotine-containing products (nicotine pouches, nicotine sachets etc.) in the legal regime of the TNRSG and the extension of existing advertising and sponsoring bans etc. At the moment a national tobacco and nicotine strategy is currently being developed, focussing especially on developing measures to minimize tobacco and nicotine consumption; the strategy is planned to be completed by the end of 2023. Furthermore, there is a national addiction forum in preparation, which will bring together all relevant stakeholders in the field of addiction with the aim of developing action plans. The consultative meeting is planned for the end of 2023/beginning of 2024. In 2020, the Constitutional Court confirmed the constitutionality of the annual fee to be paid by tobacco industry (E 248/2019-17, E 269/2019-18). In 2022, an adjustment was made with regard to the rates of the cost-covering annual fees that have to be paid by the industry for the supervision of tobacco and related products and for the approval of novel tobacco products (Tobacco Fees Ordinance 2022, Federal Law Gazette No. 43/2017).</p>
C117	<p>If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.</p> <p>The Austrian tobacco law was amended in August 2015 and introduces new definitions of novel tobacco products (such as e-cigarettes, etc.). In a first step, it provides the same regulations regarding smoking bans in public places (including restaurants) for all novel tobacco products. Since 20 May 2016, the regulations of the 2014 EU tobacco product directive (no. 2014/40/EU) and its delegated acts had to be implemented into national law. Accordingly, chewing tobacco is prohibited and a system for the authorisation of novel tobacco products has been introduced. In addition, comprehensive surveillance and control measures have been imposed. The Austrian Agency for Health and Food Safety (AGES) is tasked to manage all these obligations under the authority of the FMoH. In May 2018, further comprehensive smoking bans in public places came into force. Special mention should be made of further requirements regarding non-smoker protection regulations in clubs, open spaces for schools, an absolute ban on smoking in all public transport as well as anchoring smoking bans also in private vehicles in the presence of young people under the age of 18. The previous age for smoking permits was raised in the youth protection regulations of the federal states to the age of 18 (previously 16). In January 2019, a statutory sales ban for young people under the age of 18 was standardized for all tobacco and related products. In November 2019, an absolute ban on smoking was introduced for the entire catering trade (including night and shisha bars); the previous government (XXVI. legislative period) decided to maintain the special regulations for the catering trade (with a mere partial ban on smoking in such facilities).</p>
C12	<p>Protection of public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:</p>
C121	<p>protecting public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry?</p> <p>Yes</p>
C122	<p>ensuring that the public has access, in accordance with Article 12(c), to a wide range of information on tobacco industry activities relevant to the objectives of the Convention, such as in a public repository?</p> <p>No</p>
C123	<p>If you answered “Yes” to any of the questions under C121 or C122, please provide details in the space below (specifically, please refer, if relevant, to whether your government or any of its departments 1) have raised awareness on tobacco industry tactics and the need to prevent interference by the tobacco industry with decision making; 2) have avoided entering</p>

		<p>into any partnerships or voluntary agreements with the tobacco industry; 3) have established any measures to limit interaction of public officials with the tobacco industry, including in the form of a code of conduct; 4) have not granted any incentives, privileges, benefits or preferential tax exemptions to the tobacco industry to establish or run their business; etc.).</p> <p>Commercials and advertisements (audiovisual, print media, etc.) for conventional tobacco products as well as novel tobacco products (such as e-cigarettes, etc.) are still prohibited. Only the promotion of tobacco and related products in points of sale (tobacconists) and specialist shops is allowed.</p>
C124		<p>Please provide a brief description of the progress made in implementing Article 5.3 in the past two years or since submission of your last report.</p> <p>It is planned that an amendment of the TNRSG will go through the parliamentary review process in the second quarter of 2024 (with planned entry into force within the next few months). The amendment is expected to include, among other things, the extension of existing advertising and sponsoring bans etc.</p>
C125		<p>Have you utilized the “Guidelines for implementation of Article 5.3 of the WHO FCTC” when developing or implementing policies in this area?</p> <p>Yes</p>
C126		<p>Please provide details in the space below or refer to section I of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataformv3/index.php/862235?token={TOKEN}&lang=en</p>
C127		<p>If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.</p> <p>The Austrian jurisdiction (constitutional court, higher administrative court, supreme court) confirmed in various judgements restrictive interpretations regarding the provisions for prohibition of commercials and sponsorings.</p>

C2. MEASURES RELATING TO THE REDUCTION OF DEMAND FOR TOBACCO

C2		With reference to Articles 6–14
C21		Price and tax measures to reduce the demand for tobacco Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
C211		tax policies and, where appropriate, price policies on tobacco products so as to contribute to the health objectives aimed at reducing tobacco consumption? Yes
C212		prohibiting or restricting, as appropriate, sales to international travellers of tax- and duty-free tobacco products? No
C213		prohibiting or restricting, as appropriate, imports by international travellers of tax- and duty-free tobacco products? Yes
C214		Please provide a brief description of the progress made in implementing Article 6 (Price and tax measures to reduce the demand for tobacco) in the past two years or since submission of your last report. Depending on the product and the type of taxation (ad valorem and/or specific) the taxation rate (see above) was adjusted annually. The rates were adjusted in such a way that no relocation of tobacco products abroad occurs but that a health policy aspect is also pursued.
C215		Have you utilized the “Guidelines for implementation of Article 6 of the WHO FCTC” when developing or implementing policies in this area? Yes
C216		If you answered “Yes” to question C215 please provide details in the space below or refer to section H of the additional questionnaire available at this link. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataformv3/862235?token={TOKEN}&lang=en All policies are developed in the light of the pertinent EU-legislation and the Guidelines.
C217		If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below. All policies are developed in the light of the pertinent EU-legislation and the Guidelines.
C22		Protection from exposure to tobacco smoke Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
C221		- banning, completely or partially, tobacco smoking in indoor workplaces, public transport, indoor public places and, as appropriate, other public places? Yes
1		What is the type/nature of the measure providing for the ban?
	1	national law Yes
	2	subnational law(s) Yes

