E. PRIORITIES AND COMMENTS

E1		<p>What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?</p> <p>Advancing tobacco control legislation by: Increase of tobacco taxes; Equalizing taxes for all tobacco products; Improve tobacco cessation services; Ensure the preparation, adoption, and implementation of healthcare decisions free from the interests of the tobacco industry as well as transparency of the relations between public organizations/entities and the tobacco industry; Regulate the content of tobacco products; apply plastic signs on filtered cigarette packages; Strengthening intersectoral collaboration - tobacco in the development agenda; Strengthening international support and mobilizing collaboration with civil society; Institutional capacity building;</p>
E2		<p>Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control?</p> <p>Yes</p>
E3		<p>Please provide details in the space below.</p> <p>Improving smoking cessation services - sufficient infrastructure including human resources do not exist to provide comprehensive smoking cessation services. We do have a free quit line but referring the specific doctor or specialist for quitting is difficult as those services are lacking. Lack of human resources dedicated to tobacco control - study tours, training, and workshops are needed for a broad range of experts from different sectors who are involved or will be potentially involved in tobacco control activities. Systematic surveillance on tobacco consumption trends and its determinants as well as health and economic impact - more research needs to be promoted. Identification of hindering factors for smokers to quit smoking - research needed. Training and experience exchange of the relevant professionals is necessary for the interpretation and analyses of the data collected on emissions and ingredients.</p>
E4		<p>What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?</p> <p>The tobacco industry's efforts to hamper the planning, implementation and enforcement of tobacco control policies remain a major challenge. The industry's efforts to promote new tobacco products are particularly noteworthy. Also, absence of a normative act on the detailed rules of observance of state policy related to tobacco control at public institutions and conducting relations with entities involved in the tobacco industry (implementation of article 5.3 FCTC) and a lack of sensitization and support of government officials outside of the health sector on the benefits of comprehensive tobacco control measures for both, health and development is still a barrier.</p>
1		<p>Do you have any of the following products available on your national tobacco market?</p>
	1	<p>smokeless tobacco products</p> <p>Yes</p>
	2	<p>water pipe tobacco</p> <p>Yes</p>
	3	<p>Electronic Nicotine Delivery Systems (ENDS)</p> <p>Yes</p>
	4	<p>Electronic Non-Nicotine Delivery Systems (ENNDS)</p> <p>Yes</p>
	5	<p>heated tobacco products (HTPs)</p> <p>Yes</p>
1		<p>Have you adopted and implemented any policy or regulation that is specific to the following tobacco products?</p>
	1	<p>smokeless tobacco products</p> <p>Yes</p>

	2	water pipe tobacco Yes
	3	Electronic Nicotine Delivery Systems (ENDS) Yes
	4	Electronic Non-Nicotine Delivery Systems (ENNDS) No
	5	heated tobacco products (HTPs) Yes
E7		If you have any relevant information related to questions E5 and E6, please provide details in the space below.
