PURPOSE

1.1 OVERVIEW

Since 2015, the **World Health Organisation** (WHO) had had a mandate to lead the response to emergencies in which public health is the primary issue of concern. WHO therefore created the **WHO Health Emergencies** (WHE) programme for this purpose and today, the programme is involved in all aspects of:

- **Preparing** WHO's member states for the occurrence of a public health emergency.
- **Preventing** public health emergencies.
- **Responding** to public health emergencies when they occur.
- Assisting member states to **recover** from a public health crisis.

The IHR (2005) requires all States Parties to detect, assess, report, and respond to potential public health emergencies of international concern (PHEIC) at all levels of government, and to report such events rapidly to the WHO to determine whether a coordinated, global response is required. To develop baseline capacities of Member States, the WHA resolution "WHA 69.21" identified WHO's critical convening role to facilitate strategic cooperation and partnership between and within States Parties along with regional and international partners, donors and networks. The **Multisectoral Engagement for Health Security (MHS)** Unit is designed specifically to foster these relationships. MHS actively coordinates, convenes, monitors and maintains collaboration to ensure that relevant information from countries, partners and donors is shared in a timely manner. The SPH provides opportunities for multi-sectoral partnerships, collaboration and capacity-strengthening.

The resource mapping tool (REMAP) shows WHO Member States what resources exist for activities that contribute to the implementation of national health security plans. The tool maps health security projects that partners are supporting within the country, allowing policymakers, donors and partners to identify gaps and where investment of financial and technical resources is needed. The tool is also used to identify country needs for technical assistance in implementing National Action Plan for Health Security (NAPHS).