	3	administrative and executive orders Yes
	4	voluntary agreements Yes
	5	other measures (please specify in C223 below) No
C223		Please provide a brief explanation of the type/nature and content of the measures providing for the ban.
C224		Do any of these measures provide for a mechanism/ infrastructure for enforcement? Yes
C225		Please provide details of this system. Article 14 of the Austrian tobacco act provides for the possibility to impose fines on smokers and tenants of public indoor places (including workplaces accessible to the public) and represents a violation of all commitment obligations and sanctions consequences; the district administration authorities are competent for prosecuting violations of the tobacco act. In cooperation with organs of the public security police, compliance with violations of the smoking ban in private vehicles is checked in the presence of under-18-year-olds and sanctioned if necessary. The provisions of the Austrian law on health and safety at work act are controlled by specific inspectors ("Arbeitsinspektoren") on a regular basis and fines can be imposed if provisions for the protection of workers are violated. If there are severe threats to workers health and safety an establishment can even be closed down.
1		Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Indoor workplaces:
	1	government buildings Partial
	2	health-care facilities Partial
	3	educational facilities⁶ Complete
	4	universities Partial
	5	private workplaces Partial
	6	other (please specify below)
C226aa		Please provide a brief explanation of any "other" policies in the space below
1		Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Public transport:
	1	airplanes

		Complete
	2	trains Complete
	3	ferries Complete
	4	ground public transport (buses, trolleybuses, trams) Complete
	5	private vehicles Complete
	6	other (please specify below) Complete
C226bb		Please provide a brief explanation of any "other" policies in the space below
1		Please specify the settings and extent/comprehensiveness of measures applied in indoor workplaces, public transport, indoor public places and, as appropriate, other public places. Indoor public places:
	1	cultural facilities Partial
	2	shopping malls Partial
	3	pubs and bars Complete
	4	nightclubs Complete
	5	restaurants Complete
	7	other (please specify below)
C226cc		Please provide a brief explanation of any "other" policies in the space below
C227		Please provide a brief summary of complete and partial measures, with specific details of the partial measures that have been implemented:
C227a		Banning tobacco smoking in indoor workplaces Non-smokers must - in as far as the type of Company Permits this - be protected from the effects of tobacco smoke. If non-smokers are working in indoor workplaces, smoking is prohibited. Separate rooms can be made available for smokers. In this case, the smoke must not escape to the outside. Smoking is prohibited in first-aid rooms and changing rooms. Whereas there is a total smoking ban for guests in the hospitality sector (bars, restaurants, night clubs etc.), a strictly separated smoking room could be provided only for employees (without any possibility for guests to join in). New: The protection of non-smoking employees in agriculture and forestry was newly regulated with the LAG

		2021, Federal Law Gazette I No. 78/2021, in § 215. Accordingly, as of July 1, 2021, there is a general ban on smoking in workplaces in buildings. Smoking rooms may be set up, but work rooms, as well as other rooms that are to be set up according to the agricultural and forestry occupational health and safety regulations (such as recreation rooms, stand-by rooms, sanitary rooms and changing rooms) may not be provided as smoking rooms; smoking cabins may also be smoking rooms.
C227b		<p>Banning tobacco smoking in public transport</p> <p>Means of public transport (taxi included) are covered by a complete smoking ban according to article 12 para. 4 of the Austrian Tobacco Act. Furthermore, smoking is also prohibited in closed private vehicles if there is a person in the vehicle who is not yet 18 years old.</p>
C227c		<p>Banning tobacco smoking in indoor public places</p> <p>Current legal situation: Notwithstanding employment law regulations and smoking bans pursuant to article 12 of the Austrian Tobacco Act (in facilities for teaching and training, negotiating and schools sports activities) smoking is generally forbidden in all indoor public places including the whole hospitality sector (except Hotels and accommodation facilities only for their overnight guests); a strict and overall total smoking ban is set by law. The possibility of providing a separate, enclosed smoking room is expressly prohibited for educational or other facilities where children and adolescents are supervised, accommodated or sheltered. "indoor public places" are defined as rooms accessible to the general public (such as cultural facilities, etc.), including all rooms of means of public and private bus, rail, air and shipping transportation and additionally facilities such as business premises, office premises or similar frequented by customers/clients during office hours, such as shopping centres and many others. The amendment of the Austrian Tobacco Act of August 2015 (Federal Law Gazette I No. 101/2015) provides that since 20 May 2016, novel tobacco products (such as e-cigarettes, etc.) are included in the already existing provisions concerning smoking bans in indoor public places. Legal Situation as of 1 May 2018: Extension of the total smoking ban on multiple-purpose halls, festival tents as well as at events of associations when children and young people until 18 years of age are present. Legal Situation as of 1 November 2019 (amendment of the Austrian Tobacco law act from June 2019): A total Smoking ban for the hospitality sector (including night and shisha bars) has been set by law. Article 13 of the Austrian Tobacco Act allows some exceptions: Rooms of public places are allowed to have just a subordinate side room only for the purpose of smoking and only if it is guaranteed that no smoke escapes from this room. As already indicated Hotels and accommodation facilities are allowed to provide their overnight guests a subordinate side room as mentioned above. Furthermore it has to be guaranteed that no consumption of meals or drinks as well as waiter services take place. Tobacco shops are covered by a total smoking ban if they provide postal partner services.</p>
C228		<p>Please provide a brief description of the progress made in implementing Article 8 (Protection from exposure to tobacco smoke) in the past two years or since submission of your last report.</p>
C229		<p>Have you utilized the "Guidelines for implementation of Article 8 of the WHO FCTC" when developing or implementing policies in this area?</p> <p>Yes</p>
C2210		<p>If you answered "Yes" to question C229 please provide details in the space below or refer to section B of the additional questionnaire available at this link. Response to this question or to the additional questionnaire is voluntary.</p> <p>https://extranet.who.int/dataformv3/862235?token={TOKEN}&lang=en</p>
C2211		<p>If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.</p>
C23		<p>Regulation of the contents of tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:</p>
C231		<p>testing and measuring the contents of tobacco products?</p> <p>Yes</p>
C232		<p>testing and measuring the emissions of tobacco products?</p>

