| COUNTRY                              | Population (Y00) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanitation (%) | UHC Health Service Coverage Index | UHC Child Immunization Coverage (%) | Population Sanitation (%) | UHC Adequate Sanation (%)

**Data as of 29 September 2018**

**Selected Health Systems, UHC, SDG Indicators for SPH. Consolidated by WHO/CPI & HIS/SDS.**
a. UNHCR 2013 - The Universal Health Coverage 2030 provides a multi-stakeholder platform to promote collaborative engagement and national levels on health systems strengthening. UNHCR 2030 is a transformation of IHP+ (International Health Partnership). The seamless progress of the UNHCR 2030 framework was the basis of significant dividends in 2017 and beyond.

b. UNHCR Target Countries

The Universal Health Coverage Partnership comprises a broad mix of health systems working hand in hand to promote UNHCR by fostering policy dialogue on health systems strengthening, developing health financing strategies and supporting their implementation, and enabling effective development cooperation in countries.

NHFSP Availability - National Health Policies, Strategies and Plans

The National Health Policies, Strategies and Plans (NHFSP) is an overarching national diagram that guides the development of health-related sector in the country. In some countries it may be combined with other related sector such as social development.

- Country with UNHCR-Guaranteed Compliance as of 30 September 2018:

  1. Grade 1
  2. Grade 2
  3. Grade 3
  4. Grade 4
  5. Grade 5

- Country with UNHCR-Guaranteed Compliance as of 30 September 2018:

  1. Grade 1
  2. Grade 2
  3. Grade 3
  4. Grade 4
  5. Grade 5

- WHO FCS - Fragile and Conflict-affected States

These conflict-affected states (FCS) are a group of countries or territories whose parameters are categorised by the World Bank's Fragile Conflict and Violence group according to their financial and social status, with an updated list being released annually from the World Bank. There are 33 countries and territories - 15 are high-income (HIC), 14 are upper-middle income (UMIC), and one each from low-income (LIC), lower-middle income (LIMC), and upper-middle income (UMMC).

C. CADR - The Capacity for Disaster Reduction Initiative

Countries who joined the Initiative CADR set up a mechanism aimed at responding to the need for a coordinated and coherent approach to support communities that develop their capacity to prevent, manage and recover from the impact of disasters. In line with the Sendai Framework for Disaster Risk Reduction (2015-2030), CADR brings together United Nations agencies - FAO, UMC, UNHCR, UNICEF, UNFPA, UNDP, UN Women and WHO as Executive Partners - and UN, OSCE, EOSC, UNICEF, UNFPA, UNHCR, UNDP, UN Women and WHO as Observers to deliver coordinated and comprehensive support in capacity development for disaster risk reduction (DRR) initiatives in all countries.

- JEE - Joint External Evaluation

The JEE is a comprehensive, collaborative process to assess country capacity to prevent, detect and respond to public health threats. The WHO country profile describes the policy and performance of the external evaluation to the country-specific, progress in the regions towards achieving outcomes that are within the technical evaluation being completed. JEE is related to health status again.

- NAPHS - National Action Plan for Health Security

The National Action Plan is a member state’s health security plan that documents priority areas with steps of actions to accurately reflect the implementation of WHO’s International Health Regulations (2005) core capacities.

- AMLP - Antimicrobial Resistance Plan

The Antimicrobial Resistance Plan: Country Progress with development of a national action plan on AMR

No National AMR Action Plan

- World Health Organization

Global health security is a public health requirement that has potential to be used to address a wide range of health threats. The WHO health security framework is based on the understanding that countries need to be able to identify, contain, and respond to health threats in a timely manner in order to prevent international spread of disease. The framework provides a comprehensive guide to assist countries in preparing for the threat of infectious disease. This guide is based on WHO best practices and lessons learned from the 2009 pandemic and developed a package of guidance that provides a flexible and adaptable guidance and tools, and suggests general areas for priority.

- WHO's International Health Regulations

The International Health Regulations (2005) (WHO 2005) are a global legal framework to prevent, detect and respond to diseases and health threats that cross borders. They are a set of guiding principles and rules for health professionals and public health officials to use in managing public health emergencies and incidents at the international level. WHO International Health Regulations (2005) have been in force since June 2007, and they are designed to strengthen the global preparedness and response to health threats. The Regulations provide a framework for states to work together in a coordinated way to prevent the spread of diseases and health threats that have the potential to cross borders. The regulations are based on the principle that countries have a shared responsibility to protect the health of all people, and they aim to ensure that countries are prepared to respond to any threats that may affect public health.
