

## GNPR 2016-2017: School health and nutrition (q11) School feeding program - Extracurricular nutrition education - School age children (SAC)

Programme: GNPR 2016-2017: School health and nutrition (q11) School feeding program

### Programme Data

#### Programme Description

These programmes and actions were reported by countries for the 2nd WHO Global Nutrition Policy Review 2016-2017 module on actions related to school health and nutrition programmes. Programme objectives: reduce or prevent child undernutrition (stunting, wasting, micronutrient deficiencies); educate children and improve knowledge about healthy diet and lifestyle habits; improve school enrolment; improve school attendance; improve academic performance; reduce food insecurity and hunger. Components of the school health and nutrition programme include: training of school staff on nutrition; standards or rules for foods and beverages available in schools; provision of school meals/school feeding programme; deworming; nutrition education included in school curriculum; extracurricular nutrition education; physical education in school curriculum; monitoring of children's growth; adequate sanitation and hygiene facilities in schools; school gardens.