		Yes
C233		regulating the contents of tobacco products? N/A
C234		regulating the emissions of tobacco products? Yes
C235		Please provide a brief description of the progress made in implementing Article 9 (Regulation of the contents of tobacco products) in the past two years or since submission of your last report.
C236		Have you utilized the “Guidelines for implementation of Articles 9 and 10 of the WHO FCTC” when developing or implementing policies in this area? Yes
C237		If you answered “Yes” to question C236 please provide details in the space below or refer to section C of the additional questionnaire available at this link. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataformv3/862235?token={TOKEN}&lang=en
C238		If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below (e.g., whether your country 1) has incorporated product regulation in the national tobacco control legislation; 2) has access to either governmental or independent – not owned or controlled by the tobacco industry – laboratories for testing contents and/or emissions of tobacco products; 3) has regulated ingredients, such as flavours (e.g. menthol); 4) has regulated product characteristics, such as design features (e.g., cigarette ventilation); etc.). Maximum allowance of nicotine (1 mg), tar (10 mg) and carbonmonoxide (10 mg) for cigarette smoke is defined in article 4 of the Austrian Tobacco Act. According to article 9 and 10 of the Austrian Tobacco Act, the Federal Ministry of Health can send inspectors to visit tobacco manufacturing or importing companies that are entitled to take samples of all tobacco products in order to be tested with regard to contents and emissions. As through the amendment of the Austrian Tobacco Act in May 2016, new allowences take into account tobacco and related products. § 9 TNRSG regulates controls and requirements in connection with market surveillance measures by the AGES; through the regulations issued on the basis of the law a) the annual fee b) the approval of new tobacco products c) security features d) Ingredients of tobacco products (TIEV) e) Track and tracing are regulated. The Tobacco Monopoly Act and the Tobacco Tax Act have been adjusted with regard to the classification / categorization of heated tobacco products and the related taxation issues.
C24		Regulation of tobacco product disclosures Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
1		requiring manufacturers or importers of tobacco products to disclose to Government authorities information about the:
	1	contents of tobacco products? Yes
	2	emissions of tobacco products? Yes
1		requiring public disclosure of information about the:
	1	contents of tobacco products?

		Yes
	2	emissions of tobacco products? Yes
C243		Please provide a brief description of the progress made in implementing Article 10 (Regulation of tobacco product disclosures) in the past two years or since submission of your last report.
C244		Have you utilized the “Guidelines for implementation of Articles 9 and 10 of the WHO FCTC” when developing or implementing policies in this area? Yes
C245		If you answered “Yes” to question C244 please provide details in the space below or refer to section C of the additional questionnaire available at this link. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataformv3/862235?token={TOKEN}&lang=en
C246		If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below (e.g. whether your country has incorporated tobacco product disclosures in the national tobacco control legislation; has regulated the public disclosure of toxic constituents and emissions of tobacco products, aiming to raise public awareness and advance tobacco control policy; etc.). Since 20 May 2016 Austria participates in the new EU reporting system CEG (Central Entry Gate) enabling a common mandatory format for the reporting of ingredients and emissions within the EU (according to the TPD II). Based on the requirements of the § 8 TNRS, the information on the content of the relevant products is published on the Website of the FMoH or AGES (https://www.ages.at/ages/buero-fuer-tabakkoordination/8veroeffentlichung?sword_list%5B0%5D=ver%C3%B6ffentlichung&no_cache=1).
C25		Packaging and labelling of tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
C251		requiring that packaging, individual cigarettes or other tobacco products do not carry advertising or promotion? Yes
C252		requiring that packaging and labelling do not promote a product by any means that are false, misleading, deceptive or likely to create an erroneous impression about its characteristics, health effects, hazards or emissions? Yes
C253		requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products carry health warnings describing the harmful effects of tobacco use? Yes
C254		ensuring that the health warnings are approved by the competent national authority? Yes
C255		ensuring that the health warnings are rotated? Yes
C256		ensuring that the health warnings are clear, visible and legible? Yes
C257		Does your law mandate, as a minimum, a style, size and colour of font to render the warning clear, visible and legible?

		Yes
C258		ensuring that the health warnings occupy no less than 30% of the principal display areas? Yes
C259		ensuring that the health warnings occupy 50% or more of the principal display areas? Yes
C2510		ensuring that health warnings are in the form of, or include, pictures or pictograms? Yes
C2511		Does the Government own the copyright to these pictures and pictograms? No
C2512		Would you grant a non-exclusive and royalty-free licence for the use of health warnings developed in your jurisdiction with other Parties? No
1		requiring that each unit packet and package of tobacco products and any outside packaging and labelling of such products contain information on relevant:
	1	constituents of tobacco products? No
	2	emissions of tobacco products? No
C2514		requiring that the warnings and other textual information appear on each unit packet and package and on any outside packaging and labelling in the principal language or languages of the country? Yes
C2515		Please provide a brief description of the progress made in implementing Article 11 (Packaging and labelling of tobacco products) in the past two years or since submission of your last report.
C2516		Have you utilized the “Guidelines for implementation of Article 11 of the WHO FCTC” when developing or implementing policies in this area? Yes
C2517		If you answered “Yes” to question C2516 please provide details in the space below or refer to section D of the additional questionnaire available at this link. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataformv3/862235?token={TOKEN}&lang=en
C2518		If you have any other relevant information pertaining to or not covered in this section, please provide details in the space below.
C26		Education, communication, training and public awareness Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
C261		educational and public awareness programmes? (Please refer to programmes implemented since submission of your two-year report.) Yes

1		To whom are these programmes targeted?
	1	adults or the general public Yes
	2	children and young people Yes
	3	men Yes
	4	women Yes
	5	pregnant women Yes
	6	ethnic groups No
	7	other Yes
C2621		<p>Please specify</p> <p>In Austria, there are numerous educational and public awareness programs existing which are targeting different groups, e.g.: o The Public Health Portal Austria www.gesundheit.gv.at provides a comprehensive overview of nicotine addiction in general (dependence, diagnosis and treatment), health consequences of nicotine use, and quitting options/smoking cessation. o The Smoking quitline "Rauchfrei" offers free telephone counselling on becoming and staying smoke-free for all age groups 24 hours a day, also focusing on pregnant women (www.rauchfrei.at) o GIVE - Service center for health promotion in Austria's schools, a cooperation between the Federal Ministry for Education, Science and Research, the Federal Ministry for Social Affairs, Health, Care and Consumer Protection and the Austrian Red Cross provides information on tobacco and tobacco products for teachers (https://www.give.or.at/angebote/themen/alkohol-tabak/) o Switch (Brief medical intervention for problematic alcohol and nicotine use) is aimed at primary care physicians and provides a repertoire of sequential and structured intervention steps for talking to patients about their problematic alcohol or nicotine use. o Yolo: the aim of the tobacco prevention initiative is to support the current declining trend and prevent people from taking up smoking as early as possible. The target audience is therefore 10 to 14-year-olds. It is important that the initiative picks up on the language and media of young people and focuses on participation (www.yolo.at) o www.feel-ok.at: a Health website developed to strengthen the health and life skills of young people and to prevent behavior that is harmful to health and the use of addictive substances; the website is designed for youngsters aged 12-18, educators/teachers, youth workers and other professionals.</p>
1		Do you reflect the following key differences among targeted population groups in educational and public awareness programmes?
	1	age Yes
	2	gender Yes
	3	educational background Yes
	4	cultural background Yes