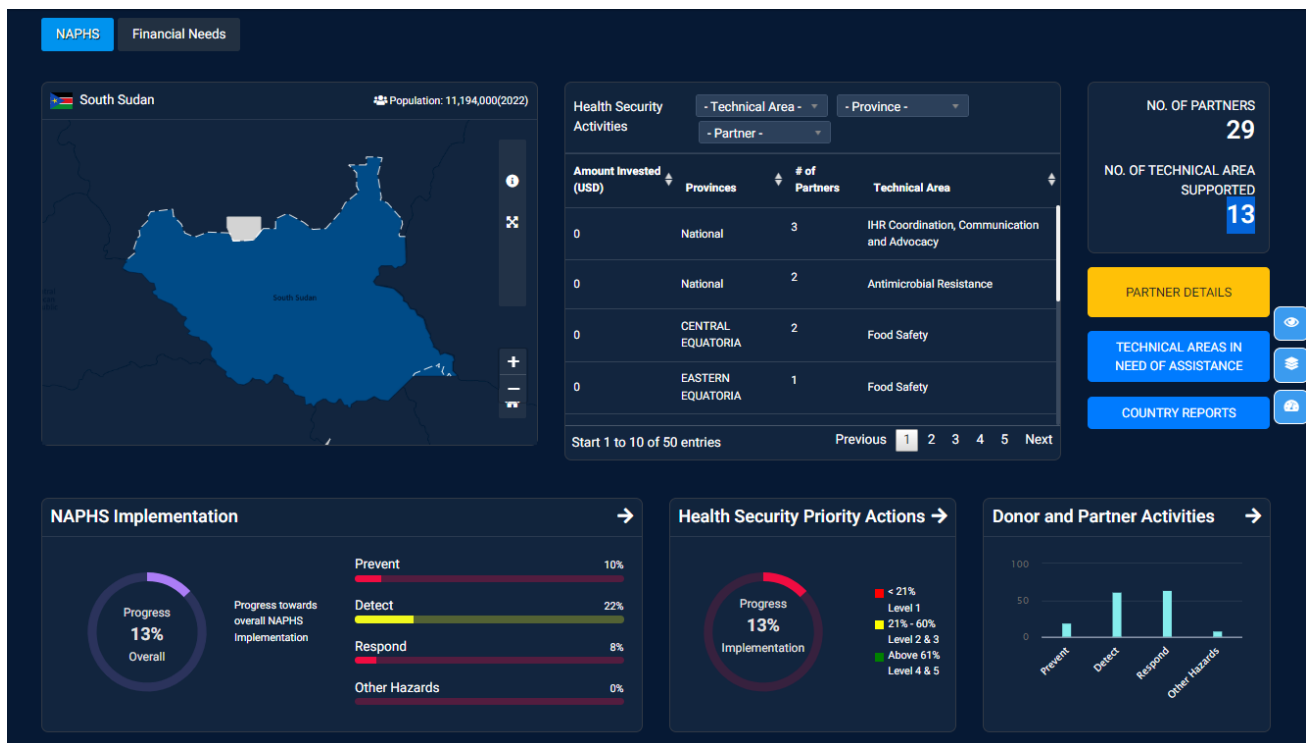

REMAP is also a monitoring tool that countries use to track progress in completing the activities required to implement their national health security plans.

Countries have requested a web-based alternative to the existing Excel-based REMAP tool. Users often have difficulty with Excel and prefer web-based data entry. A web-based version also allows for enhanced visualization and real-time access to the tool by WHO, the country focal points, donors, partners, and other designated users.

The purpose of this document is to describe the features of REMAP web tool. It is divided in 5 sections, that describe the main areas of the platform: NAPHS Implementation Dashboard, Financial Needs, Partner Details, Technical Areas in Need of Investment, and the Data Forms.

1. NAPHS IMPLEMENTATION DASHBOARD

The NAPHS dashboard provides an overview into the current status of NAPHS implementation for each Country. It has several components that are described in the following sections.

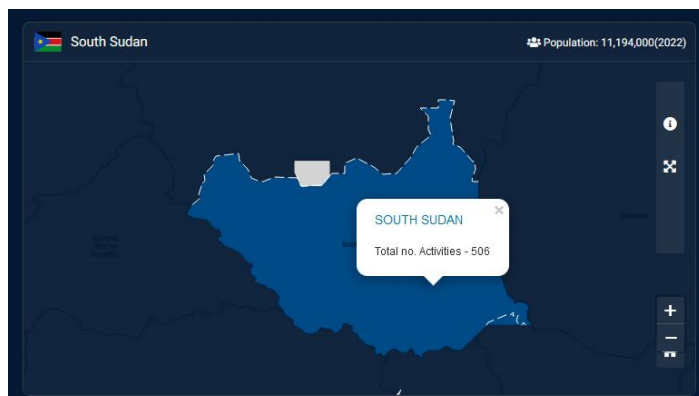

Throughout the web application, the navigation buttons are displayed on the right-hand side of the screen. These buttons allow the user to navigate between the dashboard and the data forms:

-  Redirects the user to the REMAP page for the selected country
-  Takes the user to the Data Forms for the selected country
-  Takes the user to the NAPHS Dashboard for the selected country

1.1. COUNTRY MAP

The Country Map shows the number of NAPHS activities. The activities are entered by means of the NAPHS Data Forms, described in section 5.1 NAPHS Activities Data Forms.

1.2. HEALTH SECURITY ACTIVITIES TABLE

For each Donor/ Partner activity, the Health Security Activities Table shows the following information. Each row on the table shows the amounts invested grouped by Technical Area and Province:

Health Security Activities			
- Technical Area - - Province - - Partner -			
Amount Invested (USD)	Provinces	# of Partners	Technical Area
0	National	3	IHR Coordination, Communication and Advocacy
0	National	2	Antimicrobial Resistance
0	CENTRAL EQUATORIA	2	Food Safety
0	EASTERN EQUATORIA	1	Food Safety
		1	

Start 1 to 10 of 50 entries Previous **1** 2 3 4 5 Next

- Amount Invested in USD - total amount converted to USD, using the exchange rate that is applicable today.
- Province – the region or province that received the Donor’s/Partner’s contribution.
- Number of Partners – number of Partners investing in activities for the Technical Area and Province.
- Technical Area – please see the Joint External Evaluation (JEE) document [2].

