1		Period of reporting:
	1	Start date January 2022
	1	End date January 2023

B1. التبغ استهلاك

B1		Prevalence of tobacco use
B11		Smoking prevalence in the adult population (all) (Please provide prevalence data for total adult population, and identify the age considered, e.g. 15 years old and over, 18-64 years; see B112)
1_SQ001		Current smokers
	1_SQ001	MALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 66.1
	1_SQ002	MALE [Average number of the most-consumed smoking tobacco product used per day]
	2_SQ001	FEMALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 17.4
	2_SQ002	FEMALE [Average number of the most-consumed smoking tobacco product used per day]
	3_SQ001	TOTAL (males and females) [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 42.0
	3_SQ002	TOTAL (males and females) [Average number of the most-consumed smoking tobacco product used per day]
1_SQ001		Daily smokers
	1_SQ001	MALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 58.9

	1_SQ002	MALE [Average number of the most-consumed smoking tobacco product used per day] 22.9
	2_SQ001	FEMALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 11.5
	2_SQ002	FEMALE [Average number of the most-consumed smoking tobacco product used per day] 13.0
	3_SQ001	TOTAL (males and females) [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 35.5
	3_SQ002	TOTAL (males and females) [Average number of the most-consumed smoking tobacco product used per day] 21.3
1_SQ001		Occasional smokers
	1_SQ001	MALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 7.2
	2_SQ001	FEMALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 5.9
	3_SQ001	TOTAL (males and females) [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 6.5
1_SQ001		Former smokers
	1_SQ001	MALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 7.8
	2_SQ001	FEMALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)]

		2.7
	3_SQ001	TOTAL (males and females) [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 5.3
1_SQ001		Never smokers
	1_SQ001	MALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 26.2
	2_SQ001	FEMALE [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 79.8
	3_SQ001	TOTAL (males and females) [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 52.7
B111		Please indicate the smoking tobacco products included in calculating prevalence for question B11: Smoking tobacco products included were: manufactured cigarettes, hand rolled cigarettes, pipes of tobacco, cigars, cigarillos, shisha.
1_SQ001		Please indicate the age range to which the data used to answer question B11 refer:
	1_SQ001	Age range [From] 18
	1_SQ002	Age range [To] 69
B113A		Please indicate the year of the data used to answer question B11: 2019
B113B		Please indicate the source of the data used to answer question B11:

		WHO Step Survey 2019
SQ001		Please provide the definitions of “current smoker”, “daily smoker”, “occasional smoker”, “former smoker” and “never smoker” used in this report.
	SQ001	Current smoker
	SQ002	Daily smoker -
	SQ003	Occasional smoker -
	SQ004	Former smoker -
	SQ005	Never smoker -
B115		<p>Please provide a brief explanation of the trend in smoking prevalence in the adult population in the past two years or since submission of your last report.</p> <p>The smoking prevalence has generally increased and keeps increasing among all age groups. E-cigarettes and Heated Tobacco Products have been introduced illegally in the country since 2013 or even earlier up to now. There has been a rise in these products prevalence among young people mainly (male and female). Women are more likely to smoke shisha than cigarettes due to the abundance of coffee shops and the use of shisha as a social means. However, in general, there is an under-reporting of women smokers as less culturally accepted. We have also observed double and triple use of nicotine-based products: cigarettes, shisha, and vaping products at the same time.</p>
B12a_B12 x1		Smoking prevalence in the adult population (by age groups)(If data are available, please provide prevalence data by age group, and identify the age group considered, preferably by 10-year categories, e.g. 25-34, 35-44 years)
	B12a_B12 x1	MALES - current smokers1 [Range - start age] 18

	B12a_B12 x3	MALES - current smokers1 [Range - end age] 44
	B12a_B12 x2	MALES - current smokers1 [Prevalence (%) (please include all smoking tobacco products in prevalence data)] 70