	5	socioeconomic status Yes
	6	other Yes
C2631		Please specify o "zusammen.wachsen" is an addiction and violence prevention teaching program for the 1st to 4th school levels based on the WHO's life skills approach. The program supports children in developing social and emotional skills that enable them to deal well with themselves and with others. o PLUS is a quality-assured teaching program for addiction and violence prevention for the 5th - 8th grades based on the life skills approach. The program supports children and adolescents in developing social and emotional competencies that enable them to deal well with themselves and with others. o The "Wetterfest" program supports teachers with exercises and their implementation in the classroom to promote life skills from the 9th grade onwards. Through "Wetterfest", young people acquire important life skills to equip themselves for all of life's weather situations. o Ready4life: The free chatbot app "ready4life" teaches apprentices and high school students life skills in the areas of stress, social skills, alcohol, tobacco and nicotine, cannabis, internet and smartphone use. o feel-ok.at is a health website for young people between the ages of 12 and 18 and was developed to strengthen the health and life skills of young people and to prevent behavior that is harmful to health and the use of addictive substances (www.feel-ok.at)
1		Do these educational and public awareness programmes cover:
	1	health risks of tobacco consumption? Yes
	2	health risks of exposure to tobacco smoke? Yes
	3	benefits of the cessation of tobacco use and tobacco-free lifestyles? Yes
	4	adverse economic consequences of tobacco production? Yes
	5	adverse economic consequences of tobacco consumption? Yes
	6	adverse environmental consequences of tobacco production? Yes
	7	adverse environmental consequences of tobacco consumption? Yes
1		awareness and participation of the following agencies and organizations in development and implementation of intersectoral programmes and strategies for tobacco control:
	1	public agencies? Yes
	2	nongovernmental organizations not affiliated with the tobacco industry? Yes
	3	private organizations? Yes
	4	other

		Yes
C2651		Please specify GIVE-Serviceestelle für Gesundheitsförderung an Österreichs Schulen
C266		Are the elaboration, management and implementation of communication, education, training and public awareness programmes guided by research and do they undergo pre-testing, monitoring and evaluation? Yes
1		Are appropriate and special training or sensitization and awareness programmes on tobacco control addressed to:
	1	health workers? Yes
	2	community workers? Yes
	3	social workers? Yes
	4	media professionals? Yes
	5	educators? Yes
	6	decision-makers? Yes
	7	administrators? No
	8	other Yes
C2671		Please specify teachers
C268		Please provide a brief description of the progress made in implementing Article 12 (Education, communication, training and public awareness) in the past two years or since submission of your last report. Addiction prevention in schools is understood as part of a health-promoting overall school policy and is based on a broad concept of addictive substances, including nicotine. https://www.bmbwf.gv.at/Themen/schule/schulpraxis/schwerpunkte/sucht.html
C269		Have you utilized the “Guidelines for implementation of Article 12 of the WHO FCTC” when developing and implementing policies in this area? Yes
C2610		If you answered “Yes” to question C269 please provide details in the space below or refer to section E of the additional questionnaire available at this link. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataformv3/862235?token={TOKEN}&lang=en
C2611		If you have any other relevant information pertaining to but not covered in this section,

		please provide details in the space below.
C27		Tobacco advertising, promotion and sponsorship Have you adopted and implemented, where appropriate, any legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes:
C271		instituting a comprehensive ban on all tobacco advertising, promotion and sponsorship? Yes
1		Does your ban cover:
	1	display and visibility of tobacco products at points of sales? No
	2	the domestic Internet? Yes
	3	the global Internet? Yes
	4	brand stretching and/or brand sharing? No
	5	product placement as a means of advertising or promotion? Yes
	6	the depiction of tobacco or tobacco use in entertainment media products? Yes
	7	tobacco sponsorship of international events or activities and/or participants therein? Yes
	8	contributions from tobacco companies to any other entity for “socially responsible causes” and/or any other activities implemented under the umbrella of “corporate social responsibility” by the tobacco industry? Yes
	9	cross-border advertising, promotion and sponsorship originating from your territory? Yes
	10	the same forms of cross-border advertising, promotion and sponsorship entering your territory for which domestic regulation apply? Yes
C273		are you precluded by your constitution or constitutional principles from undertaking a comprehensive ban on tobacco advertising, promotion and sponsorship? N/A
C274		applying restrictions on all tobacco advertising, promotion and sponsorship? N/A
C275		applying restrictions on cross-border advertising, promotion and sponsorship originating from your territory with cross-border effects? N/A
C276		prohibiting those forms of tobacco advertising, promotion and sponsorship that promote a

		tobacco product by any means that are false, misleading, deceptive or likely to create an erroneous impression about its characteristics, health effects, hazards or emissions? N/A
C277		requiring that health or other appropriate warnings or messages accompany all tobacco advertising, promotion and sponsorship? N/A
C278		restricting the use of direct or indirect incentives that encourage the purchase of tobacco products by the public? N/A
C279		requiring the disclosure to relevant Government authorities of expenditures by the tobacco industry on advertising, promotion and sponsorship not yet prohibited? N/A
1		restricting tobacco advertising, promotion and sponsorship on:
	1	radio? N/A
	2	television? N/A
	3	print media? N/A
	4	the domestic Internet? N/A
	5	the global Internet? N/A
	6	other media? N/A
C27101		Please specify
1		restricting tobacco sponsorship of:
	1	international events and activities? N/A
	2	participants therein? N/A
C2712		cooperating with other Parties in the development of technologies and other means necessary to facilitate the elimination of cross-border advertising? Yes
C2713		imposing penalties for cross-border advertising equal to those applicable to domestic advertising, promotion and sponsorship originating from your territory in accordance with national law? Yes
C2714		Please provide a brief description of the progress made in implementing Article 13 (Tobacco

