Active ingredients:

Alpha-cypermethrin Content 250 mg/m<sup>2</sup> (6.25 g/kg)± 25%.

CAS#No:67375-30-8

Active Ingredient Alpha-cypermethrin is a pyrethroid in IRAC Group and is a Sodium channel modulators ( Keep sodium channels open, causing hyper excitation and, in some cases, nerve block. Sodium channels are involved in the propagation of action potentials along nerve axons. Strong evidence that action at this protein is responsible for insecticidal effects.
