

# GNPR 2016-2017: School health and nutrition (q11) Vanuatu Nutrition Policy & Strategic Plan 2016-2020 - Vending machines not allowed in schools - School age children (SAC)

Programme: GNPR 2016-2017: School health and nutrition (q11) Vanuatu Nutrition Policy & Strategic Plan 2016-2020

## Programme Data

### Programme Description

These programmes and actions were reported by countries for the 2nd WHO Global Nutrition Policy Review 2016-2017 module on actions related to school health and nutrition programmes. Programme objectives: reduce or prevent child undernutrition (stunting, wasting, micronutrient deficiencies); reduce or prevent childhood overweight or obesity; foster healthy diet and lifestyle habits; educate children and improve knowledge about healthy diet and lifestyle habits; improve children's skills (e.g. cooking, food hygiene); improve school enrolment; improve school attendance; improve academic performance; tackle health inequalities; reduce food insecurity and hunger; support the agriculture sector by creating farm to school linkages (e.g. cereals, milk, fruit and vegetables supply). Components of the school health and nutrition programme include: training of school staff on nutrition; standards or rules for foods and beverages available in schools; ban on vending machines in schools; hygienic cooking facilities and clean eating environment in schools; provision of school meals/school feeding programme; school fruit and vegetable scheme; school milk scheme; take-home rations distributed through schools; micronutrient supplementation; deworming; nutrition education included in school curriculum; physical education in school curriculum; standards for marketing of food and non-alcoholic beverages to children in school setting; monitoring of children's growth; safe drinking water available free of charge; adequate sanitation and hygiene facilities in schools; school gardens.