B2		Exposure to tobacco smoke
B21		Do you have any data on exposure to tobacco smoke in your population? Yes
B22		Please provide details in the space below (e.g. exposure by gender, at home, in the workplace, on public transport). GYTS (2014) - Age 13-15 years old Exposed to tobacco smoke at home, Overall 60.0 (Boys 57.3 Girls 62.9) Exposed to tobacco smoke inside any enclosed public place, Overall, 62.4(Boys 63.0 Girls 61.7) Exposed to tobacco smoke at any outdoor public place, Overall 56.2(Boys 58.8 Girls 53. STEP Survey (2019) - Jordanians only 18-69 years old Overall smoking exposure: 75.8% men, 82% women, 78.8% both sexes Second hand smoking at home: 51.8% men, 75.3% women, 63.4% both sexes Second hand smoking at Work: 33.7% men, 4.1% women, 19.1% both sexes Second hand smoking in Restaurant/Café: 20.9% men,8.8% women, 14.9% both sexes Second hand smoking in a Hospital/Health care centre: 5.2% men,6.3% women, 5.8% both sexes Second hand smoking in Governmental Institutions: 9.1% men, 5.3% women, 7.2% both sexes Second hand smoking in University/School: 8.2% men, 4.5% women, 6.3% both sexes Second hand smoking in Public Transportation: 40.5% men, 34.6% women, 37.6% both sexes Second hand smoking in Other Places: 6.1% men, 4.4% women, 5.3% both sexes
B23A		Please indicate the year of the data used to answer question B21: 2019
B23B		Please indicate the source of the data used to answer question B21: STEPS (2019) and GYTS (2014)
B3		Tobacco-related mortality
B31		Do you have information on tobacco-related mortality in your population? Yes
B32		What is the estimated total number of deaths

		<p>attributable to tobacco use in your population?</p> <p>9027.0000000000</p>
B33		<p>If available, please provide any additional information on mortality attributable to tobacco use (e.g. lung cancer, cardiovascular diseases) in your jurisdiction.</p> <p>Every year tobacco use kills 9,027 Jordanians. 56% percent of these deaths are considered premature deaths, meaning they occur in individuals under age 70. About 1,600 Jordanians die every year due to the effects of exposure to secondhand smoke. - ischemic heart disease 2,993 deaths - other causes 2,476 deaths - tracheal, bronchus and lung cancers 2,458 deaths - Diabetes mellitus type two 1,815 deaths - Chronic obstructive pulmonary disease 1,781 deaths - Ischemic stroke 1,552 deaths - Lower respiratory infections 74 deaths - Alzheimer disease and other dementias 438 deaths - Intracerebral hemorrhage 357 deaths - Leukemia 255 deaths</p>
B34A		<p>Please indicate the year of the data used to answer question B32 and 33:</p> <p>2015</p>
B34B		<p>Please indicate the source of the data used to answer questions B32 and B33:</p> <p>Economic Investment on tobacco control (2019)</p>
B4		<p>Tobacco-related costs</p>
B41		<p>Do you have information on the economic burden of tobacco use in your population, e.g. the overall cost of tobacco use imposed on your society?</p> <p>Yes</p>
B42		<p>Please provide details (e.g. direct (health care-related) and indirect costs and, if possible, the method used to estimate these costs).</p> <p>This study was published in 2019 using data from 2015. Each year, tobacco use causes JOD 1.6 billion in total economic losses, the equivalent of 6 percent of GDP in 2015. These costs include a) JOD 204.4 million in healthcare expenditures, and b) JOD 1.389 billion in lost productive capacities due to premature mortality, disability, and workplace smoking. Large productivity losses from tobacco use (87% of all tobacco-related costs) indicate that tobacco use impedes development in Jordan beyond health. According to the 2019 Households Expenditures and Income Survey from the National Jordanian Department of Statistics, households with at least one smoker</p>

		spent on average 74 dinar per month on tobacco products in 2017/2018. In total, Jordanian families spent 717 million JOD (equivalent to more than 1 billion USD) on tobacco products over the year 2017/2018. About 59 percent of the households subsidized by the National Aid Fund have a least one smoker.

C117	<p>If you have any other relevant information pertaining to but not covered in this section, please provide details in the space below.</p> <p>In 2017, Jordan was selected to receive support from WHO FCTC 2030 project among other 15 countries. This is a global project, supported by the UK government to accelerate the implementation of the WHO FCTC treaty. This allowed Jordan to have a full time dedicated focal point for tobacco control as well as funding for tobacco control activities to support government of Jordan. WR, in agreement with WHO FCFC Head of Secretariat, decided to pilot an innovative way of collaboration, also in light of UN Reform, and positioned the Tobacco control focal to the UN Resident Coordinator Office in Jordan, providing a unique best practice and opportunity to work on multisectoral action and to collaborate with all UN agencies conveying a message on tobacco control as one UN family in Jordan. In 2017, as part of the WHO FCTC2030 project and upon request of the Jordan Ministry of Health, the “Jordan Tobacco Control Economic Investment Case” was initiated. This economic study provided the first systematic analysis of the health and economic burden of tobacco use as well as estimates on the potential health and economic gains from the effective implementation of the WHO FCTC treaty in Jordan. The data generated through this study provided the basis to start the discussion with non-health related ministries and shifting the tobacco alarming situation to a financial governmental concern. In 2019, upon showing data of the “Jordan Tobacco Control Economic Investment Case”, H.E the Prime Minister took the leadership in establishing the “National Multi-Sectorial Committee for Tobacco Control”, bringing together key ministerial portfolios around a common Government goal to combat the growing economic and disease burden of tobacco in Jordan through the implementation and enforcement of the WHO FCTC cost-effective and life-saving measures. The support of H.R.H Princess Dina Mired was fundamental in paving the path to reach the high political</p>