The table can be filtered by Technical Area, Province and Partner.

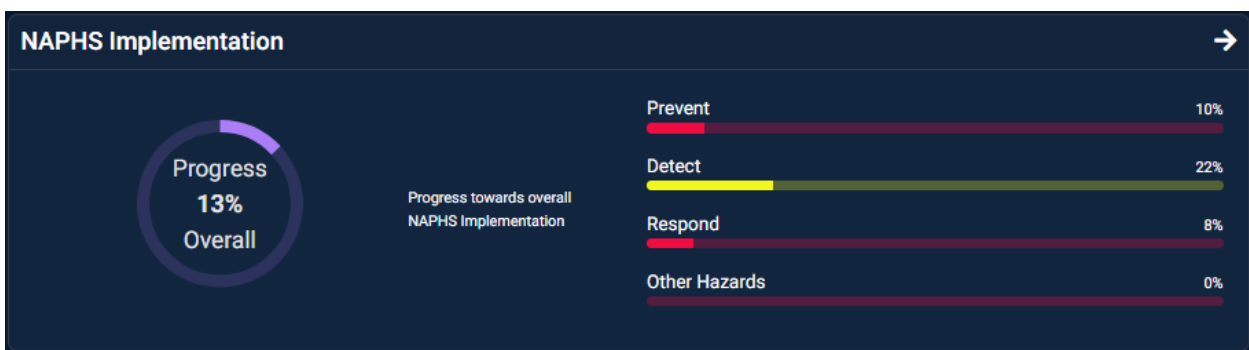

1.3. NUMBER OF PARTNERS AND TECHNICAL AREAS

This section shows the total number of Partners/ Donors that are contributing with health security activities to strengthen the country capacity.

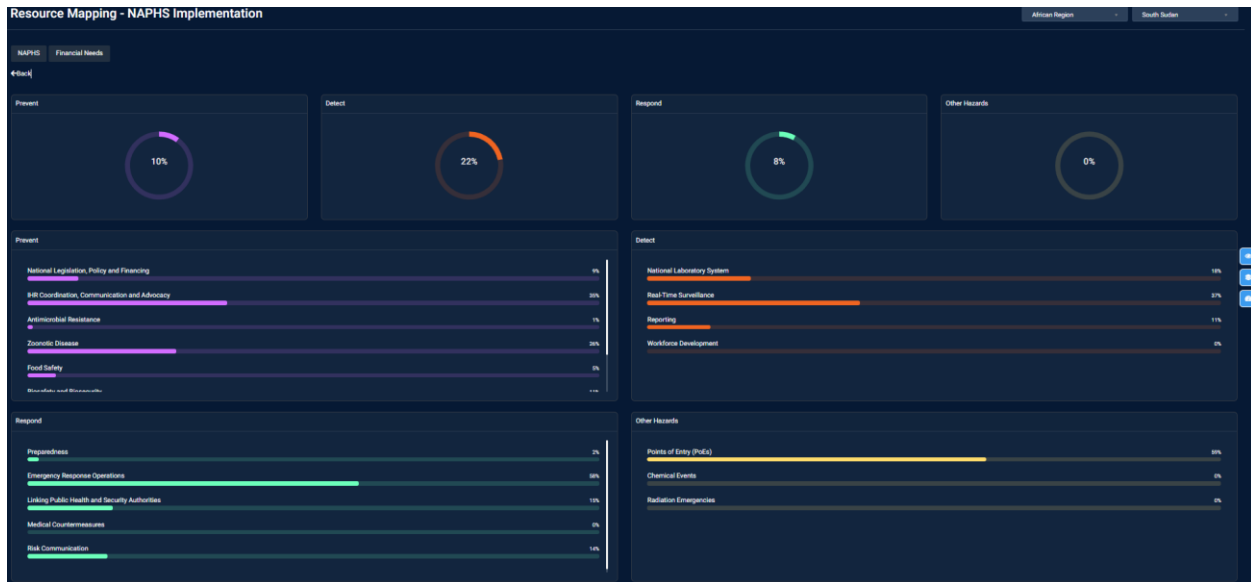

1.4. NAPHS IMPLEMENTATION PROGRESS

1.4.1. ALL NAPHS ACTIVITIES

This section shows the overall progress of NAPHS Implementation. On the right-hand the breakdown per IHR Category is displayed.

