Links to the ICN2 Framework for Action:

- 21: Conduct appropriate social marketing campaigns and lifestyle change communication programmes to promote physical activity, dietary diversification, consumption of micronutrient-rich foods such as fruits and vegetables, including traditional local foods and taking into consideration cultural aspects, better child and maternal nutrition, appropriate care practices and adequate breastfeeding and complementary feeding, targeted and adapted for different audiences and stakeholders in the food system.
- 27: Promote universal access to all direct nutrition actions and relevant health actions impacting nutrition through health programmes.
- 43: Provide daily iron and folic acid and other micronutrient supplementation to pregnant women as part of antenatal care; and intermittent iron and folic acid supplementation to menstruating women where the prevalence of anaemia is 20% or higher, and deworming, where appropriate
- 49: Implement policies and strategies to ensure that women have comprehensive information and access to integral health care services that ensure adequate support for safe pregnancy and delivery

Commitment 4 - OBJETIVO 4 Propiciar la participación comunitaria e intersectorial.

Planned date of fulfillment: January 2025

SMART commitment details:

Acciones:
- Propiciar la participación comunitaria e intersectorial.
  - Acompañamiento ciudadano a madres, embarazadas en riesgo, recién nacidos con bajo peso al nacer y niñas/os con desnutrición o en riesgo, para re-establecer el vínculo con el establecimiento de salud.
  - Fortalecer las mesas distritales intersectoriales e interinstitucionales para el acompañamiento en la generación de política pública.

Links to the ICN2 Framework for Action:

- 3: Strengthen and establish, as appropriate, national cross-government, inter-sector, multi-stakeholder mechanisms for food security and nutrition to oversee implementation of policies, strategies, programmes and other investments in nutrition. Such platforms may be needed at various levels, with robust safeguards against abuse and conflicts of interest.
- 25: Strengthen health systems and promote universal health coverage, particularly through primary health care, to enable national health systems to address malnutrition in all its forms.
- 26: Improve the integration of nutrition actions into health systems through appropriate strategies for strengthening human resources, leadership and governance, health system financing and service delivery, as well as the provision of essential medicines, information and monitoring.
