UNDP's Development offer

In close collaboration with other UN Agencies, Member states and other partners

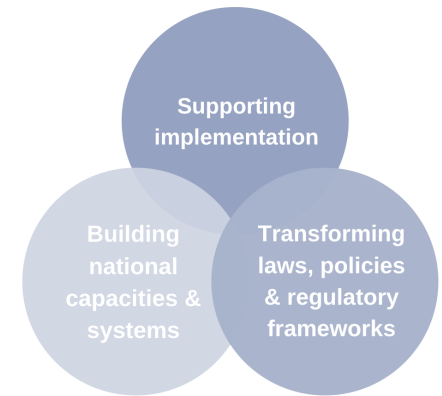

Overview of the UNDP-Global Fund Partnership

The UNDP-Global Fund Partnership makes a significant contribution to UNDP's Strategic Plan, the HIV, Health & Development (HHD) Strategy Note; the Sustainable Development Goals and the pledge to leave no one behind.

The partnership has evolved since 2002, but focuses on **three action areas**:

- **supporting grant implementation** in challenging operating environments;
- **strengthening the capacity of national partners** in line with UNDP's mandate to help build resilient and sustainable health systems; and
- **leveraging UNDP's policy expertise** to promote human rights, gender equality and other measures to increase equitable access to services.

In all three action areas, UNDP draws on **strategic partnerships** with governments, civil society organizations, donors, UN agencies, academia and the private sector to deliver results in a way that respects national ownership, and promotes aid effectiveness and sustainability.

PSM Architecture

- ✓ UNDP's Global Health Procurement Centre provides **end-to-end specialized services to countries** across all aspects of procurement, supply chain management based on the principles of best value for money, fairness, transparency, and quality
- ✓ UNDP's **centralized procurement model** enables it to leverage volume commitments to deliver **economies of scale, competitive prices and favorable delivery timeframes**.
- ✓ UNDP's **long-term agreements with suppliers** of health products enables it to provide timely and reliable delivery of quality-assured products.
- ✓ UNDP **centralized quality assurance (QA) team** ensure medicines and medical devices comply with UNDP's QA policy, which is aligned with WHO, Global Fund and other International Organizations and regulatory standards.
- ✓ UNDP has extensive experience **providing capacity building support** to strengthen national institutions, systems and processes in collaboration with implementing partners.
- ✓ UNDP can **leverage its strategic partnerships with key UN partners and Development Banks** – UNICEF, UNFPA, UNOPS/Stop TB/GDF, WHO, UNAIDS, UNHCR, World Bank