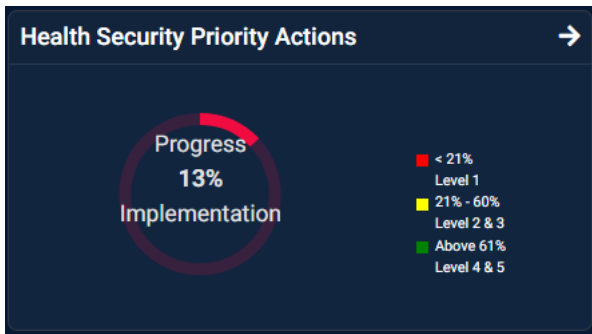

On click on the arrow at the top  the user is redirected to the details page where they can see the breakdown per Technical Area:

For each Technical Area, the progress is the average of the Percentage of Achievement for each NAPHS activity for that Technical Area (the value entered in the Percentage of Achievement field in the NAPHS Activities Data Form).

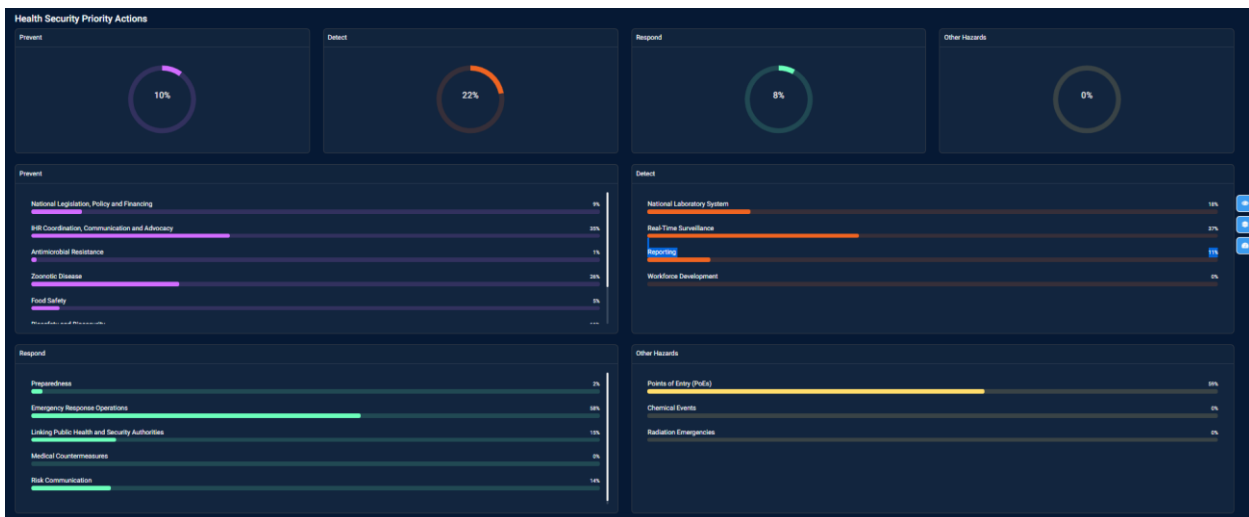

Accordingly, the progress for each IHR Category is the average of the progress of the corresponding Technical Areas; and the overall NAPHS implementation progress is the average of the progress for all IHR Categories.

