

# China – Tianjin (Ages 13-15)

## Global Youth Tobacco Survey (GYTS)

### FACT SHEET . . . . .

The China - Tianjin GYTS includes data on prevalence of cigarette and other tobacco use as well as information on five determinants of tobacco use: access/availability and price, exposure to secondhand smoke (SHS), cessation, media and advertising, and school curriculum. These determinants are components China - Tianjin could include in a comprehensive tobacco control program.

The China - Tianjin GYTS was a school-based survey of students in grade J1, J2, J3 and H1 conducted in 1999.

A two-stage cluster sample design was used to produce representative data for all of China - Tianjin. At the first stage, schools were selected with probability proportional to enrollment size. At the second stage, classes were randomly selected and all students in selected classes were eligible to participate. The school response rate was 100%, the student response rate was 96.8%, and the overall response rate was 96.8%. A total of 2,437 students aged 13-15 participated in the China - Tianjin GYTS.

### Prevalence

- 21.6% of students had ever smoked cigarettes (Boy = 34.8%, Girl = 10.5%)
- 9.7% currently use any tobacco product (Boy = 14.4%, Girl = 5.7%)
- 5.7% currently smoke cigarettes (Boy = 10.7%, Girl = 1.5%)
- 4.9% currently use other tobacco products (Boy = 5.5%, Girl = 4.4%)
- 4.6% of never smokers are likely to initiate smoking next year

### Knowledge and Attitudes

- 13.6% think boys and 5.3% think girls who smoke have more friends
- 22.9% think boys and 13.3% think girls who smoke look more attractive

### Access and Availability - Current Smokers

- 56.5% usually smoke at home
- 32.9% buy cigarettes in a store
- 95.0% who bought cigarettes in a store were NOT refused purchase because of their age

### Exposure to Secondhand Smoke (SHS)

- 59.1% live in homes where others smoke in their presence
- 52.6% are around others who smoke in places outside their home
- 68.7% think smoking should be banned from public places
- 81.4% think smoke from others is harmful to them
- 70.0% have one or more parents who smoke
- 4.7% have most or all friends who smoke

### Cessation - Current Smokers

- 86.9% want to stop smoking
- 68.2% tried to stop smoking during the past year
- 100.0% have ever received help to stop smoking

### Media and Advertising

- 87.2% saw anti-smoking media messages, in the past 30 days
- 60.4% saw pro-cigarette ads on billboards, in the past 30 days
- 35.1% saw pro-cigarette ads in newspapers or magazines, in the past 30 days
- 6.7% have an object with a cigarette brand logo
