Dear Mr Bosselmann,

**WHO Prequalification Team – Vector Control
Post-Prequalification Change (PPQC)
Product PQ Reference Number: 028-004
Application number: PPQC2019-003**

Thank you for submitting your company's Post-Prequalification Change (PPQC) application on 10 February 2019 requesting to transfer ownership of the prequalified product DawaPlus 3.0 LLIN (017-002) from Tana Netting FZ-LLC to NRS Moon Netting FZE and amend the list of associated manufacturing sites.

PQT-VC acknowledges the change of ownership. A new prequalification listing will be created for Tsara Plus (PQT-VC Reference: 028-004) and the DawaPlus 3.0 prequalification listing will be deleted.

As requested, this change will be reflected in the next update of the applicable WHO specifications.

Your submission of an updated Declaration of Manufacturing Sites form dated 10 February 2019 and request to include an additional manufacturing site for the product has been reviewed and found acceptable. Our files have been updated accordingly and the PQT Inspections group has been notified of the change.

Please note that the submission of the Longitudinal Trials (Phase III) is still required to maintain the validity of the prequalification decision.

For further information regarding the submitted dossier of this product and in the case of questions arising in relation to the application process, please use the email address - pqvectorcontrol@who.int - ensuring that any such email mentions the corresponding product name and reference number.

Yours sincerely,

Marion Law