1.4.2. PRIORITIZED NAPHS ACTIVITIES

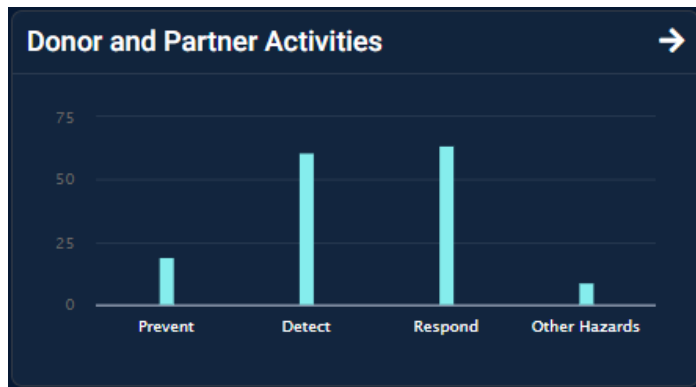

Similar to the NAPHS Implementation section described above, here the user can see the progress towards NAPHS Implementation for the Prioritized NAPHS Activities. Note that these activities are the ones marked as Prioritized in the NAPHS Data Form (see the NAPHS Activities Data Form chapter).

On click on the arrow at the top  the user is redirected to the details page where they can see the breakdown per Technical Area:

1.5. DONORS AND PARTNERS ACTIVITIES

In this section, the user can see the overview of the Donors and Partners contribution to each IHR Category.

On click on the arrow at the top  the user is redirected to the details page where they can see the number of activities and amounts invested per Donor/ Partner:

This page provides an overview of the Donors and Partners investment in Health Security Activities in the Country. It displays the number of activities and the amount of investment in USD per Partner.

The tool provides a filter that allows the user to see the number of activities and investments per Partner for each IHR Category.

- Number of activities per Partner – this bar chart shows the number of activities each Partner is supporting.

- Investment per Partner – this bar chart shows the amount of investment in USD for each Partner.

2. FINANCIAL NEEDS

This page shows the NAPHS Cost and Partners investment per Technical Area.

NAPHS Financial Needs

←Back

Funding is based on the data provided by Donors which may not be complete

IHR Category	Prevent	Detect	Respond	Other Hazards		
TECHNICAL AREAS					NAPHS COSTS	ESTIMATED PARTNER AMOUNT INVESTED
National Legislation, Policy and Financing					\$1,473,169	\$0
IHR Coordination, Communication and Advocacy					\$625,967	\$1,766,374
Antimicrobial Resistance					\$1,923,451	\$1,227,179
Zoonotic Disease					\$1,468,086	\$0
Food Safety					\$928,999	\$76,600
Biosafety and Biosecurity					\$1,518,082	\$579,191
Immunization					\$38,961,929	\$1,460,456
National Laboratory System					\$4,627,276	\$9,132,322
Real-Time Surveillance					\$3,907,102	\$20,333,810
Reporting					\$1,116,072	\$2,257,873
Workforce Development					\$118,398	\$42,624,380
Preparedness					\$736,431	\$111,657,892
Emergency Response Operations					\$5,074,671	\$0
Linking Public Health and Security Authorities					\$179,101	\$0
Medical Countermeasures					\$257,494	\$206,732
Risk Communication					\$3,078,049	\$2,784,399
Points of Entry (PoEs)					\$2,394,366	\$5,590,000
Chemical Events					\$379,085	\$0
Radiation Emergencies					\$54,520	\$0

\$ 66,812,248
TOTAL NAPHS COSTS

\$ 201,562,108
TOTAL PARTNER CONTRIBUTION TO HEALTH SECURITY

\$ 9,999,999
ADDITIONAL GOVERNMENT CONTRIBUTION

- Financial Needs table – this table show the NAPHS Cost and Partners Investment for each Technical Area.
- Total NAPHS Cost – the total cost (in USD) in Health Security Activities supported by the Country.
- Total Partner Contribution to Health Security – the total investment (in USD) in Health Security Activities supported by Partners.
- Additional Government Contribution – sum of the amounts indicated in the field Pledged Government Contribution for all NAPHS activities (see NAPHS Activities Data Form), added to all amounts invested in Donors and Partners Activities (see Donors and Partners Activities Data Form) where the Source of Contribution is Government.

