E. PRIORITIES AND COMMENTS

E1		<p>What are the priorities for implementation of the WHO Framework Convention on Tobacco Control in your jurisdiction?</p> <ul style="list-style-type: none"> •The main priority for Mauritius was the amendment to the Public Health (Restrictions on Tobacco Products) Regulations 2008 with the technical assistance provided by WHO. This amended legislation has actually taken on board other articles to the WHO FCTC which were not previously considered. • The introduction of Plain packaging of cigarettes is the utmost priority for the Ministry. • Law enforcement has be reviewed and strengthened to ensure better compliance and enforcement actions. • The banning of sale and import of ENDS and ENNDS, smokeless tobacco products and restricting the consumption of waterpipes to hotels graded four star and above are also challenging. • Regulating the contents and emission of tobacco products and testing of the products has been considered as well as Article 10 will be implemented by 2024 • Cross border advertising, as well as brand stretching are another priority for the Ministry and have been addressed in the Public Health (Restrictions on Tobacco Products) Regulations 2022. • The National Action Plan on Tobacco Control for the period 2022-2026 has been devised by the Ministry whereby the implementation of WHO FCTC have been taken on board and are being implemented for the said period.
E2		<p>Have you identified any specific gaps between the resources available and the needs assessed for implementing the WHO Framework Convention on Tobacco Control?</p> <p>Yes</p>
E3		<p>Please provide details in the space below.</p> <ul style="list-style-type: none"> • The new National Action Plan on Tobacco Control 2022-2026 will be an opportunity to review and enhance our tobacco control strategies based on the need assessment done by WHO in 2013. • There is also need to develop a media strategy to target our young generation and in line with the findings of the most recent survey conducted in the field of tobacco control that is the Global Youth Tobacco survey 2016 and possibly the GYTS 2023/2024. • There is still a compelling need to devise a Taxation Policy for Mauritius as this will impact largely on our revenue and tobacco consumption.
E4		<p>What, if any, are the constraints or barriers, other than lack of resources, you have encountered in implementing the Convention?</p> <p>The lack of technical expertise and assistance from WHO is strongly felt in the implementation of some articles of the WHO FCTC for example Articles 5, 9 and 10. There is a high need for the Convention Secretariat to help countries, willing to further implement the different articles of the Convention, by soliciting the technical assistance of WHO as and when required.</p>

E7		If you have any relevant information related to questions E5 and E6, please provide details in the space below. Please note that smokeless tobacco products, ENDS, ENNDS and HTPs have entered the market illegally due to loopholes in our law and the same has being addressed in detail through the amendments made to the existing tobacco legislations whereby enforcement actions are expected to redress the situation.
E8		Do you have a costed national tobacco control plan or strategy? Yes
E81		If you answered “Yes” to question E8, is this costed national tobacco control plan or strategy fully funded? Yes
E82		Please attach the costed plan or strategy here. National Action Plan Tobacco 2022-2026.pdf
E9		Please provide the government’s expenditure on tobacco control, for the latest year available, in your country’s currency. The reporting instrument is rather a user friendly and very helpful to Parties to auto-assess their respective tobacco control policies and strategies. It will be a good initiative if the Convention Secretariat could shed more light on the need and importance of the questionnaire on additional questions which is voluntary and appears to duplicate to some extent the core questionnaire, this might undoubtedly dispel the clouds.
E10		Have you adopted and implemented any national legislative, executive, administrative and/or other measures that go beyond the requirements of the Convention in line with Article 2.1 (e.g, endgame strategies, smoke-free generations, tobacco free villages or cities)? No
