

UNFPA Procurement and Strategic Sourcing

December 2024

Ksenia Jensen, Development Supplies
Procurement Specialist, SCMU, UNFPA

UNFPA Supply Chain Management Unit

The UNFPA Supply Chain Management Unit (SCMU) provides the organization with a responsive and resilient supply chain system **across development and humanitarian settings**.

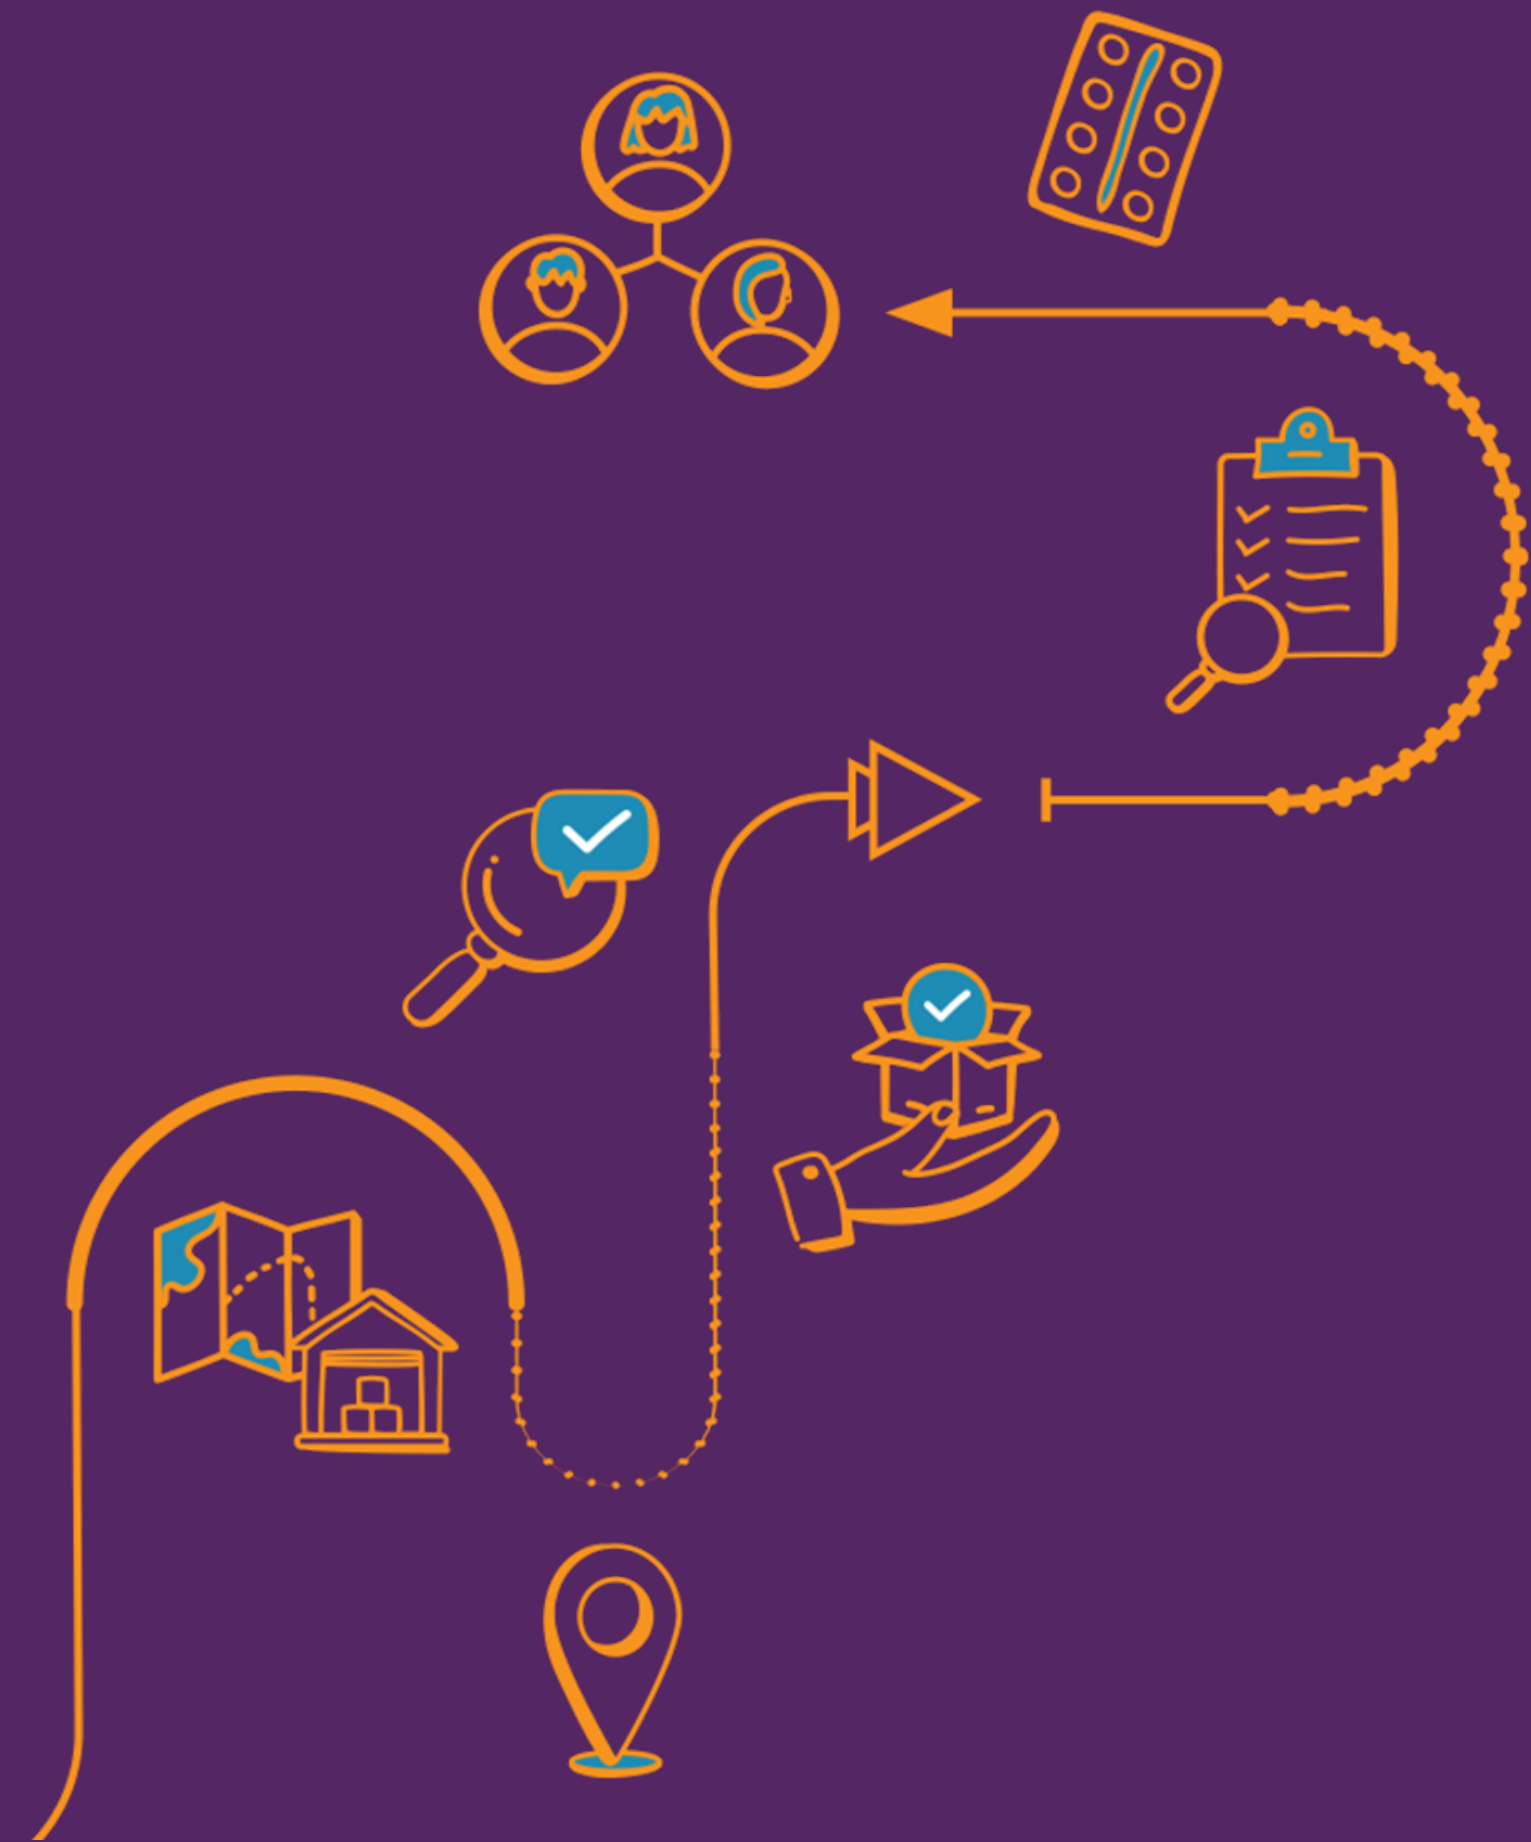

The SCMU delivers coordination and oversight of all UNFPA supply chain related activities to reach women and adolescents and expand equitable **access to affordable, quality assured SRH products and services**.

