

## Section 5: Références et ressources listées par module

Il existe deux normes ISO spécifiques pour les laboratoires et CLSI possède deux documents qui sont très importants pour les laboratoires cliniques.

Le module de formation se réfère à ces 4 documents tout au long des 18 modules, ils ne sont donc pas cités dans la liste séparée des différents modules ci-dessous :

- ISO 15189:2007. Laboratoires médicaux – Exigences particulières pour la qualité et la compétence. Genève : International Organization for Standardization.
- ISO/IEC 17025:2005. Exigences générales pour la compétence des laboratoires de tests, essais et calibrations. Genève : International Organization for Standardization.
- CLSI/NCCLS. *Application of a Quality Management System Model for Laboratory Services; Approved Guideline—Third Edition.* GP26-A3. Wayne, PA: NCCLS; 2004.
- CLSI/NCCLS. *A Quality Management System Model for Health Care; Approved Guideline—Second Edition.* HS1-A2. Wayne, PA: NCCLS; 2004.