		advertising, promotion and sponsorship) in the past two years or since submission of your last report.
C2715		Have you utilized the “Guidelines for implementation of Article 13 of the WHO FCTC” when developing and implementing policies in this area? Yes
C2716		If you answered “Yes” to question C2715 please provide details in the space below or refer to section F of the additional questionnaire available at this link. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataformv3/862235?token={TOKEN}&lang=en
C2717		If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below. Article 11 of the Austrian Tobacco Act contains a comprehensive ban on tobacco promotion, advertising and sponsorship in accordance with EU-directive 003/33/EC on tobacco advertising. An explicit ban of product placement of tobacco products for all audiovisual media has been introduced in article 16 of the Austrian broadcasting company act (“ORFGesetz”, Federal law gazette no. 379/1984 idgF) and article 38 of the audiovisual media services act (Federal law gazette I, No. 84/2001) by amendments of 19/7/2010 (Federal law gazette I, No. 50/2010), entering into force on 1/10/2010. It is planned that an amendment of the TNRSG will go through the parliamentary review process in the second quarter of 2024 (with planned entry into force in the second half of 2024). The amendment is expected to include, among other things, the extension of existing advertising and sponsoring bans etc.
C28		Demand reduction measures concerning tobacco dependence and cessation Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
C281		developing and disseminating appropriate, comprehensive and integrated guidelines based on scientific evidence and best practices? Yes
1		programmes to promote cessation of tobacco use, including:
	1	media campaigns emphasizing the importance of quitting? Yes
	2	programmes specially designed for underage girls and young women? No
	3	programmes specially designed for women? Yes
	4	programmes specially designed for pregnant women? Yes
	5	telephone quitlines? Yes
	6	local events, such as activities related to World No Tobacco Day or National No Smoking Day, if appropriate? Yes
	7	other? Yes

C2821		<p>Please specify</p> <p>online lecture for pregnant smokers; quitline "Rauchfrei" Telefon" (www.rauchfrei.at), which is a telephone counselling service to help live without tobacco and nicotine, operated by the Österreichische Gesundheitskasse (one of the five social insurance institutions in Austria)</p>
1		<p>design and implementation of programmes aimed at promoting the cessation of tobacco use, in such locations as:</p>
	1	<p>educational institutions?</p> <p>Yes</p>
	2	<p>health-care facilities?</p> <p>Yes</p>
	3	<p>workplaces?</p> <p>Yes</p>
	4	<p>sporting environments?</p> <p>No</p>
	5	<p>other?</p> <p>Yes</p>
C2831		<p>Please specify</p> <p>prevention workshops in schools, Cessation programs in different settings, smoke free hospital (gold/silver certificate), cessation group programmes, cessation single programmes, smoke free at the workplace-programs</p>
1		<p>inclusion of diagnosis and treatment of tobacco dependence and counselling services for cessation of tobacco use in national programmes, plans and strategies for:</p>
	1	<p>tobacco control?</p> <p>No</p>
	2	<p>health?</p> <p>Yes</p>
	3	<p>education?</p> <p>No</p>
C285		<p>inclusion of programmes on the diagnosis and treatment of tobacco dependence in your health-care system?</p> <p>Yes</p>
1		<p>Which structures in your health-care system provide programmes for the diagnosis and treatment of tobacco dependence?</p>
	1	<p>primary health care</p> <p>Yes</p>
	2	<p>secondary and tertiary health care</p> <p>Yes</p>
	3	<p>specialist health-care systems (please specify below)</p> <p>Yes</p>

	4	specialized centres for cessation counselling and treatment of tobacco dependence Yes
	5	rehabilitation centres Yes
1		Are the services provided in these settings covered by public funding or reimbursement schemes?
	1	primary health care Partially
	2	secondary and tertiary health care Fully
	3	specialist health-care systems (please specify below) Fully
	4	specialized centres for cessation counselling and treatment of tobacco dependence Partially
	5	rehabilitation centres Partially
	6	other (please specify below) Fully
C287b		Please provide other details in the space below. Austrian social insurance institutions offer in-patient cure stays for insured persons. The costs are almost entirely covered by the social insurance institutions, while the insured person only has to make a co-payment depending on their level of income.
1		Which health and other professionals are involved in programmes offering treatment for tobacco dependence and counselling services? Health professionals including:
	1	physicians Yes
	2	dentists Yes
	3	family doctors Yes
	4	practitioners of traditional medicine Yes
	5	other medical professionals (please specify below) Yes
	6	nurses Yes
	7	midwives Yes

	8	pharmacists Yes
	9	Community workers No
	10	Social workers Yes
	11	other (please specify) Yes
1		training on tobacco dependence treatment incorporated into the curricula of health professional training at pre- and post-qualification levels at the following schools:
	1	medical? Yes
	2	dental? Yes
	3	nursing? Yes
	4	pharmacy? No
C2810		facilitating accessibility and/or affordability of pharmaceutical products for the treatment of tobacco dependence? Yes
C2811		Where and how can these products be legally purchased in your country? Pharmacies, medicine chest
1		Which pharmaceutical products are legally available for the treatment of tobacco dependence in your jurisdiction?
	1	nicotine replacement therapy Yes
	2	bupropion Yes
	3	varenicline Yes
	4	other (please specify) No
1		Are the costs of these products covered by public funding or reimbursement?
	1	nicotine replacement therapy Partially
	2	bupropion

		Partially
	3	varenicline Partially
	4	other (please specify below) Partially
C2813b		Please provide other details in the space below. The following applies to persons with social health insurance: As Bupropion is included in the national catalogue of reimbursable medications (=Erstattungskodex) the social insurance institutions have to bear the costs of a prescribed bupropion. The insured person only has to pay the general prescription fee of EUR 6,85. In principle, other medications for nicotine cessation are not reimbursed, although reimbursement may be possible in certain justified individual cases.
C2814		Please provide a brief description of the progress made in implementing Article 14 (Demand reduction measures concerning tobacco dependence and cessation) in the past two years or since submission of your last report.
C2815		Have you utilized the “Guidelines for implementation of Article 14 of the WHO FCTC” when developing and implementing policies in this area? Yes
C2816		Please provide details in the space below or refer to section G of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataformv3/862235?token={TOKEN}&lang=en
C2817		If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

