

GYTS Objectives

The Global Youth Tobacco Survey (GYTS), a component of the Global Tobacco Surveillance System (GTSS), is a global standard for systematically monitoring youth tobacco use (smoking and smokeless) and tracking key tobacco control indicators.

GYTS is a cross-sectional, nationally representative school-based survey of students in grades associated with ages 13 to 15 years. GYTS uses a standard core questionnaire, sample design, and data collection protocol. It assists countries in fulfilling their obligations under the World Health Organization (WHO) Framework Convention on Tobacco Control (FCTC) to generate comparable data within and across countries. WHO has developed MPOWER, a technical package of selected demand reduction measures contained in the WHO FCTC:

GYTS Methodology

GYTS uses a global standardized methodology that includes a two-stage sample design with schools selected with a probability proportional to enrollment size. The classes within selected schools are chosen randomly and all students in selected classes are eligible to participate in the survey. The survey uses a standard core questionnaire with a set of optional questions that countries can adapt to measure and track key tobacco control indicators. The questionnaire covers the following topics: tobacco use (smoking and smokeless), cessation, secondhand smoke (SHS), pro- and anti-tobacco media and advertising, access to and availability of tobacco products, and knowledge and attitudes regarding tobacco use. The questionnaire is self-administered; using scannable paper-based bubble sheets, it is anonymous to ensure confidentiality.

In Myanmar, GYTS was conducted in 2016 by the Department of Public Health, under the coordination of the Ministry of Health and Sports. The overall response rate was 95.5%. A total of 3,633 eligible students in grades 9 - 11 completed the survey, of which 2,621 were aged 13-15 years. Data are reported for students aged 13-15 years.

GYTS Highlights

TOBACCO USE

- 13.6% of students, 26.3% of boys, and 3.7% of girls currently used any tobacco products.
- 10.6% of students, 21.1% of boys, and 2.4% of girls currently smoked tobacco.
- 8.3% of students, 17.0% of boys, and 1.5% of girls currently smoked cigarettes.
- 5.7% of students, 11.0% of boys, and 1.5% of girls currently used smokeless tobacco.

CESSATION

- More than 7 in 10 current smokers tried to stop smoking in the past 12 months.
- Almost 7 in 10 current smokers wanted to stop smoking now.

SECONDHAND SMOKE

- 33.2% of students were exposed to tobacco smoke at home.
- 28.4% of students were exposed to tobacco smoke inside enclosed public places.

ACCESS & AVAILABILITY

- 54.5% of current cigarette smokers bought cigarettes from a store, shop, or street vendor.
- Among current cigarette smokers who tried to buy cigarettes, 62.9% were not prevented from buying them because of their age.

MEDIA

- More than 8 in 10 students noticed anti-tobacco messages in the media.
- More than 4 in 10 students noticed tobacco advertisements or promotions when visiting points of sale.
- More than 1 in 20 students had something with a tobacco brand logo on it.

KNOWLEDGE & ATTITUDES

- 65.0% of students definitely thought other people's tobacco smoking is harmful to them.
- 94.6% of students favored prohibiting smoking inside enclosed public places.

TOBACCO USE

SMOKED TOBACCO	OVERALL (%)	BOYS (%)	GIRLS (%)
Current tobacco smokers ¹	10.6	21.1	2.4*
Current cigarette smokers ²	8.3	17.0	1.5*
Frequent cigarette smokers ³	0.6	1.1	0.0*
Current smokers of other tobacco ⁴	4.1	7.5	1.3*
Ever tobacco smokers ⁵	27.3	46.2	12.2*
Ever cigarette smokers ⁶	22.3	41.1	7.5*
Ever smokers of other tobacco ⁷	12.6	19.5	7.1*
SMOKELESS TOBACCO			
Current smokeless tobacco users ⁸	5.7	11.0	1.5*
Ever smokeless tobacco users ⁹	12.8	21.2	6.1*
ANY TOBACCO USE (smoked and/or smokeless)			
Current tobacco users ¹⁰	13.6	26.3	3.7*
Ever tobacco users ¹¹	31.4	51.0	15.8*
SUSCEPTIBILITY			
Never tobacco users susceptible to tobacco use in the future ¹²	5.9	8.9	4.6*
Never smokers who thought they might enjoy smoking a cigarette ¹³	9.7	12.7	8.3

CESSATION

	OVERALL (%)	BOYS (%)	GIRLS (%)
Current smokers who tried to stop smoking in the past 12 months	74.5	73.3	--
Current smokers who wanted to stop smoking now	69.4	67.7	--
Current smokers who thought they would be able to stop smoking if they wanted to	80.2	79.1	--
Current smokers who have ever received help/advice from a program or professional to stop smoking	45.8	46.4	--

SECONDHAND SMOKE

	OVERALL (%)	BOYS (%)	GIRLS (%)
Exposure to tobacco smoke at home ¹⁴	33.2	37.7	29.5*
Exposure to tobacco smoke inside any enclosed public place ¹⁴	28.4	32.8	24.8*
Exposure to tobacco smoke at any outdoor public place ¹⁴	29.0	34.3	24.8*
Students who saw anyone smoking inside the school building or outside on school property ¹⁵	64.5	55.7	71.6*

ACCESS & AVAILABILITY

	OVERALL (%)	BOYS (%)	GIRLS (%)
Current cigarette smokers who bought cigarettes from a store, shop, or street vendor ¹⁶	54.5	54.7	--
Current cigarette smokers who were not prevented from buying cigarettes because of their age ¹⁷	62.9	64.7	--
Current cigarette smokers who bought cigarettes as individual sticks ¹⁸	61.9	65.3	--

MEDIA

TOBACCO ADVERTISING	OVERALL (%)	BOYS (%)	GIRLS (%)
Students who noticed tobacco advertisements or promotions at points of sale ¹⁹	42.3	47.3	37.0*