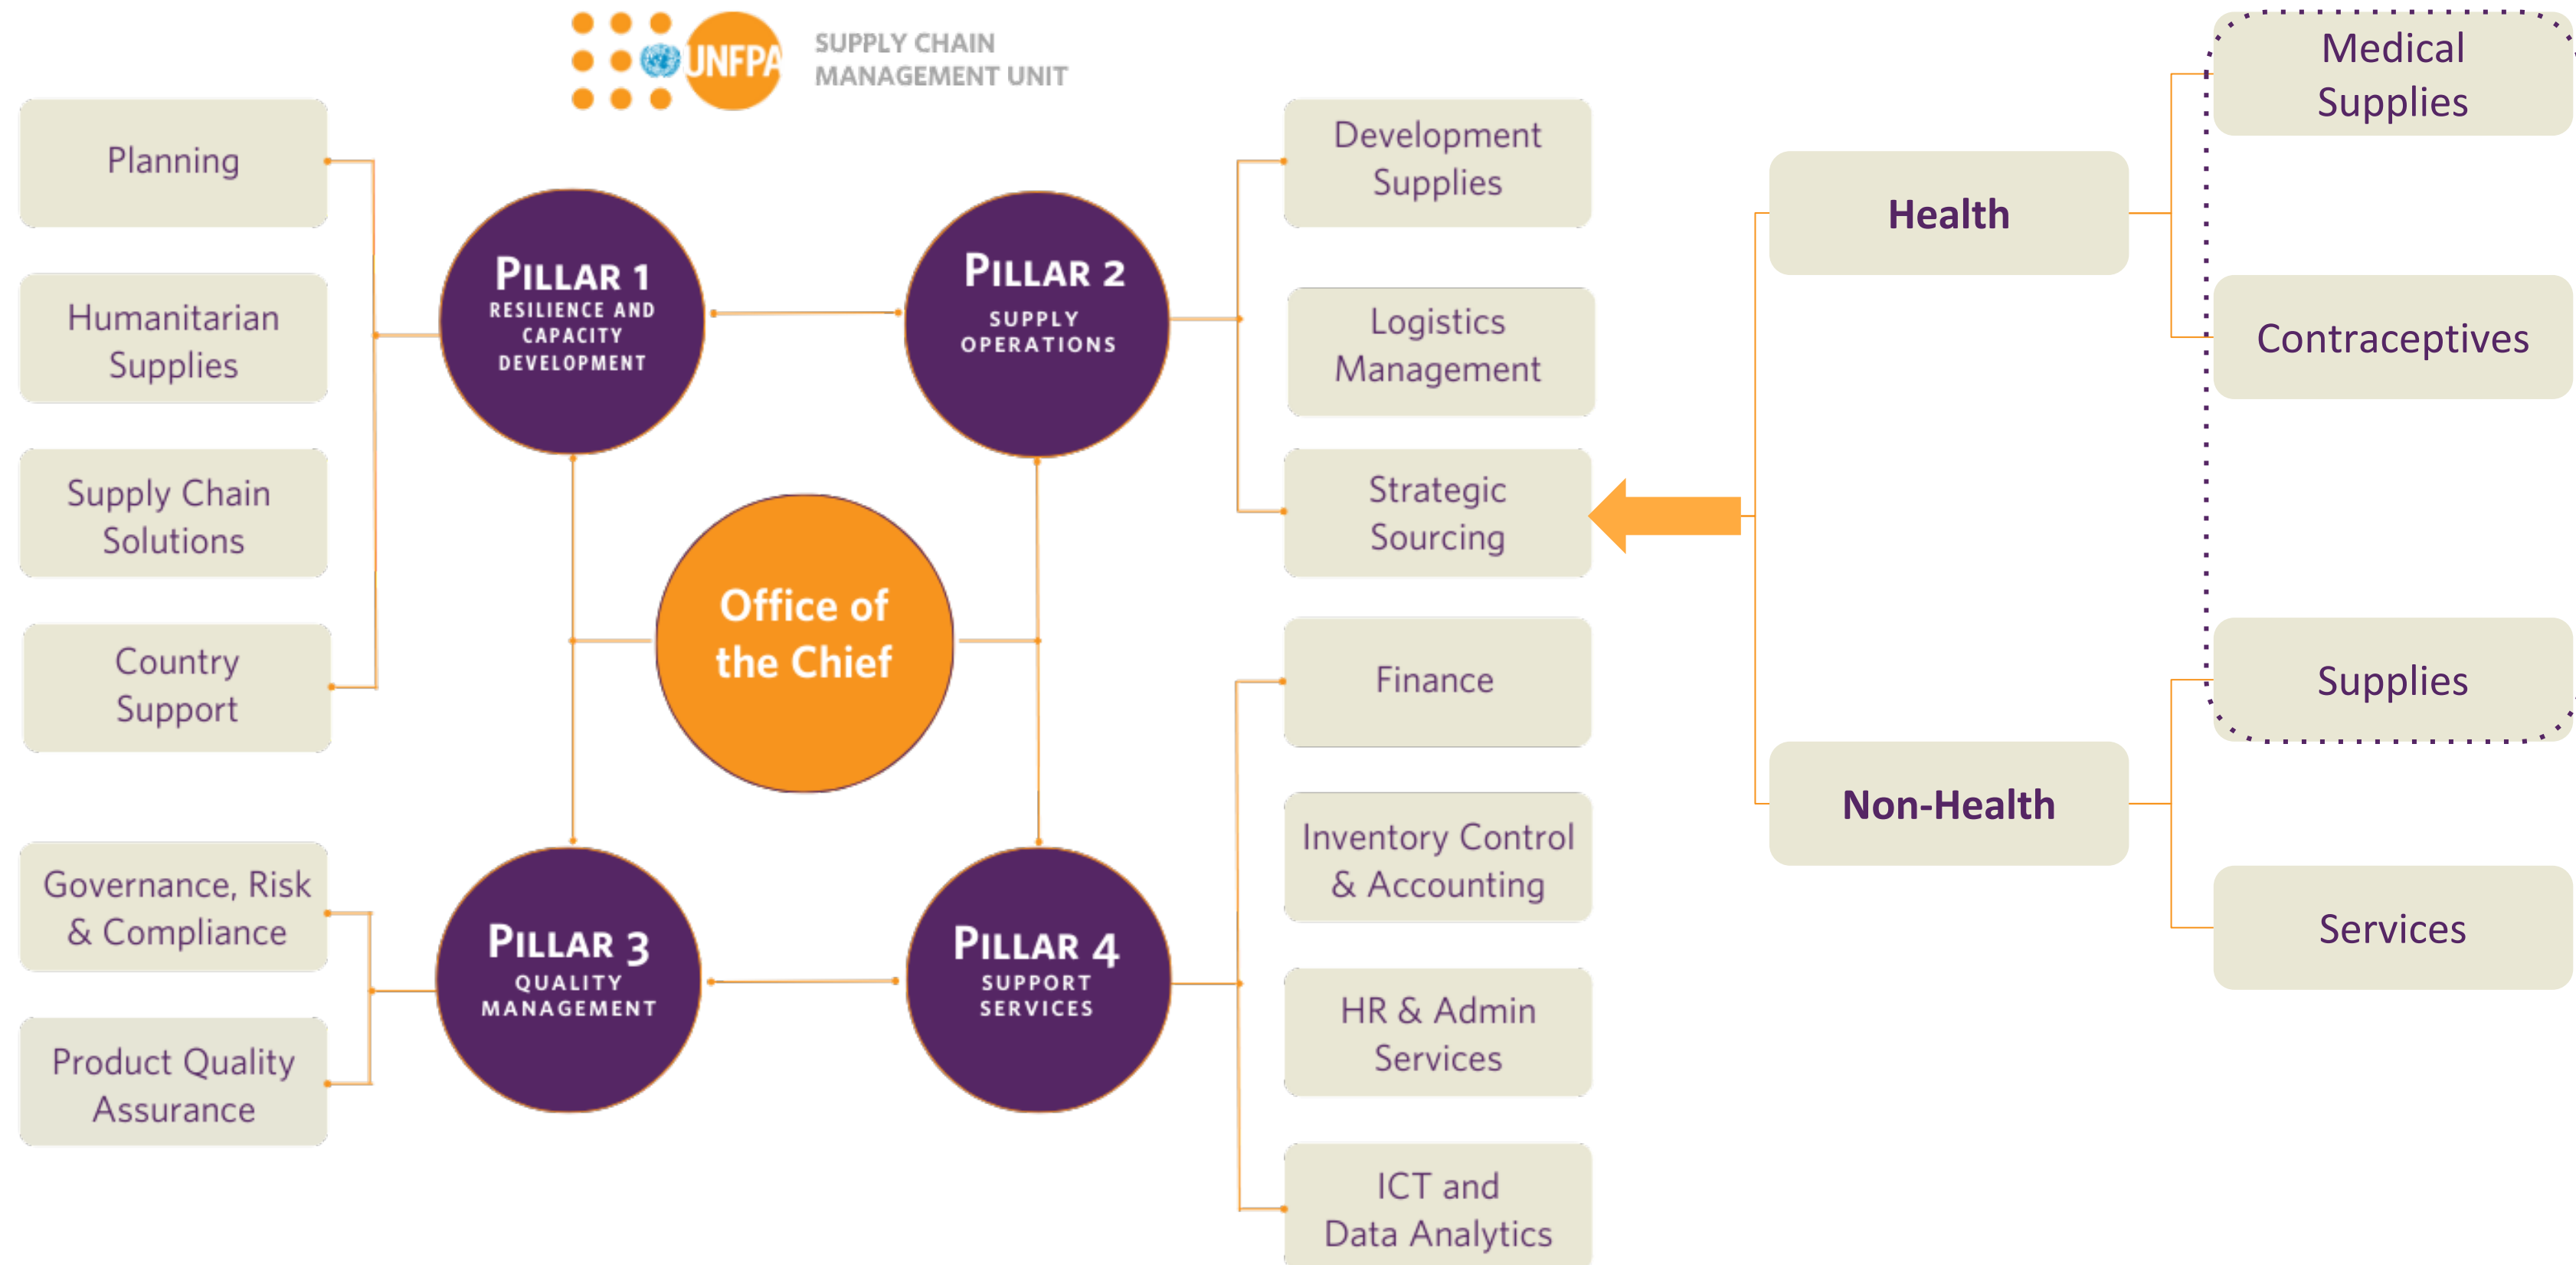

Secure and effective sourcing

Strategic Sourcing

Strategic Sourcing Team in the new SCMU structure

Strategic sourcing

Manages cost-effective procurement services of contracts and blanket purchase agreements for UNFPA core commodities, non-health supplies and services, and UNFPA operations.

