

Workshop on Waterpipe Tobacco Smoking (WTS) Regulatory Challenges

American University of Beirut
Beirut, Lebanon
November 6-7, 2018

Ghazi Zaatari, MD
Chair, TobReg
Director, KH-WTS

#UNtobaccocontrol

WTS Regulatory Challenges Workshop- Objectives

1. To review the current global tobacco control laws and policies as they relate to regulating WTS and the extent of implementing by Parties of the Framework Convention on Tobacco Control (FCTC) articles for that purpose.
2. To identify challenges associated with the enactment and enforcement of WTS control legislation in the context of different countries.

WTS Regulatory Challenges Workshop- Objectives

3. To discuss how evidence to date can guide regulation of WTS in public places and the implementation of regulations that take into consideration the unique design of the waterpipe and its accessories and their use.
4. To draw a set of recommendations for future actions tailored for the identified regulatory specificities and challenges of WTS.

AUB IS A TOBACCO-FREE UNIVERSITY