		leaders in the government and help achieve the establishment of this committee and gathering the highest level of political commitment in Jordan
C12		Protection of public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
C121		protecting public health policies with respect to tobacco control from commercial and other vested interests of the tobacco industry? No
C122		ensuring that the public has access, in accordance with Article 12(c), to a wide range of information on tobacco industry activities relevant to the objectives of the Convention, such as in a public repository? No
C123		If you answered “Yes” to any of the questions under C121 or C122, please provide details in the space below (specifically, please refer, if relevant, to whether your government or any of its departments 1) have raised awareness on tobacco industry tactics and the need to prevent interference by the tobacco industry with decision making; 2) have avoided entering into any partnerships or voluntary agreements with the tobacco industry; 3) have established any measures to limit interaction of public officials with the tobacco industry, including in the form of a code of conduct; 4) have not granted any incentives, privileges, benefits or preferential tax exemptions to the tobacco industry to establish or run their business; etc.).
C124		Please provide a brief description of the progress made in implementing Article 5.3 in the past two years or since submission of your last report.

C216		If you answered “Yes” to question C215 please provide details in the space below or refer to section H of the additional questionnaire available at this link. Response to this question or to the additional questionnaire is voluntary. https://extranet.who.int/dataformv3/862235?token={TOKEN}&lang=en
C217		If you have any other relevant information pertaining to but not covered in this section, please provide details in

		the space below.
C22		Protection from exposure to tobacco smoke Have you adopted and implemented, where appropriate, legislative, executive, administrative or other measures or have you implemented, where appropriate, programmes on any of the following:
C221		- banning, completely or partially, tobacco smoking in indoor workplaces, public transport, indoor public places and, as appropriate, other public places? Yes
1		What is the type/nature of the measure providing for the ban?
	1	national law Yes
	2	subnational law(s) Yes
	3	administrative and executive orders Yes
	4	voluntary agreements No
	5	other measures (please specify in C223 below) No
C223		Please provide a brief explanation of the type/nature and content of the measures providing for the ban.
C224		Do any of these measures provide for a mechanism/ infrastructure for enforcement? Yes
C225		Please provide details of this system. 1.The Public Health Law No. (47) bans all forms of smoking indoors.The most important articles that relate to the ban of

smoking indoors are as follows: A) §. (52) of the Public Health Law No. (47) of 2008 (thereafter Public Health Law) defines a public place as: "A place that is designed to receive all people or a certain category of them such as hospitals, health centers, schools, Cinema, theaters, public libraries, museums, public and non-governmental public buildings, and passenger transport Arrivals and departures at airports, border points (crossings), stadiums and closed sports facilities, Lecture halls, restaurants, hotels, Internet cafes, places, tourist establishments, and association offices, associations, clan gathering places, and any other place shall be decided by the Minister as a public place and shall be published in the Official Gazette. B) §. (53) (a) of the Public Health Law states that: "It is forbidden to smoke any tobacco products in public places, although it is permissible by a decision of the Minister upon the recommendation of the competent health director to specify a special place in which smoking is permitted in the public place provided that the public's health and safety are taken into account and that this place is clearly declared in a prominent place using signs written in the Arabic language." C) §. (63) of the Public Health Law states that:"a. A person who smokes any tobacco product in public places where smoking is banned shall be punished with imprisonment for a period of no less than a month and not exceeding three months or a fine of no less than one hundred dinars and no more than two hundred dinars. b. Whoever commits any of the following shall be punished by imprisonment for a period of no less than three months and not more than six months, or a fine of no less than one thousand dinars and no more than three thousand dinars. 1. The person in charge of the public place where smoking is prohibited allows any person to smoke any of the tobacco products in it. 2. Not declaring smoking bans in the public place in accordance with the provisions of paragraph (c) of Article (53) of this Law. 3. Selling cigarettes by piece. 4. Selling cigarettes to people under eighteen. 5. Distributing or selling counterfeit tobacco products. c. A penalty of imprisonment for a period of no less than three months and not exceeding six months, or a fine of no less than one thousand dinars and no more than three thousand dinars for each of the following: 1. Smoking or allowing any tobacco products in nurseries, kindergartens, and schools in the public and private sectors. 2. Display any of the tobacco products in violation of the provisions of the regulations issued for this purpose. 3. Printing, displaying or publishing any advertisement for the purposes of advertising any tobacco products or distributing any advertisement, tools, or materials for publicizing it. 4. Setting machines for selling tobacco products 5. Making or importing imitations of tobacco products or any device used for smoking purposes. 6. Product, import, or market any tobacco products within the territory of the Kingdom, in violation of the provisions of Article (56) of this law. 7. Failure to fulfill the health requirements permitted to smoke in it. d. The Minister