Conducts supplier and category management activities.

Cooperates with other UN Agencies to ensure supply of both health and non-health commodities and services; joint tenders or piggyback processes.

Guides the UNFPA Business Units and other parties on procurement processes and procedures.

Builds the UNFPA procurement capacity; updates procurement procedures, SOPs; conducts educational webinars, etc.

Strategic Sourcing - Health Supplies

78

Why Specialised Procurement Functions

1. Deliver more streamlined and specialized supply chain services
2. Establish and strengthen internal coordination mechanisms to promote a development-humanitarian nexus approach
3. Increase agility and resiliency to respond to a volatile world and be able to withstand shocks and disruptions.

Development Supplies Team in the new SCMU structure

UNFPA humanitarian action

UNFPA and its partners delivered humanitarian aid to millions of women and young people in more than **51 countries in 2023**.

1.2 million

dignity kits distributed in 50 countries.

815

Mobile clinics supported by UNFPA.

20,583

IARH kits, worth \$16.2 million, dispatched to 51 countries.

14.4 million

people reached with SRH services & supplies in 51 countries.

Global Third-Party Procurement (TPP) Partnerships

290+ entities

including Governments/MoH, NGOs, UN Agencies and UNDP Country Offices

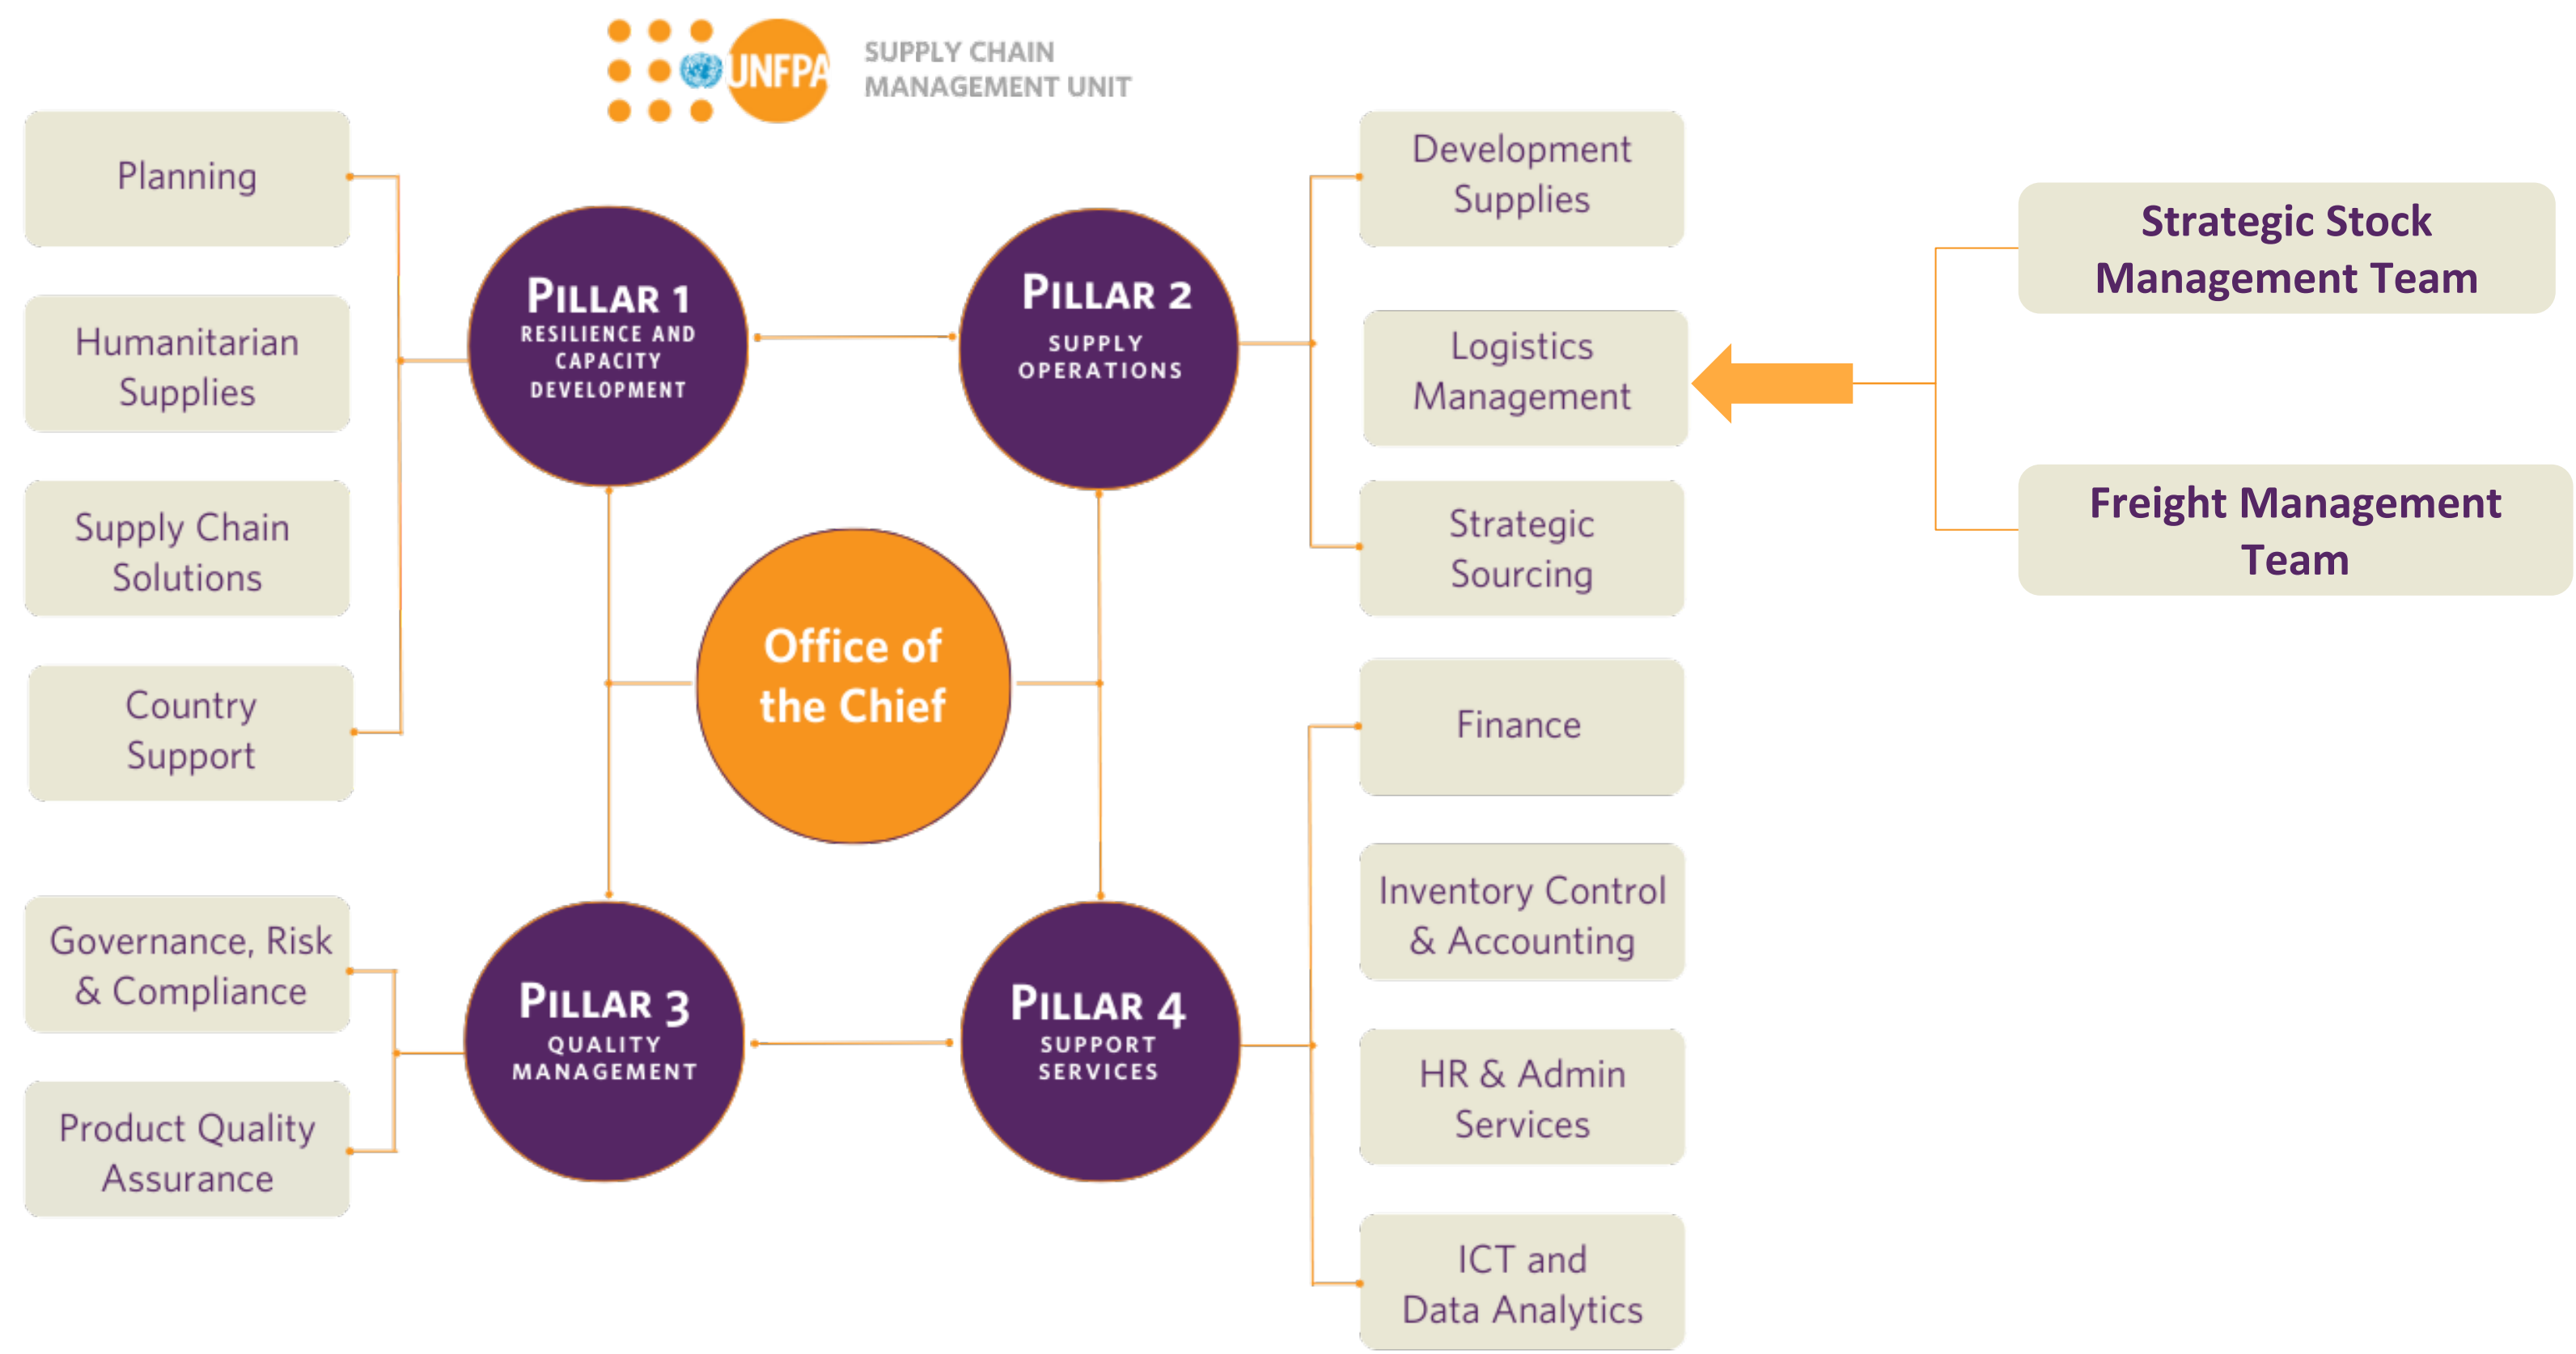

have partnered with UNFPA to procure supplies using their **own financial resources**