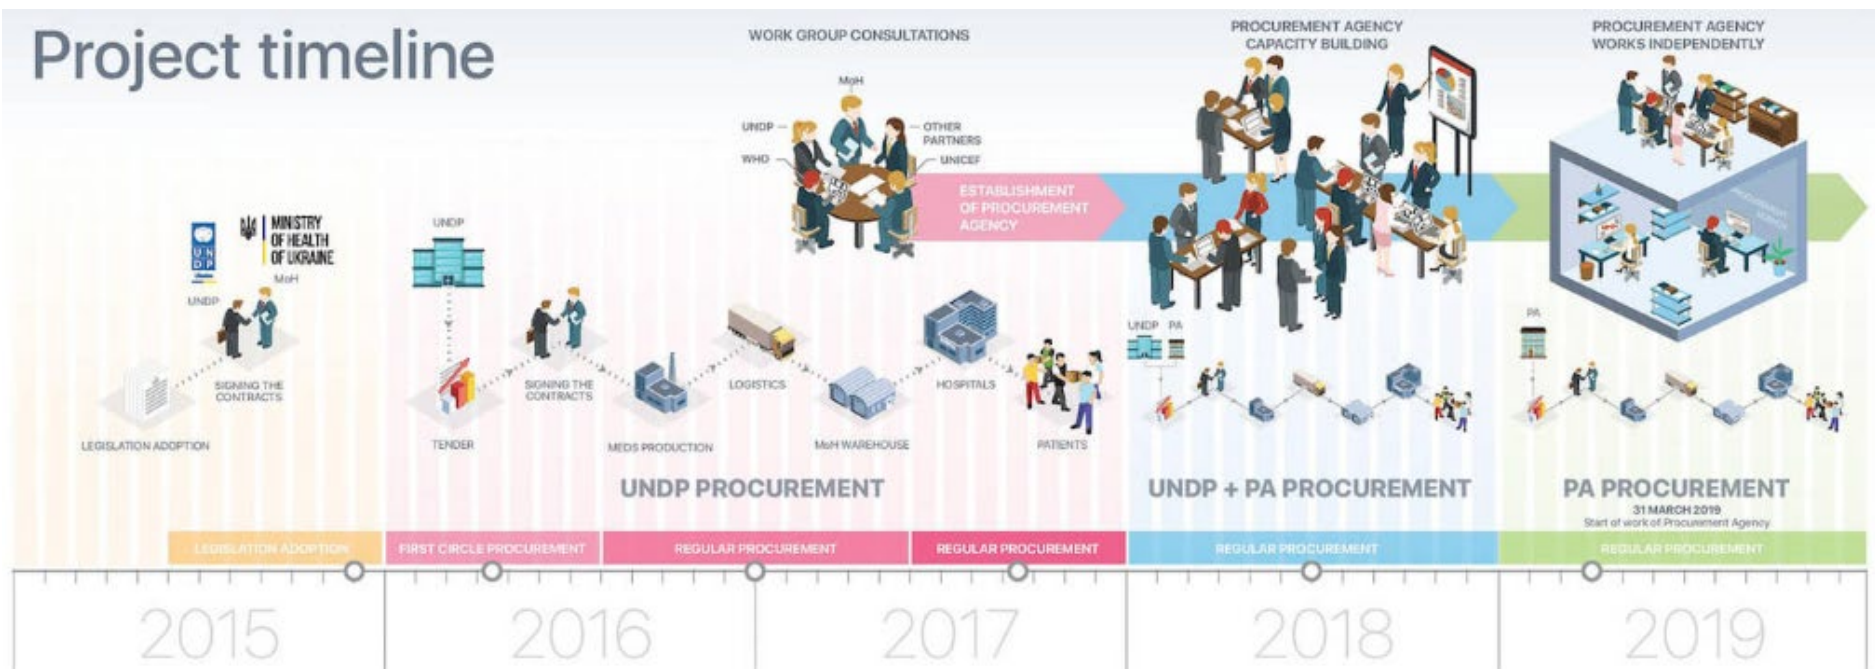

Transition examples - Ukraine

Partnership between UNDP and MOH of Ukraine. UNDP has procured **USD 620 million** worth of **medicines and health products**, covering **26 programs** and provided technical assistance. **USD 66 M – calculated savings!!!**