3. PARTNER DETAILS

This page lists all the activities developed by Partners/ Donors. This information is entered by Partners/ Donors or the Country in the Donors and Partners Activities Data Form.

Resource Mapping - Partner Details

PARTNER DETAILS

-Technical Area- | -Region Receiving- | -Partner-

Main Technical Area Supported	Region Receiving Support	Donor's Name or Source of Funding	Amount Invested (USD)	Activity Description
Preparedness	National	UN Emergency Fund	2,444,183	-
Preparedness	UNITY	WHO	450,000	-
Preparedness	South Sudan, Government of	South Sudan, Government of	1,111,111	-
Preparedness	South Sudan, Government of	South Sudan, Government of	1,111,111	-
Preparedness	CDC	CDC	368,750	-
Preparedness	UNITY	USAID	312,798	-
Preparedness	National	AIDB	3,945,171	Support the PHEDC, Case management including oxygen generation plant medical supplies, surveillance
Preparedness	National	UNDP Multi-Partner Trust Fund	4,672,430	-
Preparedness	South Sudan, Government of	South Sudan, Government of	1,111,111	-
Preparedness	National	China, Government of	93,485	Procure essential medicines and medical supplies
Preparedness	CDC	CDC	350,000	-
Preparedness	CENTRAL EQUATORIA	Italy, Government of	-	-
Preparedness	CDC	CDC	1,475,000	Using the ECHO platform, this project deliver IPC training to frontline health care workers
Preparedness	CENTRAL EQUATORIA	SSHf	500,000	-
Preparedness	CENTRAL EQUATORIA	GLOBAL FUND	7,500,000	-

For each activity the following information is displayed:

- Main Technical Area Supported –IHR Technical Area that is impacted by the activity (please see the Joint External Evaluation (JEE) document [2]).
- Region Receiving Support – the region or province that received the Donor’s/Partner’s contribution.
- Donor's Name or Source of Funding – name of the Donor/ Partner that is supporting the country with the activity.
- Amount Invested (USD) – the total amount (in USD) invested by the Donor/ Partner in the implementation of the activity.
- Activity Description - the description of the activity.

4. TECHNICAL AREAS IN NEED OF ASSISTANCE

This page shows the list of NAPHS activities that require technical assistance, such as training, consulting, equipment and so on.

TECHNICAL AREAS IN NEED OF ASSISTANCE	
Activity Details	Technical assistance Details
1.1 One day seminar for 30 Stakeholders from relevant authority to sensitize on IHR and develop a road map for passing the pending bills.	Technical Assistance to sensitize stakeholder to develop a road map for passing pending bills; support revision or development of legislative instruments.
4.1 Two day meeting by line sectors (Health, Agriculture, Livestock & Fisheries, Environment, Interior, Justice ect) to finalize the budget Line for IHR and submit to MOF for fund approval and allocation	TA in developing a resource mobilisation strategy for the IHR priorities (NAPHS)
1.2 Conduct 3 days workshop for 30 participants	-
1.1 Hiring of 2 medico-legal consultants (1 International) to conduct a desk review of the existing laws and facilitate the 3 days workshop (Three month Consultancy)	Medical Legal Experts (2)
Specialised Committee members (10) within National Parliament to convene and come up with bill to be enacted by the parliament	-
1.3 Conduct consultative Five (5) meetings (2 national & 3 sub-national) to solicit stakeholder opinions on the proposed legislative amendments (half hire for one day, DSA, Meals, Transport, To conduct 1 day stakeholders advocacy workshop to review bill status,	-
Conduct a special sitting of National Legislative Assembly to enact pending laws	-
1.2 Hire a technical consultant for a period of 3 months to support the development of the AMR plan of action	TA to develop the AMR NAP
Please refer to AMR policy, plans and guidelines not yet developed but is being plan and costed already	-
Have annual 2 days meeting to review an update the guidelines on antibiotic use for 20 pax	-
Use the guideline in the algorithm to include prescription consumption patterns in both human and animals by conducting joint monitoring supervisory field visits one health quarterly	-
Form a stewardship committee in health facilities level in the 10 former hubs	-
To carry out awareness and sensitization in the community level thru IEC materials and radio talk shows. (One health approach and physicians and Doctors)	-
Periodic review (semi annual) meetings for the three sites of Malakal, Juba, and Wau	-
To carry out awareness and sensitization in the community level thru IEC materials and radio talk shows. (One health approach and physicians and Doctors)	-
Periodic review (semi annual) meetings for the three sites of Malakal, Juba, and Wau	-
Conduct training FELTP for the national level staffs (10 national staffs) and engage a consultant for the period of the trainings	-
Conduct training FELTP for the national level staffs (10 national staffs) or engage a consultant for the period of the trainings	-
1.1 Train Human and Animal Health frontline workers on FELTP basic level (64 Staffs)	-

