

# Benin – Atlantique Littoral (Ages 13-15) Global Youth Tobacco Survey (GYTS) FACT SHEET . . . . .

The Benin - Atlantique Littoral GYTS includes data on prevalence of cigarette and other tobacco use as well as information on five determinants of tobacco use: access/availability and price, exposure to secondhand smoke (SHS), cessation, media and advertising, and school curriculum. These determinants are components Benin - Atlantique Littoral could include in a comprehensive tobacco control program.

The Benin - Atlantique Littoral GYTS was a school-based survey of students in 6 through 3<sup>e</sup>me conducted in 2003.

A two-stage cluster sample design was used to produce representative data for Benin - Atlantique Littoral. At the first stage, schools were selected with probability proportional to enrollment size. At the second stage, classes were randomly selected and all students in selected classes were eligible to participate. The school response rate was 100%, the class response rate was 100%, the student response rate was 84.6%, and the overall response rate was 84.6%. A total of 1,019 students aged 13-15 participated in the Benin - Atlantique Littoral GYTS.

## Prevalence

- 15.4% of students had ever smoked cigarettes (Boy = 22.8%, Girl = 5.3%)
- 11.0% currently use any tobacco product (Boy = 14.6%, Girl = 5.8%)
- 7.2% currently smoke cigarettes (Boy = 11.2%, Girl = 1.8%)
- 5.6% currently use other tobacco products (Boy = 6.7%, Girl = 4.2%)
- 13.1% of never smokers are likely to initiate smoking next year

## Knowledge and Attitudes

- 21.4% think boys and 20.7% think girls who smoke have more friends
- 19.5% think boys and 18.3% think girls who smoke look more attractive

## Access and Availability - Current Smokers

- 38.1% usually smoke at home
- 27.2% buy cigarettes in a store

## Exposure to Secondhand Smoke (SHS)
