B115		Please provide a brief explanation of the trend in smoking prevalence in the adult population in the past two years or since submission of your last report. Los datos aportados por la Oficina de Prevención del Consumo de Tabaco son los publicados en la Encuesta Nacional de Salud 2016-2017, del Ministerio de Salud de Chile. y corresponden al capítulo- Consumo de Tabaco. En base a los estudio de Prevalencia Consumo de Tabaco en Población General elaborados por el Servicio Nacional para la Prevención y Rehabilitación del Consumo de Drogas y alcohol. (SENDA 2020) Los resultados de este estudio, reportan una estabilización en la baja de la prevalencia del consumo de tabaco de las mediciones de los estudios anteriores, por cuanto las declaraciones sobre uso diario de tabaco permanecieron estables respecto al lapso de tiempo comprendido entre los años 2014 y 2018 (22,7% en 2014 a 21,2% en 2016, 19,6% en 2018 y 19% en 2020). Al desagregar por sexo, no se observan variaciones significativas respecto al estudio anterior;(SENDA, 2018) . La brecha observada entre ambos no es estadísticamente significativa en 2020 (H 19,5% frente a M 20,1%). La desagregación por nivel socioeconómico (NSE) muestra que la prevalencia de “consumo diario” de tabaco en NSE Bajo (21,3%) es significativamente mayor que la reportada en NSE Medio (20,3%) y NSE Alto (17%). No se registran variaciones estadísticamente significativas respecto a 2016 por nivel socioeconómico.

B62		Do you have any information on the percentage of illicit tobacco products on the national tobacco market? Yes
B63		What percentage of the national tobacco market do illicit tobacco products constitute? (%) 7,3
B64		What is the trend over the past two years or since submission of your last report in the percentage of illicit tobacco products in relation to the national tobacco market? Entre 2018 y 2020 existe una clara tendencia decreciente en el consumo total estimado de cigarrillos. La caída de este consumo es superior a la registrada en la de los cigarrillos lícitos que pagan impuestos, lo que implica un cierre de la brecha entre ambos, y por consecuencia, una caída en la penetración del comercio ilícito. Esta última estaría en torno a 7.3% del mercado total en 2020. Esta estimación está vinculada a una probable sobre-estimación inicial del comercio ilícito en 2016 y que, aun así, los niveles de comercio ilícito estimados para 2020 están por debajo de los estándares internacionales. 2018: 26,9% 2019: 17,5% 2020: 7,3%

E. PRIORIDADES Y OBSERVACIONES

E1		<p>What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?</p> <p>Dentro de las prioridades existentes, podemos mencionar la Cesación Tabáquica y para ello, durante los años 2018-2019 se implemento un Plan Piloto de cesación tabáquica, en 13 Centros de Salud Familiar en la Región Metropolitana . Esta estrategia tuvo como objetivo "Elevar el nivel de salud de las personas, mejorando la capacidad individual para cesar el consumo de tabaco, otorgando a los usuarios intervenciones individuales, grupales y tratamiento farmacológico, en los centros de Salud Familiar y Comunitario" Luego de la evaluación del piloto se desarrolló un programa de tratamiento que considera la población de 15 y mas años instalado en atención primaria de salud que considera intervenciones motivaciones y uso de fármacos. Este programa se encuentra la espera de financiamiento Otras de las prioridades es la regulación de los Cigarrillo Electrónicos, para lo cual se ha enviado al Congreso Nacional las modificaciones a la Ley del Tabaco N° 19.419, que significa homologar estos producto de tabaco a las mismas normativas de los cigarrillos, vale decir Prohibición de fumar en espacios públicos cerrados, prohibición de publicidad, prohibición de venta a menores de 18 años, deben contener las advertencias sanitarias determinadas por Decreto.</p>

E3		<p>Please provide details in the space below.</p>
E4		<p>What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?</p> <p>Respecto al convenio y su implementación existen limitantes económicas como también política. Una complejidad que se puede observar radica en la diversificación de cultivos de tabaco donde es posible observar resistencia en los legisladores ante la amenazas de familias de agricultores que quedarán sin trabajo, lo cual es infundado pero un aspecto que se encuentra constantemente en debate El tratamiento del tabaquismo y los costos que implican se convierten en un aspecto difícil de implementar y que conlleva esfuerzos importantes desde las coordinaciones de los países Un aspecto importante siempre es considerar las prioridades de la autoridad en términos regulatorios y la necesaria sincronía con el poder legislativo en el avance y discusión de las propuestas. La actual indicación a la ley incluye empaquetado genérico, prohibición de aditivos y regulación expresa de dispositivos electrónicos pero su avance depende del congreso.</p>

A la fecha ninguna empresa ha demostrado eficacia y seguridad respecto a esto por lo cual los SEAN no cuentan con autorización comercial en el país. La regulación específica se indica en la Resolución exenta 2994 del 2 de noviembre de 2010 perteneciente al Instituto de Salud Pública de Chile Está en curso una propuesta de ley que implica una modificación de la ley 19.419 incorporando a los SEAN/SESN. De esta manera se prohibirá la venta a menores de edad, la publicidad de productos, regulación de concentración máxima de nicotina, entre otros</p>