Each NAPHS activity where “Is Technical Assistance required to complete this activity?” is Yes is listed in this table (please see the definition of the fields in the NAPHS Activities Data Form chapter).

For each activity the following information is displayed:

- Technical Area – the Technical Area that is impacted by the activity (please see the Joint External Evaluation (JEE) document [2]).
- Activity details – the description of the activity.
- Technical assistance details – here the Country will describe what type of technical assistance is needed.
- Partner – name of the Partner(s), if one or more Partners have been identified by the Country as potential sources of assistance.

5. DATA FORMS

The data forms are where the Countries and Donors/ Partners will provide information about the implementation of their Health Security Activities in the Country.

5.1. NAPHS ACTIVITIES DATA FORMS

This data form will be mostly used by the Country to create NAPHS activities and to update the information for those activities (such as updating the progress, cost, description, etc.).

A summary is displayed at the top with the number of technical areas covered by the NAPHS activities, the cost per year, the total cost, and the total cost in USD. It is followed by the table that lists all NAPHS activities entered for the Country in the Web platform. Below the table, on the left, the  button allows exporting all the activities to an excel file.

To enter a new Activity the user can click the “Add Health Security Activity” button, which will open the data form with the fields described below. To update an activity the user can click the Edit button which will open the data form.

Activity Details tab:

The screenshot displays the 'Activity details' tab of the Resource Mapping Web Tool. The interface is dark-themed and contains several input fields and sections:

- Technical Area:** A dropdown menu with the selected value 'National Legislation, Policy and Financing'.
- Standard Indicators:** A dropdown menu with the selected value 'P.1.1 The State has assessed, adjusted and aligned its domestic legislation, policies and administrative arrangements in all'.
- Country Specific Indicator:** An empty text input field.
- IHR Category:** A dropdown menu with the selected value 'Prevent'.
- Activity Objective:** A text area containing the text 'To ensure adequate administrative and statutory provisions are available for implementation of IHR by 2022' and 'test'.
- Summary Activity:** A text area containing the text 'Advocate, lobby and follow up the pending IHR 2005 related bills for enactment through the parliament'.
- Activity Details:** A text area containing the text '1.1 One day seminar for 30 Stakeholders from relevant authority to sensitize on IHR and develop a road map for passing the pending bills'.
- Percentage of Achievement:** A text input field with the value '50'.
- Status:** A dropdown menu with the selected value 'On-Going'.

On the right side of the form, there is a 'Prioritized' section with a legend: a blue circle for 'Prioritized' and a grey circle for 'Non-Prioritized'.

- Prioritized – if the activity is a prioritized activity or not.
- Technical Area - please see the Joint External Evaluation (JEE) document [2].
- Standard Indicators – list of indicators from the JEE Framework.
- Country Specific Indicator – if the indicator is specific to the Country and doesn't match the indicators from the JEE Framework.
- IHR Category - please see the Joint External Evaluation (JEE) document [2].
- Activity Objective – description of the purpose of the activity.
- Summary Activity – short description of the activity.
- Activity Details - detailed description of the activity.
- Percentage of Achievement – current percentage of completion.
- Status – the status is automatically selected when the user enters the Percentage of Achievement; it can be one of the following: Not Started, Just Started, On-Going, Advanced Stage, Completed.

