Programme: GNPR 2016-2017: School health and nutrition (q11) Cahier special des charges - Objet : confection et livraison de repas dans des collectivités

Programme Data

Programme Description

These programmes and actions were reported by countries for the 2nd WHO Global Nutrition Policy Review 2016-2017 module on actions related to school health and nutrition programmes. Programme objectives: reduce or prevent child undernutrition (stunting, wasting, micronutrient deficiencies); reduce or prevent childhood overweight or obesity; foster healthy diet and lifestyle habits; educate children and improve knowledge about healthy diet and lifestyle habits; improve school attendance; improve academic performance; support the agriculture sector by creating farm to school linkages (e.g. cereals, milk, fruit and vegetables supply). Components of the school health and nutrition programme include: training of school staff on nutrition; standards or rules for foods and beverages available in schools; school fruit and vegetable scheme; standards for marketing of food and non-alcoholic beverages to children in school setting.