C3. MEASURES RELATING TO THE REDUCTION OF THE SUPPLY OF TOBACCO

C3		With reference to Articles 15–17
C31		Illicit trade in tobacco products Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
C311		requiring marking of all unit packets and packages of tobacco products and any outside packaging of such products to assist in determining the origin of the product? No
C312		requiring marking of all unit packets and packages of tobacco products and any outside packaging of such products to assist in determining whether the product is legally sold on the domestic market? Yes
C313		requiring that unit packets and packages of tobacco products for retail and wholesale use that are sold on the domestic market carry the statement: “Sales only allowed in ...” or carry any other effective marking indicating the final destination of the product? Yes
C314		developing a practical tracking and tracing regime that would further secure the distribution system and assist in the investigation of illicit trade? Yes
C315		requiring that marking is presented in legible form and/or appears in the principal language or languages of the country? Yes
C316		requiring the monitoring and collection of data on cross-border trade in tobacco products, including illicit trade? Yes
C317		facilitating the exchange of this information among customs, tax and other authorities, as appropriate, and in accordance with national law and applicable bilateral and multilateral agreements? Yes
C318		enacting or strengthening legislation, with appropriate penalties and remedies, against illicit trade in tobacco products, including counterfeit and contraband cigarettes? Yes
C319		requiring that confiscated manufacturing equipment, counterfeit and contraband cigarettes and other tobacco products derived from illicit trade are destroyed, using environment-friendly methods where possible, or disposed of in accordance with national law? Yes
C3110		adopting and implementing measures to monitor, document and control the storage and distribution of tobacco products held or moving under suspension of taxes or duties? Yes
C3111		enabling the confiscation of proceeds derived from illicit trade in tobacco products? Yes
C3112		promoting cooperation between national agencies and relevant regional and international intergovernmental organizations in investigations, prosecutions and proceedings, with a view to eliminating illicit trade in tobacco products, with special emphasis on cooperation at regional and subregional levels?

		Yes
C3113		licensing or other actions to control or regulate production and distribution in order to prevent illicit trade? Yes
C3114		Please provide a brief description of the progress made in implementing Article 15 (Illicit trade in tobacco products) in the past two years or since submission of your last report. EU-wide track and trace system for tobacco products in accordance with the EU tobacco products directive is implemented and functioning
C3115		If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.
C32		Sales to and by minors Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
C321		prohibiting the sales of tobacco products to minors? Yes
C321a		Please specify the legal age: 18
C322		requiring that all sellers of tobacco products place a clear and prominent indicator inside their point of sale about the prohibition of tobacco sales to minors? Yes
C323		requiring that, in case of doubt, each seller of tobacco products requests that the purchaser provides appropriate evidence of having reached full legal age? Yes
C324		banning the sale of tobacco products in any manner by which they are directly accessible, such as open store shelves? Yes
C325		prohibiting the manufacture and sale of sweets, snacks, toys or any other objects in the form of tobacco products which appeal to minors? No
C326		prohibiting the sale of tobacco products from vending machines? No
C327		Do you ensure that tobacco vending machines are not accessible to minors and/or do not promote the sale of tobacco products to minors? Yes
1		prohibiting and/or promoting the prohibition of the distribution of free tobacco products:
	1	to the public? Yes
	2	to minors? Yes
C329		prohibiting the sale of cigarettes individually or in small packets?

		Yes
C3210		providing for penalties against sellers and distributors in order to ensure compliance? Yes
C3211		prohibiting the sales of tobacco products by minors? Yes
C3212		Please provide a brief description of the progress made in implementing Article 16 (Sales to and by minors) in the past two years or since submission of your last report.
C3213		If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below. Since 1/1/2007 vending machines are locked and can only be unlocked after inserting a chip card (ex. by bank card) proving that the customer is of the minimum legal age for purchase of tobacco products of 18 years as from 1st January 2019 onwards (until December 2018 the legal age for sale and purchasing products was 16). Tenants of vending machines who do not comply with this requirement and tobacconists who sell tobacco products to persons under 18 years of age risk losing their license for vending cigarettes and related tobacco products. Furthermore tobacconists as well as shop keepers and owners of hospitality venues/pit stops selling tobacco products to minors can be fined according to the provisions laid down in the youth protection acts of the different provinces. For further details see tobacconists code of conduct ("Standesregeln") at http://mvg.at/index.php?page=view&id=1 as well as the Austrian tobacco monopoly act (Federal law gazette No. 830/1995 idgF) at https://www.ris.bka.gv.at/GeltendeFassung.wxe?Abfrage=Bundesnormen&Gesetze=snnummer=10005006
C33		Provision of support for economically viable alternative activities Have you adopted and implemented, where appropriate, measures or programmes on any of the following:
1		promoting economically viable and sustainable alternatives for:
	1	tobacco growers? Not applicable
	2	tobacco workers? Not applicable
	3	tobacco individual sellers? Yes
C332		Please provide a brief description of the progress made in implementing Article 17 (Provision of support for economically viable alternative activities) in the past two years or since submission of your last report.
C333		Have you utilized the "Policy options and recommendations on economically sustainable alternatives to tobacco growing (in relation to Articles 17 and 18 of the WHO FCTC)" when developing and implementing policies in this area? Yes
C334		Please provide details in the space below or refer to section I of the additional questionnaire. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataformv3/862235?token={TOKEN}&lang=en
C335		If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.

