

WHO Prequalification Programme  
**WHO PUBLIC ASSESSMENT REPORT (WHOPAR)**

**[TB189 trade name]\***

Isoniazid/rifampicin 75mg/150mg film-coated tablets

[TB189 trade name], manufactured at Svizera Labs Private Ltd, Navi Mumbai, India, was included in the WHO list of prequalified medicinal products for the treatment of tuberculosis on 19 December 2012.

[TB189 trade name] is indicated for treatment of tuberculosis. Detailed information on the use of this product is described in the summary of product characteristics (SmPC), which can be found in this WHOPAR.

The active pharmaceutical ingredients of [TB189 trade name] are the antimycobacterial agents isoniazid and rifampicin.

The efficacy and safety of isoniazid and rifampicin are well established based on extensive clinical experience in the treatment of tuberculosis.

For details on the uses of this product and for side effects and warnings, see Part 4 of this WHOPAR (summary of product characteristics).

On the basis of data submitted and public information on the use of isoniazid and rifampicin in tuberculosis, the team of assessors advised that [TB189 trade name] is of acceptable quality, efficacy and safety to allow inclusion of [TB189 trade name] in the list of prequalified medicinal products.
