## Azerbaijan 2020: Look into the future concept of development

## Goals

**Goals, objectives or targets related to nutrition:**

- Development of the agrarian sector, the strengthening of food security, expansion and development of trade and types of services and the improvement of the foreign trade and investment structure will be priority spheres.
- The production of eco-friendly agricultural and food products in the country will be stimulated. Also, purposeful measures will be taken to protect genetic reserves and biodiversity and to improve the production of saplings and seedlings, and breeding work.