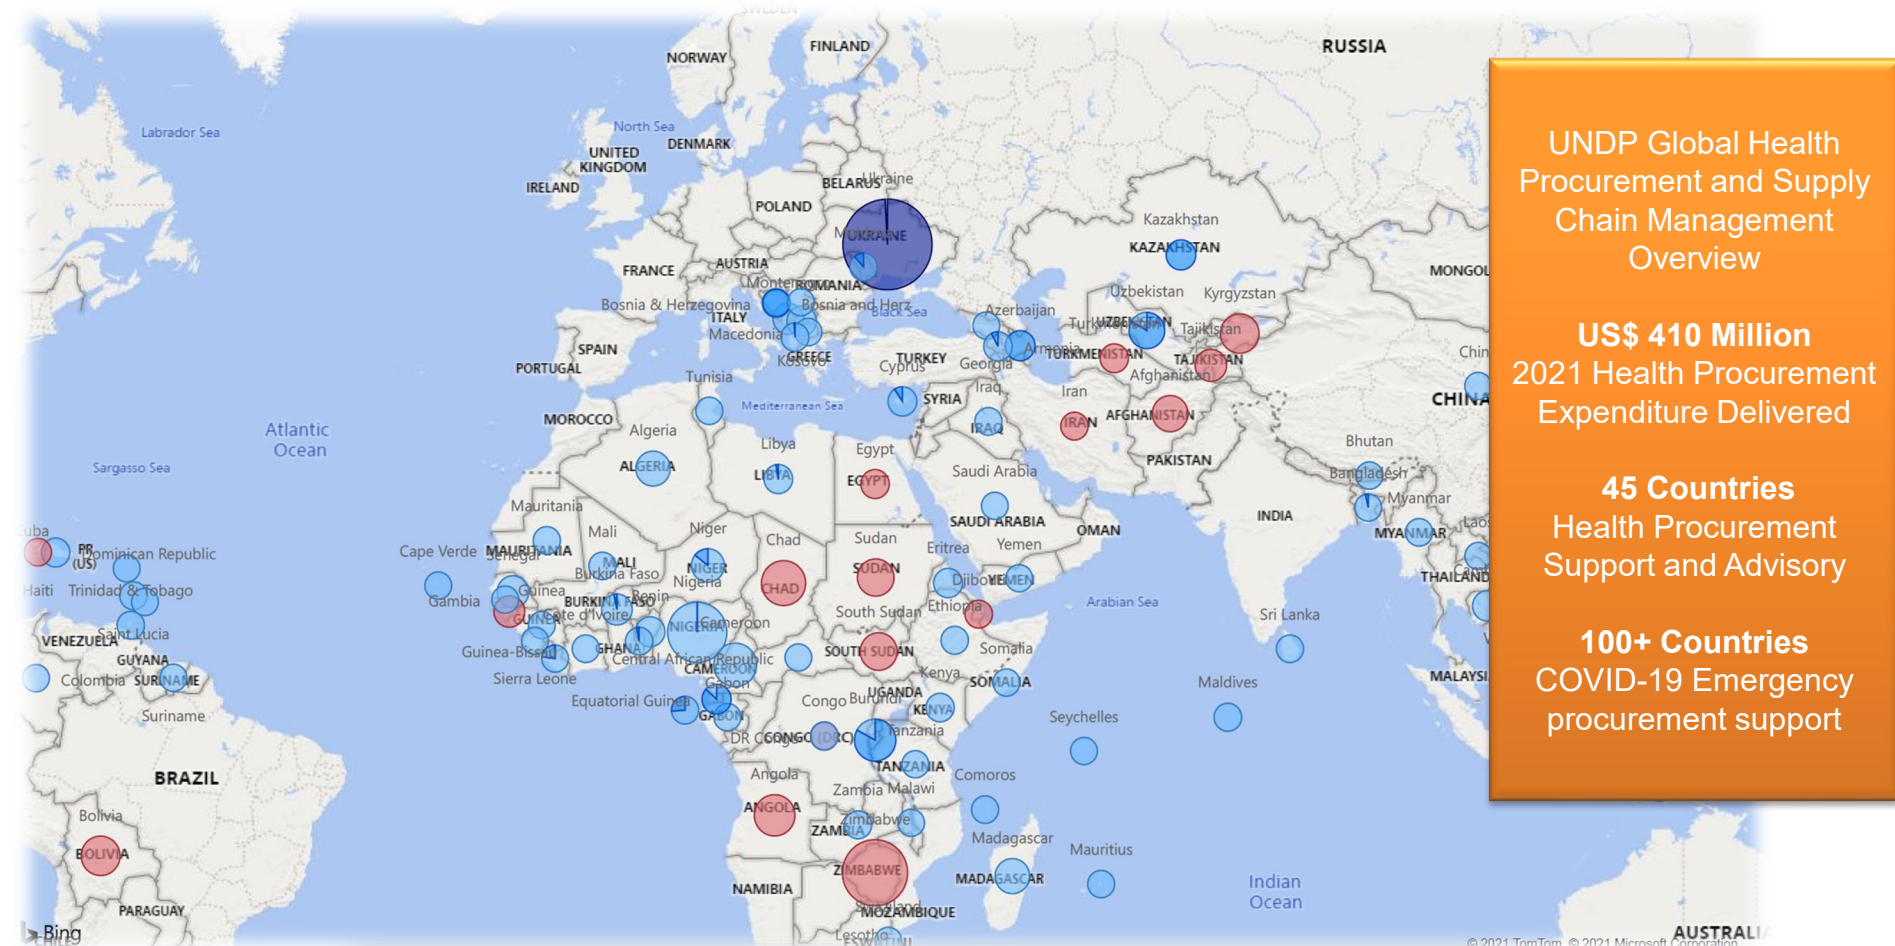

International **National**

Project timeline

Guaranteeing quality. Maximizing savings. Enhancing capacity.