Technical Needs for Assistance tab:

- Is Technical Assistance required to complete this activity? – if the Country needs technical assistance with the activity: Yes or No
- If yes, what specific Technical Assistance is required? – description of what technical assistance is required
- Have Potential Sources of the assistance been identified? If yes, please specify. – the Country can select here the potential Partners that have the capacity and could eventually provide technical assistance in the implementation of the activity.

Cost Amount tab:

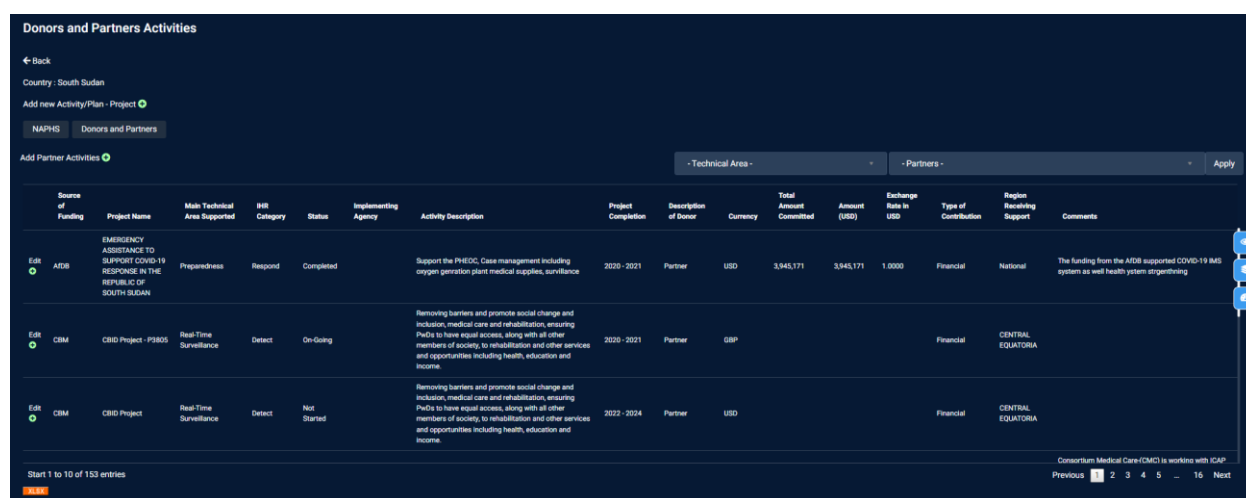

- Activity Implementation Start date – estimated start date of the activity.
- Activity Implementation End date – estimated end date of the activity.
- Currency - the original currency.
- Cost per year – depending on the duration of the activity, dynamic fields are displayed where the user can specify the amount spent each year of the activity timeframe.
- Total Cost - total amount spent in the activity.

- Original Cost in USD - total amount converted to USD, using the exchange rate that was applicable at the time the activity was created in the web platform.
- Today's Cost in USD - total amount converted to USD, using the exchange rate that is applicable today.
- Pledged Government Contribution – the amount contributed by the Government of the Country to the activity.
- Pledged Government Contribution in USD – the amount contributed by the Government of the Country converted to USD.
- Pledged Partner Contribution – the amount contributed by Partners to the activity.
- Pledged Partner Contribution in USD – the amount contributed by the Government of the Country converted to USD.

5.2. DONORS AND PARTNERS ACTIVITIES DATA FORMS

This data form will be mostly used by Partners or Donors to register their health security activities in the Country and to update the information for those activities (such as updating the progress, cost, description, etc.).

A table lists all Donors and Partners activities entered for the Country in the Web platform. Below the table, on the left, the  button allows exporting all the activities to an excel file.

Source of Funding	Project Name	Main Technical Area Supported	IHR Category	Status	Implementing Agency	Activity Description	Project Completion	Description of Donor	Currency	Total Amount Committed	Amount (USD)	Exchange Rate in USD	Type of Contribution	Report Recurring Support	Comments