		<p>may close the place in which the violation was committed for the period he deems appropriate or appropriate to the competent authorities withholding the means of transport that promotes tobacco products and carries out home delivery until a final decision is issued by the court." 2. On the 25th of June 2020 the Minister of Health issued a decision No. (T U/35/211) that was circulated to other government officials to ban smoking in all indoor public places. 3. The law of inspection of Economic Activities No. (33) of 2017 that governs the area of inspection of economic activities. 4. The Traffic Law No. (49) of 2008: a.§. (36) (31) provides that a person who smokes or allows smoking in a vehicle that is for the purposes of transporting students and nursery Students is punishable by a Thirty Jordanian Dinar fine. b.§. (39) (11) States that if the driver smokes in a public transportation vehicle the action is punishable by a ten Jordanian Dinar fine.</p>

C226cc		Please provide a brief explanation of any "other" policies in the space below
C227		Please provide a brief summary of complete and partial measures, with specific details of the partial measures that have been implemented:
C227a		<p>Banning tobacco smoking in indoor workplaces</p> <p>In relation to Policy: A) §. (52) of the Public Health Law defines public places as: "A place that is designed to receive all people or a certain category of them such as hospitals, health centers, schools, Cinema, theaters, public libraries, museums, public and non-governmental public buildings, and passenger transport Arrivals and departures at airports, border points (crossings), stadiums and closed sports facilities, Lecture halls, restaurants, hotels, Internet cafes, places, tourist establishments, and association offices, associations, clan gathering places, and any other place shall be decided by the Minister as a public place and shall be published in the Official Gazette. B) §. (53) (a) of the Public Health Law states that: "It is forbidden to smoke any tobacco products in public places, although it is permissible by a decision of the Minister upon the recommendation of the competent health director to specify a special place in which smoking is permitted in the public place provided that the public's health and safety are taken into account and that this place is clearly declared in a prominent place using signs written in the Arabic language." C) On the 25th of June 2020 the Minister of Health issued a decision No. (T U/35/211) that was circulated to other government officials to ban smoking in all indoor public places. Based on all forms of indoor smoking, which includes workplaces, is banned. In relation to Implementation: A)There are issues with implementing the legislation due to high fines in the Public Health Law. B) The Ministry of Health is the one that is tasked with enforcing and inspecting the Public Health Law but due to the extensive task, the MInistry is facing issues with fully implementing the FCTC. Therefore, there is an issue with the implementation of the total ban of all forms of indoor public smoking in public places. C)The Ministry of Health needs support in relation to resources to carry out inspections. The Ministry of Health is also communicating with other</p>

	governmental agencies to coordinate and possibly delegate tasks in relation to areas that govern the ban of all forms of indoor smoking in public places.
C227b	<p>Banning tobacco smoking in public transport</p> <p>In relation to Policy: A) §. (52) of the Public Health Law defines public places as: "A place that is designed to receive all people or a certain category of them such as hospitals, health centers, schools, Cinema, theaters, public libraries, museums, public and non-governmental public buildings, and passenger transport Arrivals and departures at airports, border points (crossings), stadiums and closed sports facilities, Lecture halls, restaurants, hotels, Internet cafes, places, tourist establishments, and association offices, associations, clan gathering places, and any other place shall be decided by the Minister as a public place and shall be published in the Official Gazette. B) §. (53) (a) of the Public Health Law states that: "It is forbidden to smoke any tobacco products in public places, although it is permissible by a decision of the Minister upon the recommendation of the competent health director to specify a special place in which smoking is permitted in the public place provided that the public's health and safety are taken into account and that this place is clearly declared in a prominent place using signs written in the Arabic language." C) On the 25th of June 2020 the Minister of Health issued a decision No. (T U/35/211) that was circulated to other government officials to ban smoking in all indoor public places. Based on all forms of indoor smoking, which includes public transport, is banned. In relation to Implementation: A) There are issues with implementing the legislation due to high fines in the Public Health Law.
