

GNPR 2016-2017: School health and nutrition (q11) School Health Policy - Deworming - School age children (SAC)

Programme: GNPR 2016-2017: School health and nutrition (q11) School Health Policy

Programme Data

Programme Description

These programmes and actions were reported by countries for the 2nd WHO Global Nutrition Policy Review 2016-2017 module on actions related to school health and nutrition programmes. Programme objectives: foster healthy diet and lifestyle habits; educate children and improve knowledge about healthy diet and lifestyle habits; improve children's skills (e.g. cooking, food hygiene); support the agriculture sector by creating farm to school linkages (e.g. cereals, milk, fruit and vegetables supply). Components of the school health and nutrition programme include: hygienic cooking facilities and clean eating environment in schools; provision of school meals/school feeding programme; micronutrient supplementation; deworming; nutrition education included in school curriculum; extracurricular nutrition education; physical education in school curriculum; monitoring of children's growth; safe drinking water available free of charge; adequate sanitation and hygiene facilities in schools; school gardens.