		<p>To date, there is no tobacco growing and no tobacco production in Austria. The last producer was “Austria Tabak” (later owned by JTI) which closed down its last place of production in Hainburg, Austria, in 2011. Therefore, there is/was basically no real demand for measures relating to Article 17 FCTC within the reporting period.</p>
--	--	---

C4. OTHER MEASURES AND POLICIES

C4		With reference to Articles 18–21
C41		Protection of the environment and the health of persons Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
1		implementing measures in respect of tobacco cultivation within your territory, which take into consideration:
	1	the protection of the environment? Not applicable
	2	the health of persons in relation to the environment? Not applicable
1		implementing measures in respect of tobacco manufacturing within your territory, which take into consideration:
	1	the protection of the environment? Not applicable
	2	the health of persons in relation to the environment? Not applicable
C413		Please provide a brief description of the progress made in implementing Article 18 (Protection of the environment and the health of persons) in the past two years or since submission of your last report.
C414		Have you utilized the “Policy options and recommendations on economically sustainable alternatives to tobacco growing (in relation to Articles 17 and 18 of the WHO FCTC)” when developing and implementing policies in this area? Yes
C415		If you answered “Yes” to question C414 please provide details in the space below or refer to section I of the additional questionnaire available at this link. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataformv3/862235?token={TOKEN}&lang=en
C416		If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.
C42		Liability Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
SQ001		Does your tobacco control legislation contain measures regarding criminal liability for any violations of that tobacco control legislation?
	SQ001	

		No
SQ001		Do you have separate criminal liability provisions in relation to tobacco control (outside of the tobacco control legislation)?
	SQ001	Yes
SQ001		Do you have any civil liability measures that are specific to tobacco control?
	SQ001	No
SQ001		Do you have any general civil liability provisions that could apply to tobacco control?
	SQ001	No
SQ001		Do you have civil or criminal liability provisions that provide for compensation for adverse health effects and/or for reimbursement of medical, social or other relevant costs?
	SQ001	Yes
SQ001		?Has any person in your jurisdiction launched any criminal and/or civil liability action, including compensation where appropriate, against any tobacco company in relation to any adverse health effect caused by tobacco use?
	SQ001	No
SQ001		Have you taken, as appropriate, any legislative, executive, administrative and/or other action against the tobacco industry for full or partial reimbursement of medical, social and other relevant costs related to tobacco use in your jurisdiction?
	SQ001	No
C428		Please provide a brief description of any progress made, as appropriate, in implementing Article 19 (Liability) in the past two years or since submission of your last report.
C429		<p>If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.</p> <p>For questions regarding civil liability the general provisions and principles for compensation of damages established under Austrian law/jurisdiction apply; those provisions/principles, however, require the proof of an unlawful action committed by the defendant. Violations of the advertising/sponsoring ban, sale of tobacco products that do not comply with the requirements set in the Austrian Tobacco Act (concerning packaging and labelling, max. tar/nicotine/carbonmonoxide contents, etc.), violations of the smoking bans for public indoor places and hospitality venues and of the obligation to report tobacco products ingredients are fined in the course of administrative proceedings according to the provisions of article 14 of the Austrian Tobacco Act. Violations against the Unfair Competition Act (UWG) could lead to sanction up to EUR 100,000. Within the observation period there were various injunctions issued against restaurant owners violating the UWG. Compensation claims according to the</p>

		“Produkthaftungsgesetz” (Products Liability Act, Federal Law Gazette 99/1988 in the current version) are conceivable; Product liability covers personal injury and property damage caused by defects in a product placed on the market.
C43		Research, surveillance and exchange of information Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
1		developing and/or promoting research that addresses:
	1	determinants of tobacco consumption? Yes
	2	consequences of tobacco consumption? Yes
	3	social and economic indicators related to tobacco consumption? Yes
	4	tobacco use among women, with special regard to pregnant women? Yes
	5	the determinants and consequences of exposure to tobacco smoke? No
	6	identification of effective programmes for the treatment of tobacco dependence? Yes
	7	identification of alternative livelihoods? No
C4311		Please specify
C432		training and support for all persons engaged in tobacco control activities, including research, implementation and evaluation? No
1		a national system for epidemiological surveillance of:
	1	patterns of tobacco consumption? Yes
	2	determinants of tobacco consumption? Yes
	3	consequences of tobacco consumption? Yes
	4	social, economic and health indicators related to tobacco consumption? Yes
	5	exposure to tobacco smoke? Yes
C4331		Please specify

C434		<p>Please list all surveys, including the year of the survey, that you have undertaken in the past.</p> <p>General Population Survey on Substance Use (GPS) 2019 and 2020-2022 European School Survey Project on Alcohol and Other Drugs (ESPAD) 2015 and 2019 Health Behaviour in School-aged Children (HBSC) 2018 und 2022 Austrian Health Interview Survey (ATHIS) 2018 ("Österreichische Gesundheitsbefragung") Scientific report "Tobacco and related products - facts and figures" 2022 (Wissenschaftlicher Bericht "Tabak- und Nikotinkonsum - Zahlen und Fakten") Addiction (treatment) during COVID 2020-2023 ("Sucht(behandlung) in der Krise") Epidemiologiebericht Sucht 2022</p>
C435		<p>Does your country have any plans to repeat any of the above or to undertake a new tobacco survey within three to five years of your last survey? Please provide details in the space below.</p> <p>It is intended to repeat all above mentioned surveys ATHIS ESPAD 2024 GPS 2026 Scientific report "Tobacco and related products - facts and figures" 2023 (Wissenschaftlicher Bericht "Tabak- und Nikotinkonsum - Zahlen und Fakten") Epidemiologiebericht Sucht 2023</p>
1		regional and global exchange of publicly available national:
	1	<p>scientific, technical, socioeconomic, commercial and legal information?</p> <p>Yes</p>
	2	<p>information on the practices of the tobacco industry?</p> <p>No</p>
	3	<p>information on the cultivation of tobacco?</p> <p>No</p>
1		an updated database of:
	1	<p>laws and regulations on tobacco control?</p> <p>Yes</p>
	2	<p>information about the enforcement of laws on tobacco control?</p> <p>Yes</p>
	3	<p>pertinent jurisprudence?</p> <p>Yes</p>
C438		<p>Please provide a brief description of the progress made in implementing Article 20 (Research, surveillance and exchange of information) in the past two years or since submission of your last report.</p>
C439		<p>If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below (e.g. whether you included information on WHO FCTC implementation in your Voluntary National Review (VNR) on the Sustainable Development Goals (SDGs), related to target 3.a).</p>