372 million USD
total value of orders

(2016 - 2023)

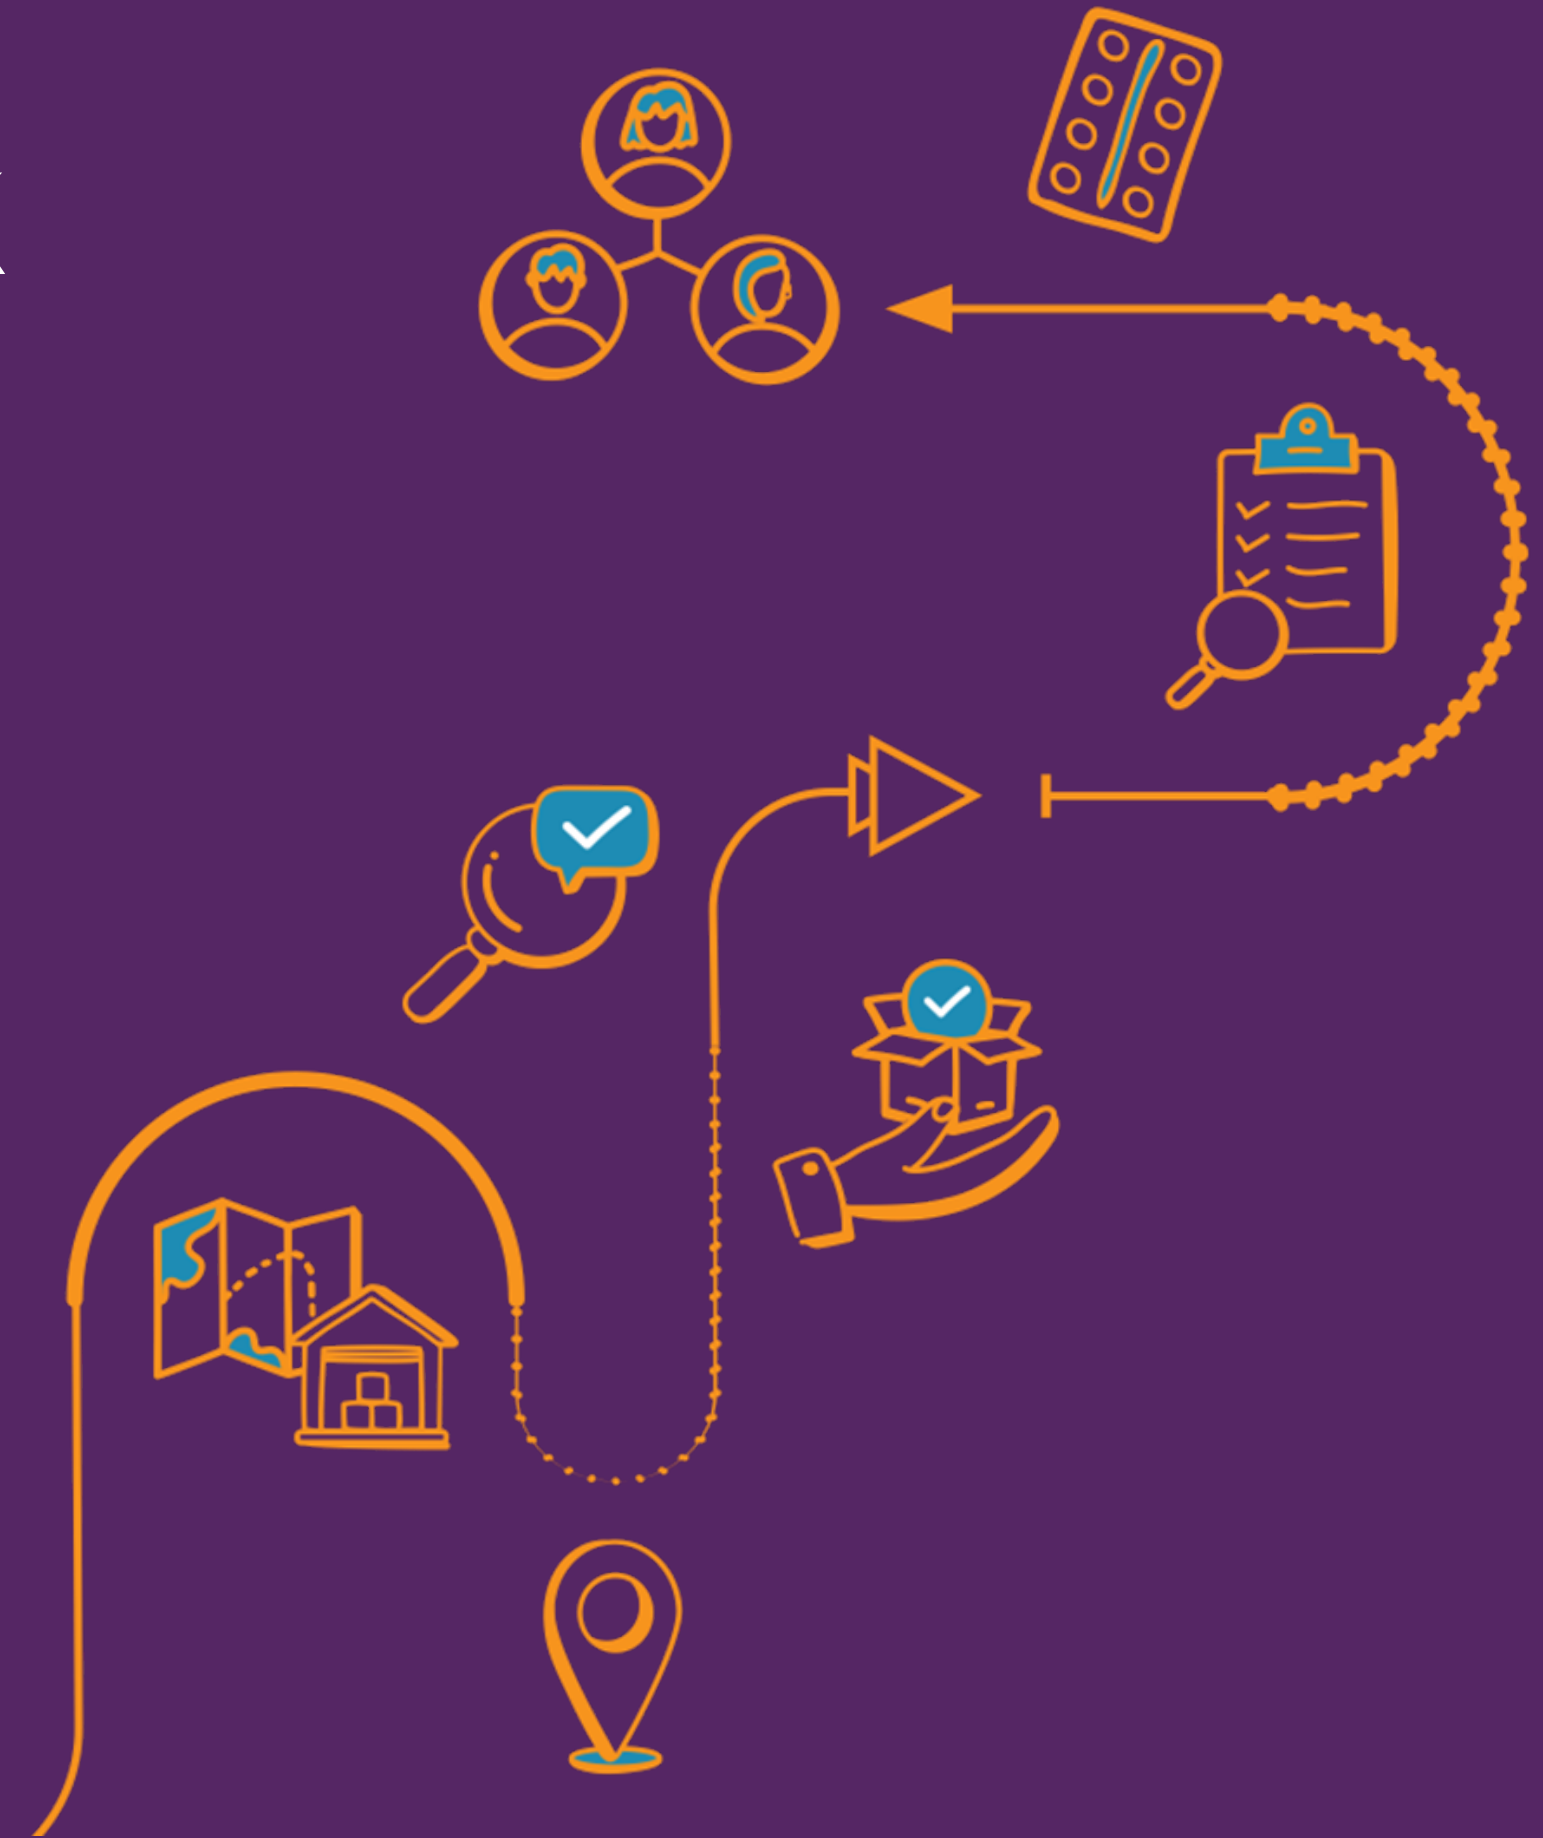

Logistics Management Team in the new SCMU structure

Pre-positioned Stock Management

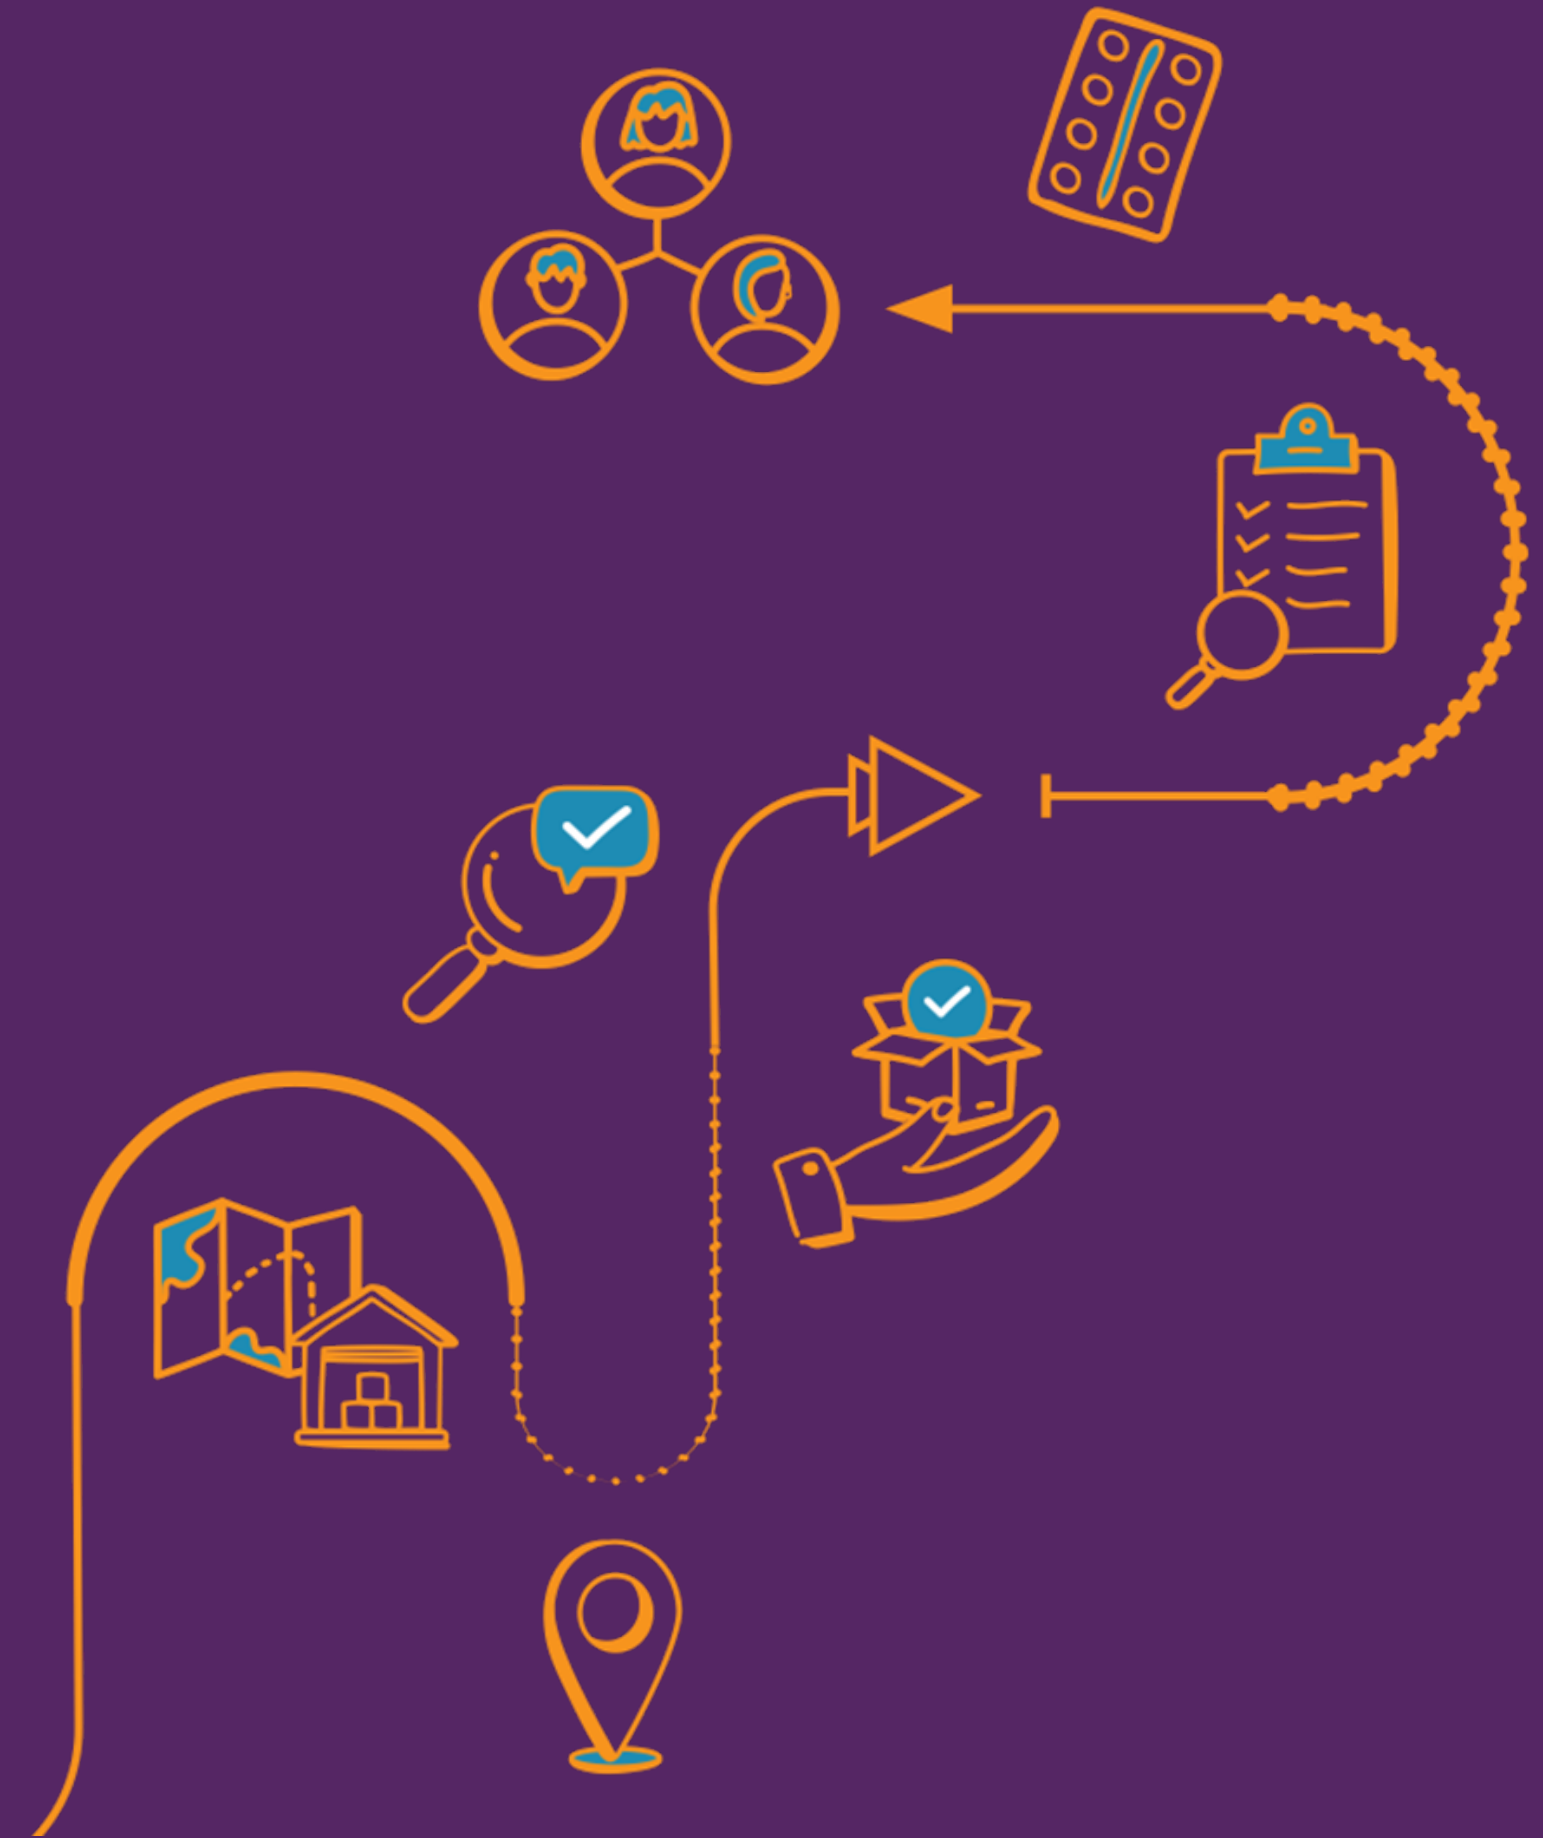

What we do

- ✓ **Manage** the global prepositioned stocks for rapid & easy dispatch
- ✓ **Assist** UNFPA internal and TPP customers with their requests for IARH kits from request stage to final delivery at destination
- ✓ **Assist** SCMU CFPs with stock allocations for stock items (Male Condoms, Female Condoms, Lubricants, Fistula Kits, Dignity Kits, Lifesaving Items and Safety and Security Items)

Freight Management Services

The LMS - Freight team mission

Responsible for identifying optimal shipping solutions and timely international transportation of UNFPA commodities to UNFPA programmes and partners.

Contract management of the freight category - ensuring availability of LTAs for OCEAN, AIR, LAND deliveries.

Developing and strengthening systems and tools with the aim to obtain end-to-end visibility of the UNFPA shipments.

Cooperating with logistics partners.

Shipments highlights

2023

-  approx 2200 shipments
-  **approx 2000 shipments** sourced from UN FFs & partners
-  LSU handled 1025 shipments, **50% of shipments**
