## National NCD Targets for United Kingdom

### Premature mortality from noncommunicable disease
- [no target]

### Harmful alcohol use
- [no target]

### Physical inactivity
- [no target]

### Sodium intake
- Reduce population salt intake to 7g/day by 2023

### Tobacco use
- By end of 2022, reduce the prevalence of 15 year olds who regularly smoke from 8% to 3% or less
- By end of 2022, reduce smoking prevalence among adults in England from 15.5% to 12% or less
- By end of 2022, reduce the prevalence of smoking in pregnancy from 10.7% to 6% or less

### Raised blood pressure
- [no target]

### Diabetes and obesity
- [no target]

### Drug therapy to prevent heart attacks and strokes
- By 2028, increase the proportion of patients accessing cardiac rehabilitation up to 85% of those eligible
- By 2022, deliver a ten-fold increase in the proportion of patients who receive a thrombectomy after a stroke so that each year 1,600 more people will be independent after their stroke

### Essential noncommunicable disease medicines and basic technologies to treat major noncommunicable diseases
- [no target]