D. INTERNATIONAL COOPERATION AND ASSISTANCE

D0		Pursuant to Article 21.1(c) and in accordance with Article 26, have you either provided or received financial or technical assistance (be it through unilateral, bilateral, regional, subregional or other multilateral channels, including relevant regional and international intergovernmental or nongovernmental organizations and financial and development institutions) for the development and strengthening of multisectoral, comprehensive tobacco control programmes of developing country Parties and Parties with economies in transition in any of the following areas:
1		development, transfer and acquisition of technology, knowledge, skills, capacity and expertise related to tobacco control?
	1	Assistance provided No
	2	Assistance received No
1		provision of technical, scientific, legal and other expertise to establish and strengthen national tobacco control strategies, plans and programmes?
	1	Assistance provided No
	2	Assistance received No
1		appropriate training or sensitization programmes for appropriate personnel in accordance with Article 12?
	1	Assistance provided No
	2	Assistance received No
1		provision of the necessary material, equipment and supplies, as well as logistic support, for tobacco control strategies, plans and programmes?
	1	Assistance provided No
	2	Assistance received No
1		identification of methods for tobacco control, including comprehensive treatment of nicotine addiction?
	1	Assistance provided No
	2	Assistance received

		No
1		promotion of research to increase the affordability of comprehensive treatment of nicotine addiction?
	1	Assistance provided No
	2	Assistance received No
D7		Please identify the Party or Parties from which assistance was received or to which assistance was provided.
D8		Please provide information about any assistance provided or received in the space below, including any support received from nongovernmental organizations (please, specify). VIVID - Institute for the prevention of addiction provides data which are relevant for tobacco Control and tobacco prevention in General. VIVID is part of the German Network "Tobacco and Childrens rights". In this context they publish a factsheet and a brochure together and they are learning from each other. Furthermore VIVID is part of the international Network "Addiction prevention", with similar German, Suisse and Italian ("South Tyrol") institutions. And VIVID is cooperating with the international network "Tobacco free Kids", who advocate tobacco control at a very global Level. This network wrote letters to social platforms like Facebook and Instagram to get sure that they dont accept hidden advertising for e-cigarettes and tobacco heaters.
D9		If you have not received or provided assistance in any of the aforementioned areas, please identify any financial or technical assistance that may be under consideration, if appropriate.
D10		Have you encouraged relevant regional and international intergovernmental organizations and financial and development institutions in which you are represented to provide financial assistance for developing country Parties and for Parties with economies in transition to assist them in meeting their obligations under the Convention? No
D11		Please provide details in the space below.

E. PRIORITIES AND COMMENTS

E1		<p>What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?</p> <p>Stronger enforcement of the existing smoking restrictions under current legislation; Adoption of the Amendment of the TNRSG further development of a national tobacco and nicotine control strategy; implementation of the National Addiction Forum; improvement of gaining better scientific research results/data/epidemiology</p>
E2		<p>Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control?</p> <p>Yes</p>
E3		<p>Please provide details in the space below.</p> <p>Limited availability of human resources and financial resources as a result of savings in public administration on national as well as provincial/regional level.</p>
E4		<p>What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?</p> <p>Apart from significantly strengthening the provisions on youth protection (e.g. introduction of a smoking ban in vehicles when persons under 18 years of age are present, etc.), the work program of the Austrian Government (2017-2022) provides, within narrow bounds, for the maintenance of existing exemptions to the smoking ban in the hospitality sector. While initially the amendment to the Austrian Tobacco Law Act from April 2018 decided to maintain the previous special regulations for gastronomy with May 2018, during the period of the transitional government in summer 2019 the absolute smoking ban for the hospitality sector with the corresponding parliamentary majorities was passed, which came into force with November 1, 2019.</p>
1		<p>Do you have any of the following products available on your national tobacco market?</p>
	1	<p>smokeless tobacco products</p> <p>Yes</p>
	2	<p>water pipe tobacco</p> <p>Yes</p>
	3	<p>Electronic Nicotine Delivery Systems (ENDS)</p> <p>Yes</p>
	4	<p>Electronic Non-Nicotine Delivery Systems (ENNDS)</p> <p>Yes</p>
	5	<p>heated tobacco products (HTPs)</p> <p>Yes</p>
1		<p>Have you adopted and implemented any policy or regulation that is specific to the following tobacco products?</p>
	1	<p>smokeless tobacco products</p> <p>Yes</p>
	2	<p>water pipe tobacco</p> <p>Yes</p>
	3	<p>Electronic Nicotine Delivery Systems (ENDS)</p> <p>Yes</p>
	4	<p>Electronic Non-Nicotine Delivery Systems (ENNDS)</p>

		Yes
	5	heated tobacco products (HTPs) Yes
E7		If you have any relevant information related to questions E5 and E6, please provide details in the space below. The amendment of the Austrian Tobacco Act in August 2015 refers to new tobacco related products; those products are included in the regulations for smoking bans in public places as well as restaurants, bars, etc. since May 2016. The work program of the Austrian Government (2017 - 2022) first provided the keeping of the current regulations regarding partial smoking bans in the hospitality sector alongside with strengthening the youth protection laws (such as the prohibition of purchasing and consumption of tobacco and related products for unter 18 year olds as well as the prohibition of smoking in private vehicles in the presence of minors). While initially the amendment to the Austrian Tobacco Law Act from April 2018 decided to maintain the previous special regulations for gastronomy with May 2018, during the period of the transitional government in summer 2019 the absolute smoking ban for the hospitality sector with the corresponding parliamentary majorities was passed, which came into force with November 1, 2019.
E8		Do you have a costed national tobacco control plan or strategy? No
E81		If you answered “Yes” to question E8, is this costed national tobacco control plan or strategy fully funded? N/A
E82		Please attach the costed plan or strategy here.
E9		Please provide the government’s expenditure on tobacco control, for the latest year available, in your country’s currency.
E10		Have you adopted and implemented any national legislative, executive, administrative and/or other measures that go beyond the requirements of the Convention in line with Article 2.1 (e.g, endgame strategies, smoke-free generations, tobacco free villages or cities)? N/A
E101		If you answered “Yes” to question E10, please provide details.
E11		Please attach any documentation relevant to any sections of the reporting instrument.
E12		Please provide any other relevant information not covered elsewhere that you consider important.
E13		Your suggestions for further development and revision of the reporting instrument:
